

City of Renton Adopted Budget 2010

RENTON. AHEAD OF THE CURVE.

City of
Renton

City of Renton

Vision

Renton: The center of opportunity in the Puget Sound Region where families and businesses thrive

Mission

The City of Renton, in partnership and communication with residents, businesses, and schools, is dedicated to:

- *Providing a healthy, welcoming atmosphere where citizens choose to live, raise families, and take pride in their community*
- *Promoting planned growth and economic vitality*
- *Valuing our diversity of language, housing, culture, backgrounds and choices*
- *Creating a positive work environment*
- *Meeting service demands through innovation and commitment to excellence*

Business Plan Goals • 2009-2014

Meet the service demands that contribute to the livability of the community

- *Prioritize services at levels that can be sustained by revenue*
- *Plan, develop and maintain quality services, infrastructure, and amenities*
- *Respond to growing service demands while meeting the unique requirements of a diverse population through partnerships, innovation, and outcome management*
- *Retain a skilled workforce by making Renton the municipal employer of choice*
- *Balance development with environmental protection*

Manage growth through sound urban planning

- *Foster development of vibrant, sustainable, attractive, mixed-use neighborhoods in established urban centers*
- *Uphold a high standard of design and property maintenance throughout the city*
- *Provide a balance between housing and high-quality jobs*
- *Maintain services to current residents while welcoming annexation areas that desire to become part of Renton*

Influence decisions that impact the city

- *Demonstrate leadership by developing and maintaining partnerships and investment strategies with other jurisdictions that improve services*
- *Aggressively pursue transportation and other regional improvements and services that improve quality of life*
- *Advocate Renton's interests through state and federal lobbying efforts*

Promote Strong Neighborhoods

- *Support the vitality and positive appearance of neighborhoods through community involvement*
- *Encourage and partner in the development of quality housing choices for people of all ages and income levels*
- *Ensure the safety, health, and security of citizens through effective service delivery*
- *Promote pedestrian and bicycle linkages between neighborhoods and community focal points*

Promote citywide economic development

- *Promote Renton as the progressive, opportunity-rich city in the Puget Sound region*
- *Capitalize on growth opportunities through bold and creative economic development strategies*
- *Recruit and retain businesses to ensure a dynamic, diversified employment base*
- *Continue redevelopment efforts downtown, in the Highlands, and South Lake Washington*

RENTON. THE CENTER OF OPPORTUNITY.

City of
Renton

Business Plan Actions • 2009-2014

Meet the service demands that contribute to the livability of the community

2009-2014 Actions:

- Develop a long-term strategy to meet staff facility needs including the potential of construction of a new city hall in downtown Renton (that improves efficiency by centralizing City staff, enhances services and convenience for residents and other customers, and contributes to the continued revitalization of the City's historic business district.)
- Design and construct a new Maintenance Facility.
- Design and construct a Fire & Emergency Services facility to enhance service levels in Kennydale and other neighborhoods in the northern portion of the City.
- Develop a plan to increase public access and enjoyment of the Cedar River through the City's Urban Center.
- Complete and implement the Parks, Recreation and Open Space Plan which identifies needs and funding for acquisition and development.
- Enact the recommendations of the Renton Library Master Plan that provide the desired level of service for library customers.
- Develop and implement on-line systems to improve customer service and increase options for how residents get City services.
- Improve the City's Fire Rating to reduce insurance costs.
- Establish a CERT Team in each Community Planning Area to better prepare business and residents in the case of an emergency.
- Implement a Community Planning initiative to align the City's Comprehensive Plan with related activities by geographic areas of the City through engagement with the communities themselves.
- Establish service delivery standards through the development of a Fire and Emergency Services Master Plan.
- Complete the Renton History Museum's Master Plan and review the recommendations.

Manage growth through sound urban planning

2009-2014 Actions:

- Develop a plan by which large scale annexations could occur without negatively impacting the existing City over time.
- Review and update development regulations and mitigation fees to balance sound land use planning, economic development and environmental protection while improving efficiencies.
- Complete the State-mandated Shoreline Master Program update.
- Develop "low-impact" and "green" development incentives.

Influence decisions that impact the City of Renton

2009-2014 Actions:

- Work with the State Legislature and King County to extend or develop funding mechanisms to offset the anticipated cost of future large-scale annexations.
- Work with The Boeing Company and other aerospace companies to increase the number of industry related jobs in Renton.
- In partnership with other cities, build a regional misdemeanor correctional facility.
- Work with the King County Ferry District to ensure a future passenger ferry route on Lake Washington serves Renton.
- Aggressively pursue development of a Bus Rapid Transit network along the Interstate 405 corridor.
- Pursue a concept for a streetcar or another mode of meaningful high capacity transit connecting South Lake Washington, Downtown, and the Longacres Commuter Rail Station. (refer to Transportation Committee)
- Increase the frequency and number of bus routes connecting the Renton Highlands and The Landing and Downtown Renton.
- Enhance the partnership between the City and the Renton School District by pursuing joint operating agreements for like services and other potential efficiencies.
- Develop strategies to improve response times for advanced life support services.
- Partner with King County and neighbor cities to mitigate the impact of FEMA's updated FIRM map.

Promote strong neighborhoods

2009-2014 Actions:

- Work with the Renton Housing Authority and Renton School District to redevelop the North Highlands Community Center and other publicly-owned properties in the Harrington neighborhood to expand affordable housing capacity, while improving the services and amenities available to the neighborhood.
- Review the recommendations of the Highlands Task Force and work to improve the quality of life in the neighborhood.
- Develop and implement an "Affordable Housing" initiative with the goal of increasing the capacity of housing units affordable to people at various income levels throughout the City.
- Improve the sense of safety in the community.
- Complete regional trails through Renton including the Lake Washington, Springbrook / Interurban, and Cedar River Trails.
- Through existing capital improvement planning, improve pedestrian connections city-wide, including the connection of The Landing to the Harrington neighborhood.
- Coordinate with the various arts groups in the City to establish a cultural arts master plan.
- Achieve "Tree City USA" status.
- Create forums and strategies to better engage the City's diverse population.
- Investigate the ways that a historic preservation plan could contribute to maintaining Renton's distinct character.

Promote citywide economic development

2009-2014 Actions:

- Aggressively pursue the redevelopment of the Quendall Terminals and Pan Abode properties to their highest and best use.
- Aggressively pursue redevelopment of the Sound Ford, Bryant Motors/Don-a-Lisa Hotel, and Stoneway properties.
- Aggressively recruit new high-profile and high-wage employers to locate in marquee office development opportunities in Renton.
- Direct redevelopment of the Landing-Phase II properties to their highest and best use, while mitigating impacts to the surrounding neighborhood.
- Engage key downtown property owners and encourage the timely redevelopment and/or renovation of aging buildings.
- Through a public/private partnership, establish facilities for the use of seaplane and land-based aircraft.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

City of Renton

Washington

For the Fiscal Year Beginning

January 1, 2009

President

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented an award of *Distinguished Budget Presentation* to the City of Renton for its annual budget for the fiscal year beginning January 1, 2009. In order to receive this award, a government unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communication device. The award is valid for a period of one year. We believe this budget continues to conform to program requirements and we will submit the final 2009 Budget to GFOA to determine its eligibility for another award.

EXECUTIVE SUMMARY

To the Honorable members of the Renton City Council:

I appreciate this opportunity to present to you our balanced budget proposal for 2010.

I believe this budget represents a turning point in the fiscal management of our city for years to come.

You are well aware that we are in the middle of an economic recession of a scale not seen since the Great Depression. Foreclosures, and all the factors related to them, continue to affect our neighborhoods. The state and King County continue to report huge deficits leaving cities to deal with the fallout of their cuts in service. People and businesses are struggling, and many of the things that improve the quality of life for our residents are in jeopardy.

But this is also an opportunity for us to examine ourselves carefully and we have begun the process of reinventing ourselves as a provider of city services.

For a number of years, local government has been headed for a financial crisis brought on by a structural flaw in our source of funding. Property tax growth, which used to be our main revenue source, is capped by state law at 1% growth per year, and yet the cost of doing business in normal economic times increases annually at a rate closer to 4%. For a number of years, this city and most of the others in this state have been living on revenue from a booming economy and extensive commercial and residential development. Sales tax revenues and other one-time money has allowed us to keep up with the rising cost of providing public safety, parks, roads, and other services.

It's predicted that it will be many years before we experience the level of economic growth of the past decade.

This strategy — reliance on growth and economic development as a way to balance the city's budget — has been significantly impacted by the national recession, leaving an large gap needed to pay for the level of city services our citizens have come to expect.

A complex system of taxation leaves the public with a false assumption that they are already paying the bulk of the cost for these city services. However, of the total amount paid for property tax, less than 25% goes to support all of the city

services received by our citizens. The remainder goes to the county, local and state schools, the Port of Seattle, Medic 1, King County Ferry District and King County Flood District.

The amount of property tax that an average home owner in Renton pays to the city is about \$850 per year. So for an average of \$70 a month for a typical residential family, our citizens receive fire and emergency medical services, police protection, street maintenance, and wonderful parks and trails.

I point this out to you, not to suggest that this is not a lot of money for many of our residents on small and fixed incomes, but to emphasize that our property tax system, which groups all of the taxing districts into one statement, makes it difficult for citizens to actually see how much local service they receive, from the city portion of their annual property taxes.

A history of wasteful government spending has created a high level of mistrust with taxpayers on how their dollars are being spent. Every level of government, from the White House to City Hall, tends to be painted with the same brush. In Renton, our employees work hard to improve our efficiencies and focus on providing quality service to our citizens. There's more we can do. But we can no longer depend on one-time resources to pay for the bulk of these services.

In collaboration with our citizens, we must determine our priorities and continue to look for more efficient ways to do business. Failing to tackle this challenge will erode the quality of life in our city.

For you and me, and our 83,000 residents, that outcome is unacceptable.

We've already made significant cuts during the past 18 months to balance our budgets. We have eliminated almost all travel and training, curtailed or postponed purchases of equipment, and delayed needed maintenance. But these were quick-fix solutions and are not sustainable.

This budget goes well beyond the hiring freeze and spending cuts that were implemented last year to meet the drop in revenues.

Today's proposed budget is balanced, maintaining core responsibilities, and 3.5% lower than last year's adopted budget. This budget reduces our workforce by 12%.

We will not raise taxes next year. Renton is probably one of the only jurisdictions in our region that will not exercise the authority we have to raise the property tax. This is not a time to impact our citizens with tax increases to fill our revenue shortfall.

Like a household budget, we need to reduce our spending. We will make critical choices about how to spend tax dollars we have to keep our city's finances strong.

Making decisions on what to cut is not easy. Although our 2010 budget will be smaller than last year's, we will take no shortcuts in our commitment to protect critical city services.

To achieve the cuts in this budget, we made some significant changes in our processes.

We started earlier. We set clear objectives. We embarked on the path to reinvent ourselves as an organization and clearly define our priorities.

We sought the ideas and recommendations of staff from every department to determine the programs and services that we will be able to offer our citizens next year. And, this year's budget takes the lead on multiple fronts to improve how we will do business in the future.

First, we continue to find innovative, creative and cost effective approaches to service delivery, whether it's fighting crime, preventing fires, disposing of solid waste, or building a park.

Our recent partnership with local residents to fund an off-leash dog park near the Renton Community Center is a great example of a creative solution that responds to a community need, even though we had very limited financial means. We collaborated with members of the community, who were able to raise the needed funds and volunteer labor from local residents and businesses.

Second, we continue our efforts to diversify how we utilize the city's revenues and seek other sources of funding such as grants.

Our photo enforcement program is an example where we have been able to make our streets safer while dedicating any excess revenues generated from this program to providing additional police services. This past summer, we used these revenues to help pay for additional police presence and security in our

neighborhoods and parks and the Transit Center, something our citizens have been requesting for years.

We continue to do all we can to access new grant resources and to use acquired funds to improve our city's sustainability. This year we expect to receive a total of nearly \$5 million in grant funding for various important projects: almost \$2 million for the construction and improvements to Rainier and Shattuck Avenues, over \$1.5 million for police officers, and over \$600,000 for energy efficiency and conservation projects.

Third, we took a non-traditional approach to our budget process. Using zero-based budgeting, we focused on establishing core city services that are valued by our citizens, or are mandated, identifying key indicators to evaluate how effectively we are delivering these services, and making choices on how we invest for the future.

Rather than building on a previous year's budget, each city department's budget started at zero. Programs and activities were reviewed and ranked according to how they meet the community's priorities.

While our citizens have come to expect and enjoy many services that they receive from the city, some are not vital or mandatory. We have to prioritize between what is essential and what is desirable. I feel this budget is a prudent blueprint to meet difficult economic circumstances and lay a foundation for a responsible future.

Before I share our key priorities, and some of the impacts of the hard decisions we are recommending to you, I'd like to give you a financial summary of the 2010 budget.

The city's budget is very much like a typical family's budget. Just as residents earn income, so does the city. Just as they spend money for essential items and services, so does the city. Both have to live within their means and it's a constant balancing act.

The 2010 budget totals \$212 million. Of that total, \$98 million for the General Fund, which is less than half of our total budget, is available for the bulk of our city services, with the remainder dedicated to capital budgets and other operating funds.

The city's General Fund provides funding for basic services and is mostly funded by taxes, including property tax, sales tax and utility taxes. Fees for some services like building permits also contribute to the General Fund.

The majority of the expenditures in the General Fund — 52% — are dedicated to public safety— which includes police, courts, fire and emergency services. Other services including maintenance on infrastructure, parks, recreation, community services, planning, and economic development — account for 30%, while internal support services make up the remainder. All of these services are provided by city employees, which is why the city's largest expense —nearly 66%— is devoted to wages and benefits.

With the continued decline in the local economy, our preliminary projections indicated that maintaining current services would result in a gap of about \$6 million between revenues and expenditures next year. This shortfall represents more than 6% of the General Fund Budget.

In order to make up this budget gap, we must reduce our workforce. We are projecting that we will have to have to lay-off 35 employees and not fill 16 positions that are currently vacant.

When you add these to the 35 positions that we left unfilled last year, we have lost 12% of our workforce and will be operating with 86 fewer people. In addition we are reducing our seasonal and part-time staff by approximately 80 positions. This will have a direct impact on services.

PRIORITIES

Clearly one of our key priorities is public safety and protecting our citizens. But we are also looking at all the services we provide as a city.

To identify our priorities, department administrators and staff from every department helped examine our service priorities and identify the key programs and services expected by our taxpayers. Within each broad core service area, service expectations and programs and priorities were established and ranked.

Here are the key priorities and service expectations for each:

Safe and Healthy Community: Our citizens want Renton to be a safe and healthy community.

For example, one of our priority programs is the Special Operations Division of the Renton Police Department that proactively identifies and targets prolific offenders. As a result, we are much more effective at reducing crime.

Livable Community: Our citizens want high quality facilities, services and public resources to make Renton a place where people choose to live, learn, work and play.

Renton prides itself on its strong relationship with its neighborhoods, its beautiful parks, and its robust pursuit of economic development opportunities. These remain our priorities and we will continue to look for ways to improve the quality of life in the community.

Representative Government: Our community expects Renton to be a responsible and responsive government.

Our key priority is to provide our citizens access to city government—from the elected and appointed officials who represent the community as they determine policy decisions that affect the future of our city, to our municipal court that offers a fair opportunity for our citizens to be heard.

Mobility: To assure our citizens have safe and efficient access to all desired destinations, now and in the future.

We will provide a network of streets, sidewalks, trails, and roads that are well maintained, connect to public and major facilities and make it easy for our community to have access.

Utilities and Environment: Our community wants a clean, green, and protected environment with reliable, affordable utility service.

From reliable and safe drinking water to recycling and garbage collection services to the stewardship of our environment—we will continue our commitment to these priorities, and preserve and protect our open spaces and natural systems to meet present and future needs.

Internal Support: Specific city departments and services enable other city departments to operate efficiently and effectively in a safe and sustainable manner.

Whether it is a qualified, well trained and productive workforce, or the financial and technological system that supports this workforce, these are systems that make it possible for city government to function. We will continue to focus on the best internal support systems so that we can deliver on our promise to provide high quality service to our citizens.

So as we carefully deliberated on the proposals of each department, division and program, we put them through the test to see how well they matched these priorities. If proposals were not mandated or were less critical than others, we made choices, and—as harsh as this may sound—they were potentially on the cutting block.

As I mentioned earlier, in order to bring our expenses more in line with our projected revenues for 2010, we have to lay off 35 employees—each one of them in important, highly valued positions. Here are some impacts that these cuts will have on our community:

- In our police department, we carefully scrutinized all the proposed cuts to ensure that we did not compromise our response times and our ability to keep our community safe. Some of the proposed budget reductions for the police department include administrative and clerical staff, resulting in police officers assuming some of those administrative functions
- In our Fire and Emergency Services Department, there will be no reductions that impact our ability to provide fast and quality service. In fact, we propose to restore another full-service aid car to improve our response time and our service to our citizens. We will continue to hold open positions that we did not fill last year, not fill an open deputy chief position, and in addition reduce two fire inspector positions. The community risk reduction function will be assumed by the Emergency Management Director, and there will be some reduction in service levels related to conducting inspections and investigations.

- In the Community Services Department we are reducing our seasonal/part time staff by approximately 80, which equates to approximately seven full-time employees. These reductions will eliminate the Summer Teen Musical program and closure of the recreation buildings at Kennydale, Kiwanis, Philip Arnold, Teasdale and Tiffany Park. Free summer drop-in youth programs, volunteer recognition and holiday lights will also be compromised by total elimination or reductions.
- Other impacts in the Community Services Department include staff reductions at the museum, reductions in geese control, tree removal, maintenance supplies, and the current flower program. Decreased custodial staffing will reduce frequency of cleaning public restrooms.
- While Renton voters will have the opportunity to cast their vote and consider changing administration of library services in February, currently the city cannot afford the desired level of library services and programs. We will be forced to make reductions in staffing, materials, and other programs.
- We are reducing staffing in the Department of Community and Economic Development by more than 20%. While we can still meet our planning mandates with less staff, our progress on community plans and the planning support provided to other city departments will be reduced. Reductions in current planning and development services staff will increase the wait time for pre-applications, permit reviews and inspections. While we are maintaining current staffing levels in Code Compliance, reductions in other supporting departments will result in delays in cleaning up our neighborhoods. We will look for ways to allow the Municipal Arts Commission and the Renton Farmers Market to be self-sustaining in the future. And, we will continue to build on the popularity of the Neighborhood Program to enlist the community's support and assistance in our broader efforts.
- In our Public Works Department we will reduce our transportation capital project management program, which will increase the timeliness of our response to citizens' requests regarding street, sidewalk, and traffic complaints. We will also reduce our work on updating the comprehensive walkway plan. There will be a decline in the maintenance of streets and utilities, and reduction of street-side litter collection.

- We will provide minimum compliance with the Commute Trip Reduction program and eliminate our coordination with Sound Transit and King County METRO, reduce the contribution level of the Transportation Implementation Plan, reduce street maintenance support, and reduce administrative support. Many of these reductions will increase our response time to customers.
- The Finance and Information Technology Department will eliminate project accounting and contract management, consolidate Financial Analysis and Debt Services with Financial Planning, reduce overall department clerical support and move to a biennial budget to reduce production, publication and staff costs. The reductions in the Information Technology division will result in reduced capacity to implement automation projects, deferred upgrades to the telephone and GIS systems, and additional contracted services.
- Human Resources and Risk Management will eliminate technical staff and support in both the HR and Risk Management functions. These reductions will create longer turnaround times for recruitments and significantly limit our ability to provide training and professional development services.
- The Executive Department, which includes the Mayor's Office and the Communications Division, will reduce staff and capabilities for print and mail, leave the communications specialist position unfilled, and eliminate the part-time videographer/multi-media position. All dues for national memberships and associations will be eliminated or significantly reduced, and we will further reduce administrative support. With reduced staffing in the City Clerk's office, it will take us longer to process requests for records. As a result of the reductions, the Courts probation officers will have to spend less time with parolees and more time on administrative functions.
- Even the Council's budget has cuts. The proposed budget will reduce the Council travel budget by nearly 60%.

UTILITY FUNDS

The water, wastewater, and surface water utility funds are accounted for and budgeted for separately, but are managed as a system in accordance with the city's financial management policies.

We worked very hard to keep our rates as low as possible. A modest increase in utility rates will be required, but Renton's utility rates will remain among the very lowest in the region. We will be presenting our proposed rates for 2010 to Council in early November.

In 2010, we expect to reduce our participation in water education projects and the purchase and distribution of water saving devices. In our solid waste fund, we will eliminate the Clean-Sweep curbside clean-up and instead focus on customer service.

CAPITAL FUNDING

As you know, capital projects use dedicated funds, coming largely from state and federal funding sources, that can't be used for operations.

We have very limited new resources for general capital projects in 2010. However, we have a few key projects that we are pleased to begin this year.

Of the \$29 million in proposed capital projects, over \$27 million is for transportation and utility projects, and about \$2 million is for other projects.

One of our largest capital projects is the Rainier Avenue project, which will cost \$8 million in 2010 and \$12 million in 2011 and 2012, with a significant part of the funding obtained from state and federal funds.

Renton along with six south county cities is in the process of building a multi-jurisdictional misdemeanor jail. This collaboration will provide our community with significant savings in future jail costs.

We have several utility projects including water meter and water main replacements, the Highlands reservoir replacement, wastewater projects including the Earlington sewer replacement, and rehabilitation of our lift stations.

The Hardee underpass stormwater system and the new system at Hawks Landing are among some of the planned surface water capital improvement projects.

While our work at the Renton Municipal Airport in 2010 will not be as complicated as the runway repaving we did this year, we are planning to dredge the seaplane base.

Across the board, we have found many ways to reduce our costs while minimizing the impacts to our citizens. This budget makes some necessary and hard reductions, but preserves core services.

In tough times we are continuing to deliver results. We continue to invest in crime reduction, public safety, infrastructure, and quality of life programs. We are showing that smart investments can continue to make Renton a city of opportunity.

Crime rate as measured by crimes per thousand has decreased by double digits for the last three years. Currently our crime rate is one of the lowest in South King County. This wasn't easy and it wasn't an accident. We got to this place because we made public safety our top priority, and we gave our police officers the tools they need to be more effective.

This year we responded to several major fires. Two of these were five-alarm fires that occurred within a three-week period. Our response was tremendous—there were no injuries to our residents, or our firefighters, and adjoining properties were saved.

Earlier this year we celebrated the grand opening of Duvall Avenue, a project that saved the taxpayers \$4 million and 15 months of construction time. As one of our major roadways, Duvall now has additional lanes, underground power lines and sidewalks.

Our Neighborhood Program received national honors this year at the Neighborhoods USA Conference, and was the only program in the country to be recognized in two categories.

We achieved tremendous success by providing our citizens with green and open spaces while making Renton a greener, healthier city. Our Maplewood Golf Course was recognized for environmental excellence by the Audubon Society. And thanks to our urban forestry plan and program, we received the Tree City USA recognition. We completed our bikes and trails plan and provided our community with pedestrian and bicycle-friendly options. And our solid waste and recycling programs reduced garbage by over 45 percent—the equivalent to diverting over 18,500 tons from our landfills every year. Renton received “Recycler of the Year” award from the Washington State Recycling Association.

During these challenging times, we prioritized business retention and continue to work closely with Renton Technical College and the Chamber. The Renton Small Business Development Center, for which we received funds from the state, offers valuable resources and assistance to our businesses.

Every month we have new stores and restaurants opening at The Landing, and despite the economy they are doing well. We anticipate the opening of at least two more stores in time for holiday shopping. The Farmers Market enjoyed record attendance—over 4,000 people every week and 60 registered vendors.

The Seahawks Training Camp brought 3,000 fans daily and a total of 15,000 people to Renton during the summer. Our local economy got a great boost from these visitors who shopped and dined in Renton.

We had several significant ribbon cuttings for key employers who brought jobs to Renton—from Harley Davidson to Uwajimaya. We will soon celebrate the opening of Valley Medical Center’s emergency services tower—the culmination of a \$200 million expansion with state-of-the-art emergency and trauma care, and disaster recovery services.

This next year we will be moving forward with the redevelopment of Quendall Terminals on Lake Washington. Construction of the Hawks Landing Hotel at the former Pan Abode site in Kennydale is scheduled for next spring. And, long-range planning efforts in the City Center and the Highlands will set the stage for new public and private investment.

Renton has a record of innovation, and we won’t stop just because of the economic downturn. We have to stay focused on opportunity—not in spite of the financial challenges we face, but because of them.

The message in this budget is simple, but loud and clear: In the greatest economic meltdown since the Great Depression, Renton continues to do great things.

I want to thank each of our administrators and all the employees who worked hard during these stressful times to find solutions to these budget challenges.

I also want to thank the Council for your guidance and input as we worked on this budget.

We will be presenting you with more specific details on this budget proposal during the next couple weeks and welcome your feedback, concerns, and recommendations.

Thank you.
Denis Law

City of Renton 2010 Budget Highlights

General Government Overview

\$15 million saved
before 2010 Budget

2008 Mid-Year
\$5 Million Required
Expenditure Saving

2009 Adopted Budget
\$6 Million Expenditure Cuts

2009 Mid-Year
\$4 Million Expenditure Cuts
\$2 Million Taken from Fund
Balance

After a decade of growth, the local economy started faltering at the beginning of the second quarter 2008. The decline became increasingly apparent and broad based in the 3rd quarter of 2008 after the bankruptcy of Lehman Brothers. This turn of events not only impacted the City's 2008 and 2009 budget, but also 2010 and beyond.

During 2008, to balance the reduced revenue level, each department was asked to generate \$5.0 million in expenditure savings between July and the end of the year. Departments suspended some services and all non-essential spending and held 32 positions vacant temporarily to make up the savings.

The 2009 adopted General Governmental budget of \$101 million was \$6 million lower than what it would have taken to continue 2008 original service levels. The \$6 million reduction included not funding 35 existing positions, cutting back intermittent and seasonal helps, maintenance contracts, supplies, and minimizing capital spending that the Administration believed would have the least service disruptions and impacts on the community and to avoid layoffs.

Again in early 2009, with the budgeted revenue starting to fall further behind from revenue collections each month, again the Administration took early action to identify options in bridging another roughly \$6 million gap. Knowing we would need to address the gap with a long term solution in 2010's budget, we moved ahead with some temporary measures to balance 2009's budget. This resulted in further reducing departments' budgets and continued to not fill vacant positions which produced \$2.6 million in expenditure savings. With the cooperation from all unions, a wage/benefit concession agreement was reached. Employees took unpaid furloughs, reduction in deferred compensation, or through increased employee contributions towards medical benefits, saving the City \$1.2 million. With the Council's approval, we filled the remaining \$2 million of the budget gap by using the rainy day reserve in the fund balance.

Revenue The baseline revenue projection for 2010 is \$95.5 million, or \$5.3 million lower than the 2009 adopted budget.

The adopted 2010 Revenue would add \$1.42 million in Photo Enforcement revenue to fund our Patrol Services/Traffic Unit. Using these revenues to further our traffic enforcement efforts is a good use of this revenue source, which is derived from the fines received from traffic violators.

This budget anticipates that property tax collections will be at 2009 levels—we will not take the 1% increase allowed by law. However, the July implicit price deflator projected a 1% decrease in property tax collections. Therefore, the City Council will need to declare a “special need” in order to collect at the 2009 level. In addition to this adjustment, the City is also expecting annexation property taxes from New Life/Aqua Barn Annexation and slightly higher than anticipated new construction. Combined, the property tax estimate is \$1 million higher than the initial estimate.

With these changes, the 2010 adopted revenue total of \$97.8 million is 3.8% below 2009 adopted level but is 2.3% higher than 2009 adjusted level.

Expenditures The 2010 baseline expenditure budget was projected at \$101.6 million without any assumed wage or benefit increases. When compared against the \$95.5 million baseline revenue, this is a projected gap of \$6.3 million. To bridge this projected gap on a long term basis, the City took a new approach in 2010 budget development.

Instead of identifying marginal budget reductions, each department built their entire budget from the ground up, with three different funding levels. The Base Level is the resources needed to continue current services as they are. The Alternative level provides options to continue the service at a lower cost, and a minimal/mandated level which identifies the minimum level the program can continue to be performed before it is eliminated entirely, or that minimal level the program can operated and remain in compliance with State or Federal laws. The Administration staff team and Administration then prioritized these services and determined the adopted funding level for each program (the 4th or Adopted level) based on each program’s relative importance to the community. This budget document presents the Baseline and the Adopted levels information only. Detailed descriptions of program proposals at these two levels are in a separate document available in the Council Office. Also on file with the City Clerk is a complete set of all programs at all levels.

Using this approach, the Administration is proposing a general

government budget of \$97.8 million. This represents a net reduction of \$3.8 million from the baseline level. When we include the increase in benefit costs to the baseline budget, the actual 2010 expenditure reduction is \$4.9 million. The following section highlights the reductions and service impacts by department.

More information about the department's programs, accomplishments, goals, and service measures can be found in the Budget by Department Section of this budget.

Fund Balance

Because the 2009 adjusted budget tapped into the \$2 million anti-recession reserve, the budgeted beginning fund balance for general governmental funds is \$8.3 million, which is under the 2009 adopted budget by \$2.8 million. The City also maintains a \$5 million catastrophic reserve in the Risk Management Fund and a well funded equipment replacement reserve. These reserves and fund balances would provide a safety net over a turbulent and uncertain period in our history.

Legislative

Reduction:
(\$8,475)

With the majority of the department's budget being fixed costs, the reduction cuts deep into the few line items that are flexible. The adopted budget will reduce legislative travel by \$7,100 or 59% and other miscellaneous line items by \$1,375 for a total department reduction of \$8,475. The resulting adopted 2010 budget is 3% below the 2010 baseline budget.

Executive

Reduction:
(\$213,902)
-3.5 FTE

The Executive Department (formerly the Administrative and Judicial Services Department) will decrease its budget from the 2010 baseline budget by \$214 thousand and 3.5 FTEs. The result of this reduction for adopted 2010 budget will be 4% below the 2010 baseline budget and will substantially reduce printed materials citywide and would require us to outsource certain printing services.

Included in the budget is a \$50 thousand service contract for grant writing. This is to help all City departments explore grants and other funding sources to maximize the impact of City resources.

Court Services

Reduction:
(\$78,253)
-1 FTE

The Court Services Department (formerly within the Executive Department) will decrease its budget from the 2010 baseline budget by \$78 thousand. The resulting adopted 2010 budget is 5% below the 2010 baseline budget. The reduction includes elimination of a vacant Probation Clerk position. If the clerical work cannot be absorbed by other judicial staff, this reduction may result in fewer contacts with offenders by the Probation Officer.

City Attorney

Reduction:
(\$16,964)

The City Attorney Department will decrease its budget from the 2010 baseline budget by \$17 thousand. The reduction will reduce supplies, professional services, travel, and training. The adopted budget of \$1.6 million is 1% below the 2010 baseline budget.

CED

Reduction:
(\$1,599,121)
-16.5 FTE

The Department of Community and Economic Development (CED) will decrease its budget by \$1.6 million or 19% from the 2010 baseline and by 16.5 positions which represents 26% of the department's workforce.

Addition:
Move Property Services
Function from Public Works
(2 FTE's \$261,599, net of cuts)

The adopted budget will merge the Property Services function from Public Works Department into CED. This move would also allow us to reduce two of the four existing property services positions and result in a net increase of two positions and \$261 thousand in budget.

Community Services

Overall Reduction:
(\$1,405,960, detail below)
-5.5 FTE

The Community Services Department will decrease its budget by \$1.4 million or 6% from the 2010 baseline. See below for details of some Community Services division.

Human Services
(\$147,322)
-1 FTE

The reduction in the Human Services area includes \$74 thousand in professional services, \$1 thousand in travel and training, and \$71 thousand in personnel which reduces one position. The total reduction is \$147,322 from the 2010 baseline budget.

The adopted reduction of one housing repair position would impact the number of clients the program can serve. It may be possible that the City can use CDBG funds to restore this cut if approved by King County.

Community Resources, Events,
and Recreation
(\$40,927)
-.25 FTE

The reduction in Community Resources, Events, and Recreation includes \$7 thousand in supplies, \$14 thousand in professional services, and \$18 thousand in personnel which reduces a .25 position. The total reduction is \$41 thousand from the 2010 baseline budget.

Impact from this reduction is the elimination of many free activities at the various City events; substantially reduces the Holiday Lights; eliminates the \$5,000 financial support to Renton River Days which would require the event to reduce its scope and hours.

Library (\$223,258)	<p>The reduction in the Library’s budget reflects \$90 thousand in supplies, \$33 thousand in professional services, \$7 thousand in travel and training, \$69 thousand in intermittent help, and \$25 thousand in overtime. The impact would be visible to the community. The hours will be reduced from 60 to 50 hours per week at the Main Library, and the hours would be reduced from 42 to 34 at the Highlands branch. The reduction would be put in place only if the annexation to KCLS ballot measure fails.</p>
Parks & Golf (\$154,321)	<p>The newly reorganized division combines maintenance and operations staff for Parks and Golf Course to maintain both as one system. The adopted budget reduction of \$154 thousand would reduce seasonal staff by 20% which likely would result in declining cleanness and appearance of our parks. It will also eliminate the goose control contract; reduce irrigation at level 2 maintained parks by 50% which would impact the quality of athletic fields.</p>
Parks Planning & Natural Resources (\$144,471)	<p>The Parks Planning & Natural Resources division is a newly created division. This division will decrease its budget by \$144 thousand or 28% from the 2010 baseline. The overall reduction includes \$18 thousand in supplies and \$126 thousand in service contracts. The service impact will include the elimination of all flowerbeds and planters (except for the Veteran’s Park), and would reduce the right-of-way vegetation maintenance contract from weekly to twice per month.</p>
Facilities (\$454,094) -4 FTE	<p>Facilities will decrease its budget by \$454 thousand or 9% from the 2010 baseline budget. These reductions include \$42 thousand from intermittent help, \$328 thousand from personnel costs, and \$ 75 thousand from contracted repair and maintenance services. The personnel reduction will result in reducing four positions.</p>
Recreation Services (\$300,307) -.25 FTE	<p>The Recreation Services Division will decrease its budget by \$300 thousand or 6% from the 2010 baseline budget. These reductions include \$176 thousand from intermittent help, \$78 thousand from supplies, \$19 thousand from professional services, \$7 thousand in travel and training, and \$20 thousand in personnel costs. The personnel reduction will result in reducing one .25 position.</p> <p>The impact from these reductions would be the closure of Kennydale, Kiwanis, Phillip Arnold, Teasdale, and Tiffany Park buildings, and eliminate the free afterschool and summer drop in these programs.</p>

Fire and Emergency Services

Reduction:
(\$719,428)
- 3.0 FTE

Fire and Emergency Services Department will reduce 3 positions, one commissioned and two civilian positions generating \$286,895 in pay/benefit savings. The adopted budget added \$64 thousand in overtime to restore service of Aid Unit 14. This would allow both Aid Units 12 and 14 to be in service nearly full time. Other various reduction items include supplies and interfund payments to internal service funds.

With the reduction of nine firefighters that took place in 2009, the department will have a force of 136 commissioned officers and 16 civilians. The reduction will make it difficult to maintain the 32-officer on-duty staffing model which could affect the operation of the aid cars, and limit the department's ability to transport.

FIT

Reduction:
(\$1,531,046)
-5.0 FTE

Addition:
1 FTE for
GIS System

The Finance and Information Technology Department (FIT) will reduce its baseline budget \$1.5 million by reducing 5 positions (\$491,777), three in Finance Division and two in IT, and delaying various IT capital projects (\$920,000). Other reductions include supplies, professional services, travel, and training.

With the elimination of the Technical Services section in Public Works Department by splitting the property service section to CED, retaining utility related GIS function in Utility Systems, the remaining two Engineering Specialist positions that perform GIS functions for other City departments are transferred into the IT section as part of Enterprise GIS services. The adopted budget would reduce one of the two positions that are currently vacant.

Human Resources & Risk Management

Reduction:
(\$193,329)
-2.0 FTE

The Human Resources (HR) & Risk management (RM) reductions are made up of various line-items and two positions. The two positions make up savings of \$159 thousand. The various line-items include supplies, professional services, travel, and training.

Police

Reduction:
(\$214,775)
-2 FTE

The adopted Police budget reduction will reduce two civilian positions. This will reduce the adopted budget by \$159 thousand from the 2010 baseline. Other reductions include interfund payments to internal service funds.

With the direction to move forward with the regional corrections facility SCORE, there may be opportunities the two eliminated positions may be used to support the SCORE project.

**Public Works
General and Street Funds**

Reduction:
(\$778,880)
-5.5 FTE

The general governmental portion of the Public Works Department consists of department administration, street maintenance, and transportation. Technical services sections was split and moved to CED (4 positions) and FIT (2 positions) for the adopted 2010 budget. See their respective department highlights for details.

The administration, street maintenance, and transportation divisions adopted a 5.5 position reduction which will reduce the baseline \$509 thousand. Other reductions that make up the remaining \$270 thousand include temporary/intermittent help, supplies, professional services, travel, and training.

Impact from the reductions are the reduced Commute Trip Reduction program to the minimal level, eliminate the employee flex pass program, reduced transportation planning, and reduced traffic count and signal timing responses.

Other City Services

Reduction:
(\$29,500)

The "Other City Services" section of the budget is used to account for costs that are community-wide/city-wide in nature and not directly related to a particular department.

The reductions in this section are primarily due to the reduction in various memberships and dues. The adopted budget would eliminate all national association memberships and retain those most critical or required local organizations. Reductions are also made in the City's contribution to the organizations of Renton Communities in Schools and Enterprise Seattle.

**General
Government Debt Service**

The adopted budget includes the amount needed to meet the City's general obligation debt service payments. New in 2010 is the addition of a promissory note for the acquisition of Fire Station 13 as part of the Fire District (FD) 40 Asset Transfer agreement. The note is for 20 years with annual debt service of \$500,000. The amount will

be reduced by about 50% from the bond levy collected by FD 40 from City residents until the initial bonds are retired in 2020.

Fund Balance

With all the reductions discussed above, the adopted 2010 Budget is balanced. All current expenditures are supported by current revenues. As a result, the projected fund balance will not increase nor decrease.

Special Revenue Funds

State law and governmental accounting practices require that we separate budgets and financial reporting for dedicated revenue accounts into "Special Revenue Funds."

Arterial Streets Fund (102)

The Arterial Street fund accounts for the "arterial street" fuel tax revenue we receive from the state and designated by the City to arterial street overlay and improvement programs. The monies are transferred to and managed as resources for Transportation CIP (Fund 317).

The 2010 budgeted transfer is \$135,000 lower than the baseline, due to the decrease in general consumption of fuel.

Leased Facility Fund (108)

The Leased Facility Fund generates about \$1.24 million per year from leasing the 4th Floor of City Hall, the 200 Mill Avenue building, and the parking garage in the City Center. The cost of operating these facilities in 2009 is adopted at \$581,941.

There is a projected 2009 Year-End fund balance of \$529,744, which will be retained to cover any unexpected repairs and maintenance needs for City facilities.

Hotel-Motel Tax Fund (110)

The Lodging Tax revenue has been growing slowly in recent years. The adopted 2010 budget of \$245,000 is 17% lower than the adopted 2009 budget primarily due to the lower revenue projection.

The money collected in this fund is restricted by the state law can only be used for tourism promotion.

1% for Arts Fund (125)

The sources of 1% for Arts Fund are from all eligible City capital projects. To insure that we do not over anticipate resources available, instead of assuming capital projects will be completed as planned and true up the costs when projects are completed, we will

calculate the 1% arts funding at the completion of the capital project when the actual amount available for Arts can be ascertained. As a result of this change, we are only budgeting \$50 thousand in 2010, but will make adjustments when projects are completed.

Cable TV Fund (127)

With the new franchise agreement effective in the fall of 2008, for the first time Comcast Cable will be collecting a Public, Education, and Government (PEG) fee to allow the City to upgrade the TV21 broadcasting facility and equipment. The adopted 2010 budget will include the new resource and associated capital outlay. In addition, the City will continue to allocate part of the Cable TV franchise fee in an amount of \$40,000 to support TV21 programming.

Debt Service Funds

The only debt service fund which is not a part of the General Governmental funds described previously, is the Senior Housing Voter Approved Bonds. These bonds were completely paid off in 2009. With the pre-funding requirement, the amount is fully funded in 2008 and no levy is required in 2010. The minor amount in the budget represents Fiscal Agent fees as some bond holders do not redeem their bonds upon maturity and the Fiscal Agent will maintain all records until all outstanding bonds are redeemed.

Capital Funds

Mitigation Funds (303-305)

There are no significant changes to the Community Services or Fire mitigation funds.

We will continue to accumulate and reserve Community Services Mitigation (303) funds collected for the Ron Regis Park redevelopment which is planned for 2010.

The Fire Mitigation Fund (304) will pay the debt service obligation on the Fire Station 12 construction (\$300,000, transfer to 215 Fund) and any anticipated fund balance (\$2.18 million) will be reserved for future debt service and station expansion/development.

Transportation Impact Fees did have significant changes for 2010. These fees are used to supplement other funding sources to implement the adopted Transportation Improvement Plan in Fund 317. The adopted transfer in 2010 is \$700,000, which is \$200,000 less than the 2009 adopted budget.

Capital Improvements Fund
(316)

The Capital Improvements Fund implements the current year of the six-year Capital Investment Plan (CIP) for general governmental and community services facilities. The 2010 Adopted Budget contains

various small projects (compared to 2009 adopted budget). The two major ones are:

- 1) \$265 thousand for public restroom renovations for ADA improvements at Jones Park.
- 2) \$250 thousand for a grant matching program. The City annually appropriates funds to be available for unforeseen park and/or train development or acquisition opportunities, or to be available to leverage grant monies from agencies such as King County Conservation Futures, Washington Recreation and Wildlife Program, FEMA, or EECDBG.

These and other projects combined will result in the adopted project total of \$1.7 million. To fund these and other projects, the CIP calls for \$940 thousand in new resources and \$714 thousand in fund balance. See Capital Investment Section for more detail.

Transportation Improvements Fund (317)

The Transportation Improvements Fund is the account which implements the transportation element of the CIP. The adopted 2010 transportation improvement projects total \$16.1 million. Details of the projects and use of City resources for these projects can be found in the CIP section of this budget.

Enterprise Funds

The City has several enterprise type (or business type) operations. These include the Water, Wastewater, and Surface Water utilities; a Solid Waste utility, the Golf Course, and the Airport.

Utility Funds

The Water, Wastewater, and Surface Water utility funds are accounted for and budgeted for separately, but are managed as a system in accordance with the City's Financial Management Policies. The system conducts a comprehensive rate review every six years with the assistance of outside consultants, with annual updates performed by City staff. The comprehensive rate review was last conducted in 2007 with recommended future rate increases. The City worked very hard to hold the 2010 rate increases below the model recommendation, while maintaining the system's financial and structural integrity. These efforts resulted in a lower adopted rate increases in City operated utilities as follows:

Adopted Rate Increases

Water – 10%

Wastewater – 4%

King Count Metro Wastewater Treatment – no increase

Surface Water – no increase

The adopted rates are after the utilities reduced a total of 4.2 positions in the Waterworks Utility funds. These personnel reductions along with reductions in intermittent help, professional services, and interfund payments to internal service funds resulted in a savings of \$586 thousand from the baseline budget. The rate increases are needed to meet debt service requirements and to provide for on-going capital infrastructure replacements.

Solid Waste

The City provides garbage service through its Solid Waste fund. This service is provided through a contract negotiated by the City. In 2010, the City is proposing a 4% rate increase which has council approval. The adopted rates and services include a reduction of one position. This reduction along with reductions in intermittent help, supplies, the Clean Sweep Program, Coordinated Prevention Grant, and interfund payments to internal service funds resulted in a savings of \$407 thousand.

The utility is in need of rate increase to replenish the depleted fund balance. Once the new contract and rate structure has a chance to establish more history, the pressure on rate increases may ease.

Golf Fund

There is no significant change in adopted 2010 Golf Course budget. As part of the 2010 budget process, the Community Services Department is making some organizational re-alignments that will have the Parks & Golf Course Director (previously Golf Course Manager) oversee overall parks maintenance. Therefore a portion of the position's cost is now assigned to the General Governmental portion of the department's operation, reducing the Golf Course operating cost by \$48 thousand per year.

Airport Fund

Overall, the Airport adopted 2010 operating budget shows a decrease of 35% under the 2009 adopted budget. In 2010, the Airport will have two major projects:

- 1) \$700 thousand for maintenance dredging and shoreline mitigation.
- 2) \$475 thousand for Renton Gateway Center utilities.

See CIP section of budget for details.

Internal Service Funds

The City operates several "businesses" that provide service internally to other City departments. These include the Equipment Rental Fund

	(Motor Pool 501), Insurance Fund (Risk Management 502), Health Insurance Fund (512), LEOFF1 Retiree Healthcare Fund (522), Information Services Fund (503), Facilities Fund (504), and Communications Fund (505).
Equipment Rental	As with the rest of the City's operations, the equipment rental operations will see the full year's impact from the equipment acquired for the Benson Hill annexation and from the Fire District 40 service contract, where the City will maintain Fire District's 17 fire/emergency apparatus. The overall operating budget reflects a decrease of 41%, which includes the reduction of a mechanic's assistant position added mid-year 2008. Other reductions include delaying various vehicle replacement purchases of \$1.8 million.
Operating:	
\$1.9 million	
Adopted Equipment Replacement: \$842,000	
	The adopted budget will add no new vehicles.
Information Technology	The Information Technology Fund 503 (IT) was created in 2006 to allocate the costs of the City's centralized IT program. This fund provides for the technology, telecommunications, and copier equipment lease and maintenance for the City.
IT Capital	The budget contains about half of the typical level of funding for technology investments as in past few years (typically around \$2 million, \$997 thousand 2010).
	The majority of the technology investments is to replace user equipment, maintain network integrity, and provide for essential tools for continuing operations such as copier rental and to migrate the phone system off the old technology which will not be supported in the near future.
	Also included is the equipment needed to communicate and access CAD data due to the new Valley Communication CAD system.
	IT division will continue implementation of the Enterprise GIS Plan and other system improvements consistent with the adopted 2007 IT Strategic Plan.
Risk Management	The City's Risk Management program consists of three funds, Property and Liability Insurance Fund (502), Employee Health Insurance Fund (512) and Retiree Medical Fund (522).
	The budget provides funds to maintain these responsibilities but no other significant changes are adopted.
Facilities	Facilities division was discussed earlier in the highlights section. See

Community Services section for details.

Communications

Although the Communications fund is a newly created fund, the division is already included in the Executive department. See Executive department for highlights.

The City’s fiscal policy requires the City to prepare a long-term (5-year) financial model for General Government and other funds as deemed necessary. This projection extends current operations to the future to see if the services are sustainable and the magnitude of, if any, future financing gaps. This “glimpse” into the future allows the City to proactively plan and implement corrective measures over time to avoid sudden drastic changes in service levels or in revenue/tax policies.

The following sections will provide an overview of the government operating environment, highlights of significant changes in the 2010 budget conditions, and the assumptions used in developing this budget and future projections.

BUDGET ENVIRONMENT

The recession began in late 2007 with a financial sector meltdown has been recognized as the worst since the Great Depression. Before ended, its impact would have felt through all continents and all industries. Central banks around the world worked in concert to resurrect the economy. In the U.S., that is 7.5 million jobs lost, and 1.5 million homes “underwater” (equity value is less than the liability owing), and the federal government would have pumped nearly \$7 trillion into various stimulus packages to stop the downward skid of the economy.

As we develop our projections for 2010 for the City, we can see the national recession is near the bottom and the consensus is that the economy will resume growth (as measured by Gross Domestic Product) to positive growth in the third quarter of 2009. However, housing and commercial development projects that fueled the growth in the Puget Sound region over the past five years could be a drag on the recovery. The combination of tightened lending guideline and greatly reduced real estate backed security market means reduced capital availability. The oversupply of multi-family housing units and office spaces means climbing vacancy rates that will take time to settle. The high jobless rate and

low consumer confidence remain at historical levels. These data points to a slow and may be bumpy recovery.

For the City of Renton, the recession required us to adjust our revenue outlook and make spending cuts repeatedly over the past 18 months. Since mid-August 2008, we have reduced a combined total of \$15 million. We have modified our spending plans for 2009 to reflect this change, including employee furloughs and withdrew \$2 million from fund balance.

The positive side of the recession is the absence of inflation. Wages have declined since its peak in mid-2007 due to roll back and/or unpaid furloughs. The change in CPIW from June 2008 to June 2009 stood at -0.7%, with the mid-year index (from July 2008 to July 2009) stood at 0.5%. With most labor contracts generally tied to inflation and personnel costs representing over 80% of City's operating budget, the low inflation level is welcoming news. The cost of medical benefits is an exception to this rule and is expected to continue to grow at double digit rates in 2010 and the foreseeable future.

MAJOR REVENUES

Seventy-six (76%) percent of our General Government services are supported by tax revenues. Among all the taxes supporting these operations, property tax is by far the most significant source, accounting for 32% of the total. This growth of this revenue is limited by statute to 1% per year plus annexation and new construction. Sales tax is another significant revenue source representing nearly 23% of our revenue base.

EFFECT OF VOTER INITIATIVES

With over half of the City's general resources in either restricted in growth before voter approved initiatives or subject to economic uncertainties, it is difficult to maintain services while costs tend to escalate faster than the rate of inflation. This is a known issue to all levels of governments in the state.

In addition, citizen initiatives over the past decade have made a significant impact on general revenues for all local governments in Washington State, including Renton. The cumulative losses for Renton include \$640,000 a year from Initiative 695 (1999) which repealed the state Motor Vehicle Tax; over \$2.5¹ million a year from Initiative 747 (2001), limiting the property tax growth rate to the lower of inflation or 1%, plus new construction; and \$750,000 a year street maintenance fund from Initiative 776 (2002) that eliminated the local option Vehicle Licensing Fee approved by voters for transportation systems in King County. This is a combined loss of nearly \$4 million a year in Renton's general government revenues overall the past 10 years.

The loss of these revenues not only reduced the diversity of City's revenue sources but also slowed the revenue growth. Based on the current revenue structure, the combined revenue growth rate is around 2% per year, or around 1% below the rate of inflation under normal conditions.

The cost of City services, on the other hand is expected to grow at around 4% per year or around 1% above inflation, again, under normal circumstances. The higher growth rate is primarily caused by the persistent high energy costs, double digit medical benefit cost increases, and more recently, the state mandated pension costs.

This 2% differences between revenue and expenditure growth rates translates into around \$2 million per year structural gap based on the \$98 million current General Fund annual budget.

¹ The \$2.5 million is calculated base on the difference between 1% and the rate of inflation as measured by CPI-W. The loss is over \$8 million a year if is calculated on 6% statute limit prior to the passage of I-747.

The past revenue loss and the structural imbalance had already required the City to continuously reduce its services to balance the budget. Over the past ten years, the City has reduced its general expenditures by nearly \$5 million and eliminated 17.4 positions. Because these service reductions were made over time, the impacts were not immediately obvious. However, the cumulative effects have now resulted in increased level of citizen complaints and demands for improvements in almost all service areas.

It is under this backdrop, the City Council decided it is important to maintain the current staffing and service levels in the 2010 budget and beyond. To cover the projected deficits, Council allowed using nearly 2% designated capital utility tax revenue which will become available starting in 2010 to make up the projected budget gap, thus allow stable General/Street Fund operations up to 2010. The adopted budget reflects this important budget decision.

TAXES

PROPERTY TAX (RCW 84.52)

Property tax is the largest revenue source and is used for general governmental operations. The table to the right shows past and projected annual property tax levy. New construction has contributed to substantial growth in the City’s property tax base over the past five years which are added to the 1% base levy growth limit. The 23.7% increase in 2008 also reflects the addition of Benson/Cascade annexation. Other factors affect the actual property tax collection is the appeals and delinquent taxes.

Year	Assessed Value	Property Tax	% change
2005	6,683,310,627	21,074,039	7.6%
2006	7,300,556,316	22,043,717	4.6%
2007	8,332,988,272	23,476,384	6.5%
2008	9,617,208,149	29,050,790	23.7%
2009	13,173,773,069	30,660,522	5.5%
2010 Proj	11,821,099,953	31,364,643	2.3%
2011 Proj	12,293,943,951	31,676,024	1.0%
2012 Proj	12,785,701,709	32,162,142	1.5%
2013 Proj	13,297,129,778	32,647,115	1.5%
2014 Proj.	13,829,014,969	32,976,853	1.0%
2015 Proj.	14,382,175,567	33,306,687	1.0%

The City's property tax levy amount is subject to a number of limitations in the state statutes:

1. The \$1.60 Levy Cap:

The state constitution establishes the maximum regular property tax levy for all taxing districts combined at 1%, or \$10 per \$1000 market value of the property. This cap is further divided by the RCW to the various taxing districts, with the maximum regular property tax levy for most cities at \$3.375 per thousand dollars assessed valuation (AV). Cities with the Firemen's Pension Fund can levy an additional \$0.225 per thousand dollars AV, resulting in a maximum levy of \$3.60 per thousand dollars AV. Renton’s regular levy rate is subject to the \$3.6 limit.

This levy cap can only be exceeded with 60% voter approval (excess levy). Future property tax projections are based on 1% I-747 limit plus new construction.

2. The 101 percent “lid” and other limits in property tax growth rates:

Before 2002, a taxing district could increase the property tax levy amount annually by 6% (for a total of 106% of the amount levied in the previous year), up to the applicable levy cap. This growth rate limit was established in 1973 as the legislature responded to people's concerns that property taxes were rising too fast with the real estate boom.

Initiative 747 (approved by voters in 2001) further lowered the limit to the lesser of 1% or inflation. Property tax growth resulted from new construction; changes in value of state-assessed utility property, and newly annexed property (collectively referred to as new construction") are exempted from the lid/limit factor and may be added to the tax levy. The growth limit can be "lifted" by voters. A "lid lift" vote requires a simple majority voter approval, and the amount is added to the levy base for future years.

Year	Average Home Value	Total Tax Rate	City Tax Rate	City Tax \$
2005 Actual	\$ 249,600	\$ 11.87	\$ 3.23	\$ 805.46
2006 Actual	269,800	11.96	3.12	840.70
2007 Actual	293,400	10.94	2.88	846.17
2008 Actual	335,500	9.78	2.57	862.57
2009 Actual	357,900	9.95	2.37	848.22
2010 Proj	304,215	11.82	2.71	824.42
2011 Proj	316,384	11.48	2.63	832.67

2013 Proj	342,201	10.83	2.48	849.40
2014 Proj.	355,889	10.52	2.41	857.90
2015 Proj.	370,124	10.21	2.34	866.48

Most properties in Renton pay \$9.95 per \$1000 AV in 2009, of which 24% or \$2.37 goes to City services. The remaining goes to the Renton School District (34%), King County (12%) for regional service, the State School fund (20%), Valley Medical (5%), Port of Seattle (2%), and Emergency Medical Services (3%).

The table above shows the past and projected average home values, combined property tax rates, and the portion the City receives.

SALES TAX (RCW 82.14)

Sales tax is the second largest taxing source for Renton representing 23% of General Fund revenue. Similar to property tax, the City only receives approximately 10% of sales tax generated within Renton, the remaining 90% goes to other government entities and to support transit and public facility agencies.

In addition to the local sales tax, the City also receives a distribution of voter approved criminal justice sales tax, and a 0.1% annexation sales tax for the annexation of Benson/Cascade in 2008.

The Criminal Justice Sales Tax (RCW 82.14.340) is a 0.1% voter-approved optional sales tax in King County, collected countywide and distributed based on population. Because it employs a more diverse tax base and different distribution formula than regular sales taxes, this source is typically more stable and is projected to grow by the inflationary plus population growth.

Year	Sales Tax	% change	Annexation Credit	% change	Criminal Justice	% change
2005	\$17,108,459	2.7%			\$ 1,170,134	8.5%
2006	18,690,826	9.2%			1,293,185	10.5%
2007	20,342,171	8.8%			1,445,095	11.7%
2008	20,956,089	3.0%	789,683		1,755,469	21.5%
2009	17,995,836	-14.1%	2,132,110	170.0%	1,650,350	-6.0%
2010 Proj	18,609,000	3.4%	2,248,000	5.4%	1,743,000	5.6%
2011 Proj	19,167,270	3.0%	2,248,000	0.0%	1,795,290	3.0%
2012 Proj	20,029,797	4.5%	2,349,160	4.5%	1,876,078	4.5%
2013 Proj	20,931,138	4.5%	2,454,872	4.5%	1,960,502	4.5%
2014 Proj.	21,873,039	4.5%	2,565,341	4.5%	2,048,724	4.5%
2015 Proj.	22,857,326	4.5%	2,680,782	4.5%	2,140,917	4.5%

This **Annexation Sales Tax Credit** is a tool the State is using to encourage cities to annex urban areas currently in the unincorporated counties. The tax is credited toward the State’s portion of sales tax, so no net impact on taxpayers. The credit will last 10 years and is intended to help cities who annex large urban areas to pay for service costs that exceeded revenue generated in the area.

The composition of the City’s sales tax is relatively diverse with Retail at 29%; and Automotive, Service, and Contracting each representing around 20% of the total. The remaining 11% is made up by Wholesale (big-box retail), Manufacturing, and other miscellaneous activities.

Like many other cities in the state, Renton’s sales tax is one of the hardest hit tax sources by the recession. We anticipate a decline in our base sales tax revenue by 11% in 2009, and start to improve in the second half of 2010, but won’t post a positive annual growth until 2011. The decline of sales tax is led by the reduction in contracting and automotive sales, anticipated to be lowered by

40% and 12% respectively in 2009 than 2008.

Stream-lined Sales Tax:

Washington State is one of the original participants of the Stream-lined Sales Tax Project and the Legislature made a number of changes to its sales tax codes to be consistent with the national sales tax laws. The last piece took effect on July 1, 2008 that changes which localities receives the tax revenue when customers have goods delivered instead of picked-up at the point of sales. Under previous tax law, tax revenue is credited to the locality where the goods are delivered from (origin point of the delivery). The law requires the tax be credited to the locality where the goods are delivered (destination based system.)

The State’s fiscal impact analysis initially suggested that Renton would be negatively impacted in the magnitude of \$1 million per year, with this loss being mitigated through the State transfer (“mitigation

payment”) as provided by the implementing legislation. As of September 2009, with one full year’s actual data available, the evidence suggests Renton, as well as other cities in urban centers with substantial day-time population, are not impacted negatively as anticipated. At the same time, bedroom-communities have not seen substantial gain in their revenue as initially anticipated either.

Therefore, we are pretty certain that the decline of the City’s sales tax collection in 2009 is due to the state of the economy.

UTILITY TAXES (RCW 82.16)

Cities and towns in Washington State are authorized to levy a business and occupation tax on public utility businesses based on revenues they generate within the city or town, known as a utility tax. The rate of taxes for electric, phone, and gas utilities are limited to 6% without voter approval, with no limitation on other public utilities. The City currently levies 6% utility tax on phone (both landline and cellular services), electric, natural gas, cable, all city utilities (water, sewer, storm water, and solid waste), and transfer station.

Utility tax revenue has increased substantially over the past two years, primarily due to annexation as well as higher energy costs. The 2010 budget projection assumes energy rates to moderate (natural gas rate is reduced by 17% effective October 2009); and the anticipated State Supreme Court decision which could overturn the City’s ability to collect Brokered natural gas. The long term outlook for utility tax continues to grow at a modest rate based on the combination of inflation, population growth, and to a lesser degree, rate increase. The exception is the landline phone service is anticipated to stabilize at around \$1 million a year while cellular service is expected to continue to grow in data services. The table below shows detail of past and projected utility taxes.

Year	Electric	Natural Gas	Brokered NG	City Utilities	Cable TV	Phone	Cell Phone	Transf Station	Total	% Change

REAL ESTATE EXCISE TAX (REET)

The State of Washington is authorized to levy a real estate excise tax on all sales of real estate (measured by the full selling price, including the amount of any liens, mortgages, and other debts given to secure the purchase) at a rate of 1.28 percent. A locally-imposed tax is also authorized. All cities and

counties may levy a quarter percent tax (described as "the first quarter percent of the real estate excise tax" or "REET 1"). Cities and counties planning under the Growth Management Act (GMA) have the authority to levy a second quarter percent tax (REET 2). The statute further specifies that if a county is required to plan under GMA or if a city is located in such a county, the tax may be levied by a vote of the legislative body. If, however, the county chooses to plan under GMA, the tax must be approved by a majority of the voters.

REET 1 [RCW 82.46.010](#):

Initially authorized in 1982, cities and counties can use the receipts of REET 1 for all capital purposes. An amendment in 1992 states that cities and counties with a population of 5,000 or more planning under the GMA must spend REET 1 receipts solely on capital projects that are listed in the capital facilities plan element of their comprehensive plan. Capital projects are: *public works projects of a local government for planning, acquisition, construction, reconstruction, repair, replacement, rehabilitation, or improvement of streets; roads; highways; sidewalks; street and road lighting systems; traffic signals; bridges; domestic water systems; storm and sanitary sewer systems; parks; recreational facilities; law enforcement facilities; fire protection facilities; trails; libraries; administrative and judicial facilities.*

Year	REET Revenue	% change
2005 Actual	\$4,440,795	-0.9%
2006 Actual	5,919,292	33.3%
2007 Actual	5,086,327	-14.1%
2008 Actual	2,800,103	-44.9%
2009 Actual	2,418,456	-13.6%
2010 Proj	2,400,000	-0.8%
2011 Proj	2,640,000	10.0%
2012 Proj	2,640,000	0.0%
2013 Proj	2,640,000	0.0%
2014 Proj.	2,640,000	0.0%
2015 Proj.	2,640,000	0.0%

Receipts pledged to debt retirement prior to April 1992 and/or spent prior to June 1992 are grandfathered from this restriction.

REET 2 [RCW 82.46.035](#):

The second quarter percent of the real estate excise tax (authorized in 1990) provides funding for cities and counties to finance capital improvements required to occur concurrently with growth under the Growth Management Act. An amendment in 1992 defines the "capital project" as:

Public works projects of a local government for planning, acquisition, construction, reconstruction, repair, replacement, rehabilitation, or improvement of streets, roads, highways, sidewalks, street and road lighting systems, traffic signals, bridges, domestic water systems, storm and sanitary sewer systems, and planning, construction, reconstruction, repair, rehabilitation, or improvement of parks.

Because of this amendment, acquisition of park land is no longer a permitted use of REET 2 after March 1, 1992.

The combined two quarter-percent of the REET are expected to generate \$2.4 million in 2010 and \$2.6 million per year thereafter. Currently the revenues are primarily (83%) used for debt service and only \$400,000 or 17% is currently available for new capital projects.

GAMBLING EXCISE TAX

The City levies gambling taxes at their maximum allowed level on all activities: 5% for bingo and raffles, 2% for amusement games, 5% for punchboards and pull-tabs, and 20% for card rooms (RCW 9.46.110). Revenues from these activities are required to be used primarily for the purpose of gambling enforcement (RCW 9.46.113). Case law has clarified that "primarily" means "first be used" for gambling law enforcement purposes to the extent necessary for that city. The remaining funds may be used for any general government purpose. The City receipts Gambling Tax in the General Fund and identifies the revenue as law enforcement resources.

Year	Gambling Tax	% change

2013 Proj	2,000,000	0.0%
2014 Proj.	2,000,000	0.0%
2015 Proj.	2,000,000	0.0%

The State Legislature began allowing the operation of "enhanced card rooms" or mini-casinos on non-tribal land on a pilot basis in 1997; regulations were adopted allowing them on a permanent basis in the spring of 2000. Over the past ten years, mini-casinos have proliferated throughout the state and have become a significant source of tax revenue in jurisdictions where gambling activities are allowed. The permission of non-tribal

casinos has stimulated a wave of new and/or expansion of tribal casinos as well. The increased competition and the smoking ban in non-tribal establishments made non-tribal gambling businesses harder to compete. The estimated increase in 2009 is primarily due to the addition of new establishments in the Benson/Cascade annexation area and the one-time change in reporting period for larger taxpayers from quarterly basis to monthly. We expect the City's gambling tax to stabilize at around \$2 million a year.

LODGING TAX (RCW 67.28)

Effective 1998 most cities in King County may levy a 1% Lodging Tax on short term overnight stays at hotel, motel, campgrounds for tourism promotion or for acquisition and operation of tourism-related facilities. This actual tax paid on overnight lodging by typical visitors is a combination of sales tax and lodging excise tax at 12.4%.

Lodging Tax	Hotel Size	
	< 60 Rooms	>= 60 Rooms
State sales tax	6.50%	6.50%
Local City/County Sales and Use Tax	3.00%	2.10%
Convention and Trade Center	N/A	2.80%
Special Hotel Motel Tax	1.00%	1.00%
Total Tax on Lodging	10.50%	12.40%

The City enacted the 1% lodging tax in 1999 to fund its tourism promotion program. The program is accounted for in Lodging Tax Fund with an annual budgeted resource of around \$250,000.

ADMISSIONS TAX (RCW 35.21.280)

Washington cities are authorized to levy an admissions tax not to exceed 5% on admission charges to entertainment venues such as theaters, dance halls, circus, and other activities where there is an admission charge for entering the facility. The higher revenue in 2005 is due to a special performance group that had their seasonal performance in Renton. The higher projection for 2009 and beyond is due to the new movie theater in the Landing coming online in October 2008.

Year	Admission Tax	% change

LEASEHOLD TAX

In addition to the above taxes, the City also receives a minimal amount of revenue from the 4% leasehold tax (RCW 82.29A). Leasehold tax is on lease income from private business activities on tax-exempt properties in lieu of property taxes. The leasehold tax is the lower of 12.84% or the equivalent property tax rate. Of the total tax rate, 4% comes to the City and 2% goes to King County. The City receives around \$100,000 a year from this tax and uses it for general operations purposes.

LICENSES AND PERMITS

BUSINESS LICENSE FEE

This revenue source is a license fee based upon the number of employees a company has within Renton’s city limits. In 1988, the City of Renton implemented its per-employee based business license fee with the rate set at \$55 per full-time equivalent employee in response to transportation infrastructure needs in Renton. Non-profit and government entities are exempt from paying this fee. The \$55 per employee rate remained constant up to this point and is generating \$2.2 million annually. The City has dedicated 80% of the revenue to transportation improvement projects, with the remaining 20% allocated to the General Fund. In addition to providing the needed resource for infrastructure improvements, the employment information in the business license system also provides the City with important economic condition indicator both in general economy as well as its diversity.

Year	General Fund 000	Transp. Impv	Total
2005 Actual	392,800	1,583,279	1,976,079
2006 Actual	449,447	1,812,907	2,262,354
2007 Actual	420,608	1,760,701	2,181,309

The table below shows all jobs from Renton employers, including non-profits and government agencies who are not required to pay a license fee; but excluding jobs from businesses that do not have an office in Renton (such as construction jobs) that are subject to the license fee. The information basically tells us that while we have a substantial drop in temporary employment in Renton based on licensing fee collected, the core local based jobs remained relatively stable in 2009.

Employment	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009
Boeing FTE	19,058	19,089	16,735	12,377	10,448	9,912	11,770	13,047	13,199	13,169

PERMIT AND DEVELOPMENT FEES

The City have not adjusted its development permit fees in recent years. In many cases, fees have not increased since the late 1980s. An analysis conducted in 2009 showed the City’s development service fees lag the neighboring communities by substantial differences. As a result, the City Council approved a general fee increase that took effect October 2009 that would bring the City’s rates to roughly 80% of the average of the comparable jurisdictions. The 2010 revenue projection reflects both rate increase and projected improvement in activity level.

FRANCHISE FEES

Franchise fees are charges levied on private utilities to recoup the City costs of their use of city streets and other public properties to place utility infrastructure and costs of administering the franchise. The franchise fees on light, natural gas, and telephone utilities are limited by statute to the actual administrative expenses incurred by the City directly related to receiving and approving permits, licenses, or franchisees. Cable TV franchise fees are governed by the Federal Cable Communications Policy Act of 1994 and are negotiated with cable companies for an amount not to exceed 5% of gross revenues, which is the source of the City’s franchise fee revenue.

The City’s franchise fee revenue is primarily generated from cable franchise. The increase in 2008 and 2009 collections reflect the annexation activities. Long term projection is based on projected rate increases and population growth.

Year	Franchise	% change
2005 Actual	640,845	3.4%

INTERGOVERNMENTAL REVENUES

Intergovernmental revenues include state-shared revenues, governmental grants and miscellaneous transfers, and inter-governmental service contracts such as the Fire and Emergency Services contracts with Fire Districts 25 and 40. The following information is primarily intergovernmental revenues in the City’s operating funds. There are also substantial grants in capital project funds particularly in transportation improvement projects.

The state-shared revenues are from taxes and fees collected by the State and disbursed to municipalities based on population or other criteria. In the past, the primary sources of these shared revenues are fuel tax (tax on gasoline consumption), liquor sales profit, and excise tax. This resource once provided 14% of the City’s operational funds, but has decreased to less than 7%, mainly due to the elimination of the MVET and the King County vehicle license fee. The remaining intergovernmental revenues are fuel taxes, liquor tax and profit, and the criminal justice distribution.

The increase in 2008 Contract reflects the 10-month contract with Fire District 40 that started March 1, 2008 after the Benson/Cascade Annexation. 2009 is the first full year of the contract. The increase in 2008 grants and miscellaneous transfers include the transfer from King County Library System and a \$705,000 equipment grant the Fire Department received. The projected 2010 through 2012 grants include the 3-year COPS Rehiring Grant the City received as part of the stimulus package.

Year	State Shared Revenue	Grants & Misc.	Contracts
2005 Actual	1,488,250	744,858	1,294,512

CHARGE FOR SERVICES

The charge for services is revenues generated from services provided to the general public (including recreation fees, building permit, land use fee, and surface water fees). This source is projected to generate \$5.7 million each year.

POLICE AND COURT SERVICES

Police and court service revenue includes private security, jail, electric home detention, passport process, and miscellaneous services. Projected 2010 revenue decreases primarily reflect the decrease in private security service for construction projects, lower passport processing volume from reduced services hours, and reduced probation revenue from the reduction of probation clerk positions.

Year	Police and Court Services	% change
2005 Actual	591,181	-11.2%

2014 Proj.	687,323	1.5%
2015 Proj.	697,633	1.5%

PARKS & RECREATION FEES

Overall, recreation fees are generated from recreation classes, athletic programs, leagues and field rentals, senior activity center, community center, and aquatic center fees and rentals. The revenue is projected at \$2.3 million for 2010, which is 2% under 2009 budget, but is consistent with anticipated 2009 actual. The reduction in recreation revenues is due to reduction in service hours and programs as part of the adopted budget reduction. Long term projection is based on projected population increases.

Year	Parks & Recreation Services	% change
2005 Actual	2,068,867	-1.5%
2006 Actual	2,256,669	9.1%
2007 Actual	2,302,702	2.0%

2009 Actual	2,309,446	-2.0%
2010 Proj	2,293,020	-0.7%
2011 Proj	2,327,415	1.5%
2012 Proj	2,362,327	1.5%
2013 Proj	2,397,761	1.5%
2014 Proj.	2,433,728	1.5%
2015 Proj.	2,470,234	1.5%

INTER-FUND SERVICES

The inter-fund service charges represent reimbursements from enterprise fund (utilities, golf course, airport, etc.) operations for accounting, human resources, records management, legal, and administration expenses. The charge is determined through an indirect cost allocation model using transaction volume, full-time employee, size of budget as determining factors.

Year	Interfund Services	% change
2005 Actual	3,795,352	4.1%
2006 Actual	2,842,019	-25.1%
2007 Actual	2,944,768	3.6%
2008 Actual	3,072,950	4.4%
2009 Actual	3,225,745	5.0%
2010 Proj	3,080,927	-4.5%
2011 Proj	3,173,355	3.0%
2012 Proj	3,268,555	3.0%
2013 Proj	3,366,612	3.0%
2014 Proj.	3,467,610	3.0%
2015 Proj.	3,571,639	3.0%

The revenue is projected at \$3 million for 2010, which is 10% below 2009 budget due to the formation of facilities and communications internal service funds that recover costs from all City operations, not just enterprise operations. This resulted in a reduction in the amount of the General Fund cost and recovery. Future projection is based on projected general City operating cost increases.

FINES AND FORFEITS

Fines and forfeits account for civil and criminal penalties as authorized by the state and adopted by the City code and collected through the Renton Municipal Court.

The 2008 Increase reflects the implementation of the traffic Photo-Enforcement system at the high collision intersections and at school zones. The 2009 projected revenue shows only the portion of the Photo-Enforcement revenue that is to cover the cost of the program and the \$250,000 emphasis on patrol the City Council authorized to use. The 2010 adopted budget recommends using this revenue to fund the Police Department Traffic Enforcement Unit and to avoid reduction services.

Year	Fines and Forfeits	% change
2005 Actual	720,312	-29.7%

MISCELLANEOUS REVENUES

Miscellaneous revenues include interest income, cellular tower site rental, donations, sales of documents, etc. The majority of the revenue is investment interest income. With the tightened lending criteria, higher FDIC insurance fees, and the increase of the state’s public deposit collateral requirement, banks in the State of Washington do not need, and are not willing to pay much for deposits from public entities. Some banks are not accepting new public deposits at all. As a result, we anticipate the future miscellaneous revenues will remain at a lower level than what we have experienced in the past few years.

Year	Miscellaneous	% change

Enterprise Funds

UTILITY RATES

Water and Sewer Rates – The water, sewer, and storm sewer rates fund most of the costs associated with providing these services as well as necessary capital replacements in our community. Other sources include hookup fees, other development charges, grants, etc. are also available but are restricted for capital purposes only. Due to increased costs to maintain the systems, regulatory requirements, and higher general operating costs, the City is reviewing the policies guiding these rates.

Rate studies conducted in 2006 recommended adjustments to 2007 rates as well as future years to maintain services and provide capital investments. As a result, the City adjusted the utility rates over the past three years. The water rate adjustment in 2010 is to head-off steep rate increase in the future. In order to minimize financial impact of rate increases to our customers, the adopted budget includes operating cost reductions as well as delaying capital costs where possible. The preliminary rate adjustment proposals will be presented to respective Council Committees for consideration.

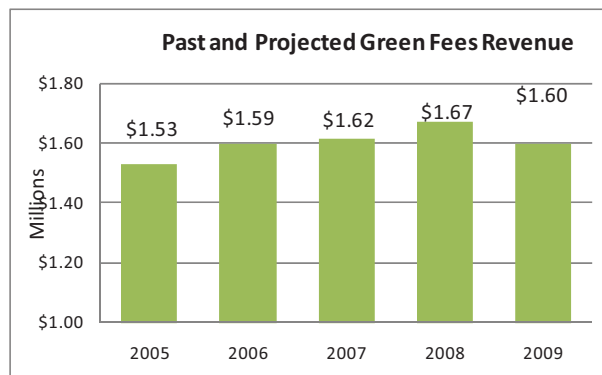

Utility Revenue & Rate							2010
Increases	2004	2005	2006	2007	2008	2009	Proposed
Water Revenue	8,547,751	8,459,074	7,370,370	9,752,005	9,511,694	10,241,776	10,496,973
Rate Increase	3.0%	2.0%	3.0%	5.0%	-19.0%	4.0%	10.0%
Sewer Revenue	3,928,053	4,104,314	3,816,989	4,866,672	5,100,339	5,201,928	5,476,898
Rate Increase	3.0%	3.0%	4.0%	5.0%	6.0%	4.0%	4.0%
Storm Revenue	3,265,684	3,179,159	2,834,130	3,345,672	4,353,614	4,908,489	5,186,896
Rate Increase	0.0%	0.0%	3.0%	3.0%	30.0%	0.0%	0.0%
Garbage Revenue	8,777,760	9,146,523	9,710,697	10,052,197	10,483,597	13,864,919	14,781,685
Rate Increase	0.0%	0.0%	0.0%	0.0%	0.0%	37.0%	4.0%

The rate comparison illustrates the typical monthly utility bill for a single-family residence from services provided for (or arranged for) by the City compares with similar service costs in neighboring jurisdictions.

The adopted 2010 rate increases are: Water 10%, Wastewater 4%, and no increase for Surface Water.

In addition to the City provisioned utilities, King County provides sewer treatment and sets the rates for the service. The Service is labeled as “Metro”, which was the entity initially formed for the purpose in 1958 which was assumed by King County in 1994.

Golf Fees – The City’s Maplewood Golf Course Fund was created by Ordinance 3884 in 1985. Maplewood Golf Course is owned and operated by the City. The golf course is also a water utility resource as it is the location of city wells that provide drinking water to our community. The use of this space as a golf course helps preserve the quality of the well water for future generations.

The course is managed by the Community Services Department and it is operated as a separate enterprise fund of the City. It is anticipated that user fees from customers will pay the operating and capital costs of the golf course, including debt service for 1994 revenue bonds to improve the course and the clubhouse. Currently the annual debt service is around \$460,000 per year. The bond’s covenant requires a debt service coverage ratio of 1.25. The adopted budget currently would provide a coverage ratio of 1.14, or \$50,000 shy of meeting the coverage requirement. The adopted budget recommends a fee increase of \$2 per round which is expected to generate additional revenue of around \$130,000 a year based on 2008 rounds. The adopted fee increase was approved by Council and therefore the revenue should be more than sufficient to make up the shortfall of the debt service coverage.

	9 HOLE WEEKDAY	18 HOLE WEEKDAY	18 HOLE WEEKEND	18 HOLE SENIOR	9 HOLE SENIOR	18 POWER CART	9 HOLE POWER CART
PROPOSED FEE INCREASE							
MAPLEWOOD CURRENT FEES	\$20.00	\$29.00	\$35.00	\$20.00	\$15.00	\$24.00	\$14.00
MAPLEWOOD PROPOSED FEE INCREASE	\$22.00	\$31.00	\$37.00	\$22.00	\$16.00	\$26.00	\$16.00
NET \$\$ INCREASE	\$2.00	\$2.00	\$2.00	\$2.00	\$1.00	\$2.00	\$2.00
\$\$ Increase based on 2008 rounds	\$30,698	\$17,260	\$35,582	\$16,878	\$6,333	\$18,276	\$4,000
Total							\$129,027

The comparative rates chart to the right illustrates that the Renton course rates are comparative with the market. These rates are weekend rates for 18 holes of golf. The adopted increase would bring the City’s rate to \$37, in line with the other courses in the South King County area.

Financial Management Policies

Basic Policy Statement

The City of Renton is committed to the highest standards of responsible financial management. The City, including the City Council, Mayor and staff will work together to ensure that all financial matters of the City are addressed with care, integrity, and in the best interest of the City.

The rules and procedures contained in this section are designed to:

1. Protect the assets of the City of Renton;
2. Ensure the maintenance of open and accurate records of the City's financial activities;
3. Provide a framework of operating standards and behavioral expectations;
4. Ensure compliance with federal, state, and local legal and reporting requirements; and
5. Provide a means for the City Council to update and monitor these policies with the assistance and cooperation of the Mayor's office and the Finance and Information Services Administrator.

Lines of Authority

1. The Renton City Council has the authority to execute such policies as it deems to be in the best interest of the City within the parameters of federal, state, and local law.
2. The Finance Committee has the authority to perform reviews of the organization's financial activity, determine the allocation of investment deposits, and assure that adequate internal controls are in place.
3. The Mayor and Chief Administrative Officer (CAO) have the authority to oversee the development of the annual budget, make spending decisions within the parameters of the approved budget, enter into contractual agreements, make capital asset purchase decisions and make decisions regarding the allocation of expenses within designated parameters. Unless otherwise specified in this document, principal responsibility for complying with the directives enumerated herein shall be vested in the Mayor.
4. Each Department Administrator has the authority to expend City funds within approved budget authority and in accordance with procedures prescribed by the Mayor's Office, and to recommend spending requests within the parameters of the approved budget process to the Mayor.

Accounting Records and Reports

1. Basis of Accounting
 - a. The City's Comprehensive Annual Financial Report (CAFR) on its financial activity shall be presented in compliance with Generally Accepted Accounting Principles (GAAP) as defined by the Governmental Accounting Standards Board (GASB).
2. Basis of Budget
 - a. The City budget is presented on a GAAP basis of accounting.
3. Fund Accounting
 - a. The City of Renton's accounting and budgeting systems use a fund accounting consistent with guidance provided by the GASB and the Washington State Auditor's Office.
 - b. The funds are grouped into categories: General Fund, Special Revenue, Debt Service, Capital Projects, Enterprise, Internal Service, and Fiduciary/Trust.
 - c. The City Council shall create and eliminate funds as appropriate by separate ordinance, or through the budget ordinance.
 - d. Funds shall either be "external" or "internal" for financial reporting purposes.
 - i. Internal funds shall be separate sets of accounts for the purpose of enhancing internal management control only. These funds shall reside within an external fund. For cash management purposes, internal funds may rely on their related external fund without payment of interest or violation of the City's cash management policies. (See Interfund Loan policy for further clarification).
 - e. The City's financial accounting system shall assure that the status and transactions of each account and their relationship to budget authority is clear.
4. Financial Reporting
 - a. The CAFR shall be timely and comprehensive and meet or exceed professional industry standards.
 - b. The City's budget documents shall provide for comparison with prior years.
 - c. Revenue and expenditure reports shall be prepared monthly and be available on the City's website.
 - d. A written analysis of the City's monthly report shall be prepared quarterly, coordinated with the Chief Administrative Officer and Mayor, reviewed with the City Council, and available on the City's website.
 - e. All budget amendments shall be included in the monthly report.
 - f. Any outstanding interfund loans shall be disclosed in the quarterly report.
5. Audit
 - a. The City shall commission an annual audit of its financial reports and related records to be conducted by the Washington State Auditor's Office.
 - b. At the conclusion of the audit, the auditor shall be available to brief the City Council on the results.
 - c. The results of the audit shall be available to the public.

Policy on Stabilization Funds

Sufficient fund balances and reserve levels are important in the long-term financial stability of the City.

1. The City shall maintain reserves required by law, ordinance and/or bond covenants.
 - a. General Government
 - i. The City shall maintain reserves in the General Government Funds of at least 10% of total budgeted operating expenditures.
 - ii. In addition, the City shall maintain an additional reserve as a part of the City's Risk Management Funds in a minimum amount of \$5,000,000.
 - iii. In addition, the City shall maintain an "Anti-Recessionary Reserve" in an amount of at least 2% of General Government budgeted operating expenditures. Expenditures utilizing the "Anti Recessionary Reserve" require a two-thirds majority vote of the City Council.
 - b. The City shall maintain one year payments in voted general obligation debt service funds.
 - c. The City shall maintain reserves in the Enterprise Funds as follows:
 - i. Water Utility Fund: 12% - 25% of total budgeted operating expenses
 - ii. Golf Fund – 25% - 50% of total budgeted operating expenses.
 - iii. All other Enterprise Funds: 10% - 20% of total budgeted operating expenses
 - d. Reserve balances of other funds shall be set through the budget process in an amount consistent with the purpose and nature of the fund.
2. Replacement reserves shall be established for equipment, and computer software should the need continue beyond the estimated initial useful life, regardless of whether the equipment is acquired via lease, gift or purchase. Service charges paid by City departments to the appropriate Internal Service funds should include an amount to provide for replacements.

Financial Planning

1. The City shall maintain a long-term (five year) financial planning model.
 - a. The financial planning model shall:
 - i. be based on the currently adopted budget;
 - ii. utilize these policies;
 - iii. be based on assumptions and drivers realistically expected to occur;
 - iv. clearly document the assumptions and drivers used and the results of the use of such assumptions and drivers;
 - v. be designed in such a way to permit analysis of alternative strategies;
 - vi. relate to the related plans of the City to include Service Delivery Plans, Comprehensive Plans, Master Plans, etc.; and
 - vii. shall be prepared for the General Government and such other funds as the deemed necessary.
2. Budget development
 - a. The City shall prepare an annual budget that is consistent with:
 - i. state law;

- ii. the long-term financial planning model;
 - iii. these policies; and
 - iv. industry best practices.
 - b. The City of Renton’s annual budget shall be prepared using the following schedule and process as a general guide:
 - i. Review stakeholder input such as surveys, public forums, neighborhood meeting notes and business community communication.
 - ii. The Mayor, City Council and Chief Administrative Officer will conduct a goal-setting retreat with the Department Administrators updating the Business Plan and other policy guidance.
 - iii. The City Council and Administration will meet to review and discuss the prior year’s audited results, current year budget status, next budget schedule, process, budget guidelines and budget preparation items of interest.
 - iv. The Finance & IS Administrator prepares the budget preparation instructions and meets with Department Administrators to distribute budget instructions and discuss budget preparation.
 - v. The instructions will include policy priorities, estimates of compensation adjustments, internal service and indirect charges.
 - vi. Departments will provide to the Finance & IS Department budget estimates and requests conforming to the budget instructions.
 - vii. The Mayor submits a proposed balanced Preliminary Budget to the City Council in conformance with state law.
 - viii. The City Council conducts public hearings on the proposed budget in conformance with state law.
 - ix. The City Council sets the City’s property tax levies.
 - x. The City Council adopts the final budget ordinance.
 - xi. The Final Budget Document is published and posted to the City website.
 - c. Budget amendments should be presented for consideration when the need arises.
 - i. Budget authority shall be at the fund level.
 - ii. Changes resulting in a need to revise the appropriation authority shall be presented as they occur.
3. Revenues
- a. Revenue forecasts shall assess the full spectrum of resources available to finance City programs and services.
 - b. The City shall consider the diversification of revenue as a strategy when developing its financial plans.
 - c. Should an economic downturn develop that results in (potential) revenue shortfalls or fewer available resources, the City will make appropriate adjustments to its budget.
 - d. Revenue estimates shall be based on forecasting methods recommended by the Government Finance Officers Association (GFOA) and will typically be more likely to be conservative rather than aggressive.

4. Expenditures
 - a. Priority shall be given to expenditures that will improve productivity.
5. Capital Improvements
 - a. A comprehensive six-year plan for City capital investments shall be prepared annually and adopted by the City Council as part of the City budget.
 - i. All projects included in the Capital Investment Program (CIP) shall be consistent with the City's Comprehensive Plan.
 - ii. The Capital Investment Program shall be prepared in consultation with Council Committees for ongoing capital investments.
 - b. All proposed capital improvement projects shall include a recommended or likely source of funding.
 - c. Private development (including residential, commercial and industrial projects) shall pay its fair share of the capital investments that are necessary to serve the development in the form of system development charges, impact fees, mitigation fees, or benefit districts.
 - d. Capital project proposals should indicate the project's impact on the operating budget, including, but not limited to, long-term maintenance costs necessary to support the investment.
 - e. Capital projects shall be budgeted for on a project life basis (rather than fiscal year).

Policy on Fees and Charges

1. The City shall annually review all fees for licenses, permits, fines, rates and other miscellaneous charges as part of the budget process.
2. User charges and fees shall be established based at a percentage of the full cost of providing the service, unless otherwise provided by statute or regulation.
 - a. Full cost incorporates direct and indirect costs, including operations and maintenance, overhead, and charges for the use of capital facilities.
 - b. Other factors for fee or charge adjustments may also include the impact of inflation, other cost increases, the adequacy of the coverage of costs, and current competitive rates.
3. Proposed rate adjustments, user charges and fees shall be presented to the City Council for approval each year as part of the Mayor's proposed Preliminary Annual Budget to the Council.
4. The City shall rigorously collect all amounts due.

Policy on Utility Funds

1. The City shall establish and maintain separate utility operating and capital investment funds and budgets for each of its utility operations.
2. Utility rate studies shall be conducted every six years to update assumptions and ensure the long-term solvency and viability of the City's Utilities.
3. Utility rates and capital fees shall be reviewed annually and necessary adjustments made to avoid major rate increases.

4. The City shall use system development charges, grants and low interest loans to fund capital projects where possible. Overall, the utilities should maintain a debt to equity ratio of 60/40.
5. Each Utility should fund an amount of the cost equal to the annual “depreciation expense” of capital assets less debt service principal payments.
6. System Development Charges (SDCs) shall be established at levels to ensure that all customers seeking to connect to the City’s utility systems shall bear their equitable share of the cost of both the existing and future systems.
7. Debt financing of utility improvements will be consistent with the utility master plans, council rate policies and other factors so as to smooth the effect of major improvements on utility rates.
8. The City shall strive to maintain minimum debt service “coverage” with the net revenue (gross operating revenue of the Utilities less operating and maintenance expenses) of the combined Utilities being 1.25 - 1.5 times the actual debt and the net revenue of the individual Utility being at least 1.25 times the actual debt.

Policy on Debt Issuance and Management

1. Long-term borrowing shall be confined to capital investments or similar projects with an extended life when it is not practical to be financed from current revenues. The City shall not use long-term debt to finance current operations.
2. Debt payments shall not extend beyond the estimated useful life of the project being financed. The City shall keep the average maturity of general obligation bonds at or below fifteen years, unless special circumstances arise warranting the need to extend the debt schedule.
3. The City shall work to maintain strong ratings on its debt including maintaining open communications with bond rating agencies concerning its financial condition.
4. With Council approval, interim financing of capital projects may be secured from the debt financing market place or from other funds through an interfund loan as appropriate in the circumstances.
5. The City may issue interfund loans when appropriate and consistent with a separately adopted City Council policy on the subject.
6. When issuing debt, the City shall strive to use special assessment, revenue or other self-supporting bonds in lieu of general obligation bonds.
7. Long-term general obligation debt shall be utilized when necessary to acquire land or capital assets based upon a review of the ability of the City to meet future debt service requirements. The project to be financed should also be integrated with the City’s long-term financial plan and Capital Investment Program.
8. General obligation debt should be used when the related projects are of a benefit to the City as a whole.
 - a. General Obligation Bond (Voted):
 - b. Every project proposed for financing through general obligation debt should be accompanied by a full analysis of the future operating and maintenance costs associated with the project.

- c. Limited Tax General Obligation Bond (Non-Voted):
 - i. The City should avoid issuing general obligation (non-voted) debt beyond eighty percent (80%) of its general obligation debt capacity.
9. The City shall use refunding bonds where appropriate when cost savings can be achieved of at least 4% (NPV), restructuring its current outstanding debt and/or improving restrictive bond conditions.
10. The City's financial team for the issuance of debt shall consist of the Council, Mayor, CAO, Finance & IS Administrator, applicable department management (related to the projects to be financed), City Legal Counsel, designated bond counsel, financial advisor and underwriter in order to effectively plan and fund the City's capital investment projects.
 - a. Through a competitive selection process conducted by the Finance & IS Administrator with consultation with the Mayor, Chief Administrative Officer and Legal Counsel, the City Council shall approve the most qualified financial advisor / underwriter and bond counsel.
 - b. These services shall be regularly monitored by the Finance & IS Administrator.
11. The City shall evaluate the best method of sale for each proposed bond issue.
 - a. When a negotiated sale is deemed advisable (in consultation with the Mayor and City Council) the Finance & IS Administrator shall negotiate the most competitive pricing on debt issues and broker commissions in order to ensure the best value to the City.
 - b. When a negotiated sale is used, the City shall use an independent financial advisor to advise the City's participants in matters such as structure, pricing and fees.
12. The City shall comply with IRS regulations concerning use of, and reinvestment of bond proceeds.
 - a. The City shall monitor and comply with IRS regulations with regard to potential arbitrage earnings. If arbitrage earnings are believed to be above amounts provided by IRS regulations, the City will set aside earnings in order to pay the appropriate amount to the federal government as required by IRS regulation.
13. The City shall provide full secondary market disclosure related to outstanding debt.

Budget at a Glance

The Budget Process

The City of Renton develops its budget every year from February through October. The Mayor and the Council review the City's revenues and services in order to determine if they need to make significant changes to the budget.

In reviewing the anticipated revenue, the Mayor's first priority is to ensure that the City is able to continue providing the same levels of service. This may require obtaining additional funds because the same service level now costs more. For example, as our population increases, we need more police officers to maintain the same response times.

City departments estimate the costs of providing existing base services for the budget year. In addition, they submit requests for new programs that they would like the Mayor to consider. The Mayor evaluates the department requests and can recommend new programs for Council approval within the context of the Council's adopted Business Plan Goals.

The Mayor and the Council hold a strategic planning retreat in the spring of each year in order to adopt these Business Plan Goals. At that time, the Council sets policy direction and priorities for the next budget cycle. They also determine whether the City's current levels of service are meeting the needs of our community.

The Mayor must provide to the Council by October 31 a proposed budget for the following year. The Mayor also provides them with an estimate of expected revenue in order to meet the costs of providing City services. The Council reviews the budget and any revisions in November and December. It must approve a balanced budget, (funding recommendations for the operating and capital budgets that do not exceed the estimated resources) by the beginning of the budget year, which is January for the City of Renton. In order to obtain citizen opinion about proposed expenditures, the City holds two public budget hearings.

Once the Council adopts the budget, the Mayor must ensure that expenditures are made within legal limits. If the economy changes or the City identifies unanticipated needs during the year that require changing the budget, the Mayor will recommend those changes. A Council-adopted ordinance must accompany all budget increases. If revenues fall short, the Mayor can make decreases to the budget to ensure that the City does not overspend available resources. The Mayor will work closely with the Council whenever changes to the budget must be made.

Budgetary Basis and Basis of Accounting

The budget, as adopted, constitutes the legal authority for expenditures. Budgets are adopted on the GAAP basis of accounting. The annual budget is adopted with budgetary control at the fund level so expenditures may not legally exceed appropriations at that level of detail. Transfers or revisions within funds are allowed, but only the City Council has the legal authority to increase or decrease a given fund's annual budget.

Basis of accounting refers to the point at which revenues or expenditures / expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied:

1. Accrual

Both governmental and business-type activities in the government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The government funds financial statements are presented on the modified basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual: i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Schedule of the Budget Process

Description	Feb	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec	Jan
The budget process and time limits are established by State law. The City of Renton adheres to the following procedures:.												
1 The Mayor, Council, and staff meet to set priorities (Council / staff retreat).	→											
2 Council Committee of the Whole adopts the Business Plan Goals and Strategies.		→										
3 Budget instructions, salary and benefit computations, and forms are prepared and distributed to departments on or before July 1.				→	→							
4 Six-year Transportation Capital Investment Program and associated budget adjustments adopted by Council, by Resolution.					→							
5 Departments prepare and submit new operating programs, positions and reclassifications, and six-year capital improvements.						→	→					
6 Departments prepare line item (base line) budget requests and submit to Finance by the second week of August.						→	→					
7 Base line budget requests, revenue assumptions, new programs and capital improvement requests are compiled into a document for the Mayor's review in September.								→				
8 The Mayor reviews budget requests with each department during first two weeks in September, with decisions made by the end of September.								→				
9 The property tax levy is established by ordinance the first Monday in October, or when available.									→			
10 The Mayor's Preliminary Budget is prepared and filed with the City Clerk by the first working day in November; available for public review.									→			
11 The City Clerk publishes a notice of filing the preliminary budget, and also designates the date, time, and place of the public hearing on the final budget.										→		
12 Council Committee of the Whole conducts budget hearings with department heads during the month of November. The hearings are open to the public.										→		
13 The final hearing on the proposed budget must begin on or before the first Monday of December, and may continue until the 25th day prior to the next fiscal year.											→	
14 Year-end budget adjustments for the current budget year are presented to Council for adoption, by ordinance.											→	
15 The City Council approves amendments to the proposed budget, and following the public hearing adopts a final balanced budget, by ordinance, prior to January 1.											→	
16 The final Budget as adopted is published, distributed, and made available to the public during the first three months of the ensuing year.												→

City of Renton
Budget Fund Structure

General Government is used to group those accounts that are largely supported by general taxes of the City.

General Fund accounts for all general government activity not accounted for in other funds. It includes most tax revenues and such services as police, fire, engineering, long range planning, city clerk, administration, and economic development.

Transportation Improvements Fund accounts for all roadway capital projects managed and funded by the City. These are capital projects found in the Capital Investment Program section of this budget.

Water / Sewer Utility is comprised of a number of sub-funds working towards a mission to operate and maintain a quality water supply system, collect, convey and treat wastewater effectively and economically within the Council's rate structure, and construct water and sewer projects by contract or City participation in private projects, for infrastructure improvements consistent with the Capital Facilities Plan.

Non-budgetary funds include:

Reserve Retirement Contribution Fund	General Fixed Assets Fund
ICMA Deferred Compensation Fund	Claims Clearing Fund
Salary Clearing Fund	Special Deposits Fund
General Long Term Debt Account Group	Surplus Bank Balance Fund

City of Renton Budget Fund Structure

Major Funds are those with budgets representing ten percent or more of the City's overall budget. They are marked with an asterisk (*).

For descriptions of Major Funds, see next page.

Financial Structure

The City's budget comprises seven major fund types or groups. The following is a general overview of each fund type.

General Governmental Funds

These funds are used to account for resources that are generally not dedicated for a specific purpose. They are used to meet the basic services that your local government provides.

Major Revenues	Primary Services
<ul style="list-style-type: none">• Taxes	<ul style="list-style-type: none">• Police protection
<ul style="list-style-type: none">• Fees, licenses, and permits	<ul style="list-style-type: none">• Fire protection / emergency medical services
<ul style="list-style-type: none">• Fines and forfeitures	<ul style="list-style-type: none">• Parks and recreation
<ul style="list-style-type: none">• Intergovernmental (Federal, State)	<ul style="list-style-type: none">• Municipal Court / legal services
	<ul style="list-style-type: none">• Library services
	<ul style="list-style-type: none">• Street maintenance planning
	<ul style="list-style-type: none">• Economic development / planning
	<ul style="list-style-type: none">• Administrative functions

Special Revenue Funds

These funds are used to account for revenues that are to be used for a specific purpose as required by law or administrative action.

Major Revenues	Primary Services
<ul style="list-style-type: none">• State and Federal Grants	<ul style="list-style-type: none">• Economic development
<ul style="list-style-type: none">• Taxes	<ul style="list-style-type: none">• Cable communications
	<ul style="list-style-type: none">• Street overlay
	<ul style="list-style-type: none">• Art fund

Debt Service Funds

These funds are used to account for accumulation of dedicated revenue and payment of principal and interest related to the City's general obligation bond issues.

Major Revenues

- Property tax levies
- Real estate excise tax
- Special assessments

Primary Services

- Payment of principal and interest on outstanding bonds

Capital Investment Funds

These funds are used to account for the acquisition and construction of major capital facilities and equipment. All projects supported by these funds can be found in the 2010-2014 City of Renton Capital Investment Program.

Major Revenues

- Federal and State grants
- Special assessments
- Property tax
- Sales tax
- Real estate excise tax
- Impact mitigation

Primary Services

- Capital investment projects

Enterprise Funds

These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises.

Major Revenues

- Service (user) charges
- Federal and State grants
- Revenue bonds
- State loans

Primary Services

- City utilities
- Renton Municipal Airport
- Maplewood Golf Course

Internal Service Funds

These funds are used to account for the goods and services furnished by one city department for another department on a cost reimbursement basis.

Major Revenues

- Charges to other city departments
- Insurance, health / property liability

Primary Services

- Fleet management
 - Information Services
 - Facilities (in transition)
-

Fiduciary Funds

These funds are used to account for assets held by the City in a trustee capacity.

Major Revenues

- Investment interest

Primary Services

- Fire pension fund
-

Please refer to the following tables and figures for specific information on the budget, fund groups, and employment history. In *The Total Budget for 2010* table, we provide details on revenue and expenditure categories.

In the *Total Revenue Budget Over Time* table we provide sources and amounts of revenue by year from **2007** through **2010**.

In the *Fund Groups* pie chart we show the budget percentages for each fund type and the General Governmental Fund, by department.

In the *Total Expenditure Budget Over Time* table we provide specifics for fund expenditures.

In the *Employment History – City of Renton* graph we present the history of employment for the City of Renton.

RENTON RESULTS

Introduction

Renton Results is the City of Renton's performance management initiative originated in 2007 to clearly illustrate the services provided by the City of Renton, the resources needed to provide these services, and the results of the service efforts to facilitate policy decisions and provide accountability to the community. Services are categorized into six service areas:

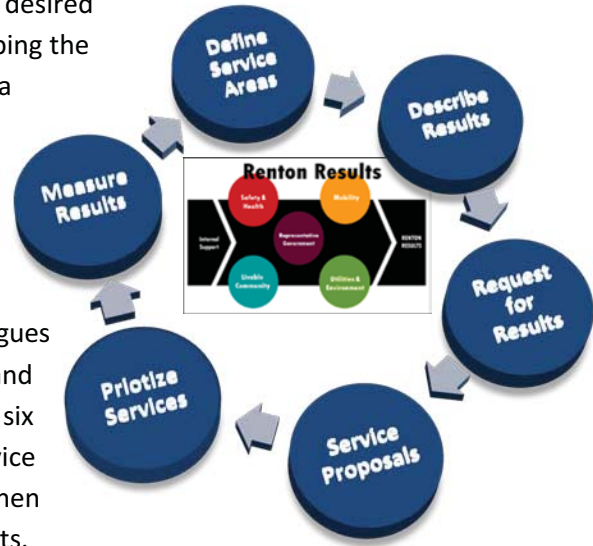

1. **Safety & Health:** services that make Renton a safe and healthy community.
2. **Representative Government:** services that engage community in policy development and provide access to fair individual representation in community and personal matters.
3. **Livable Community:** programs and amenities that address community needs making Renton a place where people want to live, work, play, and visit.
4. **Mobility:** services to plan, construct, and maintain systems such as roadways, sidewalks, trails, paths, and related components, to enable residents, visitors, employees, as well as freight and commercial activities to move in, around, and through the City efficiently and safely.
5. **Utilities & Environment:** services that protect the environment and empower its citizens to be engaged in sustainability programs.
6. **Internal Support:** services that enhance the ability of the organization to function efficiently and effectively.

2010 Budget Development Framework

We took the Renton Results initiative to its next step and combined elements of Priorities of Government (POG) process in developing the 2010 City budget.

Organized 65 mid-management staff into 6 teams (Service Area Teams) , with each team focused on a service area that is charged with tasks of describing the desired outcomes, identifying key result indicators, and prescribing the characters of services to achieve these results, all from a taxpayer and community stakeholder’s perspective.

This process requires staff changing their thinking from how to deliver services to first focus on what services the community wants the City to provide. This subtle yet important difference opened up dialogues and opportunities to challenge status-quos and assumptions. The tangible products of this step are six Request for Results (RFR), one for each of the six service areas. The RFRs were issued to departments, who then developed service offers to achieve the requested results.

In addition, departments are asked to provide three service-level options to allow more policy choices in the provision of these services. The three funding levels are:

Baseline level to continue current City services;

Alternative level that would require less resources and/or different service delivery models; and

Minimum/Mandate level identifies the minimum resources that are needed if the service is to be continued.

In certain cases, a 4th funding level **“Executive” level** is developed where the Executive team believes would best match the community’s needs and priorities.

Prioritization Process

One of the key elements of Priorities of Government is prioritization of services based on the community’s needs. The 2010 proposed budget went through 3 prioritization steps.

First, each Service Area Team (SAT) reviewed proposals within the particular Service Area as to whether the proposal is responsive to the “Request for Results” and how important (on a ranking of high, medium, or low) the service would be in achieving the desired results.

Second, the Department Heads took the SAT comments into consideration, prioritized services across all six service areas, and identified funding levels that they felt would be appropriate.

Lastly, the Mayor and the Chief Administrative Officer made their final funding level adjustments to balance within the projected resources. The proposed budget reflects this final prioritization and fund levels.

Resources Allocation by Service Area

Renton Results program expenses are presented as consolidated costs across departments and funds. As a result, the dollar amounts for Renton Results and the traditional budget are not the same. Within Renton Results we have eliminated transfers and the double counting that occurs in traditional “Fund” based budgeting. For example, the costs of the City’s internal service funds are shown under “Internal Support” category and are not shown again in the direct service areas while the Budget by Department and by Fund would include internal support costs. This is also true for transfers between funds. An example would be from Utility Operation funds to Utility Capital funds for capital improvement projects. Consequently, the total operating resources for the 2010 Renton Results program budget total \$172.8 million as compared to the total appropriations of \$211.5 million.

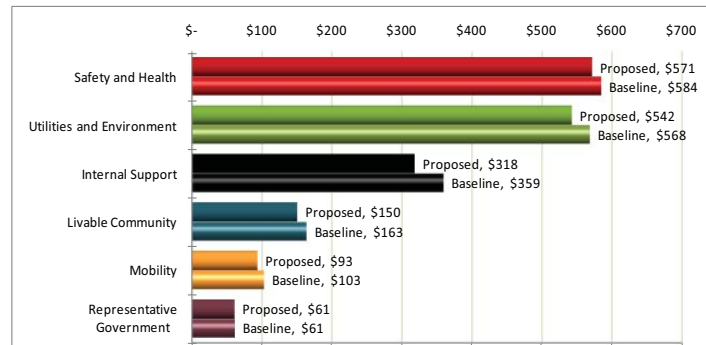

Also important to note is that we have included city-wide obligations in the internal support service. These include \$4.5 million in general obligation debt service payments, \$2.25 million in post retirement medical benefit for retirees in Law Enforcement and Fire Fighters I pension system (LEOFF 1), as well as city-wide payroll tax and benefit cost increases that have not yet allocated into budgeted positions at \$2.2 million. Without these costs, the overall Internal Support costs are 12.1% of the \$145.2 million operating budget and 10.5% of the \$172.8 million total budget.

The following charts describe the percent of total City resources dedicated to each of these service areas, the percent of operating (excluded CIP) City resources dedicated to each of these service areas, and the proposed staffing levels of each of the service areas.

Per Capita Service Cost

The Chart below shows a comparison of the per capita operating cost at the Baseline Service level and the Proposed Service Level. The operating cost at the Baseline level totals \$1,839 per person per year vs. \$1,736 at the Proposed Level, a difference of \$103 per person per year. Again, without the debt service, retiree medical obligation, and benefit cost increases to be allocated later, the per capita internal support cost would be at around \$211 per year.

The table below summarizes the resource allocations by service area.

City Service Area Summary

Renton Results Service Areas Desired Outcomes and Draft Indicators

Service Area	RESULT INDICATORS	DATA TO BE COLLECTED (EXAMPLES)
Safety and Health: <i>I want Renton to be a safe and healthy community.</i>	1. Livability of homes & structures	<ul style="list-style-type: none"> • Code enforcement • Preparedness • Housing repair • Inspections
	2. Increasing feeling of community & individual safety	<ul style="list-style-type: none"> • Preparedness plan • Community Survey
	3. Timely responsiveness “projection of effort”	<ul style="list-style-type: none"> • Police • Fire • Code enforcement
	4. Well maintained public spaces	<ul style="list-style-type: none"> • Recreation & recreation participation • Park access • Perception of crime free community
Representative Government: <i>I want Renton to be a responsible and responsive government.</i>	1. Customers experience timely response in an accessible, fair, and respectful manner	<ul style="list-style-type: none"> • Survey data, number of complaints, number of concerns, number of language presentations
	2. Achieve the City’s desired outcomes at the state, regional, and federal levels	<ul style="list-style-type: none"> • Agenda items delivered
	3. Build community pride and capacity through volunteer and community partnerships	<ul style="list-style-type: none"> • Report pride and positive associated image, number of volunteers and volunteer time, amount of money or in-kind services leveraged/donated, number of partnerships
	4. Effective and responsive communications that supports and values dialogue	<ul style="list-style-type: none"> • Items sent out, press releases, attendance at Council and other meetings, surveys - do they feel they influence decisions, complaints vs. population, correspondence, web analytics, response to notifications, use of referendums and initiatives
	5. High degree of confidence in stewardship of City resources.	<ul style="list-style-type: none"> • Balance budget, bond rating, meaningful and transparent, survey questions, code of ethics, meet legal mandates, number of lawsuits and claims against the City
Livable Community: <i>Provide access to high quality facilities, services, and public resources that enrich the lives of everyone in the community</i>	1. Vibrant and Diverse Economy	<ul style="list-style-type: none"> • No single employment sector exceeds 40% of the total number of jobs in the City
	2. Managed Growth	<ul style="list-style-type: none"> • GMA/King County growth targets met • Short, mid-, and long-term actions established and completed in community and comprehensive plan. • Meet established benchmarks for timely processing of land use and building permits. • # of projects that demonstrate quality development.
	3. Strong Sense of Community	<ul style="list-style-type: none"> • Support for / attendance at community programs, activities, and events • Community satisfaction with arts / culture / recreation / events (survey) • Public-private partnerships
	4. Diverse Learning and Enrichment Opportunities	<ul style="list-style-type: none"> • Support for / attendance at learning and enrichment opportunities • Community satisfaction survey • Collection / resource care and maintenance
	5. Nothing but Clean, Safe, Healthy, Well-maintained places	<ul style="list-style-type: none"> • Community satisfaction survey • Program request & completed orders • Complies with codes and standards • Information in languages other than English
Mobility: <i>Safe and efficient access to all desired destinations, now and in the future.</i>	1. Good Condition of the Infrastructure	<ul style="list-style-type: none"> • OCI pavement condition numbers
	2. Progress on planning and building the mobility infrastructure	<ul style="list-style-type: none"> • Participation in regional forums in transportation planning and funding; monitoring of project progress and fiscal status;
	3. Safe Operation of the existing infrastructure	<ul style="list-style-type: none"> • Accident Data; speed reports; violations at photo enforcement sites; operational data on traffic volumes and signals.
Utilities and Environment: <i>I want to live, learn, work and play in a clean and green environment with reliable, affordable utility service.</i>	1. Quality cleanliness & appearance of Environment	<ul style="list-style-type: none"> • Customer survey
	2. Number/amount of paid claims against Utility Systems infrastructure	<ul style="list-style-type: none"> • Number of claims submitted, dollar amount of claims
	3. Sustainable utility rates	<ul style="list-style-type: none"> • Renton water/sewer/garbage rate for average Residential user compared to other local jurisdictions
	4. Reduction in peak water use	<ul style="list-style-type: none"> • Peak day and week water usage; Irrigation volume
	5. Code compliance cases completed	<ul style="list-style-type: none"> • Number of open cases compared to completed/closed cases
	6. Satisfaction score on open space distribution	<ul style="list-style-type: none"> • Customer survey
Internal Support: <i>Provide City departments with the means to operate efficiently and effectively in a safe and stainable manner.</i>	1. Price of Government	<ul style="list-style-type: none"> • Total city taxes & fees/aggregate personal income
	2. Sustainable Resources	<ul style="list-style-type: none"> • Annual debt to capital investment ratio
	3. Citywide productivity loss due to sick-leave	<ul style="list-style-type: none"> • Disability and sick-leave usage x hourly rate
	4. Facility cost per sq ft	<ul style="list-style-type: none"> • Offices M&O & Major maintenance cost/sf
	5. Fleet cost per vehicle	<ul style="list-style-type: none"> • Total M&O & RR (in-lieu of depreciation) cost/vehicle
	6. IT cost per employee	<ul style="list-style-type: none"> • Total M&O & PC replacement cost per employee
	7. Online services availability	<ul style="list-style-type: none"> • On-line mapping, Permits and Billing
	8. Customer satisfaction on having means to operate effectively and efficiently	<ul style="list-style-type: none"> • Customer Survey

RENTON RESULT BUDGET PROPOSALS AND TIMELINE

City of Renton

2010 Request for Results

Safe and Healthy Community

Desired Results

I want Renton to be a safe and healthy community.

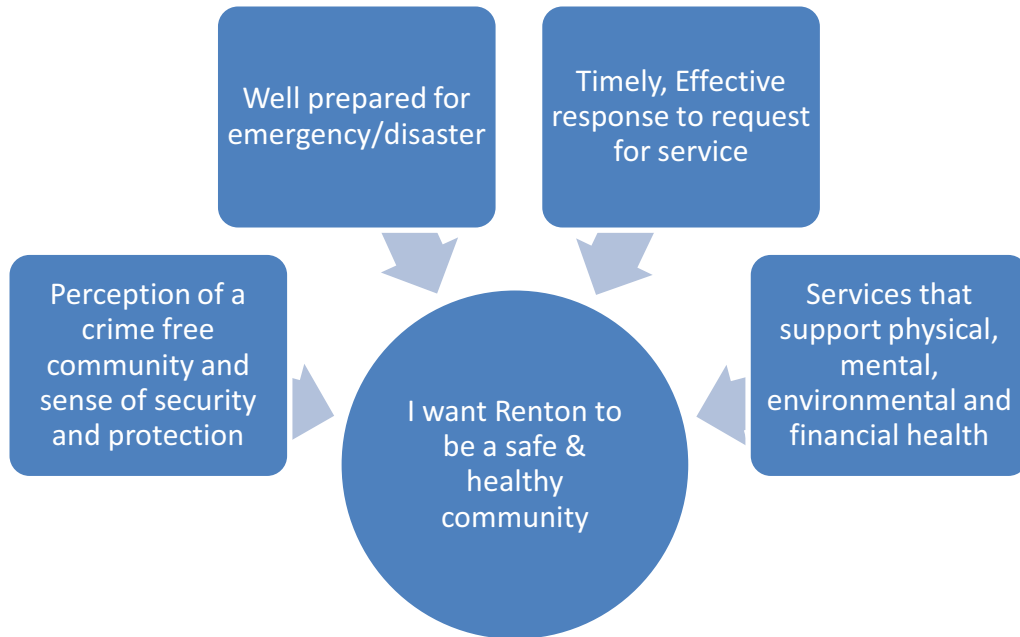

Indicators of Progress

(Task for Results Team: the left column represents all the “safety and health” indicators. What are the 10 key indicators that show we are succeeding at having a safe and healthy community?)

INDICATORS	DATA TO BE COLLECTED
1. Livability of homes and structures	<ul style="list-style-type: none">• Code enforcement• Housing repair• Preparedness• Inspections
2. Increasing feeling of community and individual safety	<ul style="list-style-type: none">• Preparedness plan• Survey
3. Timely responsiveness and “Projection of effort”	<ul style="list-style-type: none">• Police• Fire• Code enforcement• General government
4. Well maintained public spaces	<ul style="list-style-type: none">• Recreation and recreation participation• Park access• Perception of crime free community

Cause and Effect Map

The Cause and Effect Map is a visual representation of the cause and effect to reach an outcome. This pathway shows the relationship between the **desired results**, factors would **influence** our abilities reaching the desired results, and the key the **indicators** can help us measure if we are reaching the desired result.

Influences

Influences are the factors that are important contributors to the desired result. The primary influences that are critical to making Renton a safe and healthy place to live, work, learn, play, and visit include:

- Perception of a crime free community and sense of security and protection.
- Well prepared for emergency/disaster.
- Timely, effective responses to requests for services.
- Services that support physical, mental, environmental, and financial health.

Purchasing Strategies

We are seeking program specific offers that will contribute to Renton achieving the desired results and which address the following strategies as they relate to specific outcomes. Interdepartmental programs that foster partnership and collaboration will receive additional rating points in the evaluation process.

Purchasing Strategy 1. We are seeking offers that encourage the community to self help as well as programs that promote prevention and education.

- Organize and support of community based prevention, self-help, and recovery assistance programs such as Community Emergency Response Team (CERT), Community Organizations Active in Disaster (COAD), and other community partnerships.
- Neighborhood based programs that promote communication/connection, safety, and clean and attractive neighborhoods.
- Education and outreach programs that help the community better prepare for physical, environmental, financial threats, and events.

Purchasing Strategy 2. We are seeking offers that provide timely, responsive help when the community at large, cannot help themselves.

- Response to calls.
- Response to major incidents/disasters.
- Plan and train for orderly and safe evacuations.
- Provide for emergency human service needs and or provide for the basic needs.

Purchasing Strategy 3. We are seeking offers that aids in recovery and restoration for individuals and businesses after disaster strikes.

- Provide temporary shelters.
- Programs that would help individual and businesses be more self reliant during and after disasters.
- Programs that would expedite the reconstruction, restoration, and recovery processes.
- Programs that would help businesses and individuals return to productive, contributing members of the community.
- Provide information and referral services of resources available.
- Programs that link residents to services/information and referral.

Purchasing Strategy 4. We are seeking offers that encourage residents and businesses to comply with local, state, and federal laws such as:

- Code enforcement.
- Prosecution.
- Probation.

Purchasing Criteria/Consideration:

The City will purchase offers based on proposals that:

1. Respond directly to the purchasing strategies.
2. Demonstrate a clear and direct contribution to achieving the core or City service area.
3. Improve customer and public services.
4. Demonstrate options to “scale” the offer based on level of service, focusing on how to meet the mandatory nature of the program, or based on resources available.
5. Encourage community, regional, and interdepartmental collaboration and partnerships.
6. Leverage resources.

7. Innovative and creative results with an emphasis on cost effectiveness are encouraged.

2010 Program Offer Feedback Form
Safe and Healthy Community

Offer Number	Offer Description	Responsive	Priority Tier (H/M/L)	Comments/Feedbacks
100002.0008	Probation		M	Almost cost neutral and it is less than being an inmate. Some discussion needed regarding staffing.
100004.0003	Business Licensing		M	Provides income and licensing and the business needs to meet standards to obtain a license. Focus on why licenses are required – to ensure businesses located in appropriate land zones. The outcomes should relate to how successful the licenses are in doing this. Perhaps a better fit in Livable Community service area.
100006.0001	City Attorney Prosecution		H	More description of legal assistants' roles.
100007.0001	Code Enforcement program1, 3, 4		M	
100007.0002	Building Permits and Inspection Program1,2,3		M	Revenue for fees about match the expenditure. Jurisdiction must permit according to the code, plus pay for itself. It helped to clarify that the permits are in response to people asking for something. Discussion around that the City does not charge for the full cost of permits/inspection and our cost is less than other cities. Can be scheduled and delayed.
100008.0001	Police Administration		H	This program may be a better fit in Internal Services service area for consistency with other departments. Some confusion with multiple programs covering different elements of police administration functions.
100008.0002	Harbor Patrol / Mercer Island PD Contract		M	
100008.0003	Valley Communications		H	
100008.0005	Investigations		H	
100008.0006	Evidence Function		H	If there is investigation and prosecution then there needs to be a process for evidence collection and retention.
100008.0007	Domestic Violence Victim Advocate		M	Nothing in proposal about the rate of DV in City-how half cases in court are DV related-and cost of DV to City-and how this position is both prevention oriented and helps prosecution to prosecute cases. How many cases are filed?
100008.0008	Directed Enforcement Team (DET)		H	
100008.0009	Crime Analysis		M	Not sure why this is a separate proposal as position supports different division-might be too hard for budgeting purposes. Suggest including with other programs such as administration or DET.
100008.001	Wipe Out Graffiti		L	
100008.0011	Special Enforcement Team (SET)		H	Are these officers also part of uniform patrol? Program description makes this sound the same as DET.
100008.0012	Valley Narcotics Enforcement Team		M	Told that if we did not participate in the task force the City would lose millions of dollars that they get for the big drug busts. Nothing in proposal says how much the task force recovered/Renton's share/number of drug busts per year.
100008.0013	P.A.T.R.O.L.		M	Told it was critical because of the high rate of car thefts. Nothing in proposal that gave number or told of what impact this had for the average Renton resident.

Offer Number	Offer Description	Responsive	Priority Tier (H/M/L)	Comments/Feedbacks
100008.0016	Community Programs		M	
100008.0018	Administrative Services		H	Not sure why training staff included in program description. Why is this a separate program from Police Administration? The offer description is vague, should be more relevant to what it does.
100008.0019	Patrol Services		H	Value of performance measures may be unclear to the public. Confusion between this and patrol operations. This is traffic and making sure roadways are coned properly. Asked about overtime and was told that a lot of it is related to traffic fatalities and the time it takes to clean up/report accident sites. No data on how many traffic related fatalities there are in a year. Where is the revenue from tickets?
100008.0021	Auxiliary Services - Jail		H	
100008.0022	Electronic Home Detention Program		H	
100008.0024	Parking Enforcement		M	One person that generates a lot of tickets and revenue for the City-that was the rationalization for why we need it. Wonder if the residents would agree?
100008.0025	Staff Services		H	Why is this a separate program from Police Administration?
100008.0026	Animal Control		M	
100008.0027	Patrol Operations		H	Criminal Patrol. Work on crimes in process. Overtime related to having to do paperwork for crimes, after shift has ended. How often does this happen...what measures can be done to help officers complete reports during shift?
100008.0028	Training Officer		M	Different program name suggested, such as Training, or Police Training. Perhaps not a separate program, include as part of other Administration related programs. Told that this is critical because of potential liability. Lawsuits claim poor training is why City should be liable. How many lawsuits are filed against pd in one year? Is it more or less than other departments? I don't understand why a separate position is needed, and why management can't do this part of their jobs. Or if it is that critical, why isn't this a City wide position tied to where the City is most liable?
100009.0002	Administrative Services for F&ES		H	Perhaps better included in the Internal Services service area for consistency with other departments.
100009.0003	EMS and Fire/Rescue Services for City of Renton		H	This is several programs combined, and should be separated. Fire response services is a different program than medical response service, and should be listed and evaluated separately. Told that the overtime is if someone calls in sick and for cleaning up after fires. How many fires does Renton have in a year where it is needed? That many people out at one time, that can't move firefighters around, is one sick or administration can't fill in?
100009.0004	Emergency Management for the City of Renton		M	Not mandated. Outcomes are outputs. Wonder how having this division is "value added" to the public.
100009.0005	Fire Code Inspection/Enforcement and Invest.		M	City needs to comply with uniform fire codes but does not specify how quickly we need to do it. Brings in revenue. Roll into or with building inspection. Use on duty firefighters.
100009.0006	EMS and Fire/Rescue Services for KCFD #25		H	It is not clear to me where Fire District 25 is. When I asked, there was confusion as to if this was a newly annexed area or not. The cost is the City's portion. Cost neutral.

Offer Number	Offer Description	Responsive	Priority Tier (H/M/L)	Comments/Feedbacks
100009.0007	EMS and Fire/Rescue Services for KCFD #40		H	Is not clear to me where Fire District 40 is. Confusion as to if this part of the newly annexed area or not. Where are these stations located?
100009.0008	F&ES Health & Wellness Fund		L	This is not a program. Belongs as a benefit line item in administration budget, or another fire service related program. Put in administration program. Why does City pay for this, it is their job.
100020.0002	Serving vulnerable/low income-1,2,3		M	Not mandated, why does City pay for it?
100020.0009	CDBG-0		M	It is not clear why CDBG has a proposal but other grants that the City receives aren't in separate offers.

City of Renton

2010 Request for Results

Representative Government

Desired Results

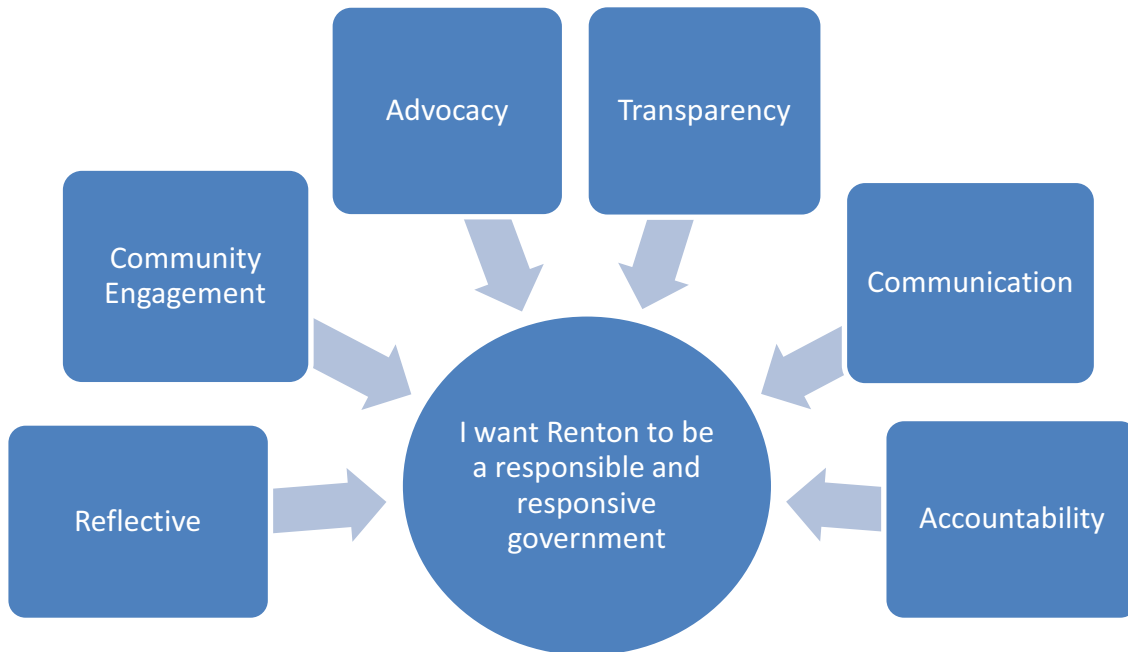

I want Renton to be a responsible and responsive government.

Indicators of Progress

(Task for Results Team: the left column represents all the “representative government” indicators. What are the 10 key indicators that show we are succeeding at having a representative government?)

INDICATORS	DATA TO BE COLLECTED
1. Customers experience timely response in an accessible, fair, and respectful manner	<ul style="list-style-type: none"> • Survey data • Number of complaints • Number of concerns • Number of language presentations
2. Achieve the City’s desired outcomes at the state, regional, and federal levels	<ul style="list-style-type: none"> • Legislative agenda items accomplished
3. Build community pride and capacity through volunteer and community partnerships	<ul style="list-style-type: none"> • Report pride and positive image, number of volunteers and volunteer time, amount of money or in-kind services leveraged/donated, and number of partnerships
4. Effective and responsive communications that supports and values dialogue	<ul style="list-style-type: none"> • Items sent out, press releases, attendance at Council and other meetings, surveys - do they feel they influence decisions, complaints vs. population, correspondence, web analytics, response to notifications, use of referendums and initiatives
5. High degree of confidence in stewardship of City resources	<ul style="list-style-type: none"> • Balance budget, bond rating, meaningful and transparent, survey questions, code of ethics, meet legal mandates, number of lawsuits and claims against the City

Cause and Effect Map

Influences

- Policy and program decisions reflecting community values.
- Opportunities for the public to be engaged in operations, understand, and influence City government.
- Community interests in regional, state, and federal forums.
- Open, accessible, and consistent decision process.
- Clear and effective two-way communication using a variety of methods.
- Policy and fiscal accountability to stakeholders.

Purchasing Strategies

We are seeking program specific offers that will contribute to Renton achieving the desired results and which address the following strategies as they relate to specific outcomes. Interdepartmental programs that foster partnership and collaboration will receive additional rating points in the evaluation process.

Purchasing Strategy 1. We are seeking proposals that provide for policy and program decisions reflecting community values.

- Informed decisions reflecting community values.
- Realistic capacity, resources, and staffing.

- Timely responses to requests.
- Educating customers and staff on what the policies/processes are and what to expect?
- Fair and open government.
- A way to accept ideas and thoughts from our community (intake/out take process defined).

Purchasing Strategy 2. We are seeking proposals that provide opportunities for the public to be engaged in operations, understand, and influence City government.

- Timely responses to requests.
- Create new volunteer opportunities to effectively engage more people in the community.
- Proactive, accessible communications using a variety of channels to inform and engage the City's diverse population .
- Provide for support and training of program leaders, volunteers, and commissioners.
- Process that is timely and fair and communicated to staff and customers.
- Provide open and transparent decision processes.
- Provides for the public to participate and influence City government.
- Provide for the development of partnerships that will assist with or offset the cost of providing services.

Purchasing Strategy 3. We are seeking proposals that advocate community interest in regional, state, and federal forums.

- Increase amount of funding from outside sources.
- Set strategic internal agendas and policy development.
- Track successes, not just participation. Should be measured in results and quality, not in quantity of how many forums we participate in.
- Selective participation.
- Listen to the community.

Purchasing Strategy 4. We are seeking proposals that provide open, accessible, and consistent decision processes.

- Transparent and consistent decision processes.
- Answers to inquiries are timely and accurate.
- Flexible and respectful.
- Processes that are fair, timely, and communicated to staff and citizens.

Purchasing Strategy 5. We are seeking proposals that provide clear and effective communications that uses a variety of channels and supports and values dialogue with our community.

- Proactive, accessible communications using a variety of channels to inform and engage residents, businesses, key stakeholders, including the City's diverse population.
- Two-way flow of information, both internally and externally, with opportunities for customers to communicate with City officials, departments, and staff.
- Answers to inquiries are timely and accurate.

- Relevant and timely communication to residents, businesses, and key stakeholders.
- Allows for the public to provide information and feedback to City officials and staff.

Purchasing Strategy 6. We are seeking proposals that provide policy and fiscal accountability to stakeholders.

- Fiscal accountability, provide financial numbers in a way that is understandable and includes what we do, why we do it, and how we are doing it.
- Transparency of numbers.
- Communicating to customers in a way that they can understand and includes what we do, why we do it, and how we are doing it.
- Not hiding our decisions.
- Get feedback from the public earlier than the budget public hearing stage.
- Ask the customers what do they want.
- Making informed policy decisions, not just quick ones.

Purchasing Strategy 7. We are seeking proposals that leverage partnerships with members of the public, business community, non profits, and faith based organizations, to increase capacity and assist with or offset the cost of providing services.

- Develop public-private entrepreneurial partnerships.
- Create goodwill in the community.
- Are cost-effective.
- Provide for acceptance of gifts, grants, and endowments.

Purchasing Criteria/Consideration:

The City will purchase offers based on proposals that:

1. Respond directly to the purchasing strategies.
2. Demonstrate a clear and direct contribution to achieving the core or City service area.
3. Improve customer and public services.
4. Demonstrate options to “scale” the offer based on level of service, focusing on how to meet the mandatory nature of the program, or based on resources available.
5. Encourage community, regional, and interdepartmental collaboration and partnerships.
6. Leverage external resource.
7. Show innovation and creativity in approach to delivery of results.

**2010 Program Offer Feedback Form
Representative Government**

Offer Number	Offer Description	Responsive	Priority Tier (H/M/L)	Comments/Feedbacks
200001.0004	Legislative	N – weak	M/H	More details to answer purchasing strategies and address questions (who, what, why, and how).
200002.0001	Court Administration	N	M/H	Need performance measures that are quantitative and customer service orientated.
200002.0004	Infraction Processing + 0.5 JUDGE	Y	H	Performance measures should include goals and quantitative results.
200002.0006	Criminal Case Processing + 0.25 Judge	Y	H	Performance measures should include quantitative measures and customer service responses to include jurors.
200003.0001	Communications - External Relations	Y	M/L	
200003.0002	Executive	Y	H	Could the customer service aspect be merged with the Communications Department, at some point?
200003.0005	CABLE COMMUNICATION FUND	Y	M/L (revenue neutral)	Needs more details to answer purchasing strategies and to answer questions (who, what, why, how). Needs performance measures. Is this required? (The proposal is revenue neutral, but it would be nice to have more information.)
200003.0007	Court Public Defenders	Y	H	Mandated by law. Need performance measures.
200006.0001	City Attorney Civil	Y	H/M	
200007.0001	Intergovernmental Relations ^{1, 2, 3, 5}	Y	M/H

200012.0001	Legislative Support	N	L/M	What are the legal requirements for this proposal? Needs more information to answer purchasing strategies. Needs performance measures.
200012.0002	Elections and Voter Registration	N	M	Please clarify nature of mandate. Could this be done via other means more effectively? Need performance measures and answers to the purchasing strategies as they relate to Representative Government.
200012.0003	Official Functions and Office Administration	N	M	Please add City Clerk to title. Performance measures should be addressed with quantitative measures and goals.
200012.0004	Information Center	N	L/M	Please add more information to performance measures.
200020.0001	Community Engagement-1,2,5,7	Y	M/H	

City of Renton
2010 Request for Results

LIVABLE COMMUNITY

Desired Results

I want high quality facilities, services, and public resources to make Renton a place where people choose to live, learn, work, play, and visit.

Indicators of Progress

INDICATORS	DATA TO BE COLLECTED
Vibrant and diverse economy	<ul style="list-style-type: none"> • No single employment sector exceeds 40% of the total number of jobs in the City.
Managed growth	<ul style="list-style-type: none"> • GMA/King County growth targets met. • Short, mid-, and long-term actions. • Established and completed in community and comprehensive plan. • Meet established benchmarks for timely processing of land use and building permits. • Number of projects that demonstrate quality development.
Strong sense of community	<ul style="list-style-type: none"> • Support for attendance at community programs, activities, and events. • Community satisfaction with arts, culture, recreation, and events (survey). • Public-private partnerships.
Diverse learning and enrichment opportunities	<ul style="list-style-type: none"> • Support for attendance at learning and enrichment opportunities. • Community satisfaction survey. • Collection / resource care and maintenance.
Nothing but clean, safe, healthy, and well-maintained places	<ul style="list-style-type: none"> • Community satisfaction survey. • Program request and completed orders. • Complies with codes and standards. • Information in languages other than English.

Cause and Effect Map

Influences

- Vibrant and diverse economy.
- Managed growth.
- Avenues for residents to meet social, educational, personal, and professional needs including community engagement and dialogue.
- Arts, culture, and intellectual enrichment opportunities.
- Clean, safe, healthy, well-maintained, and accessible public places that connect communities.

Purchasing Strategies

We are seeking program specific offers that will contribute to Renton achieving the desired results and which address the following strategies as they relate to specific outcomes. Interdepartmental programs that foster partnership and collaboration will receive additional rating points in the evaluation process.

Purchasing Strategy 1. We are seeking proposals that create a vibrant and diverse local economy.

Specifically proposals for/that:

- Foster thriving businesses and help create new family wage job opportunities.
- Support entrepreneurial activity and innovation.
- Enhance tourism through community marketing.
- Provide strategically targeted infrastructure in order to spark new private and intergovernmental investment.
- Encourage and help create safe, well-maintained, and affordable housing.

- Provide opportunities for individual professional development and support partnerships to strengthen workforce development.

Purchasing Strategy 2. We are seeking proposals that support managed growth.

Specifically proposals for/that:

- Foster development of vibrant, sustainable, attractive, mixed-use communities throughout the City.
- Provide a balance between housing and high-quality jobs.
- Maintain services to current residents while welcoming annexation areas that desire to become part of Renton.
- Ensure compliance with all federal, state, and local laws that relate to planning and permitting.
- Ensure the natural features and environment of the City are enhanced and maintained.

Purchasing Strategy 3. We are seeking proposals that provide avenues for residents to meet their social, educational, personal, and professional needs and that foster community engagement and dialogue.

Specifically proposals for/that:

- Are inclusive of all ages, abilities, and cultures.
- Welcome new participants and forge new relationships among residents.
- Provide diverse recreational, intellectual, cultural, and artistic activities and programs.
- Strengthen and encourage a sense of belonging through volunteerism and neighborhood involvement.
- Provide opportunities for social interaction, shared experiences, and cultural exchange.

Purchasing Strategy 4. We are seeking proposals that provide opportunities for learning and enrichment.

Specifically proposals for/that:

- Provide diverse intellectual, cultural, artistic, and recreational activities and programs that meet the needs and interests of the public.
- Promote opportunities for shared experiences, cultural exchange, social interaction, and volunteerism within the community.
- Develop and maintain collections of materials and resources that support the intellectual and informational needs of the public.
- Incorporate public art into the design and creation of community spaces.
- Support formal education, life-long learning, and personal growth

Purchasing Strategy 5. We are seeking proposals that create clean, safe, healthy, well-maintained, and accessible places.

Specifically proposals for/that:

- Clean, safe, well-maintained, and accessible parks, open spaces, trails, facilities, right-of-ways, and other city properties.
- Public and private development that are accessible to all, are well-landscaped, and easily maintained.
- Provide safe, accessible, well-maintained, and healthy recreational programming and facilities to engage, challenge, and bring together members of the community to promote personal well-being.
- Incorporate sustainability in design of facilities to adapt to change and meet community needs.
- Uphold a high standard of design and property maintenance throughout the City.

Purchasing Criteria/Consideration:

The City will purchase offers based on proposals that:

1. Respond directly to the purchasing strategies.
2. Demonstrate a clear and direct contribution to achieving the core or City service area.
3. Improve customer and public services.
4. Demonstrate options to “scale” the offer based on level of service, focusing on how to meet the mandatory nature of the program, or based on resources available.
5. Encourage community, regional, and interdepartmental collaboration and partnerships.
6. Leverage external resources.
7. Show innovation and creativity in approach to delivery of results.
8. Ensure communication with internal and external stakeholders.

**2010 Program Offer Feedback Form
Livable Community**

Offer Number	Offer Description	Responsive	Priority Tier (H/M/L)	Comments/Feedbacks
300007.0003	Long Range Planning1, 2, 3, 4, 5	Yes	H/M	Includes mandated processes, can position City for next round of economic activity
300007.0005	Current Planning1, 2, 4, 5	Yes	H	Includes mandated processes, customers want clear, predictable process
300007.0006	Hotel/Motel Fund1	Yes	H	Budget neutral program Program benefits City as a whole
300007.0007	Arts & Culture3, 4	Yes	M/L	Program focuses mostly on CED's efforts
300007.0008	Farmers Market1, 3, 4	Yes	M	Community loved service Program generates revenue that covers most of costs
300007.0009	Neighborhood Program3, 4, 5	Yes	M	Community loved program Program supports efforts of most departments throughout the City
300007.001	Economic Development1, 2	Yes	H	Efforts are important to be able to pay for other programs Updated purchasing strategies from 3 to 2
300007.0011	1% for the Arts3, 4	Yes	M	Amount invested is small compared to result of improvement of projects
300020.0003	Museum- 1,3,4	Yes	M/L	Weighted towards M, only program in City that performs recording and preservation of materials Updated purchasing strategies to include 1, 4
300020.0004	Library-1,3,4	Yes	H	Community loved service but also important resources for job seekers in this economy Updated purchasing strategies to remove 5
300020.0005	Parks and Trails Program-1,2,3,4,5	Yes	H	Community loved service, need still exists for services in newly annexed areas and for other services
300020.0007	Com Relations and Events-1,2,3,4	Yes	M	Updated purchasing strategies to remove 5 Generates visitors that is important to City image & income
300020.0009	Aquatics-1,3,4,5	Yes	M	Updated purchasing strategies to include 1 Community loved service, generates revenue
300020.001	CARCO THEATER-3,4,5	Yes	M/L	Community loved service, questioned ability for other groups in town to provide similar services
300020.0011	RECREATION SERVICES-3,4,5	Yes	H/M	Community loved services, can others in community provide similar services (probably not)
300020.0012	RENTON COMMUNITY CENTER-3,4,5	Yes	H	Community loved center, serves as "heart" of the community, wished there was more centers to serve residents
300020.0013	SENIOR CENTER-4,5	Yes	H	Community loved center, helps with well being of residents Updated purchasing strategies to remove 6
300020.0015	LEASED FACILITIES-0	No	N/A	No program description, should this be in internal services?
300020.0027	Community Services - Admin	Yes	H	Lacks details of what this includes. Leadership & support services necessary to run dept

Other comments:

- It was unclear how to rank the proposals against the others in the Livable Community or against all programs in the City. Also how to account for programs that generate revenue, revenue neutral, or from other fund sources.
- The group struggled with not having enough information to understand the cost-benefit of each program. Many thought this was a better way to prioritize use of limited funds.
- In the future, it would be helpful to have additional information about which positions are the FTE.
- It was difficult truly ranking proposals without knowing the proposal options. Some programs may be low priority, but if an adjustment meant that they were able to achieve similar results with less resources (or different resources), then the prioritization of the program may have been higher.
- More lead time is needed in this process. There wasn't enough time for programs to truly work across departments to have the discussions on ways to collaborate or to get feedback on program changes.
- Some gains in efficiency require upfront costs. How can programs address this barrier?
- Administrator proposals should be consistent across the City; currently some are in internal services, some costs spread across all programs, and some in service areas.

City of Renton 2010 Request for Results

Mobility

Desired Results

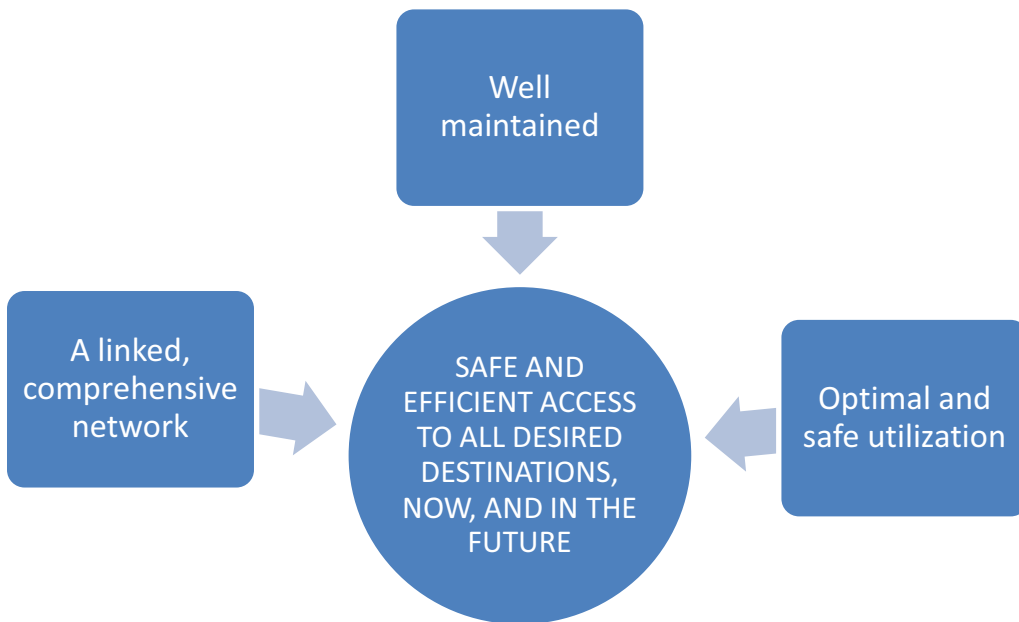

Safe and efficient access to all desired destinations, now and in the future.

Indicators of Progress

(Task for Results Team: the left column represents all the indicators. What are the 10 key indicators that show we are succeeding at having a safe and efficient system?)

INDICATORS	DATA TO BE COLLECTED (EXAMPLES)
1. Linked mobility network that connects to public and major facilities	<ul style="list-style-type: none"> • Participation in regional forums in planning and funding. • Monitoring of project progress and fiscal status. Customer surveys.
2. Well-maintained condition of the mobility infrastructure	<ul style="list-style-type: none"> • Pavement condition. • Square feet of pavement maintained and repaired. Square feet of ROW landscape maintained.
3. Optimal and safe operation of mobility infrastructure	<ul style="list-style-type: none"> • Incident reports, accident data, speed reports, violations. • Operational data square feet sidewalks/trails constructed/re-constructed. • Customer surveys.

Cause and Effect Map

Influences

- A linked, comprehensive network.
- Well maintained.
- Optimal and safe utilization.

Purchasing Strategies

We are seeking program specific offers that will contribute to Renton achieving the desired results and which address the following strategies as they relate to specific outcomes. Interdepartmental programs that foster partnership and collaboration will receive additional rating points in the evaluation process.

Purchasing Strategy 1. : We are seeking proposals that provide for the development of a linked network of regional, community, and neighborhood streets, sidewalks, trails, and airport that connect to public and major facilities in a coordinated , safe, and accessible manner.

Specifically, proposals should:

- Meet basic core needs for business, personal travel, movement of goods, and recreation.
- Meet the growth needs of the community.
- Integrate the City's mobility network with that of the region.
- Fill gaps in the existing infrastructure.
- Maintain high level of quality assurance in providing new facilities.
- Support the City's Business Plan.

Purchasing Strategy 2. We are seeking proposals that provide well-maintained mobility infrastructure (streets, sidewalks, trails, transit, and airport).

Specifically, proposals should:

- Consider life-cycle costs.
- Minimize disruptions to existing system use.
- Maintain the infrastructure.
- Reduce unsafe conditions.

Purchasing Strategy 3. Optimal and safe utilization of a mobility network (streets, sidewalks, trails, transit, and airport).

Specifically, proposals should:

- Optimize the utilization of the existing network.
- Account for aesthetics and the environment .
- Maximize safety without the use of enforcement.
- Utilize enforcement to proactively achieve compliance for safety.
- Where applicable, manage demand for the mobility infrastructure through heavier utilization of transit, promotion of non-motorized travel, or other means.

Purchasing Criteria/Consideration:

The City will purchase offers based on proposals that:

1. Respond directly to the purchasing strategies.
2. Demonstrate a clear and direct contribution to achieving the core or City service area.
3. Improve customer and public services.
4. Demonstrate options to “scale” the offer based on level of service, focusing on how to meet the mandatory nature of the program, or based on resources available.
5. Encourage community, regional, and interdepartmental collaboration and partnerships.
6. Identify and leverage external resources (grants, local improvement or benefit districts, volunteers, labor, equipment, e.g.).
7. Consider innovative and non-conventional (“out of the box”) approaches to delivery of results.
8. Ensure that any disruptions to the existing network – repairs, special events, new construction – are well coordinated with citizens, businesses, and public safety agencies.

2010 Program Offer Feedback Form
Mobility

Offer Number	Offer Description	Responsive	Priority Tier (H/M/L)	Comments/Feedbacks
400016.0002	Transit Coordination/Commute Trip Reduction	H	L/M	May be mandated but can perhaps address compliance through very minor perfunctory effort. The citizen would not see a major city role in transit coordination believing this to be Metro's role.
400016.0003	Sidewalk Planning and Design Program	H	H	Comments were addressed.
400016.0004	Trail Planning, Development and Maintenance	H	H	Comments were addressed
400016.0006	Building the Mobility Network.	H	H	Comments were addressed
400016.0007	Bridges and Guardrails	H	H	Comments were addressed
400016.0008	Street Maintenance (Engineering Support)	L	L	Consider combining with Street Maintenance and not have it as a separate offer.
400016.0009	Trans Operations Maintenance Section	H	H	Better title. Relate to maintenance of traffic control devices and signals.
400016.001	Trans Operations Engineering Section	H	H	Add Community Services to departments coordinated.
400016.0011	Airport Operations	H	H	Without Boeing, team thought the priority would be Low. Point out that this uses funding from leases and grants, not general fund.
400019.0001	Street Maintenance	M	H	Vegetation Control is now in Parks based on a recent ordinance. Add metrics for miles of roads and sidewalks maintained. Language should be less "whiney." Quantify how many incidents responded to.
400019.0002	Public Works Maintenance Administration	L	M	Difficult to see relevance to Mobility request for proposal. Explain better. Break out the part of this which is Mobility alone, without the other Utility and Fleet functions.

**City of Renton
2010 Request for Results**

Utilities and Environment

Desired Results

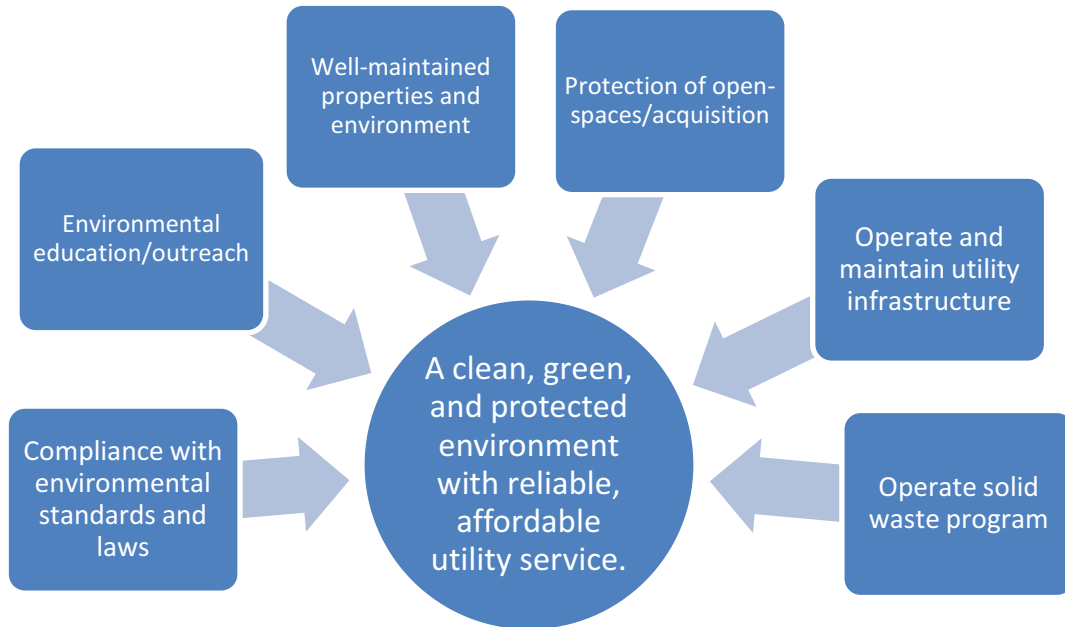

I want to live, learn, work and play in a clean, green, and protected environment with reliable, affordable utility service.

Indicators of Progress

INDICATORS	DATA TO BE COLLECTED
1. Quality cleanliness and appearance of environment	<ul style="list-style-type: none"> • Customer survey.
2. Number/amount of paid claims against Utility Systems infrastructure	<ul style="list-style-type: none"> • Number of claims submitted and dollar amount of claims.
3. Sustainable utility rates	<ul style="list-style-type: none"> • Renton water/sewer/garbage rate for average residential user compared to other local jurisdictions.
4. Reduction in peak water use	<ul style="list-style-type: none"> • Peak day and week water usage. • Irrigation volume.
5. Code compliance cases completed	<ul style="list-style-type: none"> • Number of open cases compared to completed/closed cases.
6. Satisfaction score on open space distribution	<ul style="list-style-type: none"> • Customer survey.

Cause and Effect Map

A visual representation of the cause and effect to reach an outcome. This pathway shows the relationship between the influences, indicators, and reaching the desired result.

Influences

Influences are the factors that are important contributors to the desired result. The primary influences that are critical to making Renton a safe place to live, work, play and visit include:

- Compliance with environmental standards and laws.
- Environmental, conservation education, and outreach.
- Well-maintained neighborhoods, properties, and environments.
- Protection of open space/acquisition.
- Operate and maintain piped utility infrastructure.
- Manage solid waste.

Purchasing Strategies

We are seeking program specific offers that will contribute to Renton achieving the desired results and which address the following strategies as they relate to specific outcomes. Interdepartmental programs that foster partnership and collaboration will receive additional rating points in the evaluation process.

Purchasing Strategy 1. Develop a program to ensure compliance with environmental Standards and laws.

Specifically, proposals should provide:

- Proper implementation of SEPA process.
- Timely response to code enforcement issues.
- Implementing appropriate protection measures for erosion control and wetlands and stream buffers.

Purchasing Strategy 2. Develop environmental and conservation education programs.

Specifically, proposals should:

- Promote conservation including incentive programs.
- Promote reduce, reuse, and recycle concepts.
- Promote environmental stewardship and sustainability.
- Meet regulatory and permit requirements.

Purchasing Strategy 3. Develop a program that

- Provides for safe and well-maintained neighborhoods, properties, and environments.
- Promotes low impact landscape practices.
- Works with business and property owners to ensure compliance with code and maintenance to create safe, healthy, and attractive properties throughout the city.

Purchasing Strategy 4. Provide for enhanced open space within the City by

- Developing a plan to identify and acquire open space and natural systems.
- Preserving and protecting open space and natural systems.
- Acquiring new open space and natural systems.

Purchasing Strategy 5. Develop a program for the City's piped utility infrastructure that

- Operates and maintains the infrastructure so that it works effectively and reduces maintenance costs.
- Provides for planning, design, and construction of infrastructure improvements and upgrades to meet standards, regulations, and growth and system sustainability.
- Complies with federal, state, and local regulations.

Purchasing Strategy 6. Develop a program to efficiently manage the City's solid waste that

- Administers and enforces the City's solid waste collection contract.
- Increases recycling, waste reduction, and reuse as alternatives to disposal.
- Provides assistance to the public to resolve issues regarding solid waste service.

Purchasing Criteria/Consideration:

The City will purchase offers based on proposals that:

1. Respond directly to the purchasing strategies.
2. Demonstrate a clear and direct contribution to achieving the core or City service area.
3. Improve customer and public services.
4. Demonstrate options to “scale” the offer based on level of service, focusing on how to meet the mandatory nature of the program, or based on resources available.
5. Encourage community, regional, and interdepartmental collaboration and partnerships.
6. Leverage external resources.
7. Show efficiency, innovation, and creativity in approach.

City of Renton 2010 Request for Results

Internal Support

Desired Results

Provide City departments with the means to operate efficiently and effectively in a safe and stainable manner.

Indicators of Progress

(Task for Results Team: the left column represents all the indicators. What are the 10 key indicators that show we are succeeding at having an effective and efficient government?)

INDICATORS	DATA TO BE COLLECTED
1. Price of government	<ul style="list-style-type: none"> • Total City taxes and fees. • Aggregate personal income.
2. Debt financing as % of capital investments	<ul style="list-style-type: none"> •
3. Citywide productivity loss due to disability and sick leave	<ul style="list-style-type: none"> • Disability and sick leave usage at hourly rate.
4. Facility cost per square feet	<ul style="list-style-type: none"> • Offices maintenance and operations and major maintenance cost per square feet.
5. Fleet cost per vehicle	<ul style="list-style-type: none"> • Total maintenance and operations and replacement (in-lieu of depreciation) costs/vehicle.
6. Information technology cost/employee	<ul style="list-style-type: none"> • Total maintenance and operations and PC replacement costs.
7. Online services availability	<ul style="list-style-type: none"> • On-line mapping, permits, and billing.
8. Customer satisfaction on having means to operate effectively and efficiently	<ul style="list-style-type: none"> • Survey.

Cause and Effect Map

A visual representation of the cause and effect to reach an outcome. This pathway shows the relationship between the influences, indicators, and reaching the desired result.

Influences

Influences are the factors that are important contributors to the desired result. The primary influences that are critical to making Renton an efficient and effective government:

- Highly qualified, healthy, well trained, and productive workforce.
- Functional work environment.
- Fiscal accountability.
- Safeguard public interests and assets.
- Equipment and data that is reliable and accessible.

All of the above should be delivered in a manner that fosters:

- Cooperative and collaborative relationship.
- Quality and cost effective solutions (*consider centralized vs. decentralized and contracting service models*).

Purchasing Strategies

We are seeking program specific offers that will contribute to Renton achieving the desired results and which addresses the following strategies as they relate to specific outcomes. Interdepartmental programs that foster partnership and collaboration will receive additional rating points in the evaluation process.

Purchasing Strategy 1: Programs provide a highly qualified, healthy, well trained, and productive workforce including:

- Attract and retain highly qualified applicants and employees.
- Encourage and support both professional and personal development.
- Ensure a quality work environment both physically and mentally.
- Enhance collaborative relationships between the City and the labor organizations.

Purchasing Strategy 2: Programs that strive to provide a functional work environment

- New buildings and retrofits built to LEED/Energy Star certification standard.
- Reasonable environment (temperature, air/water quality, cleanses) based on government-recommended (GSA) standards.
- Efficient, effective, and accessible work environment for employees.
- Capital Investment Program and major maintenance decisions made on basis of life cycle cost analysis.

Purchasing Strategy 3: Programs ensure fiscal accountability

- Cost effective government services.
- Transparent, timely, and accurate fiscal processes and financial information.
- Clean audit.
- Strong bond rating.

Purchasing Strategy 4: Programs safeguard public interests and assets

- Legal counsel and advice to support City legislative and executive operations.
- Fair and accurate legal advice to City staff.
- Fair and efficient prosecution services.
- Manage City's exposure to nature and manmade disasters through appropriate balance between risk retention/transfer.
- Collect City revenues and manage City funds.
- Maintain and preserve City facilities and other public assets.
- All land survey public documents are reviewed to ensure City required elements are met.
- Protect City's interests in City held properties, easements, and associated rights.
- Legislative support.

Purchasing Strategy 5: Programs provide equipment, data, and support that is reliable, accessible, and secure.

- Appropriate equipment for service delivery.

- Technology for efficient communication and operation.
- Efficient storage, archival, indexing, and retrieval of data and records.
- Own, operate, and maintain various data sets, software applications, and user applications for Citywide use.
- Mapping product services across all City departments from multiple agencies and resources.
- Standardization of equipment and software applications.
- Clear, concise, and centralized communication strategy to provide cohesive communication for department-wide programs and priorities.
- Expand/Enhance online services to internal and external customers.

Purchasing Criteria/Consideration:

The City will purchase offers based on proposals that:

1. Respond directly to the purchasing strategies.
2. Demonstrate a clear and direct contribution to achieving the core or City service area.
3. Demonstrate innovative (“out of the box”) approaches in service delivery that will generate cost savings or require less resources without sacrificing quality of service.
4. Improve internal customer and public services.
5. Improve external customer services.
6. Demonstrate options to “scale” the offer based on level of service, focusing on how to meet the mandatory nature of the program, or based on resources available.
7. Encourage community, regional, and interdepartmental collaboration and partnerships.
8. Leverage external resources.

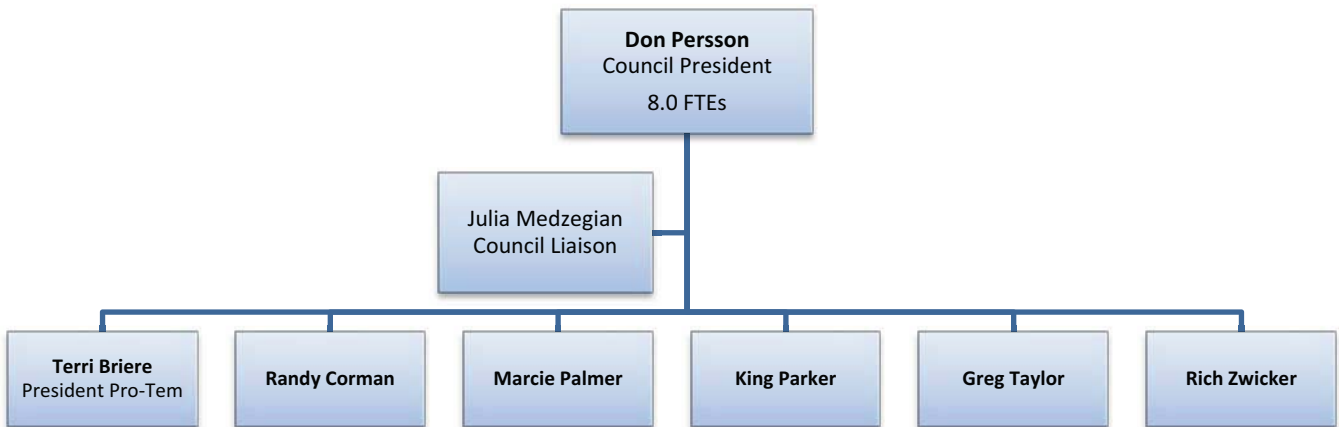

2010 Program Offer Feedback Form
Internal Support

Offer Number	Offer Description	Responsive	Priority Tier (H/M/L)	Comments/Feedbacks
600003.0001	Communication - Multi Media	Yes	M	Consider separating Print Shop into separate offer. Recommend highlighting potential cost savings and consider including language for a needs analysis as part of work.
600004.0003	Applications and Database Services	Yes	H	Add as a measure – Implementing new software.
600004.0004	Enterprise GIS	Yes	M	
600004.0005	Service Desk Support	Yes	H	Group would like to see additional staffing, including permanent staff, added to this program to increase efficiency and effectiveness.
600004.0006	Asset, Debt, and Treasury Management	Yes	H	
600004.0007	Payroll	Yes	H	
600004.0008	Budgeting and Financial Planning	Yes	M	Group was split between high and medium on this offer.
600004.0009	Accounting and Auditing	Yes	H	
600004.001	Finance Operations	Yes	H	
600004.0011	Finance Administration			Not rated – Group recommends that admin be split amongst other offers for that department.
600004.0013	Network Services	Yes	H	Group struggled with what the offer truly entailed. Recommend a rewrite of offer to emphasize the critical and basic services offer provides.
600004.0014	Telecommunications	Yes	H	
600004.0015	Security Services	Yes	H	Group recommends that offer be re-written to an audience of non-technical folks.
600004.0017	General Government Debt			Not reviewed, group felt this offer was not even an option and as such just needs to be implemented.
600005.0003	Other City Svc Employee Termination Pay			Not reviewed, group felt this offer was not even an option and as such just needs to be implemented.
600005.0004	LEOFF 1 Medical Obligation			Not reviewed, group felt this offer was not even an option and as such just needs to be implemented.
600005.0013	Association Dues and Contracted Services	N/A	L	Group rated this offer low in order to get next level review to take a hard look at each of these items to determine necessity.
600006.0002	City Attorney Administration			Not rated – Group recommends that admin be split amongst other offers for that department.
600007.0001	CED Administrative1, 2, 3			Not rated – Group recommends that admin be split amongst other offers for that department.
600007.0002	Technical and Property Services4	Yes	H	
600012.0001	Records Management	Yes	H	
600014.0001	Employment Law	Yes	H	
600014.0002	Recruitment & Selection	Yes	L	Given current economic conditions, this offer appears to be a lower priority at this time.
600014.0003	Classification and Compensation	Yes	M	
600014.0004	Labor Relations	Yes	H	

Offer Number	Offer Description	Responsive	Priority Tier (H/M/L)	Comments/Feedbacks
600014.0005	Risk Management	Yes	H	
600014.0006	Workers' Compensation and Safety	Yes	H	
600014.0007	Benefits	Yes	H	Group feels this program should be continually reviewed and scrutinized to minimize costs while providing appropriate benefits.
600014.0008	Wellness	Yes	L	Group felt this item to be a low priority during current economic times.
600014.0009	Training	Yes	L	Group felt this item to be a low priority during current economic times.
600014.001	HR/RM Administration			Not rated – Group recommends that admin be split amongst other offers for that department.
600014.0011	Employee Recognition and Orientation	Yes	L	Group felt this item to be a low priority during current economic times.
600015.0001	Public Works Administration			Not rated – Group recommends that admin be split amongst other offers for that department.
600016.0001	Trans Operations Internal Support Services	Yes	H	
600019.0001	Fleet Services	Yes	H	
600020.0003	Custodial Services-2	Yes	H	
600020.0004	Facilities Technical Maintenance-2	Yes	H	

BUDGET BY DEPARTMENT

Legislative

Legislative

Mission Statement

The City Council assesses the needs of the public and sets priorities; develops and adopts the annual budget, ordinances, resolutions, and policy alternatives to meet those needs, consistent with City goals and objectives; and provides coordination and evaluation of programs and service objectives.

2009 Accomplishments

**Adopted the recommendations of the Highlands Phase II Task Force.
Designated a portion of the NARCO property as an off-leash pet area.**

Approved the following:

- Earlington Annexation and related zoning.
- Duvall South Annexation.
- Honey Creek Estates Annexation and related zoning.
- Sunset East Annexation and related zoning.
- Bob Singh preliminary plat; nine single-family lots on 2.14 acres.
- White Fence Ranch Sanitary Sewer Extension Special Assessment District.
- Central Plateau Interceptor Phase II Special Assessment District.
- A \$100,000 Housing Opportunity Fund grant award to the Renton Housing Authority for the proposed Edmonds/Glenwood affordable housing project.
- With conditions, the Altmyer Preliminary Plat, a proposed 21 lot subdivision.
- Interlocal agreement with King County Fire District #40 regarding the transfer of district assets to the City.
- Springbrook Terrace Annexation and related zoning.
- An agreement to accept \$2,831,500 in grant funds from the Transportation Improvement Board for the Rainier Ave. S. improvement project.
- Petitions, by election, of the West Hill and Greater Fairwood Communities annexations.
- With conditions, the Welman Preliminary Plat, a 25 lot subdivision.

-
- The 2010-2015 Six-Year Transportation Improvement Program.
 - Shamrock Annexation and related zoning.
 - Interlocal agreement with the King County Flood Control Zone District for Opportunity Fund projects.
 - Highlands Water Main Improvements Special Assessment District.
 - Baxter Lift Station Replacement Special Assessment District.
 - Contract for the development of a Community Investment Strategy for the Sunset Area of the Renton Highlands.
 - Contract to implement Phase I of the Surface Water Utility Storm System Inventory Mapping project.
 - A Memorandum of Understanding with Renton Technical College to continue the work of the Renton Small Business Development Center.
 - City of Renton Trails and Bicycle Master Plan.
 - Puget Sound Energy Conservation Grant to accept \$257,988 for heating, ventilation, and air conditioning upgrades at the 200 Mill Building.
 - The first round of 2009 Neighborhood Program grants in the total amount of \$50,660.
 - Contract to develop a Museum Master Plan.
 - Washington State Department of Transportation grant to accept up to \$2 million for the Rainier Avenue South Improvement Project - Phase I Shattuck Ave. S. Stormwater Bypass System.
 - Establishment of the Earlington Sanitary Sewer Interceptor Special Assessment District.
 - Contract with King County to accept \$1,170,657 for basic life support services for 2009.
 - Agreement with the Washington State Military Department to receive up to 75 percent of eligible non-insurance covered damages for the January 2009 storm event.
 - Amendment extending the City Center Park and Ride Garage Agreement with King County.
 - Mackay Annexation; approximately 7.4 acres.
 - Contract for the 2009 Wastewater Lift Station Pre-Design project.
 - Langley Meadows Final Plat; a 70-lot subdivision.

Authorized the following:

- The utilization of \$187,932 in grant funds to upgrade approximately 51 City traffic signals/pedestrian crossings to light emitting diode (LED), saving approximately \$26,265 annually in energy costs.
- The creation of the South Correctional Entity Facility Public Development Authority (SCORE) relating to the regional misdemeanor jail facility.

Awarded the following Contracts:

- Gene Coulon Memorial Beach Park - Asphalt Pathway Repaving project.
- The 2009 Street Overlay with Curb Ramps project.
- Gene Coulon Memorial Beach Park - Fishing Pier Repair & Boathouse Walkway Mitigation project.
- Maplewood Creek and Madsen Creek Sediment Basin Cleaning Project 2009.
- Seismic Retrofit of Renton Fire Station #11 contract.
- Runway 15/33 Resurfacing contract.
- Downtown Wayfinding Signage project.

Accepted the following:

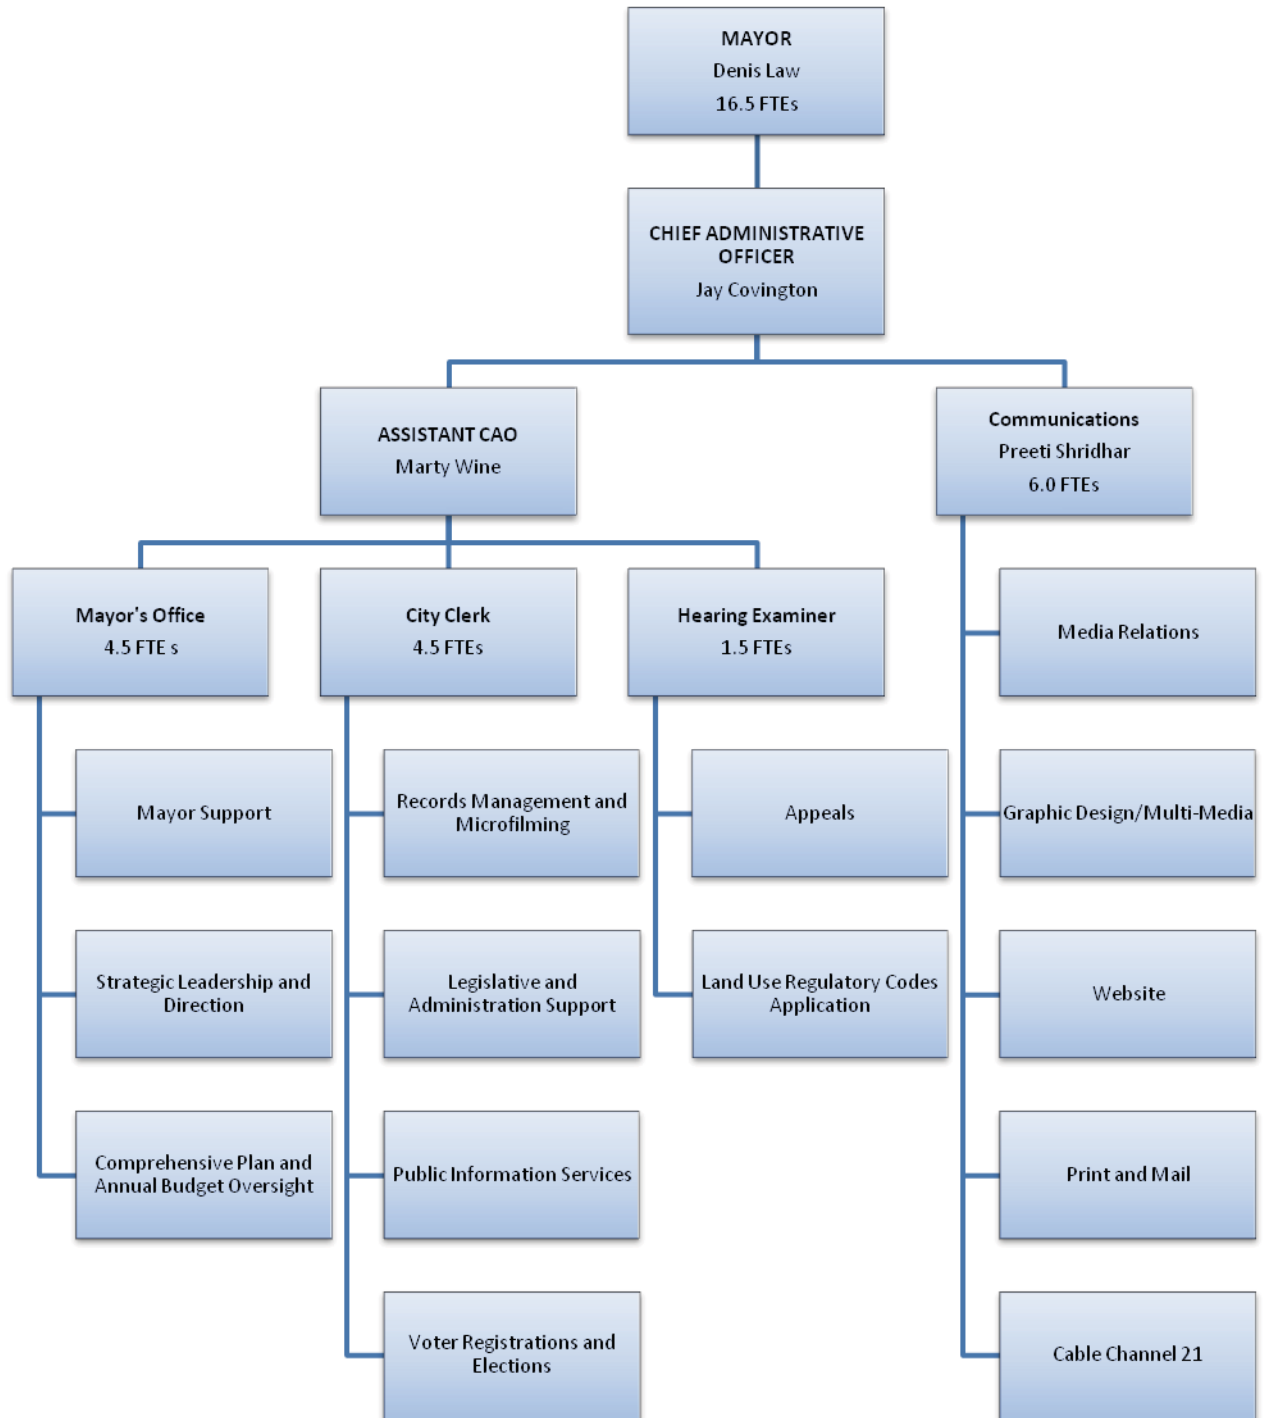

- \$1,644,972 in grant funds from the Federal COPS Hiring Recovery Program to reinstate four previously unfunded police officer positions, and authorize funding for two other police officer positions.
- \$109,696 in grant funds from the Washington State Department of Homeland Security for support of the emergency management program.

- Amendments to the Park Rules and Regulations.

Highlight of Budget Changes:

- Moved 4 positions/FTEs from Fire, Finance and Information Technology, and Community Services to the newly created Communications division which increased Regular Salaries, Personnel Benefits, Supplies, and Other Services and Charges
- Removed Court Services from the Executive Department. Court Services is now reported as a separate department
- Intergovernmental Services increased because of higher city general/special elections due to increased population and King County Library System elections which will be held in February of 2010. These increases amount to \$225k
- Interfund Payments increased due to new Internal Service Fund charges from Insurance (\$20k), Communications (\$337k) which is primarily in non-department expenditures, and Facilities (\$189k)
- Reduced staffing by 1.5 FTEs due to budget reductions

Mayor's Office

Mission Statement

Provide executive leadership and management for the City of Renton government to act strategically, implement decisions efficiently and accurately, apply City policies uniformly, and achieve City goals expeditiously.

2009 Accomplishments

Administration

- Support the Mayor and Council, and coordinate input of Department Administrators, in continuous refinement of the City's Business Plan.
- Ensure achievement of the City's goals and objectives by appropriately placing authority, assigning accountability, and monitoring performance.
- Provide strategic leadership and oversight for the City's annual budget, comprehensive plan, and business and operational plans scheduled for implementation during 2009.
- Inform State and Federal legislators about Renton's needs and interests to gain maximum legislative and funding assistance for the City.
- Provide strategic leadership and direction on regional, state, and national issues, including transportation, land use, annexation, and sales tax streamlining.
- Coordinate effective interdepartmental planning and intergovernmental agreements related to potential annexations.
- Implement Renton Results internally, a community accountability effort designed to creating a results-oriented performance measurement program.
- Provide direction and coordination for all Departments/Divisions to articulate desired outcomes for core services, based on citizen understanding and input and on best management practices; manage City operations toward achievement of those outcomes.
- Provide excellent service to internal and external customers; ensure that citizen concerns are addressed accurately, sensitively, and in a timely manner.
- Continue the redesign of the City's website with a user-centered navigation, unified image, and increased ability to interact with the City using up-to-date technology.
- Coordinate the City's messages and standardize formats and styles; find ways to reduce cost while maintaining high quality.

2010 Goals

- Support the Mayor and Council, and coordinate input of Department Administrators, in continuous refinement of the City's Business Plan.
- Ensure achievement of the City's goals and objectives by appropriately placing authority, assigning accountability, and monitoring performance.
- Provide strategic leadership and oversight for the City's annual budget, comprehensive plan, and business and operational plans scheduled for implementation during 2009.
- Assess the character of City services and programs and prepare recommendations to City Council to guide decisions on level of effort and resource allocation.
- Disseminate public information through press releases, community news sources, employee news sources, the City's website, and other media.
- Deliver a balanced long-term funding plan for the City's major annexation areas.
- Seek input from City and potential annexation area residents to understand the desired level and quality of City services.

- Develop a service and funding partnership with King County to provide information inside and outside the City about the future service impacts of growth and annexations.
- Develop a community involvement approach for Renton Results, a community accountability effort designed to creating a results-oriented performance measurement of city services.
- Begin the concept and design for an enterprise-wide customer service initiative focused on responsive, excellent customer service. Ensure that citizen concerns are addressed accurately, sensitively, and in a timely manner.

City Clerk

Mission Statement

The Office of the City Clerk is dedicated to supporting governance and the legislative process, maintaining and preserving the City's official records, assisting and informing the public, coordinating elections, and carrying out official duties with integrity, as required by law and policy, and to meet the needs of the citizens, Mayor, City Council, and City administrative staff.

2009 Accomplishments

- Implemented electronic system citywide to support the agenda bill process
- Utilized a part-time temporary employee to help address backlogged microfilm work due to having unfilled positions;
- Drafted citywide contract and bidding policy revisions
- Trained new Records Management Coordinator
- Developed online, searchable, public access to Ordinances, Resolution, minutes, and agenda packets

2010 Goals

- Continue to enable accessibility of City government to the citizens
- Update Councilmember Desk Manuals
- Respond to increasing Records Requests and maintain official City records as required by law
- Update records retention schedules to reflect department reorganizations and state changes
- Train city staff on agenda, contracts, and records processes
- Maintain services and legal mandates with reduced staffing
- Work toward Electronic Imaging Systems certification to allow creation of microfilm from scanned images

Communications

Mission Statement – *The mission of the Communications Division is to*

- *Provide Renton residents with critical and relevant information on a timely basis*
- *Make residents aware of opportunities to be involved with their community*
- *Position Renton as a unique urban center and destination—a great place to shop, work, live, learn and play*
- *Facilitate a two-way dialogue between city government and residents*
- *Enhance communications at and among all levels of city government and ensure coordinated and consistent communications*

2009 Accomplishments

- Created the new Communications Division to ensure strategic and coordinated communications for the City.
- Developed and implemented strategic communications for key issues including the Mayor's State of the City address, budget, the new garbage and recycling service, various emergencies, Renton Heart Month, the Wipe-Out Graffiti campaign, Seahawks Training Camp, Renton Film Frenzy, Shop Renton Campaign, key events such as Fourth of July, Renton River Days, Museum Key Ingredients and more.
- Developed and implemented the video-technology plan for Channel 21; contracted with Puget Sound Access for channel operations; currently enhancing content development and production.
- Received grant for Americorps volunteer and developed communications and outreach program to reach diverse communities.
- Created and implemented the public information and communications strategy for Green River Potential Flooding.
- Completed the Communications Continuity of Operations Plan.
- Established and implemented an effective media relations strategy; Issued 86 news releases in 2009 with a 100% being published in the Renton Reporter; received regional press including television stories for major stories; reached out to minority communities with contacts in 14 foreign language media and publications; published monthly Op-Eds in Renton Reporter
- Enhanced the City's website with multi-media features including photo & video albums, online forms, and quick links for easy navigation; added online features including animal and business licenses, crimereports.com, court payments and more.
- City averaged nearly 700,000 unique page views per month in 2009.
- Developed City of Renton's online privacy policy.
- Launched electronic employee newsletter Grady Grapevine; provided daily employee updates through e-grapevine
- Created a standard graphic design to brand city's communications, ensure consistency and better alignment, streamline process and establish standards and protocols for the use of logo, website address, ADA information, etc.; trained staff to use standard software and follow consistent design guidelines; created new letter-head and stationary standards.
- Mailed Renton CityNews to nearly 45,000 residents on a regular basis; established annual strategy and content planning for citywide newsletter.
- Distributed targeted direct mail on a range of issues.
- In coordination with CED, established the City of Renton presence and a large fan base on Facebook, Twitter and You-Tube.
- Created a city-wide informational display that was used at several community events.

- Assured that print/mail requests were delivered within four business days of submission.

2010 Goals

- Develop and implement comprehensive communications strategies on key issues.
- Implement citywide prioritization of print jobs; streamline print operations and use of technology to make print operations more efficient and sustainable given current resources.
- Provide opportunities for staff development – encourage training and professional development opportunities for staff.
- Develop 2010-2011 web plan.
- Launch electronic communications/listserv strategy
- Continue to explore ways to adapt communications to the new ‘digital democracy’ and the new technology of communications.
- Implement City-wide communications policies and guidelines.
- Enhance Channel 21 operations and productions for more robust cable-programming and video-streaming.
- Develop an ongoing relationship with community liaisons representing Renton’s diverse communities and organizations.
- Continue to work on Emergency Communications Operations Plan.

Court Services

Court Services

Mission Statement

Perform all court functions in accordance with national standards for the benefit of court users and the general public.

Description

The Renton Municipal Court is a court of limited jurisdiction that handles traffic infractions, traffic citations, and criminal citations issued in the City.

The Patrol services program is wholly funded by the revenue collected for Red light photo vendor pay - \$1,420,022.

Court Services Performance Measures:

Program Area	Performance Measures	2008	2009	2010
Court Administration	Judge must stand for election every four years	N/A	TBD	TBD
	Monitor Court compliance with annual expenditure budgets and applicable city policies	N/A	TBD	TBD
	Track age of active caseload and time to disposition for comparison to national standards	N/A	TBD	TBD
Infraction Processing and Criminal Case Processing	Request input regarding efficient use of time and satisfaction of the treatment by court employees from those involved in the court process	N/A	TBD	TBD
	Measure resident's satisfaction with timeliness and completeness of information requested from the court	N/A	TBD	TBD
	Obtain information regarding participant's ability to access and understand the court process as a participant or observer, etc	N/A	TBD	TBD
Probation	Obtain baseline information from probationers regarding their opinions of the probation process for them. Is it a good use of their time, does it help them stay in compliance, were they referred to proper treatment, etc. Follow up periodically especially after any changes.	N/A	TBD	TBD
	Through utility billing, survey public regarding knowledge of and expectations for probation and other criminal justice functions.	N/A	TBD	TBD
	Survey various treatment agencies regarding differences in patient/client behavior in those on probation in Renton vs. other cities and those not on probation.	N/A	TBD	TBD

Highlight of Budget Changes:

- Regular Salaries and Personnel Benefits decreased due to reduction of 1 Probation Clerk
- Overtime increased by \$20k due to increase in court filings
- Other Services and Charges increased by \$50k to account for additional costs related to Photo Enforcement processing
- New Internal Service Fund charges from Insurance (\$29k), Communications (\$31k), and Facilities (\$191k) attributed to Interfund Payments increasing

2009 Accomplishments

- Continue staff training in response to changes in the City Code and the Revised Code of Washington and available technology.
- Upgrade court sound system in order to increase recording clarity to enable defense of appeals by City Attorney.
- Explore models for scanning court records in order to gain the efficiencies of dealing with fewer paper files and documents.
- Partner with law enforcement and the prosecutor to begin processing "eTickets." These electronically produced tickets will eliminate double data entry, reduce filing time, and reduce errors of all parties.

2010 Goals

- Develop and implement methods to set baselines for budgetary performance measures.
- Continue staff training efforts. Due to budgetary constraints move toward online training when available
- Utilize grant funding to develop initial and implement initial portion of City-wide Imaging and Document Management System.
- Grant funding will be used to fund new Probation Case Management system.

City Attorney

City Attorney

In 2009, the City Attorney Department was moved in house (formerly called Legal Services under the Administrative, Judicial, and Legal Services).

Mission Statement

Provide quality legal representation to the City and its employees in a timely, effective, and positive manner.

Description

The City Attorney Department provides legal advice to the City Council, administration, and boards and commissions, prepares legislation, brings and defends lawsuits, and prosecutes cases in the municipal court.

	Attorneys are available within the week to meet with any department or division needing legal assistance	N/A	95%	95%
	The number of pre-approved contracts, legislation and code compliance forms and pleadings is expanded appreciably	N/A	TBD	TBD
City Attorney Administration	The Civil Section meets its performance measures	N/A	TBD	TBD
	The Prosecution Section meets its performance measures	N/A	TBD	TBD
	The staff is trained and cross trained and performance evaluations are timely performed	N/A	TBD	TBD

Highlight of Budget Changes:

- Regular Salaries and Personnel Benefits decreased to be more in lined with actual costs
- Other Services and Charges decreased due to the Facilities Internal Service Funds managing the facility costs which has been moved to Interfund Payments
- Interfund Payments increased due to Insurance (\$20k), Information Technology (\$44k), Facilities (\$188k), and Communications (\$2k) service charges being allocated

2009 Accomplishments

- Transitioned City Attorney services from contract to City employee status.
- Provided routine ordinance drafting and contract review within one week of receipt and complex matters within two weeks.
- Supported the City Council and its committees with prompt research, legal opinions, draft ordinances, and attendance at committee meetings.
- Provided training to a City department on a substantive area of the law at least twice.
- Kept up with changes in statutory and case law and provided information concerning the changes to the department administrator for dissemination. And, if needed, make recommendations for the department administrator's consideration.
- Aggressively defended and prevailed on administrative appeals.
- Provided continued legal advice, assistance and litigation for code compliance.
- Reduced reliance on paper by using technology, where possible.
- Switched to electronic files for municipal court case management.
- Reorganized the department to provide an attorney as the primary point of contact for each department
- Finalized the Minimum Property Maintenance Code.
- Revised the Business License Code.
- Handled the increased caseload in Renton Municipal Court created by the Benson Hill Annexation.
- Settled successfully the Yakima jail case.
- Finalized the Pro-Flight lease.

2010 Goals

- Successfully defend the photo enforcement cases.
- Review City code for changes in penalties to infractions.
- Draft necessary changes to the enforcement provision in the code.
- Train staff for redundancy in skills, particularly legislation.
- Provide routine ordinance drafting and contract review within one week of receipt and complex matters within two weeks.
- Support the City Council and its committees with prompt research, legal opinions, draft ordinances, and attendance at committee meetings.
- Provide training to a City department on a substantive area of the law at least twice.
- Keep up with changes in statutory and case law and provide information concerning the changes to the department administrator for dissemination. And, if needed, make recommendations for the department administrator's consideration.
- Aggressively defend and prevail on administrative appeals.
- Provide continued legal advice, assistance and litigation for code compliance inspectors.
- Reduce reliance on paper by using technology, where possible.
- Switch, partially, to electronic files for municipal court case management.

Community and Economic Development

Community and Economic Development

Mission Statement

Enhance the vitality and livability of the Renton community by promoting a prosperous economy and quality neighborhoods, through economic development, sound urban planning, and streamlined land use regulation.

Description

In 2008, the Economic Development, Neighborhoods, and Strategic Planning Department merged with the Development Services Division of the Planning, Building, and Public Works Department to become the Department of Community and Economic Development (CED). In early 2010, the Property/Technical Services Division moved to CED's Planning Division from the Public Works Department.

The Department of Community and Economic Development (CED) initiates and leads economic development, land use planning and permitting, and regulation of all aspects of the development process, while working with neighborhoods and the business community to enhance the economic prosperity, vitality, and livability of the community for Renton citizens.

In addition, CED coordinates the City's intergovernmental relations, advocating Renton's interest at the county, regional, state, and federal levels, coordinates the Renton Community Marketing Campaign, which is funded in part by the City's Lodging Tax, and provides staff support for the Renton Farmers Market and the City's Planning and Municipal Arts Commissions.

Coordination amongst the three CED divisions and its 15 programs is essential as each has an important role to play in achieving the Vision, Mission and Goals of the City. CED plays a leadership role in the fulfillment of a significant number of the City's Business Plan Goals and Action Items. All five Business Plan Goals are directly related to the work of CED's programs.

Highlight of Budget Changes:

- Regular/Part-Time Salaries, and Personnel Benefits decreased because of the following position reductions:
 - Senior Planner (1), Engineering Specialist III (1), Property Services Specialist (1), Plan Reviewer (3), Construction Inspector II (2), Building Inspectors/Combination (2), Associate Planner (1), Economic Development Specialist (1), Neighborhood Program Specialist (Reduced from 1 to 5), Assistant Planner (1), Planning Technician I (1), Lead Office Assistant (1), Secretary II (2)
- Regular Salaries and Personnel Benefits increased due to a move of FTEs from the Technical Services section under Utility Systems to the Community and Economic Development department. (Mapping Coordinator (1), Property Services Specialist (1), and Engineering Specialist III (2)).
- Interfund Payments increased because of new charges for Facilities (\$167k), Communications (\$26k), Insurance (\$109k), Information Technology (-\$6k) and a decrease in Fleet Services by (-\$46k).

Administration Division

Mission Statement

Provide leadership, resources, and regional influence to enable the Department to meet its responsibilities in a manner that is responsive to the needs of its customers and consistent with the City's Business Plan Goals.

2009 Accomplishments

- Closely monitored expenditures and revenues to keep within budget even though revenues were significantly lower than 2008.
- Worked with C7 New Energy Partnership, a consortium of seven Eastside cities to develop energy efficiency programs in the region. Renton obtained \$617,500 in federal stimulus funding through this effort.

2010 Goals

- Continue to work within CED and all city departments to maximize employee satisfaction and performance and find additional organizational and system improvements and efficiencies.

Economic Development and Neighborhoods Division

Mission Statement

Enhance the vitality and livability of the Renton community by promoting a prosperous economy and quality neighborhoods.

2009 Accomplishments

Economic Development

- Continued to strengthen ongoing business recruitment and retention/expansion program, including assisting several new companies as well as long-term employers facing business challenges or considering relocation. Spearheaded efforts to retain employers in the Valley and minimize recruitment fallout from significant real estate market impacts of potential flooding due to vulnerabilities at the Howard Hanson Dam. Office vacancy rate remained relatively low (7.5%), compared with other cities in the Puget Sound region. Assisted several existing employers with expansion projects, including Valley Medical Center, Walmart, First Savings Bank, Microscan, Kaye-Smith, Safeway, Puget Sound Blood Center and Cascade Lanes. Successfully recruited new employers and assisted with openings of the largest Harley Davidson in the Northwest and destination retailer Uwajimaya to Renton Village, which is stimulating additional new tenancing at this shopping center.
- In partnership with the Renton Community Marketing Campaign, Renton Chamber of Commerce and Renton Reporter, led and executed the “Shop Renton, Buy Ahead of the Curve” program and effectively used the related CurveCard tool to support local businesses. More than 65,000 CurveCards were distributed and over 200 businesses are participating in the program. Executed business outreach programs, including promotion of Shop Renton, for neighborhood businesses throughout the city.
- Worked with the Renton Small Business Development Center (SBDC) to provide no-cost one-on-one business advisor services to area’s small businesses and entrepreneurs, including promotion of Small Business Fair and “Survive and Thrive” workshops. Successfully lobbied for \$50,000 in state funding for the Renton SBDC.
- Worked with developers of The Landing as more high quality restaurant and retail tenants held their grand openings in the 46-acre, \$300 million, mixed-use development. Assisted with successful first annual community events, including Taste of The Landing 5K Race/Block Party and holiday events.
- Assisted with hotel development efforts at Hawk’s Landing, with construction anticipated to begin in Spring 2010. Successfully lobbied for \$1.7 million in state funding for related infrastructure to catalyze mixed-use development to complement hotel.
- Worked with developer on land use submission for significant redevelopment of Quendall Terminals and successfully secured approximately \$10 million in state Local Revitalization Financing for infrastructure improvements in this area.
- Spearheaded media campaign and community mobilization surrounding Seattle Seahawks’ first Training Camp in Renton, which brought over 12,000 visitors to Renton.
- Strengthened communication and coordination with Renton aerospace companies and the statewide Aerospace Futures Alliance; was a founding member of the Washington Aerospace Partnership. Continued to facilitate strengthened relationship with The Boeing Company, including ongoing interdepartmental coordination to ensure seamless interfaces with City. Boeing continues to have over 2,100 outstanding 737 orders (worth more than \$157 billion) and launched its P-8A submarine hunter program, which will eventually be a \$44 billion program.
- In partnership with community stakeholders, continued to promote Renton as the “Center of Opportunity” through the use of a promotional video, print advertising, event sponsorship and speaking engagements. Established www.therentonformula.com to tout Renton’s relative affordability.
- Worked with local marketing firm and owners of several automotive dealers to establish partnerships and joint marketing efforts.
- Partnered with Renton Community Marketing Campaign and the Renton History Museum on successful promotion of Smithsonian Institution exhibit, “Key Ingredients, America By Food,” including broadcast from Museum of KIRO radio show and successful “Bite of Downtown” to promote Renton restaurants.
- Successfully recruited and assisted with Miss Washington pageant activities in Renton, and recruited all 2010 pageant activities to be held in Renton.

Renton Farmers Market

- Facilitated record setting vendor participation, increased diversity of goods for sale and record attendance of 4,000 each week at the Renton Farmers Market.
- Established ongoing and significant new private sector sponsorships for the Market.

Neighborhood Program

- Neighborhood Program won national recognition at the Neighborhoods USA conference, receiving 2nd place for the Picnic Program and 3rd place for the Liberty Ridge Neighborhood grant project; Renton was the only city in the nation to be awarded in two categories.
- Strengthened and expanded the Neighborhood Program, which now serves 57 recognized neighborhoods, with volunteer city staff liaisons assigned to each neighborhood, and held 19 neighborhood picnics (from 36 neighborhoods) serving nearly 5,000 people.
- Successfully promoted the Neighborhood Grant Program and funded \$83,000 toward 20 project grants and 12 communication projects.
- Launched new quarterly leadership workshops regularly provide tools and information to neighborhood leaders to ensure their success and help foster vibrant, positively engaged and connected communities.

Arts & Culture

- Launched Arts & Culture Master Plan process and strengthened Municipal Arts Commission's participation, work program and focus.
- Strengthened collaboration with arts community and built on existing partnerships with Neighborhood Program, 4Culture (King County) and State Arts Commission to identify and implement art projects and strengthen cultural activities throughout the City.
- Executed successful second annual Renton FilmFrenzy, doubling participation over first year and strengthening Curvee Awards Gala and Downtown FilmWalk.

Intergovernmental Relations

- In addition to \$1.7 million in funding for Hawk's Landing, \$50,000 for the Renton Small Business Development Center, \$10 million in Local Revitalization Financing and \$2 million in federal stimulus funding for Rainier Avenue project, successfully lobbied for \$10-20 million in state assistance with large-scale annexations and helped stimulate legislative action on managed lane/tolling the I-405 corridor to address this heavily congested corridor.

2010 Goals

Economic Development

- Attract new businesses and new development to Renton to increase employment opportunities and sales and property tax revenue, and continue to promote Renton as the "Center of Opportunity" for businesses. Continue to strengthen business retention/expansion efforts, addressing existing employers' needs as they arise.
 - Continue to foster redevelopment efforts in the South Lake Washington area, including working with the property owners and other City departments in this emerging district. Continue to help foster the successful tenanting of The Landing and Fairfield Residential developments. Work with potential developers on Phase II of Boeing surplus land to stimulate additional development adjacent to The Landing.
 - Continue to support progress at Southport, moving forward on redevelopment of portions of Puget Sound Energy property, assisting with hotel and tenant recruitment as possible, and continuing efforts to proceed with the extension of Park Avenue from The Landing to Southport.
 - Assist with successful construction of Hawk's Landing hotel and related infrastructure projects. Continue to support and help spark clean-up efforts and redevelopment of Quendall Terminals.
 - Continue work with the full range of stakeholders to stimulate further revitalization of Downtown Renton and strengthen neighborhood and commercial business districts throughout the City.
 - In coordination with the Renton Community Marketing Campaign, capitalize on completion of Valley Medical Center's \$200 million expansion project to nurture strong health services sector.
-
- Assist with successful initial implementation of Sunset Area Investment Strategy and Highlands Task Force recommendations, including pursuit of intergovernmental funding for infrastructure and other needs and support pursuit of funding for Renton Housing Authority's efforts, supporting progress on redevelopment

of Sunset Terrace and mixed-use redevelopment of these properties in the future. Encourage maximizing leveraging and coordination of City-wide and Renton School District resources and investments in this area.

- Capitalize on opportunities involved in Public Works projects such as the Rainier Avenue Improvements Project, and help execute effective business and neighborhood outreach and problem solving.
- Further establish Renton-based aerospace working group and effectively leverage participation in statewide Aerospace Futures Alliance and Washington Aerospace Partnership to retain, expand, and recruit new aerospace business.
- Expand, modify, utilize and better market existing incentives to continue to foster a diverse array of increased housing opportunities in Renton.

Intergovernmental Relations

- Advocate for the City's adopted State and Federal Legislative Agendas, with specific focus on:
 - Establishing long-term and sustainable funding for Small Business Development Center through intergovernmental and private funds.
 - Securing funding to support implementation of the Sunset Area Community Investment Strategy (see above).
 - Pursue West Hill/Skyway assistance package to help close the annexation funding gap with intergovernmental and private/non-profit funding and begin to revitalize this community.
 - Promote Renton's interests and pursue funding opportunities for infrastructure and economic development in partnership with the City's county, state, and federal representatives.

Renton Farmers Market

- Significantly increase private sponsorship funding for Renton Farmers Market.
- Continue to strengthen the economic performance of the Market, as well as systems and documentation of procedures and volunteer recruitment in order to prepare for an eventual self-sustaining model that includes City staffing but no dedicated City funding.
- Continue to increase beneficial connections between the Market and Renton businesses.

Neighborhood Program

- Serve as valuable resource to other City departments for communicating with neighborhoods on emerging issues.
- Continue to regularly provide tools and information to neighborhood leaders to ensure their success and help foster vibrant, positively engaged and connected communities -- Neighbor-to-Neighbor Leadership Workshop, quarterly leadership workshops, and access to elected officials and Administrators on individual issues and as guest speakers. Offer more leadership development opportunities to neighborhood groups.
- Increase the number of households served by recognized neighborhood associations.
- Increase the number of attendees at neighborhood picnics.
- Maintain a balanced ratio of expended grant dollars per capita and continue to stimulate creative and innovative projects throughout the City.
- Support the Community Planning Initiative and help ensure strong resident and business participation in this process.

Arts & Culture

- Continue to help foster a "creative class" and new economy environment through enhancement of arts and culture in Renton.
- Increase grant and intergovernmental revenues for the Municipal Arts Commission to implement programs.
- Successfully implement a 1% for Art project.
- Effectively execute the Arts & Culture Master Plan process to help the City and community increase and direct resources to ensure arts and culture are an integral part of the Renton community in the future.

Planning Division

Mission Statement

Direct Renton's growth based on community values, promoting a high quality of life for residents and prosperity for businesses, through sound planning and zoning, while ensuring predictability for customers.

2009 Accomplishments

Long Range Planning

- Developed a proposal to amend the City Comprehensive Plan to reflect private party and City-initiated amendments.
- Developed proposals to amend Title IV, to improve the City's Development Regulations for: Alleys in the RC, R-1, and R-4 Zones; Helipads; Comprehensive Plan and Title IV Amendment Requests Process; Complete Streets; Land Use Permit Procedures; Housing & Lot Definitions; County Vesting; Cottage Housing/Small Lot Design; Residential Design Standards; Indoor Recreational Uses; Setback Modifications; Stream Reclassification; Allow Live/Work Units; Household Pets and Medium and Large Lot Animals; Created Tier System for Temporary Uses; Downlighting; Accessory Dwelling Units; and Bulk Standards and Density Calculations.
- Continued to make significant progress to the state mandated update of the City Shoreline Master Program in accordance with State laws and guidelines and are on track for adoption in 2010.
- Developed a draft City Center Community Plan Framework based on public outreach and interdepartmental collaboration.
- Continued to work to implement the Highlands Task Force recommendations including the Sunset Area Community Investment Strategy which was adopted.

Current Planning

- Completed 68 of 70 (97%) pre-application requests within three weeks.
- Reviewed 190 of 227 (84%) new single-family permit applications within two weeks and 90 percent of new commercial permit applications within five weeks.
- Issued 36 of 48 (75%) administrative decisions within six weeks of receipt of complete application.
- Processed six of eight (75%) land use decisions requiring a decision by the Hearing Examiner within 12 weeks of receipt of complete application.
- Processed environmental and land use permits for notable projects including Hawks Landing, Chelan Creek PUD, Springbrook Ridge PUD, New Life Church, and Highlands Community Church. Completed work on the Real Estate Kiosk Sign pilot program and managed design and installation of the Seattle Seahawks Welcome sign at Lake Washington Boulevard and Seahawks Way. Continued work on the Triton Towers master plan, Cavalla preliminary plat, and Eagle Ridge PUD.

Property/Technical Services

- Developed and maintained numerous Geographic Information System (GIS) datasets, maintenance applications, and map books.
- Joined King County's Transportation Network (TNet) consortium and updated much of the data within the corporate limits of Renton.
- Created a new web based Land Information application.
- Continued maintenance of the Survey Control Network and monument network.

2010 Goals

Long Range Planning

- Complete the City Center Community Framework Plan and develop an Implementation Strategy.
- Complete the state-mandated update to the City's Shoreline Master Program.
- Work with Fire, Parks, Public Works & Utilities Departments, and School Districts to develop an impact fee program.
- Continue to update the City Comprehensive Plan to meet the state-mandated seven-year review.
- Continue to amend City Development Regulations to better implement the Comprehensive Plan by refining and streamlining the regulations, and making them easier to understand and administer.
- Process annexations as residents and property owners express a desire to become a part of Renton.
- Support implementation of the Sunset Area Community Investment Strategy. Work with the Renton Housing Authority in its efforts to redevelop Sunset Terrace housing development and initiate a programmatic, neighborhood-level Planned Action Environmental Impact Statement in partnership with Community Services (Parks) and Public Works (Transportation and Utilities) staff.

Current Planning

- Complete 80 percent or more of pre-application requests within three weeks.
- Review 80 percent of new single-family permit applications within two weeks and 80 percent of new commercial permit applications within five weeks.
- Issue 80 percent or more of administrative decisions within six weeks of receipt of complete application.
- Process 80 percent or more of land use decisions requiring a decision by the Hearing Examiner within 12 weeks of receipt of complete application.

Property/Technical Services

- Provide timely reviews of legal descriptions and subdivision and other development applications.
- Develop and complete City's monument database.
- Continue participation in the County's TNET consortium.
- Develop and maintain GIS databases, CAD, GIS software and applications, including Land Information and LAND.

Development Services Division

Mission Statement

Create and maintain a safe and pleasant physical environment by ensuring compliance with codes and land use regulations and assisting the public and the development community through the regulatory process.

2009 Accomplishments

Building Permit Review and Inspection

- Responded to nearly 100 percent of building inspection requests (16,423 out of 16,457 inspection requests) within 24 hours.
- Building permit applications for new single-family houses (236 applications) were completed in two weeks or less for all applications. Reviews for other building permits (426 applications) were completed in five weeks or less for all submittals.

Public Works Plan Review and Inspection

- Public works plan review times for construction permits were completed on average in 10 days or less. Review comments for a total of 94 land use submittals and 70 pre-application submittals were completed on time for all submittals.

Code Compliance

- Contact was made with the customer requesting assistance from code enforcement within one working day of receiving the request an estimated 90 percent of the time for the 2,952 code compliance service requests in 2009.

Average code compliance resolution remained less than 15 days, and over 80 percent of the code compliance cases were resolved through voluntary compliance. Code compliance staff continued to work with the Police Department and City Attorney's office for further action on the few cases that do not comply voluntarily.

2010 Goals

Building Permit Review and Inspection

- Respond to 90 percent of building inspection requests within 24 hours.
- Complete building permit applications for new single-family houses in two weeks or less over 95% of the time.
- Complete reviews for commercial and multi-family building permits completed in three weeks or less in for all submittals.

Public Works Plan Review and Inspection

- Complete public works plan review times for construction permits in 10 days or less. Complete review comments for land use submittals and pre-application submittals on time for all submittals.

Code Compliance

- Make contact with the customer requesting assistance from code enforcement within one working day of receiving the request 90 percent of the time.
- Achieve average code compliance resolution of less than 15 days, and over 80 percent of the code compliance requests resolved through voluntary compliance.
- Continue to become more pro-active, with more than 50 percent of code compliance cases generated without a private citizen request, and all sites with verified code compliance violations in the last year will be checked at least every three months to verify continued compliance.

Finance and Information Technology

**PW Department's Utility Systems Division funds pay for the 4 FTEs in Utility Billing.*

Finance and Information Technology

Mission Statement

The Finance and Information Technology Department serves the Renton community by providing the business processes and systems that enable the City to function as a unit in an efficient and accountable manner in proactive compliance with all laws and regulations.

Description

The department provides a centralized system of financial and technology services as described more thoroughly within our core service descriptions. Services are provided primarily to internal customers (i.e., other City departments). External services include the customer counter and utility billing services. The department operates primarily on the fifth floor of City Hall.

	Inquiries are promptly addressed.	N/A	95%	95%
	Vendors are paid accurately and timely.	N/A	95%	95%

Highlight of Budget Changes:

- Regular/Part-Time Salaries, Overtime, Personnel Benefits, and Supplies decreased due to staff reductions and the shifting of Print/Mail section from Information Technology division to the Communications division of the Executive Department. Finance and Information Technology also absorbed 1 Engineering Specialist III that was previously located in the Utility Systems Division of Public Works. This position will be part of the Enterprise GIS program
- Interfund expenditures increased because of new Facilities (\$85k) and Insurance (\$32k) charges that were previously not included in the Finance and Information Technology Department
- Other Services and Charges increased by \$371k because the Information Technology division is now responsible for all City service contracts related to information technology
- Capital Outlay decreased by \$477k due to delaying of various Information Technology Capital Investment Programs.

Finance Division

Mission Statement

Provide a high level of support to the City's customers and operations through a centralized comprehensive and integrated financial management system by providing customer service; training, monitoring, and oversight; and accountability and transparency in order to enhance the efficient use of community resources and maintain high credibility in City financial management.

2009 Accomplishments

- Received credit upgrade from Stand and Poor's for the city's Limited Tax General Obligation Bonds (from AA- to AA) and Revenue Bonds (from AA to AA+).
- Implemented priority based budgeting and modified new budgeting software to facilitate the zero-base budget development process.
- Worked with city departments to modify chart of accounts to accommodate their needs while maintaining consistency for efficient system-wide administration.
- Assisted SCORE (South Correction Entity) formation and worked in conjunction with member cities arranging nearly \$90 million in project financing.
- Converted City investment from fund based to pooled management.
- Implemented process change for on-line animal and business license renewals.
- Received clean audit report with no exceptions.

2010 Goals

- Expand on-line information and transaction services to internal and external customers.
- Implement e-billing for utility customers and licensing programs.
- Implement a biennial budgeting system.
- Provide outstanding services with reduced staffing.

Information Technology

Mission Statement

Provide communication and data support to meet or exceed departmental requirements and supply technical support services to all data and voice system users. Provide technological leadership and vision in support of the City's business plan.

2009 Accomplishments

- Work with City departments to develop a strategy for managing the City's records/documents for a more efficient archival, retrieval, and public access of the same, and inventory in compliance with federal court procedures, the state archivist, and the City Clerk's requirements.
- Work with Valley Communications to insure a seamless transition for public safety to a new computerized dispatch system.
- Implement a work force/timekeeping management program within the Fire Department.
- Continue to work with Public Works and Community Services on the successful implementation of Enterprise Asset Management (EAM).
- Improve availability and/or response time of Service Desk staff to customers in response to departmental survey of City staff.
- Begin implementation of the City's 3-Year Enterprise GIS Plan.

2010 Goals

- Implement Phase I of Enterprise GIS program.
- Assist the implementation of ePlan (electronic permit plan submittal) and expansion of ePermit (on-line permit application) process.
- Implement document management system with 2-pilot applications.

Human Resources and Risk Management

Human Resources and Risk Management

Mission Statement

The Human Resources and Risk Management Department works in partnership with Administrators and their teams, with individual employees and groups, and with employee representatives and the community to provide programs and services that create a work environment that is positive and productive and allows all employees to serve the needs of our residents.

Description

The department provides a comprehensive array of programs including Recruitment and Selection, Classification and Compensation, Employee Relations, Employee Training and Development, Property/Liability, Workplace Health and Safety, and Employee Benefits. Services are provided primarily to internal customers (i.e., other City departments). For a more detailed description see our program descriptions.

HR&RM Performance Measures:

Program Name	Performance measure	2008	2009	2010
Employment Law	Number of managers and supervisors trained during the year	N/A	0%	80%
	Overall satisfaction survey to management	N/A	N/A	75%
Recruitment & Selection	Average time to complete employment recruitment	N/A	<45 days	<90 days
Classification & Compensation	City's salary ranking compared to similar Washington cities	N/A	Above Average	Above Average
Labor Relations	Contracts negotiated	N/A	100%	100%
Risk Management	Insurance reviews completed in a timely manner	N/A	100%	50%
	Tracking, trending and analysis on an annual basis	N/A	100%	100%
Worker's Compensation and Safety	Workers' Compensation claims processed in a timely manner	N/A	100%	85%
Benefits	Increased employee understanding of health and welfare and other compensation programs	N/A	N/A	60%
Wellness	Increase participation by employees	N/A	25% Participation	30% Participation

Highlight of Budget Changes:

- Regular/Part-Time Salaries and Overtime decreased due to staff reduction of 1 Secretary II and 1 Risk Management Analyst
- Personnel Benefits includes all city departments' expenses. Increase of \$2.5 million is based on percentage increase for 2010
- Supplies increased by \$4,500 due to moving budget from Other Services and Charges to be more aligned with historical expenses
- Interfund Payments decreased because of a one-time \$5 million transfer to the Capital Investment Program (fund 318) made in 2009. Without considering this and the \$50k transfer to the Transportation Capital Investment Fund, Interfund Payments did not materially increase

Administration Division

Mission Statement

Provide a broad range of employee and risk management services in a timely, responsive, and reliable manner to employees, residents, and the general public.

2009 Accomplishments

- Reviewed and revised Human Resources policies.
- Developed and enhanced supervisory/managerial training program.
- Enhanced Human Resources technology.

2010 Goals

- Implement online application process.
- Conduct leadership training.
- Train all employees in a new "Respect in the Workplace" policy.

Benefits Division

Mission Statement

Provide comprehensive, effective employee benefit services by administering and maintaining the City's self-funded medical, dental, and vision plan, and comprehensive benefit package, which is vital for attracting and maintaining qualified staff and promoting a healthy, productive workforce. Ensure consistent, accountable compliance with federal, state, and City policies and regulations, and institute programs designed to promote the well-being of our employees.

2009 Accomplishments

- Provided comprehensive benefit information to new, current, and terminating employees.
- Developed information, links, and benefit forms on the City website for the convenience of employees.
- Expanded City Wellness program to promote and improve quality of life, reduce occurrences of illness and injury, reduce absences, and have a positive impact to the medical plan. Dramatically increased participation by City employees in wellness activities. Increased communication by creating a wellness intranet page.
- Replaced the Pharmacy Benefit Management agreement for an anticipated savings of \$140,000 per year in prescription benefits.

2010 Goals

- Facilitate FMLA and ADA training for supervisors and employees to include the updated Policies and Procedures.
- Research healthcare cost containment savings strategies.
- Increase participation in Wellness Programs, including the number of employee educational Brown Bag sessions per year.

Risk Management Division

Mission Statement

Provide comprehensive loss control services by organizing, coordinating, and directing all activities related to the Risk Management Division.

2009 Accomplishments

- Provided trained in-house ergonomic consults available upon request by City employees.
- Implemented and trained staff on revised Risk Management policies.
- Implemented annual Facility Self Inspection Program.
- Completed development of standardized contracts.

2010 Goals

- Create online claims reporting.
- All departments OSHA/WISHA compliant, with implemental policies, training, and follow-up.
- Create early return-to-work opportunities while increasing safety education to Shops, Parks, Maintenance, and Police.

Police

Police

Mission Statement

The Renton Police Department, in partnership with our community, is dedicated to preventing crime, enforcing laws, arresting offenders, resolving community problems, and improving the quality of life.

Description

The department assumes a leadership role in the community in addressing crime and safety-related concerns. This role involves implementing reactive and proactive measures to reduce both the fear of crime and actual crime in our community.

Administration Division

Mission Statement

To meet the vision of being a nationally recognized and regional leader in providing comprehensive, professional law enforcement services by preventing crime, enforcing laws, arresting offenders, resolving community problems, and improving the quality of life.

2009 Accomplishments

- A web-based crime map was developed so citizens can access the information via our web page. The web-based map information is updated daily and allows citizens to review recent criminal activity in their neighborhood.
- The city of Renton's crime rate as measured in incidents per thousand population was one of the lowest rates in south King County.
- The department's annual report was revised and published on our web page.
- The 2009 - 2014 strategic plan was completed.

2010 Goals

- Expand video surveillance capabilities in the transit center to increase the sense of safety and to reduce both the perception of crime and actual crime.
- Incorporate the newly developed Core Values across the organization.
- Plan and prepare for future growth and potential annexation.
- Enhancement of leadership capabilities department wide.

Patrol Operations Division

Mission Statement

To meet the vision of being a nationally recognized and regional leader in providing comprehensive, professional law enforcement services by preventing crime, enforcing laws, arresting offenders, resolving community problems, and improving the quality of life.

2009 Accomplishments

- Identified ways to increase productivity and efficiency. Two examples of this were the implementation of the verified alarm process and the bank alarm response procedure.
- Continued to utilize computer statistics and crime analysis to more effectively deploy resources.
- Coordinated our efforts with other divisions to address chronic policing problems within the City. One example was the joint effort of Patrol Operations, Special Operations and Crime Prevention to reduce crime and the perception of crime at several south end apartment complexes.
- Decreased both the perception of crime and actual crime in the downtown and highlands area by increasing extra patrols and special projects. The increased visibility also enhanced our relationships with residents and businesses in those areas.

2010 Goals

- Utilize crime analysis data to focus patrol efforts in problem areas.
- Increase the number of positive police contacts in areas of heightened concern, by participating in community meeting and events.
- Hire and train additional Field Training Officers in anticipation of future growth and potential annexations.
- Leverage technology to enhance efficiency: Utilize in-car video cameras and SECTOR collision/citation software to speed the processing of routine paperwork and reduce officer court time.

Special Operations Division Goals

Mission Statement

To meet the vision of being a nationally recognized and regional leader in providing comprehensive, professional law enforcement services by preventing crime, enforcing laws, arresting offenders, resolving community problems, and improving the quality of life.

2009 Accomplishments

- Worked cooperatively with the Community & Economic Development Department, City Attorney's Office, Fire Department and Community Services to address various quality of life issues, which arose throughout the year, by using the City's REACT program.
- Developed and disseminated crime analysis bulletins that were used to identify crime trends as well as prolific offenders, who accounted for a vast majority of crime occurring in the City.
- Utilized the crime analysis information by conducting proactive operations that resulted in the apprehension and conviction of numerous repeat and prolific offenders.

2010 Goals

- Work cooperatively with other City departments and various community resources to address quality of life issues through the city.
- Develop and disseminate meaningful crime analysis information to enhance the department's efforts to identify crime trends and repeat offenders.
- Deploy personnel to conduct proactive operations to observe criminal conduct and apprehend offenders by utilizing crime analysis information.
- Reduce the impact of street gangs on the community by targeting known gang members, increasing our involvement with regional gang task forces and facilitating the prompt removal of graffiti.
- Reduce the impact of drugs in our community by aggressively targeting middle and lower level drug dealers who supply our community with illicit drugs.

Patrol Services Division

Mission Statement

To meet the vision of being a nationally recognized and regional leader in providing comprehensive, professional law enforcement services by preventing crime, enforcing laws, arresting offenders, resolving community problems, and improving the quality of life

2009 Accomplishments

- Continued to develop and monitor the Photo Enforcement Program. Completed a program review after the first year of use, and made appropriate recommendations and changes in the program.
- Coordinated our efforts with other city departments to address chronic traffic problems and concerns within the city.
- Identified ways to increase productivity and efficiency by leveraging new technology for parking enforcement activities.
- Implemented technology used by State of Washington to transfer in-field data from driver's licenses and vehicle registrations onto required citations and forms.

2010 Goals

- Utilize the media as an avenue to improve communications citywide by using the city's website to post viable, current information for the citizens regarding high enforcement areas and photo enforcement enhancements or changes.
- Improve the quality of life in neighborhoods by focusing resources on areas of reported traffic-related safety and concerns and by providing an 360 degree complaint response model.
- Proactively take leadership roles in regional issues and collaborative efforts by placing resources on regional group assignments and providing high quality regional traffic related training.

Investigation Division

Mission Statement

To meet the vision of being a nationally recognized and regional leader in providing comprehensive, professional law enforcement services by preventing crime, enforcing laws, arresting offenders, resolving community problems, and improving the quality of life.

2009 Accomplishments

- Reduced the inventory of evidence/property held in property room with the addition of a third Evidence Technician. The department properly disposed of over 100 percent more items in 2009 as compared to 2008.
- Expanded the duties of Police Cadets to include the response to crime scenes.
- Worked in conjunction with the Special Operations Division and Patrol Division to identify and apprehend Top Ten Offenders (RENSAT).
- Refined the case assignment criteria based on changes to King County filing standards, Renton Municipal Court policies, and the City Prosecutor caseload levels.

2010 Goals

- Successful implementation of *Evidence-On-Q* data system.
- Increase use of Evidence Technicians to respond to incidents of crime to utilize patrol officers time more efficiently.
- Facilitate and direct the new TOP 3 program to provide attention to prioritized and specified places, problems, and/or people.
- Work together with other local agencies to create Regional Major Crime Response Team to respond to major incidents.
- Reorganize the division into two distinct units, Major Crimes supervised by one sergeant, and Property Crimes supervised by one sergeant.

Administrative Services Division

Mission Statement

To meet the vision of being a nationally recognized and regional leader in providing comprehensive, professional law enforcement services by preventing crime, enforcing laws, arresting offenders, resolving community problems, and improving the quality of life.

2009 Accomplishments

- Received a grant as part of the Federal Stimulus Package for \$1.6 million over three years for six police officer positions.
- Organized and completed a highly attended National Night Out event. Selected as a National Award Winner for “outstanding participation in the 26th Annual National Night Out crime, Drug, and Violence prevention program” by National Association of Town Watch.
- Selected and trained new members to the Training Unit, including Training Officer, Firearms Instructor, and Defensive Tactics Instructor.
- Scheduled and completed an accreditation preliminary review of the 5th edition standards.

2010 Goals

- Staff and train a new Renton police department recruiting team.
- Attract and recruit high quality personnel to meet future annexation needs.
- Conduct a Teen Citizen’s academy.
- Staff and implement a Crime Resistant Multi-Housing program upon completion of a city ordinance.
- Successfully complete an onsite inspection of Renton police department’s policies and practices by the Commission for Accreditation of Law Enforcement Agencies.

Mission Statement

To meet the vision of being a nationally recognized and regional leader in providing comprehensive and professional law enforcement services by preventing crime, enforcing laws, arresting offenders, resolving community problems, and improving the quality of life.

2009 Accomplishments

- Increased efficiencies and reduced paper consumption through expanded scanning and electronic transmission of reports.
- Reviewed public records policies to ensure compliance with the State Auditor's recommendations.

2010 Goals

- Implement MDC mobile update revision 3.1 to work in conjunction with our records management system.
- Utilize Washington state archives to store records over 3 years until destruction date.
- Fill authorized vacancy in division to reduce overtime by 60 percent.
- Utilize police cadet resources to assist with non-essential record management tasks i.e., FIRs, written warnings, and case destruction.

Auxiliary Services Division

Mission Statement

To meet the vision of being a nationally recognized and regional leader in providing comprehensive and professional law enforcement services by preventing crime, enforcing laws, arresting offenders, resolving community problems, and improving the quality of life.

2009 Accomplishments

- Began design and construction of South Correctional Entity Regional Jail (SCORE).
- Reduced the number of subjects booked/housed at the King County jail by utilizing contracted inmate space availability at other jail facilities.
- Increased the inmate capacity from 48 to 60 within the Renton jail.

2010 Goals

- Increase Electronic Home Detention (EHD) participants to a daily average of 42.
- Reduce the number of inmates out-placed to other jails by 30 percent.
- Research the possibilities of introducing a work release program when SCORE opens in June 2011.

Fire & Emergency Services

Fire & Emergency Services

Mission Statement

To maintain a safe and livable city through:

- The reduction of risks to our community;
- The efficient and effective response to escalating emergencies; and
- A culture of safety and support for our members.

Description

The department fulfills its mission through three core services: Response Operations, Emergency Management/Community Risk Reduction, and Safety and Support Services. External services include community risk reduction activities that meet the needs of our community prior to an emergency and response operations activities focused on reacting to calls for service and assisting customers as they return to a normal or better condition. Internal services focus primarily on the safety and support of department members, while maintaining effective linkage between the department and the remainder of the city.

Fire & Emergency Services Performance Measures:

Service Area	Performance Measures	2008	2009	2010
Administrative Services for F&ES	Percentage of the annual work plan goals completed within the calendar year.	N/A	90%	90%
	Percentage of required training requires no non-reimbursable expenditure of overtime.	N/A	75%	75%
	Percentage of responses to internal service requests that are filled solely through Department resources are done within 1 business day.	N/A	90%	90%
EMS and Fire/Rescue SUVs for COR	Maintain an aspirational response time goal for the first arriving unit of 7 minutes 30 seconds or better 90% of the time.	N/A	100%	100%
	Maintain an aspirational response time goal for a first alarm assignment with a minimum of 15 personnel to a working fire incident of 15 minutes and 0 seconds or better 90% of the time.	N/A	95%	100%
EMS and Fire/Rescue Svs for KCFD #40	Provide EMS response within 7 minutes 30 seconds or better 90% of the time.	N/A	100%	100%
	Provide fire response with first unit on location within 7 minutes 30 seconds or better 90% of the time.	N/A	100%	100%
	Provide full first alarm response with a minimum 15 personnel to a working fire incident of 20 minutes 0 seconds or better 90% of the time.	N/A	100%	100%

Highlight of Budget Changes:

- Overtime expenditures increased \$100k to help keep Station 14 Aid Car running and contractual obligations.
- Interfund expenditures increased because of new Facilities (\$663k), Insurance (\$260k), Communications (\$183k) and a decrease in Fleet Services by (\$365k).
- CIP expenditures increased \$260k to cover debt service on the Fire Station 13 promissory note.

Response Operations

Mission Statement

To provide efficient and effective response to escalating emergencies.

2009 Accomplishments

- Develop department specific Incident Management Field Operations Guide.
- Review and update pre-incident plans at all identified high value/high hazard occupancies.
- Initiate coordination with Valley Communications for eventual implementation of an automated pre-incident plan as part of the CAD system.

2010 Goals

- Evaluate options and implement methods to improve efficiencies in deployment models with current resources.
- Initiate development of a 5-10 year master plan for Response Operations to include a predictive model for future incident call volume patterns.
- Achieve NIMS compliance on working incidents 100 percent of the time.
- Complete specifications for a heavy rescue vehicle.
- Utilize King County pilot RAMPART project to springboard our department's public access defibrillator program to become a system-wide program.

Safety & Support Services

Mission Statement

To foster a culture of safety and support for our members.

2009 Accomplishments

- Review and revise, as necessary, probationary and performance evaluation processes.
- Transition to electronic staffing system.

2010 Goals

- Reorganize Safety/Training's recordkeeping process to include the purchase and implementation of software for required training.
- Implement and manage a three- year driver training program for all members per state standards.
- Implement an asset management system to include inventory control, budget management and protection.
- Further define the Logistics Division through new and updated policies, to include a completed Logistics Division desk manual.
- Evaluate and achieve efficiencies in the administrative function of the organization.

Emergency Management/Community Risk Reduction

Mission Statement

To work with resident and other agencies to bring about the reduction of risks to our community.

2009 Accomplishments

- Pursue Emergency Management capital investments.
- Prepare for accreditation by the Emergency Management Accreditation Program (EMAP).
- Implement a communication notification system.
- Initiate City-wide continuity of operations planning.
- Expand alternate communications capabilities for reliable use during disasters.
- Revise the Citizen CPR Program.
- Review 2009 International Fire Code and initiate local ordinance drafts.
- Recommend appropriate revisions to the fire mitigation and permit fee structures.

2010 Goals

- Develop and implement an all-hazards public awareness campaign.
- Implement a revised damage assessment process to achieve better situational awareness in an emergency.
- Recommend adoption of the 2009 Renton Fire Code.
- Conduct a major disaster exercise.
- Initiate development of a Local Emergency Planning Committee.

Community Services

Community Services

Mission Statement

Promote and support a more livable Renton community by providing recreation, library, museum, human services programs, modern parks and facilities, and undisturbed natural areas.

Description

The department is comprised of eight divisions – Parks and Golf Course, Recreation, Human Services, Museum, Facilities, Library, and Community Resources and Events, and Planning and Natural Resources. We provide opportunities for community involvement with quality of life experiences. We also provide internal support to all departments where needed. The teams are located throughout the city.

Community Services Performance Measures:

Service Area	Performance Measures	2008	2009	2010
Serving vulnerable/low income	Number of unduplicated households- Housing Repair Assistance Program (HRAP)	N/A	426	426
Community Engagement	Output leveraged dollars/volunteers	N/A	1,273,628	10% loss
Museum	Number of visitors and people served by outreach	N/A	4,500	4,800
Library	Number of items checked out	N/A	615,200	676,720
Parks and Trails Program	Overall customer satisfaction rating is good to excellent in cleanliness and appearance	N/A	80%	80%
Community Relations and Events	Event participants rate experience as satisfactory or better	N/A	N/A	80%
Aquatics	Percent of patrons who express an overall "great" or "good" rating with the pool in our annual pass card survey	N/A	98%	98%
Carco Theater	Rental and program revenues	N/A	46,000	47,000
Recreation Services	Amount of program and rental revenues	N/A	600,000	600,000
Renton Community Center	Amount of program and rental revenues	N/A	1,100,000	1,100,000
Senior Center	Daily Attendance	N/A	300	300

Golf Course	Overall customer satisfaction rating is good to excellent in cleanliness and appearance	N/A	85%	85%
Urban Forestry and Natural Resources	Customer satisfaction survey rating is good to excellent in safety, accessibility, and appearance of streets right-of-way, the downtown core, and natural areas	N/A	80%	80%
Custodial Services	IFMA 60th percentile employee sf coverage	N/A	18,000	18,000
Facilities Technical Maintenance	Number of HelpDesk Projects complete	N/A	1,945	1,945

Highlight of Budget Changes:

- Regular/Part-Time Salaries, and Personnel Benefits decreased because of the following position reductions:
 - Secretary II position (1 reduced to .50), Facilities Technician (2), Maintenance Custodian (2), and Custodial Services Supervisor (1).
 - Part-time staff reductions are outlined in the table below:

<i>Part-time Reduction</i>	Reduction Amount	Hours Reduction/\$20	FTE Hours/2080	PT/Seasonal Staff
Recreation Services	(67,200)	(3,360)	(1.62)	(15)
Carco	(10,000)	(500)	(0.24)	(10)
Aquatics	(47,000)	(2,350)	(1.13)	(18)
Senior Center	(21,000)	(1,050)	(0.50)	(1)
Renton Community Center	(16,200)	(810)	(0.39)	(1)
Total Recreation	(161,400)	(8,070)	(3.88)	(45)
Parks	(45,321)	(2,266)	(1.09)	(27)
Library	(68,815)	(3,441)	(1.65)	(6)
Museum	(8,822)	(441)	(0.21)	(1)
Total Community Services	(284,358)	(14,218)	(6.84)	(79)

Notes:

An hourly rate of \$20 used as an average hourly amount for salary and benefits.

2080 is the total number of work hours in a year.

The transfer of \$15,000 from Aquatics to Parks (Boat Launch Staff) not included.

- Supplies decreased by \$172k as part of the overall budget reductions.
- Intergovernmental services reflects an increase due to King County Library System (KCLS) cross-use study payment (\$278k) and decreased by (-\$179k) due to expiration of agreement with Renton School District #403 to provide financial support for the Renton Pool at Lindbergh High School.
- Interfund Payments increased because of new charges for Facilities (\$1.9m), Communications (\$164k), Insurance (\$139k), an increase in Internal payment for General Services (\$25k) decrease in Information Technology (-\$223k) and a decrease in Fleet Services by (-\$193k).
- Transfer out decreased due to allocation of Facilities internal services fund charges across departments (-\$4m), transfer for equipment purchases reduced to zero (-\$106k), and transfer to leased facilities reduced to zero (-\$571k).

Administration Division

Mission Statement

Provide leadership, guidance, and resources to allow the various divisions within the department to perform their respective functions in accordance with the City Business Plan, Administration and Council policy directives, and the general needs of the populations they serve.

2009 Accomplishments

- Continued documentation for five-year reaccreditation process.
- Implemented re-organization to promote better customer service and accountability.
- Participated in I4-5 interdepartmental team.
- Updated Strategic Plan
- Opening of Off-Leash Dog Park
- Recipient of Tree City USA
- Increased participation in City-wide Emergency Management efforts

2010 Goals

- Initiate new memorial/donation policy.
- Complete Park, Recreation and Open space plan to represent future needs of the community.
- Redefine level of service to coincide with 2010 budget
- Establish city-wide Special Event Ordinance
- Marketing and promoting awareness of Veteran's Park

Parks and Golf Course Division-Parks Maintenance Operations

Mission Statement

Provide a safe, clean, attractive, accessible, and well-maintained environment for the public's enjoyment of active and passive recreational opportunities.

2009 Accomplishments

- Renovated deteriorated landscape at Cedar River and Coulon Parks.
- Continued Customer Satisfaction Surveys.
- Provided interdepartmental support for ongoing activities, i.e. prep. baseball and soccer fields
- Provided training for staff certification and licensing.
- Supported City-wide events, 4th of July, Farmers Market, RiverDays, Grand opening of new Off-leash Dog Park
- Continued installation of Sentinel units for automated irrigation
- Purchased/utilize new trail "Sweeper"
- Replace and update parks rules and other signage

2010 Goals

- Continue installation of Sentinel units for automated irrigation in parks
- Continue to assist with tree pruning, removal, and replacement program to promote healthy trees.
- Continue to support park volunteer projects.
- Continue to provide interdepartmental support for ongoing activities
- Provide training for staff certification and licensing.
- Support City-wide events
- Complete the update and replacement of various park signage
- Provide Customer Satisfaction Surveys.

Parks and Golf Course Division – Maplewood Golf Course

Mission Statement

Provide a safe, clean, attractive, accessible, and well-maintained environment for the public's enjoyment of active and passive recreational opportunities along with natural resource and wildlife preservation and stewardship.

2009 Accomplishments

- Continued to promote and run Junior Golf Camps throughout the year.
- Continued to competitively price the golf course in the market.
- Continued joint promotions and activities with the restaurant.
- Moved/installed vacated FS #13 (double-wide mobile home) to golf course and utilize as temporary Maintenance office. Removed old maintenance office from site.
- Removed Locust trees according to Arborist's Tree Inspection Report. Plant new trees in vacated area.
- Completed Audubon Cooperative Sanctuary Certification.
- Continued to follow Best Management Practices to maintain a quality golf course.
- Implemented major maintenance projects as needed to provide quality product and standards for customers including but not limited to; exterior building lighting, and parking lot striping.
- Continued timely updates to website and lobby signage to include activities, projects, events, and promotions.
- Continued Customer Satisfaction Surveys.

2010 Goals

- Continue to promote and run Junior Golf Camps throughout the year.
- Repair and provide major maintenance to the irrigation pumps in pump house.
- Sustain Audubon Cooperative Sanctuary Certification.
- Continue to follow Best Management Practices to maintain a quality golf course.
- Complete the installation of new drainage and synthetic turf repair in the driving range.
- Install aerator in #18 pond.
- Complete the removal of all Locust trees as noted on Arborist's Tree Inspection Report. Plant new trees in vacated area.
- Implement major maintenance projects as needed to provide quality product and standards for customers including but not limited to; updating HVAC system, exterior building lighting, banquet room air-door repair, and parking lot striping.
- Continue timely updates to website and lobby signage to include activities, projects, events, and promotions.
- Continue Customer Satisfaction Surveys.

Parks Planning and Natural Resources Division

Mission Statement

Provide a comprehensive and interrelated system of parks, recreation, open spaces and trails that responds to locally-based needs, values and conditions, provides an appealing and harmonious environment, and protects the integrity and quality of the surrounding natural systems; create a sustainable and exemplary urban forest.

2009 Accomplishments

- Completed the city's first Urban and Community Forestry Strategic Plan.
- Completed Benson Hill Tree Inventory and Assessment.
- Recognized as a Tree City USA.
- Completed the first inter-departmental Trails and Bicycle Master Plan and Trails Map in conjunction with the Transportation Systems Division.
- Initiated review and update to the Parks Impact Mitigation fee.
- Received \$303,000 King County Conservation Futures Grant for May and Panther Creek acquisitions; \$242,000 agreement for Heritage Park acquisition; and applied for \$350,000 King County Conservation Futures Grant for 3.3 acre Panther Creek acquisition.
- Served on joint inter-jurisdictional committee to develop concept alignment for the Lake to Sound Trail.
- Pursued May Creek Trail acquisition opportunities in partnership with CED's Hawk's Landing Grant.
- Completed CIP major maintenance projects including repairing trails/walks in Gene Coulon Park, installing new ADA accessible walk to Creekside shelter and ADA accessible walk to Carco Theater.
- Coordinated with FEMA for park damage/repair projects associated with the January 2009 flood event.
- Completed Interlocal Agreement with King County for the Soos Creek Trail.
- Negotiated interim Agreement with Seattle Public Utilities for Broodstock Collection Facility.
- Served as appointed representatives on federal and state committees.

2010 Goals

- Update the Parks, Recreation, and Open Space Plan Implementation Plan.
- Develop Forestry Ordinance in partnership with inter-departmental team.
- Participate on design team for Lake to Sound Trail section located within the City of Renton
- Negotiate final Interlocal Agreement with Seattle Public Utilities for Broodstock Collection Facility.
- Secure funding authorization from FEMA and coordinate with other agencies to complete damage and repair projects in parks associated with the January 2009 flood event.
- Complete property acquisitions consistent with the Parks, Recreation and Open Space Implementation Plan and identified funding sources.
- Complete Tree City USA Recertification.

Recreation Division

Mission Statement

The Recreation Division of the Community Services Department promotes and supports a more livable community by providing opportunities for the public to participate in diverse recreational, cultural, athletic, and aquatic programs and activities.

2009 Accomplishments

- Partnered with Renton Rowing to establish a rowing program.
- Continued to expand the use of CLASS for both external and internal customer service.
- Partnered with REI to promote outdoor activities and events.
- Expanded healthy options and wellness opportunities for Specialized Recreation participants.
- Expanded program marketing/promotional opportunities.
- Implemented successful traffic revision at RCC and HMAAC.
- Worked with Renton School District to maintain current agreements, future partnerships/collaborations, and opportunities.
- In collaboration with Facilities Division and a donation from First Financial Northwest Foundation Fund a new fitness room was established at the Renton Senior Activity Center.

2010 Goals

- Assure compliance with the Virginia Graeme Baker Pool and Spa Act.
- Partner with IS and Finance Divisions to complete PCI compliance.
- Continue to work with Renton School District to improve current agreements, future partnerships/collaborations and opportunities.
- Work with Communication and IS Divisions to implement an e-marketing system.
- Assure compliance with Gender Equity and Head Injury legislation.
- Expand use of volunteers within programs.
- Partner with Renton Housing Authority to expand voucher program.
- Implement strategy for use of funds within the Renton Community Foundation, Renton Senior Activity Center Fund

Human Services Division

Mission Statement

The City of Renton Human Services Division, in partnership with the community, helps provide services, resources, and opportunities so that residents have food, clothing, and shelter, are healthy and safe, and develop to their fullest capacity.

2009 Accomplishments

- In collaboration with Renton School District, increased the number of community sites for the Summer Lunch Program.
- Began an online donation demonstration project with the Finance Department.
- Provided Housing Repair Assistance Program services in culturally sensitive and appropriate ways. Advertised night hours to clients that work during the day.
- Continued and improved the One Night Count for the homeless.
- Continued to improve the funding process – looked at needs and gaps in the community, and the Census data that is available.
- Looked for opportunities to further the goals of the Ten Year Plan to End Homelessness in Renton.
- Assisted Habitat for Humanity with the development of their housing project. Helped Renton Housing Authority develop relationships and partnerships.
- Advisory Committee and staff reviewed agency performance at regular intervals.

2010 Goals

- Working with community organizations that serve the homeless and interested residents, help coordinate the One Night Count of the homeless.
- Provide support, as needed, to the churches that are planning to start a five day a week hot meal program, for the hungry and homeless in Renton.
- Work with Egovalliance on an electronic funding application for agencies for the 2011/2012 funding cycle.
- Continue to work with Habitat and Renton Housing Authority.
- To provide current resource information on Human Services web-pages, and promote 211.

Library Division

Mission Statement

Renton Public Library supports lifelong learning for the public by anticipating and responding to community needs for information and by inspiring and encouraging the community's desire to read.

2009 Accomplishments

- Developed and implemented an outreach program that provides library services to homebound residents, assisted living facilities and nursing homes, and to children in schools and daycare facilities.
- Added 6 public access Internet computers at the Highlands branch through an Opportunities On-line grant from the Gates Foundation.
- Added programs for teens at the Highlands branch.
- Added story times for babies at the main library.
- Negotiated an agreement with King County Library System and placed a measure on the February 2010 ballot for Renton voters to decide whether to annex to the library district.

2010 Goals

- Re-negotiate Reciprocal Borrowing Agreement with the library district to reduce costs.
- Begin planning for future funding stability
- Begin planning for possible new buildings

Community Resources and Events

Mission Statement

Provide opportunities for individuals, groups, and businesses to partner with the City to facilitate funding and services that support or improve the quality of our operations, and provide leadership and direction for large scale city-wide events, volunteers, and multi-cultural programs in which citizen involvement celebrates community and enhances the quality of life for Renton citizens.

2009 Accomplishments

- Provided leadership and direction for the 24th Annual Renton River Days Community Festival and Renton's Seventh Annual 4th of July Celebration and Fireworks at Gene Coulon Memorial Beach Park
- 4th of July Event Incident Action Plan completed and was National Incident Management System compliant
- Developed and secured new three-year (2009-2011) Title Sponsorship for "*Renton's Fabulous 4th of July presented by The Landing*"
- Renewed Title Sponsor relationship for another three years (2010-2012) for "*IKEA Renton River Days*"; 2009 marked the 11th year of IKEA's Title Sponsorship
- Conducted Annual Recognition Banquet for City Volunteers
- Management of Renton's Sister City programs:
- Working with existing volunteer programs
- Continued development of Boards, Commissions, Committee members, and staff working with volunteers through training:
- Engaged the community in volunteer efforts:
- Use of the volunteer website was enhanced to provide more information and links to community volunteer opportunities, including how to help in a disaster. Volunteer spotlights were made available for City activities resulting in greater group participation in large volunteer projects, such as Green and Clean Saturdays and Arbor/Earth Day

2010 Goals

- Evaluate, identify and sustain balance of large-scale event logistics and safety, while maintaining event appeal to both attendees and sponsors; scope of events contingent upon levels of service from supporting City departments
- Develop Guidelines and Objectives as may be effective to formalize and more efficiently structure Sister City program goals and activities
- Increase systemic knowledge of ICS principals and tools, and the City's Comprehensive Emergency Management Plan, in support of Community Services Department involvement in City-wide emergency preparedness incidents
- Increase visibility of volunteer opportunities by implementing social networking strategy and customized networking for Renton-based use of United Way's matching capacity
- Develop checklist or guide for use by departments when planning public recognition activities such as ribbon cuttings or facility openings to ensure consistency in quality and eliminate duplication of resources
- Continue to work with City Departments to develop volunteer solutions to meet service needs
- Introduce Special Event permitting process

Renton History Museum

Mission Statement

The mission of the Renton History Museum is to preserve, document, interpret, and educate about the history of greater Renton in ways that are accessible to diverse people of all ages

2009 Accomplishments

- Launched Museum Master Plan that will provide a blueprint for long-term sustainable operations and reacquaint the community with the city's only heritage organization.
- Hosted two new food exhibits—SITES's *Key Ingredients* and the Museum's own *Sustaining A City*—accompanied by educational programming that explored exhibit themes of community-building, sharing of traditions, and sustainability.
- Continued to build on relationships with educators and the school district to develop new curricular materials, strengthening the Museum as a center for heritage education.
- Completed renovation of offsite storage building and moved our off-site collection, thus improving the standard of collections care.
- Enhanced Museum's visibility by implementing social networking strategy and improving web sites.

2010 Goals

- Begin implementation of the Museum Master Plan.
- Enhance Museum's visibility by creating new brand and identity consistent with Museum Master Plan.
- Strengthen educational content on the Museum's web site by making curricular materials on Renton coal mining and the Duwamish people available for teachers and parents.
- Re-examine the Museum's membership program, consistent with the earned income goals of the Master Plan.
- Begin planning to host Smithsonian institution traveling exhibit *Journey Stories* in 2011.

Public Works

**Utility Systems Division funds pay for four (4) FTE's that work in the Finance Division of the Finance and Information Technology Department*

Public Works

Mission Statement

The Public Works Department manages and maintains Renton’s utility and transportation systems in a skillful, professional, and caring manner so as to improve the lives of our residents and business customers.

Description

The department develops, builds, and maintains streets and sidewalks; develops and maintains water, wastewater, and surface water utility infrastructures; coordinates collection of garbage; and operates the airport.

Public Works Performance Measures:

Description	Performance Measures	2008	2009	2010
Trans Operations Maintenance Section	Response time to replacement of damaged devices	N/A	1 Hour	1 Hour
	Number of signal lamps converted to LED type units	N/A	10 intersections	10 intersections
	Work orders completion	N/A	6,000	6,000
	Number of devices repaired/installed	N/A	15,000	15,000
Solid Waste Collection	Increase residential recycling collection by 5%	N/A	6,120	6,426
	Increase residential organics collection by 10%	N/A	8,252	9,077
	Decrease solid waste tons disposed by 3%	N/A	17,225	16,708
Water Maintenance	Water quality to meet or exceed federal and state regulatory requirements	N/A	98%	98%
	Restore water service within 4 hours during emergency shut downs	N/A	98%	98%
	Drop-in meters are installed within 5 working days from the customer's request	N/A	98%	98%
	New water service meter were installed within 3 weeks from the customer's request	N/A	98%	98%
	Respond to customer requests for service on water leaks within 3 working days	N/A	98%	98%

Highlight of Budget Changes:

- Regular/Part-Time Salaries, and Personnel Benefits decreased because of the following position reductions:
 - Office Assistant III (0.5), Civil Engineer II (2), Engineering Specialist III (1), Civil Engineer III (1), Traffic Maintenance Worker II (1), Office Assistant II (0.5), Engineering Specialist II (0.7), Maintenance Service Worker III (2), Solid Waste Maintenance Worker (1), Maintenance Service Worker II (1), Mechanic's Assistant (1)
- Regular Salaries and Personnel Benefits also decreased due to the Technical Services section under Utility Systems relocating to Finance and Information Technology (1 Engineering Specialist III addition, 1 Property Service Specialist reduction) and Community and Economic Development (1 Mapping Coordinator addition, 1 Property Services Specialist addition, and 2 Engineering Specialist III reductions)
- Supplies and Capital Outlay decreased by \$320k and \$237k, respectively, due overall budget reductions

Administration Division

Mission Statement

Provide leadership, resources and regional influence to enable the department to meet its responsibilities in a manner that is responsive to the needs of its customers and consistent with the city's Business Plan Goals.

2009 Accomplishments

- Continued design and acquisition of right-of-way for Rainier Avenue Project (South Grady Way to South 2nd Street), which will enhance bus traffic along Rainier Avenue.
- Completed construction on Duvall Avenue/Coal Creek Parkway.
- Implemented new solid waste collection program that emphasizes recycling and diversion of the waste stream from the landfill.
- Successfully responded to the January 2009 major Cedar River flooding event without sustaining major damage to public infrastructure or private property.
- With the completion of the Airport Layout Plan and Airport Leasing Policies, moving forward with leasing property at the Airport including execution of the Pro Flight Renton Gateway lease.
- Finalizing the development of a Renton Surface Water Design Manual to update standards to be used to control runoff from new construction and redevelopment projects to be equivalent with the Ecology 2005 Western Washington Stormwater Manual as required to comply with NPDES Phase II Municipal Stormwater Permit for Western Washington.
- Participating in multi-department efforts to pursue the Mayor's goal of improving the appearance of Renton's major transportation corridors.
- Continuing to purchase hybrid vehicles for the City's heavy equipment fleet.
- Implementing new annual program to maintain deteriorating city sidewalks, including the repair and replacement of over 4,000 linear feet of sidewalks in the Highlands neighborhood.
- Continuing to provide superior customer services in Renton, which is measured by 85 percent of the citizens contacting the Maintenance Services Division to rate its services as satisfactory or better.
- Reduce costs of disposing of excavated material by the operation of a mobile screening plant that allows this material to be reused as construction fill.

2010 Goals

- Complete the design and property acquisition for the Rainier Avenue Improvements Project, and begin construction in late 2010/early 2011.
- Complete improvements to Shattuck Avenue and open up railroad underpass early in 2010.
- Prepare and implement an incident action plan to protect areas within Renton that could be impacted by Green River flooding due to damage to the Howard Hanson Dam.
- Adopt Surface Water Design Manual.
- Negotiate and implement a new lease for The Boeing Company at the Renton Airport.
- Work with King County Metro to implement a new bus rapid transit route between Renton and Burien.
- Continue to coordinate with the Washington State Department of Transportation for the successful construction of I-405 improvements including new north and south general purpose lanes and a new interchange at Talbot Road.

Maintenance Services Division

Mission Statement

Support the operating sections of the Public Works Maintenance Division:

- Provide planning, budgeting, goal setting, and management.
- Provide purchasing and inventory support.
- Establish effective liaison and project coordination.
- Perform administrative, customer service contact, and record systems management.

2009 Accomplishments

Street Maintenance

- Eighty-five percent of the citizens contacting the division to rate our service as satisfactory.
- A street Overall Condition Index (OCI) rating of 80 is maintained.
- Within the resources provided, keep Renton's rights-of-way clean.

Water Maintenance

- High-quality water is provided in sufficient quantity.

Wastewater Maintenance

- Surface water flooding and sewer overflows are minimized.

Fleet Maintenance

- Ensure safe, available, and reliable vehicles and equipment.

2009 Goals

Street Maintenance

- Eighty-five percent of the citizens contacting the division to rate our service as satisfactory.
- A street Overall Condition Index (OCI) rating of 60 or above is maintained.
- Within the resources provided, keep Renton's rights-of-way as clean as possible.

Water Maintenance

- High-quality water is provided in sufficient quantity.

Wastewater Maintenance

- Surface water flooding and sewer overflows are minimized.

Fleet Maintenance

- Ensure safe, available, and reliable vehicles and equipment.

Transportation Systems Division

Mission Statement

To plan, design, construct, operate, and maintain the City's transportation system to assure the health and safety of the general public in a skillful, professional, and caring manner, to enhance the lives of its residents and business customers. The division aggressively pursues mobility improvements that benefit Renton and the region consistent with the Six-Year Business Plan.

2009 Accomplishments

Design

- Completed design and commenced construction of Shattuck Avenue Storm Drain Bypass Project and railroad undercrossing and approaches along with the railroad sacrificial beams.
- Secured a \$2 million federal stimulus grant (ARRA) for the Shattuck Avenue Storm Drain Bypass Project.
- Completed construction on Duvall Avenue NE/Coal Creek Parkway on schedule and under budget.
- Secured WSDOT approval for the Rainier Avenue Project and completed NEPA environmental review.
- Commenced right-of-way acquisition and final design on the Rainier Avenue Project (South Grady Way to South 2nd Street).
- Completed design and construction of the 2009 Overlay Program.
- Completed construction of the 2009 Sidewalk Program.
- Completed design for the Maplewood Sidewalk Rehabilitation Project.
- Performed budgeted inspections, repairs, and maintenance for the 2009 Bridge Program.
- Completed the fifth year of monitoring and maintenance of the Oakesdale Phase II Wetlands and the eighth year of Phase I.
- Reached final agreements with Sound Transit and Tukwila regarding Tukwila Station design and selection of a new alternative design of Phase IIa of SW 27th Street/Strander Boulevard Project.
- Assisted CED in updating the Street Development Standards.
- Completed conceptual design of the Garden Avenue and Park Avenue Intersection Improvements.
- Completed construction of Stage I Lake Washington South Lake Connector Project (southbound bike lane).
- Assisted in repair work for damages from January 2009 storms – SR 169 and the Williams Avenue Bridge.

Operations and Maintenance

- Installed new traffic signal at the intersection of NE Sunset Boulevard at Hoquiam Avenue NE and began construction of intersection improvements and traffic signal upgrades at South 3rd Street and Shattuck Avenue South.
- Continued installation of advance traffic controllers at remaining signalized intersections for ACTRA control from the city's Traffic Management Center (TMC).
- Upgraded ten signalized intersections to light emitting diode (LED) displays.
- Installed six uninterruptible power supply (UPS) systems at critical intersections.
- Continued efforts on the Graffiti Abatement Program.
- Completed installation of school zone flashers at all locations.
- Provided video images from 15 signalized intersections back to the Traffic Management Center.
- Replaced 50,000 plus feet of stolen street lighting copper wire from underground conduits.
- Completed the School Flasher Modem Upgrade Program.
- Installed 120 miles of painted pavement markings.
- Installed 1,500 new or replacement signs through regular maintenance or work orders.

- Performed scheduled maintenance to replace faded, damaged, and missing street signs and renew pavement markings.
- Installed 10,000 raised pavement markers (RPMs).
- Maintained and updated traffic signal model (SYNCHRO) control systems within the Traffic Management Center.

Planning and Programming

- Continued to provide project coordination and financial oversight of 40 projects and programs within the 2009-2014 TIP and provided the planning and programming for the 2010-2015 TIP.
- In partnership with the Parks Division, completed and Council adopted the Renton Trails and Bicycle Master Plan and published the Renton Trails and Bikeways Guide Map.
- In partnership with King County and other South Sound cities, completed the Lake to Sound Feasibility Study to develop a regional trail from Lake Washington in Renton to Puget Sound in Des Moines.
- Secured a \$2 million federal stimulus grant (ARRA) for the Shattuck Avenue Storm Drain Bypass Project.
- Secured a \$4.8 million countywide federal grant for the Rainier Avenue South Improvements Project.
- Collaborated with King County and the cities of SeaTac, Tukwila, and Burien to secure an \$800,125 countywide federal non-motorized grant for the Lake to Sound Regional Trail.
- Secured a \$240,000 federal non-motorized grant to design the Highlands to Landing/Coulon Park Pedestrian Connection under I-405.
- Actively participated in regional forums (PSRC, SCATBd, ETP, Sound Transit, WSDOT) and other discussions on transportation funding packages to ensure Renton's interests are presented and achieved.
- Assisted the Design Section in major project communications and public outreach including maintaining 80 project and program web site pages.
- Continued to provide internal and external coordination with the state's I-405 projects – Stage 1, Stage 2, and the Springbrook Wetlands Bank.
- Supported the City's involvement in the I-405 Tolling Committee efforts and Vision 2040 planning efforts.
- Pursued additional funding for SW 27th Street/Strander Boulevard, Rainier Avenue Corridor, NE 3rd/4th streets, sidewalk, and bike projects.
- Continued to work with the Department of Community and Economic Development to review and potentially revise Renton's Transportation Mitigation Fees.
- Continued to partner with the Renton School District to complete identification of needed improvements to school walking routes for elementary schools.
- Completed alternative analyses for the Lake Washington South Trail Connector on Logan Avenue between North 6th Street and the Cedar River Trail.
- Continued to work with the 25 commute trip reduction (CTR) sites within Renton in implementing the state-mandated CTR requirements to reduce single-occupancy vehicle (SOV) trips and vehicle miles traveled.
- Reviewed and provided comments on development reviews, traffic impact studies, and annexation reviews.
- Assisted CED in development of the City Center Plan, Impact Fee Study, Sunset Planning Strategy and revising the Street Development Standards.
- Continued to coordinate with the Technical Services Section and IS Division staff to improve the City's GIS.
- Continued to work with King County Metro Facilities and Service Planning staff to respond to citizen requests and complaints.
- Assisted the Parks Division in the development of the Urban Forestry Plan.

Airport

- Completed a new lease for Pro Flight on Apron C.
- Submitted the Airport Layout Plan to the Federal Aviation Administration.
- Nearly completed lease negotiations with The Boeing Company.
- Increased T-Hangar rental rates.
- Successfully completed construction of the Runway 15/33 Rehabilitation Project.
- Continued to secure funding to dredge the seaplane base and develop conceptual solutions.
- Maintained zero claims of foreign object damage and bird strikes on aircrafts.
- Continued to catch up on backlogged maintenance.
- Abandoned a section of the old Boeing fire water main north of the Boeing fuel farm.

2010 Goals

Design

- Complete the construction of Shattuck Avenue Storm Drain Bypass Project and railroad undercrossing and approaches along with the railroad sacrificial beams.
- Complete the construction of the Shattuck Avenue South/South 3rd Street Intersection Improvements.
- Complete right-of-way (ROW) acquisition and design for the Rainier Avenue Improvements Project.
- Design the SW 27th Street/Strander Boulevard Project in coordination with Sound Transit's station project.
- Complete design of the 2010 Street Overlay and Rehabilitation programs.
- Complete design of the 2010 Sidewalk Program.
- Complete design of the Highlands to Landing/Coulon Park Pedestrian Connection.
- Perform budgeted inspections, repairs, and maintenance for the 2010 Bridge Program.

Operations and Maintenance

- Complete intersection improvements and signal upgrades at South 3rd Street and Shattuck Avenue South.
- Upgrade 50 signalized intersections to light emitting diode (LED) displays.
- Evaluate light emitting diode (LED) technology for street lights.
- Install a minimum of six uninterruptible power supply (UPS) systems at critical intersections.
- Continue efforts on the Graffiti Abatement Program.
- Install additional school zone flashers as needed for photo enforcement locations.
- Upgrade Hardie Avenue Southwest and Southwest Sunset Boulevard traffic and pedestrian signal heads and pedestrian crossings and ramps to *Americans with Disabilities Act* (ADA) standards.
- Complete 15 major preventive maintenance projects.
- Install 120 miles of painted pavement markings.
- Install 1,000 new or replacement signs through regular maintenance or work orders.
- Perform scheduled maintenance to replace faded, damaged and missing street signs and renew pavement markings.
- Install 5,000 raised pavement markers (RPMs).

-
- Maintain and update traffic signal model (SYNCHRO) control systems within the Traffic Management Center.

Planning and Programming

- Provide project coordination and financial oversight of 40 projects and programs within the 2010-2015 TIP and provide the planning and programming for the 2011-2016 TIP.
- Aggressively pursue grants and funding opportunities for mobility improvements that benefit Renton and the region consistent with the Six-Year Business Plan.
- Continue to provide internal and external coordination with the state's I-405 Stage 1 and Stage 2 projects.
- Initiate and provide project management for the Sunset Corridor Transportation Study and Plan.
- Participate in the design and environmental phases of the Lake to Sound Trail from Fort Dent through the Black River Riparian Forest.
- Assist the Department of Community and Economic Development in developing the City Center Implementation Plan.
- Update the City's multimodal transportation concurrency mechanisms in conjunction with the required development of 2011 Comprehensive Plan Amendment to the Transportation Element addressing transit-oriented development and growth and transportation-efficiency centers (GTECs) in order to reduce vehicle miles traveled and transportation related greenhouse gas emissions within the City of Renton.
- Actively participate in regional forums (PSRC, SCATBd, ETP, Sound Transit, WSDOT) and other discussions on transportation funding packages to ensure Renton's interests are presented and achieved.
- Continue to work with the Department of Community and Economic Development to review and potentially revise Renton's Transportation Mitigation Fees.
- Review and provide comments on development reviews, traffic impact studies, and annexation reviews.
- Continue to work with the 25 commute trip reduction (CTR) sites within Renton in implementing the state-mandated CTR requirements to reduce single occupancy vehicle (SOV) trips and vehicle miles traveled.
- Assist the Design Section in major project communications and public outreach with emphasis on the Rainier Avenue Improvements Project construction phase.
- Coordinate with the Technical Services Section and IT Division staff to improve the City's GIS.
- Work with King County Metro Facilities and Service Planning staff to respond to citizen requests and complaints.
- Continue to partner with the Renton School District to improve school walking routes for elementary schools.

Airport

- Complete the Boeing lease renewal.
- Complete Apron C infrastructure improvements for the Renton Gateway Center fixed-base operator (FBO).
- Dredge the Seaplane Base in November 2010 during the "fish window."
- Replace the roof on the Cedar River Hangars.
- Maintain zero claims of foreign object damage and bird strikes on aircrafts.
- Continue to catch up on backlogged maintenance.

Utility Systems Division

Mission Statement

Manage the planning, engineering, construction, and database functions for the City's solid waste, water, wastewater, and surface water, in a manner that ensures public health and safety, meets all regulatory requirements, protects environmental resources, is financially sound and supports the City's Business Plan Goals.

2009 Accomplishments

Water Utility Engineering

- Completed evaluation of systems and made recommendation to City Council for sole source procurement of a fixed network automated meter reading and meter data management system.
- Completed an evaluation of a potential reservoir site in the Black River quarry area.
- Completed design and construction of annual water main replacement program.
- Awarded contract for and began the replacement of electrical transformers for Mt. Olivet and Well 8 pump stations.
- Began a multi-year effort to replace remote telemetry units in the SCADA system.
- Completed installation of security Cyberlocks at all water facilities.
- Replaced SCADA system auto-dialer software.
- Re-designed and implemented a geodatabase for the drinking water utility to accommodate the implementation of the City's Enterprise Asset Management system.
- Completed study of the viability of obtaining water from the Cascade Water Alliance.
- Completed construction of the West Hill Pressure Reducing Station.
- Continued implementation of the Aquifer Protection Program, Water Conservation Education and Cross-Connection Control Program.
- Continued implementation of the Water Use Efficiency Plan and WashWise Rebate Program.
- Continued to maintain the "Green Operating Permit" status from the Department of Health.
- Continued design and construction coordination with the City's Transportation Division and with WSDOT for utilities improvements for Stage 2 of the I-405 improvements project.
- Provided technical assistance to the Transportation Systems Division for construction of the water improvements associated with roadway improvements projects.
- Completed interlocal agreements with Water District 90 and Soos Creek Water and Sewer District.
- Continued monitoring of franchise terms with Olympic Pipeline Company, Seattle Public Utilities and with various telecommunication companies' leases of the city's water facilities.
- Completed a cyber security audit of the water SCADA system with the assistance of a visiting DHS team.

Wastewater Utility Engineering

- Completed construction of the following planned Capital Improvement Program projects: Denny's Lift Station Replacement and White Fence Ranch Sewer Extension.
- Began design for the Lake Washington Beach Lift Station Replacement, Westview Lift Station Rehabilitation and East Renton Lift Station Elimination.
- Completed design for the Stonegate Lift Station Replacement and the Earlington Sewer Replacement.
- Completed conversion of sewer data into geodatabase and conversion of the sewer model from DHI Mouse to DHI Mike Urban.
- Completed update of our Long Range Wastewater Management Plan.

Surface Water Utility Engineering

Completed the following planned Capital Improvement Program projects:

- Completed the draft Surface Water Utility Master Plan to define future program and resources needed to deliver services, meet regulatory requirements, and future CIP program needs for adoption by Council in 2010.
- Completed the final design, permitting, and started construction of the Shattuck Avenue South Storm Drain Bypass Project in coordination with the Transportation Systems Division's Rainier Avenue South TIP.
- Completed the design and construction of the Wells Avenue North and North 37th Street Storm System Replacement Project as part of the Small Drainage Problems Program.
- Started the design and permitting of the Lake Avenue South/Rainier Avenue South Storm System Replacement Project.
- Completed the design, permitting, and construction of the Maplewood Creek Sedimentation Basin and the Madsen Creek Sedimentation Basin cleaning project necessary due to the January 2009 flood.
- Coordinated with WSDOT on work related to the 10-year monitoring and site management period following the completion of the initial construction of the Springbrook Creek Wetland and Habitat Mitigation Bank Project.
- Conducted the annual Landsburg Gravel Supplementation Project and other required mitigation monitoring for the Cedar River Section 205 Flood Hazard Reduction Project.
- Implemented the Storm System Mapping Project, code amendments related to the Illicit Discharge and Detection and Elimination Program and other requirements associated with complying with the National Pollutant Discharge Elimination System (NPDES) Phase II Municipal Stormwater Permit for Western Washington requirements.
- Completed 90% of the Spawning Channel Replacement Project construction in cooperation with the U.S. Army Corps of Engineers.
- Completed the development of the draft Renton Storm Water Design Manual to update design standards to control runoff from new construction and redevelopment projects that are equivalent to the Ecology 2005 Western Washington Stormwater Manual as required to comply with the NPDES Phase II Municipal Stormwater Permit for Western Washington, for review and approval in 2010.
- Provided technical assistance to the Transportation Systems Division on the design, permitting and construction of the storm water improvements associated with the Rainier Avenue – Grady Way to South 2nd Street TIP, the Garden Avenue North TIP, signal improvement projects, and sidewalk improvement program.
- Provided technical assistance to WSDOT on its I-405 improvement projects.
- Participated in the regional and city efforts to prepare for and respond to Green River flooding due to the reduced storage capacity at the U.S. Army Corps of Engineers' Howard Hanson Dam.

Solid Waste Utility

- Provided one Natural Yard Care workshop targeting education to residential homeowners and small landscape maintenance businesses to increase knowledge of strategies to reduce reliance on pesticides.
- Implemented the Sustainable Solid Waste Collection Contract for residential and commercial services.
- Implemented a residential reuse event and two special recycling events to increase diversion of materials from the landfill.

2010 Goals

Water Utility Engineering

- Award contract and begin first phase of the implementation of a fixed network automated meter reading and meter data management system.

-
- Complete design and construction of the annual water main replacement program.
 - Complete a project to recoat the interior and exterior of the West Hill reservoir and to add a cathodic protection system, handrails, and security improvements.
 - Continue to support implementation of the Drinking Water Quality Compliance Program including the new EPA/DOH Groundwater Rule; continue to maintain the drinking water quality monitoring database.
 - Continue to prepare and distribute the EPA required Consumer Confidence Report to all our customers.
 - Provide input for the Surface Water Design manual to ensure the City's drinking water supply is protected.
 - Complete the repair of the groundwater monitoring wells.
 - Begin the update of the Water System Plan.
 - Continue implementation of Aquifer Protection Program, Water Conservation Education, and Cross-Connection Control Program.
 - Continue implementation of Water Use Efficiency Plan.
 - Continue to maintain "Green Operating Permit" status from the Department of Health.
 - Continue to replace remote telemetry units in the SCADA system.
 - Complete the replacement of electrical transformers for Mt. Olivet and Well 8 pump stations.
 - Continue construction coordination with the City's Transportation Division and with WSDOT for utilities relocations and improvements for Stage 2 of the I-405 improvements project.
 - Provide technical assistance to the Transportation Systems Division for construction of the water improvements associated with roadway improvements projects.
 - Assist the water maintenance section to receive approval of a management plan from the Department of Ecology for the Maplewood wellfield.
 - Update the Emergency Response Plan.
 - Continue negotiations with Seattle Public Utilities for additional wholesale water.

Wastewater Utility Engineering

- Begin construction of the Stonegate Lift Station Replacement and Earlington Sewer Replacement projects.
- Complete design and begin construction of the Lake Washington Beach Lift Station Replacement and Westview Lift Station Rehabilitation projects.
- Begin final design for the East Renton Lift Station Elimination Project.
- Develop updated Fats/Oils/Grease Regulations, including revisions to current City code.

Surface Water Utility Engineering

- Council adoption of the Surface Water Utility Master Plan to define future program and resources needed to deliver services, meet regulatory requirements and future CIP program needs.
- Complete the construction of the Shattuck Avenue South Storm Drain Bypass Project in coordination with the Transportation Systems Division's Rainier Avenue South TIP.
- Complete the design, permitting and construction of the Lake Washington Blvd./Hawks Landing Storm System Improvement Project in coordination with the water system improvements and the private development project.
- Complete the design and permitting of the Lake Avenue South/Rainier Avenue South Storm System Replacement Project.
- Complete the construction of the Duvall Avenue Northeast and Union Avenue Northeast projects as part of the Small Drainage Problems Program.

- Conduct the annual Landsburg Gravel Supplementation Project and other required mitigation monitoring for the Cedar River Section 205 Flood Hazard Reduction Project.
- Complete the first phase of the Storm System Mapping Project and start work on the second phase of the project that involves collection data associated with our storm system assets as needed for complying with the National Pollutant Discharge Elimination System (NPDES) Phase II Municipal Stormwater Permit for Western Washington requirements and improving operation and maintenance of the City's storm system infrastructure.
- Complete the construction of the Spawning Channel Replacement Project in cooperation with the U.S. Army Corps of Engineers and start project fish use monitoring and plant establishment.
- Council adoption of updated Surface Water Design Standards to control runoff from new construction and redevelopment projects that are equivalent to the Ecology 2005 Western Washington Stormwater Manual as required to comply with the NPDES Phase II Municipal Stormwater Permit for Western Washington.
- Provide technical assistance to WSDOT on its I-405 improvement projects.
- Continue participation in the regional and city effort to prepare for and respond to Green River flooding due to the reduced storage capacity at the Army Corps of Engineers Howard Hanson Dam.

Solid Waste Utility

- Provide two Natural Yard Care workshops targeting education to residential homeowners and small landscape maintenance businesses to increase knowledge of strategies to reduce reliance on pesticides.
- Implement a residential reuse event and two special recycling events to increase diversion of materials from the landfill.
- Provide technical assistance to businesses and apartment buildings to educate them about strategies to reduce waste and increase recycling.
- Expand in-house recycling opportunities to include composting of food-waste generated within city facilities.

Other City Services

Mission Statement

Provide for miscellaneous payments that benefit all City departments.

Overview of Other City Services

The Finance Division manages this accounting department. The primary activity is to receive revenue and to make property and liability payments to the insurance fund, interfund payments, intergovernmental payments, limited general obligations debt payments, and employee termination payments.

	Total	-	\$ 9,280,189	\$ 546,844	-	\$ 9,186,689	\$ 500,000

Highlight of Budget Changes:

- No contingency for salary negotiations which result in a reduction of \$500k in Regular Salaries
- Personnel Benefits increased by \$2 million due to projections in increased healthcare benefits for current and retired employees and also unemployment benefits
- Other Services and Charges decreased by \$73k due to budget reductions in City-Wide memberships, associations, and dues
- Intergovernmental Services increased by \$9k to be more in-line with historical costs of the Seattle King County Public Health Alcohol Program
- Debt Service decreased by \$617k due to current amortization schedule of general governmental debt
- Prior to 2010, the Insurance Internal Service Fund was allocated to Other City Services for all General Governmental funds/departments. Currently, each General Governmental fund/department will incur their own costs for insurance, which results in a decrease of \$1.3 million
- Transfer Outs decreased by \$1.2 due to budget reductions in various Capital Investment Programs

DEBT MANAGEMENT

OVERVIEW

The City of Renton's long-term debt consists of General Obligation (GO) Bonds backed by the full faith and credit of the City, and Revenue Bonds backed by user fee revenues. The City is in compliance with all Washington State debt limitation statutes and bond covenants. The following table represents the bond ratings for each type of debt for which ratings are given:

Type of Bonds Issued (Latest Year)	Fitch	Moody	Standard & Poor's
Water & Sewer Revenue Bonds	AA-		AA+
Limited GO Bonds	AA-	A1	AA
Golf System Revenue Bond	Non-rated		Non-rated

REVENUE DEBT:

The City of Renton's Revenue debt consists of Water/Sewer Revenue Bonds, Public Works Trust Fund (PWTF) Loans, Golf Bonds and Leases. As of January 1, 2009, there was \$52.6 million in principal outstanding which are: Water/Sewer Revenue Bonds \$40.8 million, PWTF Loan \$9.2 million, and Golf Course Bonds and Leases \$2.5 million.

GENERAL OBLIGATION DEBT:

Under RCW 39.36.020(2), the public may vote to approve bond issues for general government purposes in an amount not to exceed 2.5% of the value of all taxable property within the City. Within the 2.5% limit, the City Council may approve bond issues not to exceed 1.5% of the City's assessed valuation. Prior to the passage of new legislation in 1994, the statutory limit on councilmanic (non-voted or limited general obligation (LTGO)) debt for general government purposes was 0.75% of assessed valuation. Another 0.75% of councilmanic debt was available only for lease-purchase contracts (RCW 35.43.200). Now, these two components have been combined and can be used for any municipal purpose, including using the entire 1.5% for bonds.

The voter approved capacity is generally referred to as unlimited tax general obligation (UTGO) debt, which requires 60% voter approval and the election must have a voter turnout of at least 40% of those who voted in the last State general election. With this vote, the voter approves additional property tax be levied above and beyond the constitutional and statutory caps on property tax.

In addition to these general purpose debt capacity, RCW 39.36.030(4) also allow voter to approve park facilities and utility bond issues, each limited to 2.5% of the City's assessed valuation.

At the end of 2009, the City's has \$39.7 million *limited* general obligation debt (Council approved debt) outstanding and an available capacity of \$159 million. The City made final payment of the 1998 voter approved senior housing bond in 2009 and no longer has *unlimited* general obligation debt outstanding at this time therefore has the full voter approved capacity of nearly \$790 million available.

CITY OF RENTON GENERAL OBLIGATION DEBT

1997 Limited Tax General Obligation City Hall Acquisition and Development Bonds. The bonds consisted of \$12,660,000 serial bonds, and \$3,830,000 capital appreciation bonds (\$2,037,743.60 Principal and \$1,792,256.40 Interest), with an average interest rate of 7.79%. The capital appreciation bonds are due in years 2006, 2007, 2008, and 2009 where interest, at rates of 5.55%, 5.6%, 5.65% and 5.75%, will accrue from date of issuance and be paid at maturity. The serial bonds were refunded November 1, 2001. The debt service for these bonds is accounted for in the 1997 Limited Tax General Obligation Bonds-City Hall Fund (201).

2000 Valley Communications Center Development Authority Bonds. Issued for the construct and equip of a new facility, including land acquisition, for the operation of the Valley Communications Center, a 911 Dispatching Center service of South King County emergency services agencies. The City of Renton, along with the City of Auburn, Federal Way, Kent, and Tukwila are owners of the Center and each are responsible for one-fifth or \$2,551,600 of the total obligation. Debt Service for these bonds is accounted for in the General Government Miscellaneous Debt Service Fund (215).

2001 Refunding (refund 1997) Series A Bonds. Has an average interest rate of 5.02% for purposes of advance refunding the serial bond portion of the 1997 Limited Tax General Obligation Bonds with an average interest rate of 5.79%. This resulted in a positive cash flow difference of \$393,062. Debt Service is accounted for in Fund (201).

2001 Series B Downtown Parking Facility Bonds. Has an average interest rate of 5.11% and accounted for in Fund (215).

2002 Fire Station 12 Construction Bonds. Has an average interest rate of 4.53%. The debt service is accounted for in Fund (215). Principal maturing after 2013 are callable on or after December 1, 2017.

2006 South Lake Washington Infrastructure Bonds. Has an average interest rate of 4.85. The debt service is accounted for in Fund (215). Principal maturing after 2017 are callable on or after December 1, 2017.

WATERWORKS DEBT

WATERWORKS DEBT SUMMARY

As of January 1, 2009, the City has \$50 million in total principal revenue bond debt outstanding. This revenue bond debt of the City has been incurred through four (4) different bond categories:

- *Waterworks Revenue Bond* debt, for various water/sewer projects, has \$40.8 million in outstanding principal debt.
- *Public Works Trust Fund loans, received for specific water sewer projects from the State of Washington, have \$9.2 million in outstanding principal debt.*

All Water/Sewer debt service is accounted for in the Waterworks Utility Funds (Water 405, Sewer 406, and Surface Water 407).

Debt Service Coverage Ratio:

Per bond covenants, the City must maintain certain debt service coverage as protection of bond holders' interest against default. The City historically maintained a debt service coverage ratio substantially higher than the required 1.25 times. The proposed budget will continue to meet the debt service coverage ratio.

2010 Debt Service Coverage Ratio Calculation for Waterworks Utility

Total Revenues	33,904,461
Total Expenses ¹	25,698,930
Amount Available for Debt Service	8,205,531
Total Debt Service	4,618,329
DEBT SERVICE RATIO	1.78

¹Less debt service and transfers to capital

REVENUE BONDS

1998 Water/Sewer Refunding Revenue Bonds (Ordinance #4709) has an average interest rate is 4.456%. These bonds were issued to refund a portion of the 1977, 1992, and 1994 Water/Sewer Revenue Bonds.

2002 Water/Sewer Revenue Bonds (Ordinance #4976) has an average interest rate is 4.80%. On November 1, 2007, \$8,320,000 was issued as 2007 Water/Sewer Revenue Refunding Bonds (02). The average interest rate is 3.79% on the remaining unrefunded amount of \$3,340,000.

2003 Water/Sewer Refunding Revenue Bonds (Ordinance #5019) has an average interest rate is 3.200%. These bonds were issued to defease all of the outstanding 1993 Water and Sewer Refunding Revenue Bond, and to advance refund all outstanding 1994 Water and Sewer Revenue Bonds.

2004 Water/Sewer Revenue Bonds (Ordinance #5098) has an average interest rate is 4.330%. These bonds were issued for the purpose of providing a part of the funds necessary to carry out the system or plan for additions to and betterments and extensions of the waterworks utility.

2007 Water/Sewer Revenue Bonds (Ordinance #5313) has an average interest rate is 4.22%. These bonds were issued for the purpose of financing the costs of carrying out certain capital improvements of waterworks utility.

2007 Water/Sewer Revenue Refunding Bonds (02) (Ordinance #5313) has an average interest rate is 4.15%. These bonds were issued for the purpose of refunding certain outstanding water and sewer revenue bonds of the City.

PUBLIC WORKS TRUST FUND LOANS

1992 Sierra Heights Sewer Repair (CAG 92-065) loan is for the installation of approximately 5,500 lineal feet of 8-inch diameter gravity sewer main to service the Sierra Heights area. This will include the neighborhood mains as well as an interceptor line down to the existing Honey Creek Interceptor.

1993 Central Renton Sewer Replacement (CAG 93-056/95-057) loan is for the replacement of approximately 10,400 linear feet of existing 8" concrete sewer pipe within the Central Renton Subbasin with new 8" sewer pipe, replacement of 40-50 manholes, replacement of approximately 8,400 linear feet of alleyway as well as an undetermined quantity of storm drainage improvements.

1993 East Renton Sewer Interceptor (CAG 93-055) loan is for the construction of approximately 9,865 feet of 8,12,15 and 18 inch pipe from the East Renton area (Northeast 4th and Duvall Avenue Northeast) westerly along Northeast 4th Street southerly to the Maple Valley Highway, installation of manholes, street restoration and landscaping.

1994 Dayton Avenue Northeast (CAG 94-045) loan is for the installation of approximately 870 linear feet of 8" sanitary sewer main, 3 manholes, and 22-side sewer stubs and street restoration including an asphalt overlay. Expansion service to a portion of an existing developed single-family neighborhood that currently is utilizing on-site septic systems.

1995 Northeast 27th/Aberdeen Drainage Improvements (CAG 95-058) loan is for surveying, design, permitting and construction of approximately 2,800 feet of new 18 or 24-inch stormwater pipe. The project includes manholes, catch basins, control structures, relocation of conflicting utilities, pavement patching, and overlay and restoration of all areas disturbed by construction.

1996 East Kennydale Sewer Interceptor (CAG 96-079), \$2,093,740, 2%, 20-year loan for the construction of approximately 5,200 linear feet of 12 to 15-inch sanitary sewer pipe, 14 sewer manholes, replacement of the Devil's Elbow sanitary sewer lift station, 300 linear feet of 6-inch sanitary force main, fish habitat improvements, repair of access road, and associated asphalt patching and paving.

1996 Honeycreek (Sunset) Sewer Interceptor (CAG 96-078) loan is to construct approximately 5,785 linear feet of 15 to 18-inch sanitary sewer main, 15 sewer manholes, 3,300 square yards of asphalt paving, and related appurtenances to the sewer main.

1997 Corrosion Control Treatment Facilities (CAG 96-031/97-130). This loan was for construction of a building on City property in Cedar River Park between well PW-8 and well PW-9 to store and pump chemicals for treating the water from wells RW.

2002 Maplewood Water Treatment Improvement (CAG 01-175). This loan was to fund the costs to eliminate quality problems in water from the Maplewood wellfield wells.

2002 CT Pipeline for Wells RW-1, RW-2 and RW-3 (CAG 02-082) loan is to construct the CT detention pipeline for wells RW-1, RW-2 and RW-3 at Liberty Park.

2004 Maplewood Drinking Water Treatment Improvement (CAG 04-053) loan is to construct the drinking water treatment improvements at Maplewood.

GOLF COURSE DEBT

GOLF COURSE DEBT SUMMARY

As of January 1, 2009, the City has \$2,510,000 in principal revenue bond debt outstanding. The revenue bond debt of the City has been incurred through one (1) bond issue. The debt service for the Golf System Refunding Revenue Bonds is accounted for in the Municipal Golf Course System Fund (404). The obligation is summarized within the tables and graphs of this document and is defined below:

Similar to the waterworks revenue bonds, the Golf Course Revenue Bonds are also protected by debt service coverage covenants. The proposed budget will have 1.14 debt service coverage ratio. This is below the 1.25 ratio in the bond covenant. However, the Golf Course Fund is maintaining a bond reserve of \$441,358 to protect the bond holders' interest.

2010 Debt Service Ratio Calculation for Golf Course	
Total Revenues	2,483,545
Total Expenses ¹	1,954,248
Amount Available for Debt Service	529,297
Total Debt Service	462,589
DEBT SERVICE RATIO	1.14

¹Less debt service and transfers to capital

1999 Golf System Refunding Revenue Bonds (Ordinance #4772) has an average interest rate is 4.9634%. These bonds were issued to refund the 1994 Golf System Revenue Bonds. The reserve requirement is an amount equal to the highest annual debt service on the bonds. The reserve currently being held on these bonds is \$441,358.

Golf Course Capital Lease (CAG 07-106). This lease is for the purchase of 50 Club Car Golf Carts. Payments are made monthly at an interest rate of 5.25%. The debt service for this lease is accounted for in the Municipal Golf Course System Fund (404).

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Highlands SubArea Redevelopment
Project Type: Development and Major Maintenance **Project Number:** e00140/f200
Total Anticipated Project Cost: \$ 1,592 **Current LOS** **Growth** **Both**

Project Description

Provide urban design, land use, legal, and other consultant work related to crafting a long-range land use and redevelopment plan for the Highlands sub-area. A Mid year adjustment was done in 2009 for the Highlands SubArea Redevelopment for 900k -: \$100k moved to be used for water main (recoverable when development occurs); \$50k for Sunset area community investment strategy; \$250k Sunset area sidewalk repairs; \$300k Sunset Ave corridor design; \$200k regional storm water facility feasibility/preliminary design

Summary of Progress: The City engaged Mithun Architects in 2009 to assist in the development of a Sunset Area Community Investment Strategy to identify and prioritize potential public investments in the area to stimulate new private investment. Remaining funds will be carried forward to 2010 to assist in implementation.

Project Title: Housing Opportunity Fund
Project Type: Development and Major Maintenance **Project Number:** N/A
Total Anticipated Project Cost: \$ 200 **Current LOS** **Growth** **Both**

Project Description

In 2008, the Housing opportunity Fund (326) was established with 200,000 to provide accounting for revenues and expenditures used to assist public and private housing projects serving low and/or moderate income households and/or special-needs populations within the City limits.

Summary of Progress: Pending City Council Approval, the City awarded the Renton Housing Authority a \$100,000 grant from the Housing Opportunity Fund to assist it in the development of a 112-unit housing project located between Glenwood and Edmonds Avenues NE. The contribution will be leveraged against County, State, Federal, and private funding sources to fully finance the \$20 million project. Remaining funds will be carried forward to 2010.

Project Title: South Lake Washington Redevelopment
Project Type: Development and Major Maintenance **Project Number:** e00140/f201
Total Anticipated Project Cost: \$ 229 **Current LOS** **Growth** **Both**

Project Description

Development of land use, economic development, and marketing strategies as redevelopment occurs on surplus industrial properties in the South Lake Washington area.

Summary of Progress: The first phase of The Landing opened in 2008, with remaining retail and a first phase of multi-family residential development scheduled to open before year end. An additional 26 acres of land is available for redevelopment. Remaining funds will be requested to be carried forward to 2010.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Downtown Wayfinding

Project Type: Development and Major Maintenance

Project Number: e00140/f198

Total Anticipated Project Cost: \$ 148 **Current LOS** **Growth** **Both**

Project Description

Signage to provide clear, consistent directions for auto and pedestrian traffic to various destinations, attractions, and landmarks. A wayfinding system may include gateway, kiosks, directional signs, or banners in a unified manner, enhancing the area's unique identity and creating artistic elements in Downtown. This will help residents and visitors feel comfortable and confident about coming Downtown, whether it is for business, culture, or entertainment. In addition, a wayfinding system in Downtown should be expanded to guide people from The Landing to Downtown. This system provides an opportunity for downtown businesses to benefit from The Landing's regional draw.

Summary of Progress: Design and installation for the initial wayfinding signage linking The Landing development and the downtown core occurred in 2009. The remaining portion of the program was designed in 2008 and will be installed when funds become available. Remaining funding will be carried forward to 2010.

Project Title: City-wide Security System Upgrades
Project Type: Development and Major Maintenance **Project Number:** N/A
Total Anticipated Project Cost: \$ 450 **Current LOS** **Growth** **Both**

Project Description

Because vandalism and graffiti repairs are a major drain on City resources, considerable cross-departmental effort has been made to reduce these property crimes. High-quality surveillance cameras and recording equipment is essential to efforts to prevent, discourage, and prosecute crimes of these types. Cameras are also important to the security of the transit center area downtown. The coordination of departmental efforts needs to also extend to equipment and software specification, placement, and replacement. Because video equipment continues to improve and fall in price, it will be possible to continue to upgrade the City's equipment without corresponding increases in cost. Many of the older surveillance cameras already in place are degraded and in need of replacement.

Summary of Progress: The City purchased and placed a number of solar powered FlashCams in 2009 that have been very effective in deterring vandalism and graffiti. A web-based access program for the Police Department to access all video cameras via their laptops was also tested and put in place. Some high-pixel cameras have been placed at Coulon and the transit center; these are capable of facial recognition at considerable distances.

Project Title: Henry Moses Aquatic Center

Project Type: Development and Major Maintenance

Project Number: N/A

Total Anticipated Project Cost: \$ 5,843

Current LOS

Growth

Both

Project Description

The Henry Moses Aquatic Center opened for the summer season in 2004. It contains a lap pool, a lazy river, slides, and water features, as well as a toddler area. The facility recovers all operating costs and improvements to user features through fees and charges.

Summary of Progress: The Henry Moses Aquatic Center opens after the Memorial Day weekend, and runs through Labor Day. Future improvements will include waiting area cover, water features, and a cover for the lap pool.

Project Title: **New Maintenance Facility**

Project Type: **Development and Major Maintenance** **Project Number:** **C20003**

Total Anticipated Project Cost: \$ 17,528 **Current LOS** **Growth** **Both**

Project Description

Acquisition, design, and construction of a new maintenance facility and storage yard to replace and consolidate two existing sites, one of which is a leased facility.

Summary of Progress: Original planning and programming were completed in 2001 and have since been updated to reflect City growth. We anticipate site development in 2011. The development will be funded by bond proceeds.

Project Title: North Highlands Community Center
Project Type: Development and Major Maintenance **Project Number:** C20002
Total Anticipated Project Cost: \$ 2,038 **Current LOS** **Growth** **Both**

Project Description
 The North Highlands Neighborhood Center is near the end of its useful life. Major work has been performed in the last two years to maintain the building. Ongoing citizen-initiated neighborhood development plans should prescribe a replacement within a few years.

Summary of Progress: The City has placed much focus on North Highlands redevelopment. The North Highlands Community Center will be a prominent feature of the redevelopment. Facility replacement costs range in the area of \$2,000,000 and is tentatively set to take place in 2010/2011.

Project Title: Leased Facilities
Project Type: Development and Major Maintenance **Project Number:** C20010, C20026
Total Anticipated Project Cost: \$ 3,204 **Current LOS** **Growth** **Both**

Project Description

We completed an architectural, energy, structural, seismic, and mechanical review of the 200 Mill Building (Old City Hall) in 2008. Costs were high relative to the market value of the building, so we will continue to lease space in the building and make improvements and updates as necessary, using grant money wherever possible. In 2009, we are expecting to receive a Federal (EECBG) grant and a PSE energy grant that provided most of the funding for a substantial HVAC improvement project (\$730,000) that included programmable computerized controls. In 2012 and 2013, ADA bathroom upgrades on three additional floors of the 200 Mill building are planned. In 2010 we will lose Boeing electrical system support for the boathouse in Cedar River Trails Park. Replacement will involve major underground tunnelling and new electric supply and transformers (\$260,000). Typical major maintenance projects for the building are included in the property manager's budget (Fund 108) as well.

Summary of Progress: In 2009, the first floor lobby and restrooms were updated to ADA standards and to meet the needs of the first floor tenant. Work commenced on the grant-financed dual duct HVAC system replacement as well.

Project Title: Disaster Repairs

Project Type: Major Maintenance

Project Number: N/A

Total Anticipated Project Cost: \$ 1,200

Current LOS

Growth

Both

Project Description

Because unpredictable events occur that result in significant repair costs to Parks Division assets impacting the 001 operating fund, project funds will be used for disaster events whenever such damage occurs. Events such as floods, windstorms, earthquakes, and the like require an immediate response to make repairs and restore pre-existing conditions.

Summary of Progress: This is a new project introduction in 2010. In 2010, funding will be utilized as the required 25% FEMA match for Gabion repair work along the Cedar River Trail downstream of the Bronson Bridge. Remaining funding will be utilized only if necessitated by disaster(s).

Project Title: Grant Matching Program

Project Type: Development and Major Maintenance

Project Number: C32011

Total Anticipated Project Cost: \$ 1,750 Annually Current LOS Growth Both

Project Description

The City annually appropriates funds to be available for unforeseen park and/or trail development or acquisition opportunities, or to be available to leverage grant monies from agencies such as King County Conservation Futures, Washington Recreation and Wildlife Program (WWRP), FEMA, or EECDBG. Any expenditure of these monies must have specific Council approval.

Summary of Progress: Carry forward unspent funds to 2010. A FEMA Pre-Disaster Mitigation Grant for a seismic retrofit of the 200 Mill Building is being pursued; it requires a 25% match (\$250,000). The City applied for one Conservation Futures Grants (KCCF) and will receive notification regarding a \$350,000 grant towards the purchase of a 3.28 acre parcel along Panther Creek. Reimbursement for two King County grants for property acquisitions completed along May Creek and Panther Creek were received in 2009. Applications were also submitted for a \$500,000 State WWRP grant and a \$100,000 King County YSFG grant for Ron Regis Park. The City did not receive the WWRP Grant but was recommended for award for the YSFG grant.

Project Title: Black River Riparian Forest

Project Type: Development and Major Maintenance

Project Number: N/A

Total Anticipated Project Cost: \$ 2,390

Current LOS

Growth

Both

Project Description

The Black River Riparian Forest contains an active Heron colony, an estimated 75 species of avifauna, and numerous mammals. As the site will allow, future long range plans for this facility includes an interpretive learning center, soft surface paths to view wildlife, and sensitive habitat enhancement. (This project was first introduced as a CIP project in 2004.)

Summary of Progress: The first phase of this project is being re-scheduled to 2011 and will include a wildlife/habitat inventory/assessment. The assessment will be utilized to determine the suitability and feasibility of a future interpretive learning center and associated amenities. The assessment will take one year to complete and be utilized to develop a Master Plan in 2012. Construction documents will be prepared in 2013 with proposed construction in 2014.

Project Title: Maplewood Community Park

Project Type: Development and Major Maintenance

Project Number: N/A

Total Anticipated Project Cost: \$ 8,900 **Current LOS** **Growth** **Both**

Project Description

This 40-acre site, located adjacent to Maplewood Heights Elementary School and Maplewood Neighborhood Park, is currently owned by King County and will be transferred to the City of Renton for future use as a park site. The area is experiencing rapid residential growth and possibly, annexation to the City. Long term development plans call for a mixed-use community park that includes both active and passive uses. Consultant selection and master planning is scheduled for 2011, design development, construction document preparation, and bidding in 2012, with phase one development proposed for 2013 at a cost of \$3,000,000. (This CIP project was first introduced in 2002.)

Summary of Progress: The City and King County are delaying negotiations to transfer the 40-acre undeveloped parcel and the 5-acre developed Maplewood Park until some time in the future.

Project Title: Parks, Recreation, and Open Space Plan
Project Type: Development and Major Maintenance **Project Number:** C32002
Total Anticipated Project Cost: \$ 576 **Current LOS** **Growth** **Both**

Project Description

The Parks, Recreation, and Open Space Plan is an implementation document including a strategic plan, inventory of existing facilities, service levels, needs assessment, user demands, and surveys to develop recommendations for the City's future needs (intro 1999). A habitat component also comprises this planning document. A Trails and Bicycle Plan will be incorporated into the Plan and was completed in partnership with the Transportation Division. This plan was adopted by City Council in 2009. The Parks, Recreation, and Open Space Plan should be updated every five years to continue meeting State requirements for grant program eligibility.

Summary of Progress: Carry forward all unspent 2009 funds. Request for additional funding in 2010 is to complete the habitat component of the plan. An update for the Parks, Recreation, and Open Space plan will commence in 2009.

Project Title: Regis Park Athletic Field Expansion
Project Type: Development and Major Maintenance **Project Number:** C32003
Total Anticipated Project Cost: \$ 9,430 **Current LOS** **Growth** **Both**

Project Description

This project will occur in phases. Phase I consisted of design and construction of the lighted soccer field and softball field, lighted basketball court, phase one parking, and entry drive and bridge over Madsen Creek. Phase II will expand the capacity and provide greater programming flexibility at Ron Regis Park by improving the existing all-weather (dirt) soccer field with synthetic turf, constructing a second lighted synthetic turf soccer field, expand the existing parking lot, add restroom facilities, a children's play area, picnic shelter, and extend domestic water to the site for drinking and fire flow purposes and sewer. Phase III will convert the existing natural turf softball field to synthetic turf and develop a second lighted synthetic turf ball field. (First introduced in 1998.)

Summary of Progress: In 2008, the City applied for but did not receive a \$500,000 WWRP grant. Also, in 2008 an application was made with a recommended grant award for a \$100,000 King County grant. A design consultant was hired to complete construction documents in 2008, however this project is being re-programmed to the future.

Project Title: Springbrook Trail Missing Link
Project Type: Development and Major Maintenance **Project Number:** C32014
Total Anticipated Project Cost: \$ 711 **Current LOS** **Growth** **Both**

Project Description

This project will construct the missing trail link from approximately 1,500 feet north of SW 34th Street north to SW 27th Street through the Springbrook Valley Wetlands, Wetland Mitigation Bank, as part of the I-405 Early Mitigation Project. The Springbrook Trail is linked to a countywide regional trail system including the Interurban Trail, and extends to the City of Pacific to the south, and north to South Seattle.

Summary of Progress: The boardwalk trail was completed in 2009 however the project has not been closed out. Carryforward unspent funds from 2009. Funding is derived from Parks Mitigation Fund. Upon project close-out, return unspent funds to the Parks Mitigation Fund (Fund 303).

Project Title: Urban Forestry Program
Project Type: Development and Major Maintenance **Project Number:** C32017
Total Anticipated Project Cost: \$ 1,061 **Current LOS** **Growth** **Both**

Project Description

Following a 2003 tree inventory, an Urban and Community Forestry Development Plan was initiated in 2008 using a consultant working with all City departments to develop a prioritized implementation schedule of activities for a formal Urban Forestry Program. Some of the goals of the Development Plan may include projects such as a forestry ordinance, emergency storm damage plan, public education and outreach program, urban forestry management plan, best management practices, recommended street tree listing, Tree City USA qualifications, funding strategies, canopy study, future updates to the inventory, and others determined by the Development Plan task force and approved by City Council.

Summary of Progress: Carry forward unspent funds from 2009. Urban Forestry Development Plan was accepted by Council in 2009. A Tree Inventory and Assessment for the Benson Hill Area will be completed in 2009 and incorporated into the 2003 Assessment. A public process to develop a forestry ordinance utilizing a consultant is scheduled for 2009 and 2010. Ordinance goals include improving public safety in the right-of-way and on public property, reducing infrastructure repairs (eg. concrete damage, blocked traffic signals, vehicle clearance, etc) optimizing tree health and canopy coverage & guiding proper maintenance & planting.

Project Title: Park Master Planning
Project Type: Development and Major Maintenance **Project Number:** N/A
Total Anticipated Project Cost: \$ 450 **Current LOS** **Growth** **Both**

Project Description

Park master planning is needed for undeveloped parks, under-developed park areas, and for developed parks that are becoming outdated. Assessing park, recreation, and open space needs of the community, and translating that information into a framework for meeting the physical, spatial, and facility requirements to satisfy those needs, describes the goals of the park master planning process. Park master planning is done at the individual park level and guides park development in subsequent years.

Summary of Progress: This is an item introduced in 2008. Implementation of the Plan, and funding of projects is being re-programmed to 2011.

Project Title: Highlands Library Natural Area
Project Type: Development and Major Maintenance **Project Number:** N/A
Total Anticipated Project Cost: \$ 280 **Current LOS** **Growth** **Both**

Project Description

Highlands Library Natural Area was an overgrown 0.7 acre on the north and east side of the library. Volunteers cleared brush from the site during 2007 in an attempt to reduce encroachment problems, increase visibility, and expand usability. The area has a concrete pathway connecting NE 13 Street to the north with NE 12 Street to the south, making for a neighborhood pass through for walkers. Design and construction drawings will be needed to bring concepts of use for approval followed by development of the final plan.

Summary of Progress: In 2011, a total of \$50,000 for master plan design and construction documents utilizing consultants through the public process, with development in 2012.

Project Title: Integrated Pest Management Program
Project Type: Development and Major Maintenance **Project Number:** N/A
Total Anticipated Project Cost: \$ 100 **Current LOS** **Growth** **Both**

Project Description

Integrated pest management (IPM) is the concept of managing pests through a hierarchy of choices, the first being the least toxic approach in an effort to reduce the use of chemical controls. While the Community Services Department is practicing IPM, the department has no formal program to date. A formal program will bring effectiveness of IPM practices to the department and demonstrate leadership to the public in the control of weeds and other pests using the least toxic alternatives available.

Summary of Progress: This is being re-programmed to 2011 at which time a consultant will be hired to work with staff in developing an Integrated Pest Management Program plan.

Project Title: I-405/Talbot Road Streetscape Improvements
Project Type: Development and Major Maintenance **Project Number:** N/A
Total Anticipated Project Cost: \$ 50 **Current LOS** **Growth** **Both**

Project Description

A joint project with Community Services and Public Works to install irrigation and plant material along the Talbot Road planter strips as part of the I-405 project.

Summary of Progress: WSDOT will be designing and constructing improvements at no cost to the City. Maintenance of areas will be programmed into the Parks Division operating fund in 2011 for contract landscape maintenance.

Project Title: Offleash Dog Park Development
Project Type: Development and Major Maintenance **Project Number:** N/A
Total Anticipated Project Cost: \$ 50 **Current LOS** **Growth** **Both**

Project Description
 Initial development of an offleash dog park area in 2009 that follows the recommendations of the Offleash Dog Park Task Force. The project is approved currently for a 2 year trial, therefore the M & O impact is only for 2 years.

Summary of Progress: In 2009, funds were used to provide for basic offleash dog park amenities. Volunteers donated time and materials to complete up to 50% of the costs. Fencing, benches, mutt-mitt dispensers, sani-can and trash containers are all included as part of the off leash area. Additional funds will be sought from donations with operational costs offset by volunteers and animal license fees.

Project Title: KC Proposition 2 Capital Expenditures Levy Fund
Project Type: Development and Major Maintenance **Project Number:** N/A
Total Anticipated Project Cost: \$ 856 **Current LOS** **Growth** **Both**

Project Description

King County voters approved a six-year levy for open space and trail acquisition and development through 2014. The funds may specifically include local trails in underserved areas linking to city or county trails that connect regional trails and for open space acquisition in areas where the City is trying to acquire missing parcels as part of a larger network of open spaces. The funding will be allocated to appropriate eligible projects and the M&O cost will be incorporated in these projects when funded.

Summary of Progress: The Interlocal Agreement for fund distribution was executed in 2009. The 2008 allocation was collected in 2009 and 2009 funds allocation will be collected in 2009. A portion of these funds may be utilized for a 3.28 acre property acquisition located along Panther Creek.

Project Title: Irrigation Renovation and Conservation
Project Type: Development and Major Maintenance **Project Number:** C32006
Total Anticipated Project Cost: \$ 1,927 **Current LOS** **Growth** **Both**

Project Description
 Many irrigation systems are 30 years old or more. Upgrading outdated park irrigation systems will improve irrigation coverage and reduce the amount of water and energy used per park. This will also increase the recreational value to Renton citizens. This is part of the Community Services Department's Water Conservation Plan and Strategy.

Summary of Progress: In 2009, irrigation design and construction was scheduled for Cedar River Park. This project has been rescheduled to occur in 2011.

Project Title: Irrigation Automation and Conservation
Project Type: Development and Major Maintenance **Project Number:** C32010
Total Anticipated Project Cost: \$ 471 **Current LOS** **Growth** **Both**

Project Description

Replacement of existing solid state and battery operated irrigation controllers with computerized irrigation controllers and water saving devices will reduce water costs, conserve water, and provide more effective water delivery to parks, boulevards and public building grounds. This is part of the Community Services Department's Water Conservation Plan and strategy.

Summary of Progress: In 2009, irrigation automation was completed in the following parks: Earlington, Glencoe, Liberty Park, and North Highlands Park. In 2010, irrigation automation is planned for three additional locations.

Project Title: Parking Lots and Drive Repairs
Project Type: Development and Major Maintenance **Project Number:** C32008
Total Anticipated Project Cost: \$ 472 **Current LOS** **Growth** **Both**

Project Description
 Pavement resurface, reconstruction, sealcoat, patch, repair curb, improve drainage, and re-stripe existing asphalt drives and parking areas throughout the City's parks and municipal sites (e.g. Fire Stations, libraries, recreation centers). The program is intended to repair and generally extend the life of the existing pavement.

Summary of Progress: Repairs in 2009 were scheduled for Cedar River Park, Teasdale Park, and select firestations but were postponed to 2011. Projects scheduled for future years have been likewise postponed.

Project Title: Ball field Renovation Program
Project Type: Development and Major Maintenance **Project Number:** N/A
Total Anticipated Project Cost: \$ 325 **Current LOS** **Growth** **Both**

Project Description

Ball fields require major renovations periodically to increase playability and decrease staff time in field preparation. The scope generally includes field improvements such as drainage, grading, sodding or seeding, material replacement, backstop repairs, and upgrades, player bench area repairs and upgrades, and bleacher area repairs and upgrades.

Summary of Progress: In 2009, a new infield mix was scheduled to be installed at Cedar River Park, along with irrigation in the CIP Irrigation Renovation & Conservation Program. This project is being re-programmed to 2011.

Project Title: Paths, Walks, Patios and Boardwalks
Project Type: Development and Major Maintenance **Project Number:** C32009
Total Anticipated Project Cost: \$ 965 **Current LOS** **Growth** **Both**

Project Description

Repair and replace heaving, broken, and settling pathways, trails, sidewalks, patios and boardwalks with asphalt, concrete, pavers, wood, or other materials.

Summary of Progress: In 2009, repairs were begun for the concrete walkways fronting the Senior Housing along the Cedar River Trail, Cedar River Trails Park asphalt pathway and Coulon asphalt pathway. Repair of the sidewalks at Jones park will be coordinated with the Jones Park Restroom Renovation project in late 2009, early 2010. For 2010, the asphalt pathway at Earlington Park will repair heaved sections. Carry forward unspent funds.

Project Title: Sports Court Repairs
Project Type: Development and Major Maintenance **Project Number:** C32007
Total Anticipated Project Cost: \$ 280 **Current LOS** **Growth** **Both**

Project Description

Repair, replace, resurface, reconstruction, seal-coat, patch, improve drainage and re-stripe existing surfaces including soft surface courts such as the bocce ball court at the Renton Activity Center. The program is intended to repair safety problems and generally extends the life of the existing surfaces.

Summary of Progress: In 2009, repairs at Ron Regis Park and Teasdale Park were scheduled, however, only Teasdale Park courts were repaired. Regis Park court repairs have been re-scheduled to 2012 to coincide with Regis Park Field Expansion project. Future court repair projects have been moved out in time.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Tree Maintenance
Project Type: Development and Major Maintenance
Project Number: C32012
Total Anticipated Project Cost: \$ 572
Current LOS **Growth** **Both**

Project Description
 The Parks Division maintains 1,500 street trees, 20,000 park trees, and 105,000 natural area trees, requiring routine maintenance to maintain and improve public safety, sustain tree health, and value and create a more attractive appearance along City streets and in parks. Routine maintenance improves sight lines to traffic signals, traffic signs, and business advertising; creates clearance over streets for vehicles and pedestrians; enhances street light illumination; and eliminates poor growth habits to reduce infrastructure costs and avoid major tree problems in the future including tree failure. Improving and extending the life of Renton's tree population is a high priority for improving the City's overall environment.

Summary of Progress: In 2009, emergency tree removal occurred at the Black River Riparian Forest and along the Cedar River Trail. Street trees in the downtown were pruned to improve structure, provide clearance over streets and sidewalks, and to improve sight distances to businesses. For 2010, continuation of downtown street tree pruning and emergency tree removal at various locations will occur.

Internal Service Funds

Fund 503 - Information Services Fund

Total Anticipated 2010 Project Cost: \$996,800

Department Capital (Costs charged directly to identified department)

Police Department Applications Projects: \$ 215,000

This project begins to fund a three year effort to place video in each patrol and traffic vehicle (\$100K per year for three years), replacement of the records system message switch server (\$15K), funds implementation of a work force management program time keeping and planning (\$45K), additional records management modules (\$40K) and Valley Com updates to the fleet (\$15k). The 2010 budget request for the project is \$215,000.

PWs Springbrook utility billing application Upgrade - \$ 50,000

In 2010, the Springbrook utility billing application will be upgraded at a projected cost of \$50K.

Community Services Project: \$ 20,000

Maintenance management licenses will be added for \$20K

Fire Projects: \$ 20,000

Fire Department inspectors field equipment will be replaced and remote computing software purchased from the records vendor for \$20K.

Finance Project: \$ 30,000

In 2010, Additional citizen facing applications totalling \$30K.

Enterprise Capital (costs allocated city-wide based on equipment count)

Network Systems Projects: \$ 232,000

On-going maintenance projects include replacement of the city's tape backup system \$50K, uninterruptable power supply battery replacement \$10K, additional data storage \$75K, security monitoring \$15K, updating of the low voltage wiring in FS #16, \$25K, and completion of fiber optic cabling to the Maplewood Golf Course \$ 30K. Fire Station 12 Hot site provisioning for business community \$15 K, Telecommunication network is 12K. The total 2010 capital request for this project is \$232,000.

Annual Equipment Replacement: \$ 299,800

This project replaces aging City desktop, laptop and ruggedized computers on a 5 year rotation schedule \$299,800.

Public Works Infrastructure Projects: \$ 130,000

In 2010 the I-405 project will replace the existing Benson Hill bridge. \$80K will be used to pay for conduit installation in the replacement bridget sidewalk and approximately 1000' of conduit under I-405 on Talbot for \$50K. These one time projects will enable future fiber optic cabling installation to the Benson Hill area. This funding request is for 130,000.

Fund 504 - Facilities Fund (C20004-C20009)

Total Anticipated 2010 Project Cost: \$ 498,000

Operational Facilities Projects: \$137,000

Fire Station No. 11 (Built 1978):	\$18,000
A seismic evaluation of the building conducted in 2007 indicated that Fire Station 11 needed substantial improvements to achieve the desired level of post-event functionality. We did receive grant approval in 2008 and much the work will be completed by 2010. Additional station upgrades (insulation and energy refits, bathroom and kitchen remodeling) were planned to coincide with the seismic upgrade to limit operational disruptions. The seismic upgrade was roughly \$250,000 of the \$650,000 project.	
Fire Station 12:	\$21,000
Funding is required for typical annual maintenance. In addition, the equipment and backup systems for the Emergency Control Center are important to maintain at the schedules recommended in the O&M Manual (\$21,000).	
Fire Station No. 13:	\$12,000
This new station, with administration offices, will be \$12,000 in a typical year.	
Fire Station No. 14 (Built 1997):	\$14,000
Normal major maintenance is \$14,000.	
Fire Station No. 16 (Remodeled 1997):	\$22,000
Normal major maintenance is \$22,000	
Fire Station No. 17	\$20,000
The station is the older of two in the FD 40 service area that is contracted by the Renton F & ES Department. The Fire District is responsible for major repairs (incidents over \$5,000), but there are numerous minor maintenance items that require attention. The Fire District is planning a major upgrade that should result in lower maintenance costs when complete.	
City Shops:	\$30,000
We have experienced an increasing level of maintenance repairs as this facility ages.	

Public Facilities Projects: \$361,000

Carco Theatre:	\$12,000
The stage and seating areas need an ADA upgrade (\$90,000) that includes a lift to be done in 2012. The dressing rooms need to be remodeled in 2013 (30,000), and major maintenance runs to roughly \$12,000 annually.	
City Hall:	\$80,000
A variety of small projects are requested annually (\$30,000) in response to public access and technology changes, and expenditures for major maintenance is expected to be \$80,000. The HVAC system service is no longer contracted so there is some exposure to equipment failure and replacement costs. There is some potential cost benefit through PSE energy savings matches to replace the final (of three) HVAC compressors. The roof will need to be replaced in 2012.	
Renton Community Center:	\$111,000
Major maintenance has an allowance of \$25,000 annually from 2010 to 2015. The new gym floor has an annual refinishing program (\$11,000). Continuing security and technology upgrades and replacements are now rolled into a City-wide security equipment element in this budget. The AC is seasonally inadequate for the exercise/weight room. An air conditioning upgrade is estimated at \$85,000 in 2012. Many of the furnishings and some equipment is well beyond its service life, so some replacements are schedule for 2009 (\$35,000). Major painting and staining is planned (\$40,000) to provide an updated appearance. If the RCC is to be used for the citywide emergency shelter program a generator will be necessary (\$95,000).	
Senior Activity Center:	\$25,000
Funds for annual major maintenance program costs are needed in years 2010 to 2015 (\$25,000 annually). The architectural plans for a kitchen remodel will be developed in 2011 (\$50,000) for a major rehabilitation that will occur at a later date. Major appearance upgrades have been designed and work will take place in 2011 (\$80,000) and 2012 (\$60,000). The expansion of air conditioning for a portion of the building currently without (\$45,000) and the banquet floor will be replaced (\$145,000) in 2012.	
Main and Highlands Libraries:	\$30,000
From 2010 to 2015, the major maintenance program continues, roughly, \$15,000 per year. Highlands major maintenance is \$15,000 per year.	
Coulon Park:	\$12,000
The structures at Coulon Park require annual major maintenance of \$30,000.	
Exercise Equipment Replacement:	\$31,000
The ongoing program to replace old exercise equipment, located throughout all public facilities, continues and will be \$31,000 in 2010.	
Highland and N Highlands Community Centers	\$35,000
Annual maintenance costs are high for the NHNC and replacement is recommended.	
Liberty Park Stadium:	\$5,000
The stadium is old enough to need frequent concrete repairs and sealing.	
Liberty Park Community Building:	\$20,000
Annual major maintenance is proposed at \$20,000 as this is the oldest building in the City inventory and will be in use as an office building for the foreseeable future.

Total Anticipated Project Cost: Ongoing

Project Description

The major maintenance items that are described on the following page are necessary in the continuing effort to keep City buildings in sound operating order. The findings of master plans and potential annexation for the Library and the findings of the Museum Master Plan may influence those facilities beyond the short term and the line items indicated for those areas are therefore subject to significant change.

Summary of Progress: Descriptions are given sectionally below.

Transportation

Duvall Ave NE

Widening roadway to five lanes including: curb/gutter, sidewalk, streetlights, channelization and bike lanes.

Rainier Ave South

Improvements will enhance traffic flow and reduce accidents.

Houser Way South

Upgrade railroad tracks to concrete on Houser Way S between Main Ave S and Burnett Ave

Maple Valley Rd (SR-169) Improvements at I-405
Roadway widening, modifications to channelization and upgrade to traffic signals.

From new roads to corridor improvements to intersection improvements - it keeps transportation moving safely.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

SUMMARY

CITY OF RENTON - PUBLIC WORKS TRANSPORTATION SYSTEMS DIVISION 2009-2014 SIX-YEAR TIP

CITY OF RENTON
PUBLIC WORKS
TRANSPORTATION SYSTEMS DIVISION
2010 - 2015 SIX-YEAR TIP

Street Overlay **Functional Classification:** N/A **Fund:** 317
Proj. Length: N/A **Proj:** t12108
TIP No. 1 **CONTACT:** Bill Wressell 425.430.7400

DESCRIPTION:
Annual program for repairing and resurfacing existing roadways, operating the City's Pavement Management System and providing data for deficiency ratings.

STATUS:
Ongoing yearly program. This program funds overlays on neighborhood streets and collector streets. The Arterial Rehabilitation Program funds major and minor arterials. Installation of ADA compliant curb ramps has been incorporated into the annual Street Overlay program in accordance with federal requirements. A 5% annual cost increase has been incorporated into this program.

JUSTIFICATION:
ACP overlay, SMA, and slurry seal of streets provide for improved driving surface and are highly cost-effective ways of avoiding expensive repairs and reconstruction. The computerized Pavement Management System and yearly survey of roadway conditions greatly improve the efficiency of the Overlay Program. The arterial streets are rated every year, while the residential streets are rated every other year.

CHANGES:
The Transportation/Aviation Committee recommended that \$100,000 be allocated in 2010 for maintenance of existing alleyways. The budget will be reflected in the Overlay Program (\$50,000) and in the Arterial Rehabilitation Program (\$50,000). Each program was increased by \$25,000, which combined with the \$25,000 previously allocated will provide the funds for alleyways.

Funded : 6,031,340 **Unfunded :** 203,700

Arterial Rehabilitation Program

Functional Classification: Various

Fund: 317

Proj. Length: N/A

Proj: t12186

TIP No. 2

CONTACT: Bill Wressel 425.430.7400

DESCRIPTION:

As funding is available, this program will provide for the rehabilitation of arterial streets where the restoration requirements are beyond that which can be accomplished through the annual Overlay Program. Installation of ADA compliant curb ramps has been incorporated into the annual Arterial Rehabilitation and Overlay programs according to new federal requirements.

STATUS:

Proposed paving schedule: 2009 - Puget Dr. (Rolling Hills to Edmonds); 2010 Carr Road (East of SR 167 to Mill Ave); 2011 - East Valley Rd. S. (SW 41st St to SW 16th St); 2012 - Benson Rd. (S of I-405 to SR 515); 2013 - N 3rd St. and N 4th St. (Logan Ave to Sunset Blvd); 2014 - Airport Way (Rainier Ave N to Logan Ave). This order may change depending on future ratings. A 5% annual cost increase has been incorporated into this program.

JUSTIFICATION:

The Overlay Program concentrates to a great degree on maintaining residential streets, where relatively small traffic volumes and less truck and bus traffic make standard asphalt overlays a long term means of maintenance. Arterial streets can often deteriorate rather quickly and often require more costly rehabilitation measures and/or costly temporary repairs to avoid more extensive deterioration. A number of arterials identified as needing major rehabilitation are being addressed in this program and the Overlay Program.

CHANGES:

The Transportation/Aviation Committee recommended that \$100,000 be allocated in 2010 for maintenance of existing alleyways. The budget will be reflected in the Overlay Program (\$50,000) and in the Arterial Rehabilitation Program (\$50,000). Each program was increased by \$25,000, which combined with the \$25,000 previously allocated will provide the funds for alleyways.

Funded : 2,931,500 **Unfunded :** 84,000

Rainier Ave Improvements - Grady Way to S 2nd Street

Functional Classification: Principal & Minor

Fund: 317

Proj. Length: 0.89 mi

Proj: t12703

TIP No. 3

CONTACT: Derek Akesson 425.430.7243

DESCRIPTION:

Improvements remove barriers, eliminate substandard conditions, consolidate access points to existing major businesses, provide an enhanced pedestrian environment. Project elements include adding BAT (business access and transit) lanes (north and southbound), removing the BNSF railroad bridge support pier, adding left-turn lanes at intersections, widening sidewalks with streetscaping, adding pedestrian-scale illumination, bollards (at crossings), transit facility improvements (shelters, benches, info kiosks), planted buffer strips and landscaped medians.

JUSTIFICATION:

Rainier Ave is a critical corridor in central Renton with existing operational problems and in need of infrastructure enhancements to provide greater ease of non-motorized and transit-based travel. Existing high level of traffic congestion and accidents. Improvements will enhance traffic flow and reduce accidents. BAT lanes will be provided from S 2nd St to Grady Way southbound and from Grady Way to S 3rd St northbound.

STATUS:

The Sound Transit agreement authorizes \$14.9 million for transit improvements. Two State Pedestrian and Bicycle Safety Grants have been awarded: \$200,000 (2006) and \$230,000 (2007). TIB awarded grant funds of \$2,202,000 (2003); \$1,906,200 (2006); and \$2,831,500 (2008). A \$2.0 million (2009) federal grant was awarded for Phase 1 (Shattuck Ave). A \$4,800,000 STP grant was awarded in 2009 for construction.

CHANGES:

Rainier Ave has 30% design completed. Construction of the Phase 1 - Shattuck Ave Stormwater bypass system is scheduled for the summer of 2009. Mitigation funds in the amount of \$2,100,000 must be dedicated to fulfill grant requirements to this project. City Utilities improvements will be funded by the respective utilities.

CITY OF RENTON
PUBLIC WORKS
TRANSPORTATION SYSTEMS DIVISION
2010 - 2015 SIX-YEAR TIP

SW 27th Street/Strander Boulevard Connection

Functional Classification: Minor Arterial Fund: 317
Proj. Length: 1.27 miles Proj: t12239, 12240
TIP No. 4 CONTACT: Rob Lochmiller 425.430.7303

DESCRIPTION:

This project provides a critical four/five-lane arterial that will serve as a connector to West Valley Highway (SR-181) and East Valley Road, as well as an arterial connector to SR-167 from the south. The project will provide a grade-separated crossing at the Union Pacific Railroad (UPRR) and Burlington Northern Santa Fe (BNSF) railroad tracks. Right-of-way includes: City of Renton - \$3.17 million, City of Tukwila - \$0.95 million. Donated ROW: Sound Transit - \$55,000 (not included).

STATUS:

The 30% design includes the environmental documents, base-mapping, road sections, and project phasing. \$1,000,000 was received from the General Fund in 2003. Ph.1 Seg. 1 is complete and has been paid with approximately \$3M in bonds. Grants include: TEA-21 funds of \$745,563 (2003) and \$2,398 (2005); federal discretionary (STP) of \$737,946, STP-N of \$94,420, federal discretionary (HPP) of \$684,380, and Section 129 of \$122,500.

JUSTIFICATION:

A new east-west arterial roadway will connect the cities of Renton and Tukwila, and provide significant congestion relief to existing arterials. The new road will provide access to the new Tukwila Station, a multi-modal center being developed immediately north of the new alignment, and to the Boeing Longacres site. By crossing over the UPRR and BNSF railroads, the new arterial will provide significant benefits to both freight mobility and general motorists.

CHANGES:

Railroad track work to be done in 2009-2011. Both FMSIB and Sound Transit are contributing \$4 M each to various elements of the project. The City was awarded \$4.6 M of STP Regional funds. Of the \$5.5 M WSDOT Mobility grant awarded for the Sound Transit station, \$2.5M will be used for the SW 27th project elements directly related to the Sound Transit station. \$500,000 Metro mitigation reserve to be approved by Council.

2010 - 2015 SIX-YEAR TIP

NE 3rd/NE 4th Corridor Improvements

Functional Classification: Principal
Proj. Length: N/A
TIP No. 5

Fund: 317
Proj: t12176
CONTACT: Keith Woolley 425.430.7318

DESCRIPTION:

This project involves a series of key improvements in this corridor to improve traffic operations such as rechannelization and traffic signal modifications, possible transit priority signal treatments and possibly queue jumps. This project will seek to meet pedestrian, transit and bicycle needs.

STATUS:

The estimated cost for design and construction for the entire corridor (from Sunset Blvd to the east City limits) is \$37M. Efforts to obtain grants are ongoing. The project corridor has been phased in 3 phases. Cost estimate for Phase 1 is \$8.4M. Costs beyond 2015 not shown in the TIP.

JUSTIFICATION:

This corridor has a strong potential for transit usage and is experiencing rapid residential and retail growth. The NE 3rd/4th Corridor Study was adopted in May 2005. The study refined the corridor transportation needs and costs, including pedestrian, transit, bicycle improvements, as well as streetscape enhancement.

CHANGES:

Moved construction expenses from 2011 to 2012 as the project remains partially unfunded.

Funded : 3,287,377 Unfunded : 6,133,950

Duvall Ave NE - NE 7th St to Sunset Blvd NE

Functional Classification: Minor Arterial

Fund: 317

Proj. Length: 0.67 mi

Proj: t12702

TIP No. 6

CONTACT: James Wilhoit 425.430.7319

DESCRIPTION:

Widening roadway to five lanes, including new pavement, curb, gutter, sidewalk, street lights, storm drainage, channelization and bike lanes from NE 7th St to the intersection with NE Sunset Blvd.

STATUS:

Construction to be completed in 2014, pending outside funding. New project to enhance safe vehicle, bicycle and pedestrian access along a minor arterial street.

JUSTIFICATION:

Complete a missing link of 5-lane roadway, bicycle lanes and sidewalks on Duvall Ave NE, from NE 4th St to Sunset Blvd NE. Condition of the existing roadway pavement requires total replacement.

CHANGES:

Project is largely unfunded.

Funded : 100,000 Unfunded : 6,025,000

SR 169 HOV - 140th Way SE to SR-900

Functional Classification: Principal
Proj. Length: N/A
TIP No. 7

Fund: 317
Proj: 12175
CONTACT: Rob Lochmiller 425.430.7303

DESCRIPTION:

Construct queue jumps and bypass lanes that provide transit priority traffic signal improvements on SR-169 (Maple Valley Hwy.) at 140th Way SE and in the area of I-405. Involves roadway widening at intersection approaches and modifications to channelization and traffic signals, and widening to improve the northbound on-ramp and southbound off-ramp movement at the I-405/SR 169 interchange. Improve access to Cedar River Park and Stoneway site through traffic modifications.

JUSTIFICATION:

This is a high volume, high congestion corridor where providing travel time benefits for transit and car/van-pools can be achieved with high cost effectiveness. There are severe congestion and safety problems that can be addressed by adding a right-turn lane westbound on SR-169 and a protected right-turn lane from the I-405 northbound off-ramp on to eastbound SR-169.

*Council allocated \$1.2 million from the King County Metro mitigation fund which is included in "proposed fund balance".

STATUS:

WSDOT committed \$300,000 to design. KC built a pond at 140th Way SE for our use (\$275,000 value). Grant awards: \$2,208,000 from TIB (R/W and construction), \$392,947 TEA-21 Countywide funds (construction), \$765,993 TEA-21 Countywide for Ph. 2 (construction), \$2.5 M State legislature from gas tax revenue for 2007-2009 biennium (Ph. 2). WSDOT is providing funding for additional work to be constructed as part of the project (\$153,298 towards ROW + \$292,100 for improvements).

CHANGES:

The portion of work at the I-405 location are phased. Phase 1 constructed the signal access road and parking lot. Phase 2 widened SR 169, removed the park maintenance building and constructed additional WSDOT improvements. Phase 3 is the intersection at 140th Way SE and is awaiting funding.

Garden Ave N Widening

Functional Classification: Minor Arterial

Fund: 317

Proj. Length: 0.38 miles

Proj: 12603

TIP No. 8

CONTACT: Rob Lochmiller 425.430.7303

DESCRIPTION:

The project will determine necessary roadway, intersection and traffic route improvements on Garden Ave N, Lake Washington Blvd and Houser Way to mediate the growing traffic demands in the area. It includes widening a portion of Garden Avenue N to accommodate additional traffic from existing and future development plans in the area.

STATUS:

The North Renton Area Traffic Analysis has been completed. Design of Garden Ave N to be completed in 2009 with construction to be completed in 2009-2010.

JUSTIFICATION:

With the additional development growth in the North Renton area, which includes The Landing, Lowe's, and the Southport residential/office development, this project will identify and construct improvements to improve traffic flows in the vicinity.

CHANGES:

Houser Way N and the extension of Park Ave N have been separated into individual TIP project.

Funded :	850,744	Unfunded :	90,000

Park Avenue North Extension

Functional Classification:

Fund: 317

Proj. Length:

Proj:

TIP No. 9

CONTACT: Rob Lochmiller 425.430.7303

DESCRIPTION:

The project will extend Park Ave N to provide access to Southport, PSE property and The Boeing Company. Right-of-way for extension of Park Ave N to be dedicated by Boeing per previous agreement. Improvements needed to convert Houser Way N to two-way operations (between N 8th St and Lake Washington Blvd).

STATUS:

Design and construction of Park Ave N extension and improvements on Houser Way N are anticipated in 2013 and 2014 and are unfunded.

JUSTIFICATION:

With the additional development growth in the North Renton area, which includes The Landing and the Southport residential/office development, this project will construct improvements to extend Park Ave N.

CHANGES:

Funds are needed for the improvements on Houser Way N and for the extension of Park Ave N.

116th Ave SE/Edmonds Ave SE Improvements

Functional Classification: Minor arterial

Fund: 317

Proj. Length: 2.5 mi

Proj:

TIP No. 10

CONTACT: Jim Seitz 425.430.7245

DESCRIPTION:

Widen roadway to provide a 3-lane roadway with bike lanes along 116th Ave SE and Edmonds Ave SE, including new pavement, curb, gutter, sidewalk, street lights, traffic signals, storm drainage, channelization and landscaping from Puget Drive SE to south City limits.

STATUS:

New project in the Benson Hill annexation area. The priority, cost and schedule for improvements will be determined through Arterial Circulation studies. Construction of improvements between Puget Drive SE and SE 176th Street is anticipated as a first phase.

JUSTIFICATION:

116th Ave SE was recently annexed to the City of Renton and is classified as a minor arterial. It has generally two lanes of traffic with left-turn lanes at signalized intersections and intermittent two-way-left-turn-lane south of SE 168th. Short segments of sidewalk exist on both sides of the roadway. Improvements will enhance vehicular, bicycle and pedestrian safety along this important north-south transportation corridor.

CHANGES:

New project.

Carr Road Improvements

Functional Classification: Major Arterial

Fund: 317

Proj. Length:

Proj:

TIP No. 11

CONTACT: Jim Seitz 425.430.7245

DESCRIPTION:

Includes new pavement, curb, gutter, sidewalk, street lights, traffic signals from Benson Rd South to Talbot Rd South. Potential improvements vary from roadway realignment/widening at several locations to address geometric deficiencies, widening to 5-lane roadway (2 lanes westbound, 3 lanes eastbound), to a new 4-5 lane roadway on new alignment. This project includes intersection improvements at Carr Road and 1-8th Ave SE.

STATUS:

Roadway improvements options including spot safety improvements, roadway widening and new roadway on new alignment have previously been investigated by King County. Funding proposed in the TIP is for re-evaluation of the King County improvement option as well as investigation of other alternative improvements, and finalization of a scope, cost and schedule of improvements. The amount shown in the last part of the TIP is to review alternatives for improvements on Carr Rd.

JUSTIFICATION:

Carr Road was recently annexed to the City of Renton and has been classified as a major arterial. It has four lanes of traffic with left turn lanes at intersections. King County has identified the need for improvements to improve vehicle traffic capacity and enhance vehicular, bicycle, and pedestrian safety on this major east-west transportation corridor.

CHANGES:

New project in the Benson Hill annexation area.

Sunset Boulevard Corridor Improvements

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj:

TIP No. 12

CONTACT:

DESCRIPTION:

This project involves a series of key improvements in this corridor to improve traffic operations such as channelization, traffic signal modifications, signal treatments and possibly queue jumps. This project will seek to meet pedestrian, transit and bicycle needs. The project limits are from I-405 on the west to the east City limits.

STATUS:

The Sunset Blvd Corridor study will initiate in 2010 and will refine transportation needs in the corridor, as well as the costs of the improvements.

JUSTIFICATION:

This corridor has strong potential for transit usage and is experiencing residential and retail growth.

Oakesdale Ave SW - Monster Road to SR 900

Functional Classification: Fund: 317
Proj. Length: N/A Proj:
TIP No. 13 CONTACT: Bob Mahn 425.430.7322

DESCRIPTION:
Widen existing roadway to four lanes plus two-way-left-turn-lane where needed, and bike lanes. Realign Beacon Coal Mine Road approach to intersection with the new Oakesdale Ave roadway. Includes new roadway, curbs, sidewalk, drainage, street lighting, traffic signals, channelization, retaining walls and widening existing bridge.

STATUS:
A preliminary design study was completed in 1999. A first stage of improvements will address roadway deficiencies and drainage problems between the Monster Rd bridge and Beacon Coal Mine Road. Scope, cost and implementation schedule has yet to be determined. The project cost is estimated to be \$25 million and is shown to be programmed for future years.

JUSTIFICATION:
Will serve growing north-south traffic demand.

CHANGES:

South 7th Street - Rainier Ave S to Talbot Road South

Functional Classification: Fund: 317
 Proj. Length: N/A Proj:
 TIP No. 14 CONTACT: Bob Mahn 425.430.7322

DESCRIPTION:

Preliminary engineering study to evaluate widening the existing roadway to 3 or 5 lanes and the feasibility of a separated bike/pedestrian trail. Included will be new curb, gutter, sidewalk, streetlighting, traffic signals and signal modification, channelization, storm drainage improvements and landscaping, including street trees. The study will identify right-of-way requirements, project costs and finalize the scope of improvements.

STATUS:

Funding is for project development. Schedule and funding for project construction will be determined after completion of WSDOT I-405/Talbot Road interchange ramps.

JUSTIFICATION:

This segment of the heavily travelled S/SW 7th St corridor connects Talbot Rd S (SR 515) with Rainier Ave S (SR 167). This segment also borders the South Renton Neighborhood. Increasing traffic demands resulting from the WSDOT I-405/Talbot Rd interchange ramps will create the need for increased capacity of S 7th St. This segment of S 7th St is part of a designated east-west ped/bike route through the City's commercial core and an important link between regional trails. The South Renton Neighborhood Study has identified S 7th St as needing streetscape improvements.

Lake Washington Trail (South Lake Connector) - AKA Sam Chastain Trail

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: t12707

TIP No. 15

CONTACT: James Wilhoit 425.430.7319

DESCRIPTION:

The Sam Chastain Trail will connect Gene Coulon Memorial Beach Park to the Cedar River Trail. The multi-purpose trail will improve non-motorized access to Renton's Urban Center Downtown and Urban Center North.

STATUS:

The City was awarded a \$500,000 Federal Enhancement grant (design) and a \$900,000 Enhancement grant (construction). Additional \$100,000 grant funding became available through the STP contingency list.

JUSTIFICATION:

This trail will complete a missing link and provide connections to 52+ miles of trail for pedestrians, bicyclists and multi-use. The connection between Lake Washington Trail and the Cedar River Trail will be along Logan Ave N.

CHANGES:

This project has been phased. Stage 1 is complete and constructed approximately 4,000 feet of southbound bike lane along Logan Ave N, from Lake Washington Blvd to N 6th St. Stage 2 will construct a shared use trail from N 6th St to the Cedar River Trail along the west side of Logan Ave N. The shared path will be 12 feet wide and a 5 feet landscape section will be constructed between the traffic and shared path.

Funded : 1,635,045 Unfunded :

Highlands to Landing Pedestrian Connection Project

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj:

TIP No. 16

CONTACT: Jim Seitz 425.430.7245

DESCRIPTION:

This project will provide a continuous barrier-free pedestrian connection between The Highlands and the Landing/Coulon Park. The project was conceived by the Highlands Task Force Committee that included residents, businesses and elected officials from the Renton Highlands. Preliminary planning and conceptual drawings have been completed.

STATUS:

New project. The City was awarded a Federal grant in the amount of \$ 240,000 for design of the pedestrian connection. Funding allocated toward Highlands Improvements will be used for the required match.

JUSTIFICATION:

Since the construction of I-405 there has been a physical barrier preventing the pedestrian connection along Park Avenue North between the Highlands and Gene Coulon Park. This project will complete the pedestrian connection between the Highlands Urban Center and the Downtown North Urban Center.

CHANGES:

Funded : 240,000 Unfunded :

Lake to Sound (L2S) Trail

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj:

TIP No. 17

CONTACT: Jim Seitz 425.430.7245

DESCRIPTION:

The Lake to Sound (L2S) Trail is a joint partnership between the cities of SeaTac, Renton, Tukwila, Burien and Des Moines, in coordination with King County. The 17-mile L2S Trail will provide an east-west connection between the shoreline of Lake Washington (Renton) to the shoreline of Puget Sound (Des Moines).

STATUS:

New project. This project was awarded a Federal grant in the amount of \$ 800,125 for design and environmental documentation of Segments: A - Naches Avenue (Renton) to Fort dent Park (Tukwila) and B - Des Moines Memorial Drive (Sea-Tac and Burien). Segment A (Renton) portion of the grant amount is estimated to be \$300,000.

JUSTIFICATION:

Segment A will connect Fort Dent (Tukwila) to the larger system of regional trails in South King County, including the Green River Trail, the Interurban Trail and the Cedar River Trail. Segment A goes from Naches Avenue in Renton, to Fort Dent in Tukwila.

CHANGES:

Planning for the entire system is complete and many segments have already been constructed.

Funded : 150,000 Unfunded :

Walkway Program

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: t00009

TIP No. 18

CONTACT: Ryan Plut 425.430.7372

DESCRIPTION:

This program provides for the design and construction of high priority non-motorized transportation facilities for pedestrians and missing links. Projects are identified and prioritized using criteria from the Comprehensive Citywide Walkway Study, Council direction, and through coordination with the City's Neighborhood Program.

STATUS:

The Comprehensive Citywide Walkway Study is being used to select projects that move into the design and construction phases. Construction of sidewalks along Jones Ave NE are completed. Sidewalks on NE 24th St (adjacent to Jones Ave NE) and curb ramps and missing links in identified locations within downtown Renton are scheduled for 2010.

JUSTIFICATION:

Providing safe and convenient non-motorized facilities is an integral part of a complete transportation network. Specific improvements will respond to the needs of school children, the aged and persons with disabilities, and will support increased use of transit.

CHANGES:

The Comprehensive Citywide Walkway Study was completed in 2009. "Recognized School Walk Routes" will be added to the criteria for project prioritization. Projects for 2011 will be selected in the fall of 2009 based on the recommendations contained in the Walkway Study (posted on the City's web site). The Missing Links Program has been combined into this program.

Sidewalk Rehabilitation and Replacement Program

Functional Classification: N/A
Proj. Length: N/A
TIP No. 19

Fund: 317
Proj: 12801
CONTACT: Bill Wressel 425.430.7400

DESCRIPTION:

This program provides for the removal and replacement of existing curb and gutter, sidewalks, and curb ramp, where such facilities have deteriorated or have been damaged.

STATUS:

This program started in 2009.

JUSTIFICATION:

The Walkway Program installs curb and gutter, sidewalks, and curb ramps where they don't exist. There are many older neighborhoods with damaged or deteriorated curb and gutter, sidewalks, and curb ramps. There are some places where curb ramps do not exist or are not to current ADA Standards. This program will address these deficiencies and provide safe and convenient non-motorized facilities for pedestrians.

CHANGES:

This program is largely unfunded.

Funded : 390,000 Unfunded : 1,250,000

Monterey Ave NE - NE 20th Street - Wall Replacement

Functional Classification: Residential

Fund: 317

Proj. Length: 0.03 miles

Proj: t12704

TIP No. 20

CONTACT: Ryan Plut 425.430.7372

DESCRIPTION:

Replacement of a 150 lf existing gravity wall located behind sidewalk and within existing right-of-way in Monterrey Ave NE (east side) and NE 20th Street (south side). The wall height varies from 2-4 feet and does not meet the current standards for rockeries.

STATUS:

Construction scheduled for 2011.

JUSTIFICATION:

Replacement of the wall is needed as rocks from the existing wall fall into adjacent sidewalk preventing safe movement for pedestrians.

CHANGES:

Funded : 30,000 Unfunded :

Bridge Inspection & Repair Program

Functional Classification: N/A
Proj. Length: N/A
TIP No. 21

Fund: 317
Proj: 106
CONTACT: Derek Akesson 425.430.7243

DESCRIPTION:
Inspect all roadway bridges owned by the City every two years to determine bridge sufficiency and load ratings, seismic retrofit needs, undertake minor repairs, and preventative maintenance as needed.

STATUS:
Biennial bridge inspections occur in 2009, 2011 and 2013. Scour and load rating for each of the bridges were evaluated in 2007 and 2008. The Monster Road Bridge repairs require an annual inspection frequency for the next three inspection cycles.

JUSTIFICATION:
Inspection program must be done for safety and funding purposes and as part of WSBIS Program to determine structural deficiencies, physical deterioration, or functional obsolescence and to qualify for Federal bridge replacement grant funding. Repair funding is provided to accomplish improvements, identified through the inspection program, that will increase the safety and extend the longevity of the structures.

CHANGES:
Working on an interlocal agreement with King County for bridge inspection and repair. Additional maintenance and inspection of the bridges in 2011 requires additional funds.

Proposed expenses for 2010 moved to 2011-12 due to funding restrictions.

Funded : 561,656 **Unfunded :** 305,000

Intersection Safety & Mobility Program

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: 12601

TIP No. 22

CONTACT: Bob Cavanaugh 425.430.7222

DESCRIPTION:

This program will design and construct traffic signals identified by the transportation system traffic signal priority needs list, including intersection improvements. Intersections without signalized traffic control will be evaluated.

STATUS:

The priorities and schedules for new traffic signals will be set by the transportation system traffic signal warrant priority list. The list is determined by citizen concerns, intersection safety, mobility needs, and intersections that meet MUTCD traffic signal warrants.

JUSTIFICATION:

Historically, on the average, one traffic signal is designed and constructed every two years to meet safety and mobility needs. This program budgets for projects needed to meet increasing demand, and the need for signalized traffic control. Elements used to prioritize project intersections may include vehicular approach volumes, accident analysis, signal-warrant analysis, and pedestrian volume.

CHANGES:

Traffic signals high on the warrant priority list include: SW 41st St & Oakesdale Ave SW, S Carr Road & Mill Ave S, SW 34th St & Lind Ave SW, and S 55th St & Talbot Rd.

Proposed expenses for 2010 reduced by \$50,000 due to funding restrictions

Traffic Safety Program

Functional Classification: N/A
Proj. Length: N/A
TIP No. 23

Fund: 317
Proj: t12115
CONTACT: Dave Whitmar 425.430.7423

DESCRIPTION:
This ongoing yearly program provides for special small-scale traffic safety improvements that are identified and require materials, labor or equipment beyond the normal scope of City operations and maintenance crews. This program includes providing materials for railroad crossing upgrades and converting school zone signs to electronic operation.

STATUS:
Uninterruptable power supply (UPS) at various intersections has been completed. Program goal is to install UPS at four critical intersections per year (all years), pending sufficient funding. LED Replacement Program is part of the Intelligent Transportation System (ITS) Program.

JUSTIFICATION:
Historically, this level of traffic safety improvements are required on an annual basis. This program budgets for safety projects to address these needs. Projects are typically identified through citizen concerns, analysis of accident records or observation by City Traffic Operations and Maintenance personnel. Traffic Operations Section identify and prioritize locations.

CHANGES:
Railroad Crossing Safety Program and School Zone Sign Upgrades have been combined into this program.

Funded : 330,493 Unfunded : 20,000

Preservation of Traffic Operation Devices Program

Functional Classification: N/A
Proj. Length: N/A
TIP No. 24

Fund: 317
Proj:
CONTACT: Dave Whitmar 425.430.7423

DESCRIPTION:
Replace failed or failing traffic signal vehicle detection loops and repair pavement as required to achieve proper installation and assure reliability. This program also provides for the replacement and/or relocation of signs that are obsolete, faded, poorly located or no longer appropriate, and replacement of damaged luminaire and signal poles. These poles have been damaged in unknown incidents where reimbursement through normal channels is impossible.

STATUS:
Ongoing yearly program. The program provides for the purchase and repair of poles and materials that will be assembled and installed by the City.

JUSTIFICATION:
Most of Renton's signals require extensive vehicle detection systems to provide traffic count data needed for the intersection controllers and VMS signal coordination system to operate effectively. The detection loops in the pavement must be properly maintained; their failure results in highly inefficient operation. Pavement deterioration due to heavy traffic volumes, trucks, and adverse weather have increased the need for replacement.

CHANGES:
Traffic Loop, Traffic Sign and Pole Replacement Programs have been combined into this program.

Funded :	420,000	Unfunded :

Intelligent Transportation Systems (ITS) Program

Functional Classification: N/A
Proj. Length: N/A
TIP No. 25

Fund: 317
Proj: 12162
CONTACT: Chris Barnes 425.430.7220

DESCRIPTION:

Provides for improvements to the operational efficiency of the existing roadway system, including such items as development and implementation of signal coordination programs, signing and channelization improvements, surveillance control and driver information system (SC & DI), transit signal priority, Intelligent Traffic Systems (ITS) Master Plan, signal improvements such as protective/permissive phasing, and matching funds for possible grants to upgrade the central traffic control system.

STATUS:

Upgrading of all signal controllers (to be compatible with the new central system) continues into 2009. Program goal is to replace signal controllers at ten intersections per year.

JUSTIFICATION:

Improving the capacity and efficiency of the existing roadway system is a very cost effective element of the transportation program.

CHANGES:

Funded : 361,113 Unfunded :

Transit Program

Functional Classification: N/A
Proj. Length: N/A
TIP No. 26

Fund: 317
Proj: 12706
CONTACT: Nathan Jones 425.430.7217

DESCRIPTION:

Plan and fund short-range and long-range transit services and facilities, including park-and-ride lots, bus shelters, and arterial system improvement high occupancy vehicle (HOV) lanes required to facilitate transit access. Joint projects with King County Metro and Sound Transit will also be pursued to improve local and regional transit service in Renton. Coordination with transit agencies, community, and businesses for implementation.

STATUS:

Staff continue to attend regional coordination meetings with transit agencies, monitor service and capital facility improvements within Renton, pursue and advocate for better-timed arrivals and departures at major Renton transit facilities. Currently RUSH (aka Metro Route 110) provides peak-hour commute services connecting the train station, downtown and north Renton.

JUSTIFICATION:

Transit improvements are a vital component of the transportation system's ability to absorb future traffic demand and meet level-of-service standards. The City and private developers have invested millions of dollars in capital improvements in support of transit-oriented development and services. Transit will be one key in meeting the goals of the downtown area as well as development in other parts of the City. Coordination with Metro and Sound Transit projects and programs will help leverage these funds and increase benefits to Renton.

CHANGES:

Use a portion as local matching funds for Transit Now King County Metro program to provide enhanced service hours on local Renton routes 153 and 110. Starting in 2008, Renton pays \$73,000 yearly for Route 153. In 2010 program will provide \$200,000/year for Route 110 (Transit Now partnerships). These are 5-year service agreements. The status in 2014 and beyond assumes these services will continue after 5 years.

Transportation Demand Management (TDM) Program

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: 12135

TIP No. 27

CONTACT: Nate Jones 425.430.7217

DESCRIPTION:

Renton's TDM program implements the State's Commute Trip Reduction (CTR) Act by encouraging a reduction in the use of single occupancy vehicles (SOV). Incentives are offered to employees (at businesses with 100 or more employees) arriving to work between 6 and 9 a.m. The City has two CTR programs: 1. The Citywide and 2. the City Hall CTR program (see note below). The TIP funds the Citywide CTR Program and offers technical assistance to Renton businesses affected by the Act.

STATUS:

It is expected that technical assistance to employers for the Citywide program will continue at current levels in future years (provided State funds in support of this program continue). Renton receives a State allotment every two years to help fund the Citywide CTR program. The actual amount is determined by the number of CTR-affected worksites.

JUSTIFICATION:

The City is required by 1991 State Legislation to develop and implement a CTR program. This law applies to areas of the State with continuing air quality problems. TDM is an important element in achieving desired transportation, environmental, and land use goals.

Note: Renton City Hall is an affected CTR site and must implement its own CTR program for City employees; it is funded outside the TIP program.

Bicycle Route Development Program

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: 12173

TIP No. 28

CONTACT: Dan Hasty 425.430.7246

DESCRIPTION:

Partner with other City departments to further develop the City's non-motorized facilities. Sign bicycle routes along preferred corridors. Construct missing links in the bicycle route system. Construct site-specific improvements. Upgrade routes as needed to safely accommodate bicycle traffic. Publicize Renton bicycle network. Provides funding to match grant requests for bicycle planning and construction improvements.

JUSTIFICATION:

The City does not currently have a well-developed bicycle route system. This program will complete an integrated system of bicycle routes and trails and upgrade streets to better accommodate bicycles. Many locations along existing and potential routes have site-specific safety problems, which would be addressed in this program. Additionally, there is a strong demand for better-developed non-motorized facilities in Renton.

STATUS:

The City was awarded a Federal Enhancement Grant: \$100,000 to develop and produce a map that identifies a bicycle network with connections leading into and out of the City of Renton. Public outreach in various forms are part of the effort to educate the public on using bicycle routes in the safest manner. The map identifies preferred routes, shared use paths, bicycle lanes, steep grades, etc.

CHANGES:

The Trails and Bicycle Master Plan was adopted in May and the Bicycle Guide Map will be distributed this summer.

Barrier Free Transition Plan Implementation

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: 12705

TIP No. 29

CONTACT: Dan Hasty 425.430.7246

DESCRIPTION:

This program will fund implementation of projects that support the City's effort to transition pedestrian facilities that lie within the right-of-way into conformity with provisions contained in the Americans with Disabilities Act (ADA) Guidelines. This program will also provide funding for designing and building features on an "as needed" basis in response to individual requests to improve access for individuals with specialized needs.

STATUS:

An annual project will be put together based upon the standing of individual sites as identified in the Transition Plan section of the City of Renton Comprehensive Citywide Sidewalk Study. This "project" will have a target budget of ~\$30,000. The remaining ~\$20,000 will be set aside to respond to requests to address barriers to movement for individuals with special needs.

JUSTIFICATION:

A programmatic approach is now recognized as being required to ensure compliance with federal law.

CHANGES:

This program started in 2008

Project Development & Pre-Design Program

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: 12150

TIP No. 31

CONTACT: Jim Seitz 425.430.7245

DESCRIPTION:

Perform critical activities needed for the development of future CIP projects and for grant applications, including scoping, cost estimates, pre-design, interlocal agreements and deficiency analysis. Also provides for the monitoring of active grant projects for compliance with State and Federal laws, regulations and specifications.

STATUS:

Ongoing yearly program. This program includes small studies funding and funds required to match new grants.

JUSTIFICATION:

Analysis of existing and projected transportation operation problems, infrastructure maintenance needs, local and regional mobility goals and revenues/costs is vital to the development of transportation projects that will best serve the needs of Renton and compete well for grants. Also to maintain eligibility for grant funding, the City must assure that project specifications and management comply with current State and Federal standards.

Arterial Circulation Program

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: 29

TIP No. 32

CONTACT: Keith Woolley 425.430.7318

DESCRIPTION:

This program provides for the long-range and short-range planning and traffic analysis required to evaluate and update the Transportation Element in relation to the Comprehensive Land Use Plan, to assess the impacts of new development proposals and to recommend local and regional transportation system improvements for all modes of travel. Funding for hardware, software and employee hours required to operate the computer model is also included under this program.

STATUS:

This project will fund the ongoing planning work which will lead to refinement and/or adjustment of the of improvement projects on the arterial network identified in the Transportation Plan.

JUSTIFICATION:

Combined State and Federal Clean Air legislation, the Growth Management Act, passage of the RTA plan and the increasing importance of making sure that local and regional transportation plans are coordinated to the benefit of Renton, make ongoing, multi-modal planning a high priority need.

CHANGES:

Transportation circulation in the South Lake Washington neighborhood continues to adapt to new variables, including the I-405 Renton to Bellevue project. Upgrades to traffic analysis software are included.

Transportation Concurrency/LOS Program

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: 12107

TIP No. 33

CONTACT: Keith Woolley 425.430.7318

DESCRIPTION:

The City has created a citywide Transportation Benefit Zone as part of the GMA Comprehensive Plan's Transportation Concurrency requirements to provide a source of funds for transportation improvements necessary to support new development. This project supports the necessary planning effort to determine appropriate fees to charge as part of the mitigation process, to adjust the fee due to transportation plan changes and other factors affecting the fees as a funding source and to monitor the funds collected.

STATUS:

Ongoing yearly program.

JUSTIFICATION:

Management of the transportation concurrency and mitigation programs is an integral part of planning transportation improvements, ensuring that new development pays a fair share of the cost, and in maintaining a level of service required under GMA to allow new development to be approved and take place.

Environmental Monitoring Program

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: 12187

TIP No. 34

CONTACT: Ryan Plut 425.430.7372

DESCRIPTION:

Monitoring of wetland mitigation installed as a project environmental requirement and to perform biological assessments as required by the Endangered Species Act.

STATUS:

The 5-Year report for the Oakesdale - Phase 2 site has been sent to the regulatory agencies for review. Current site maintenance and monitoring contracts have been terminated. A consultant has been contracted to evaluate wetlands.

JUSTIFICATION:

Monitoring ensures that the wetland vegetation installed is properly established. Creates an account to pay for unscheduled project environmental assessments.

CHANGES:

Attempts to get early acceptance for the Phase 1 site have been successful. The Corps of Engineers has allowed the City to reduce the monitoring requirements to match the site's success.

WSDOT Coordination Program

Functional Classification: N/A

Fund: 317

Proj. Length: N/A

Proj: 12146

TIP No. 35

CONTACT: Keith Woolley 425.430.7318

DESCRIPTION:

Provide pre-design, design and construction coordination for WSDOT projects within or adjacent to Renton to assure that those projects provide the maximum benefits and minimum problems for Renton's transportation system.

STATUS:

Ongoing yearly program. Staff coordination on grant-funded projects. Staff coordination on the I-405 Corridor Improvements is included in "I-405 Improvements in Renton." WSDOT agreements (Stage I: \$43,300) and (Stage II: \$52,000) will contribute towards a portion of City's staff time.

JUSTIFICATION:

WSDOT projects can have significant impacts within the City.

CHANGES:

The "I-405 Improvements in Renton" program has been combined with this. The I-405/I-5 to SR-169 Widening Project is now broken into two stages. Coordination with the I-405 project will continue in depth for some time.

Geographic Information System - Needs Assessment & Data Development

Functional Classification: N/A
Proj. Length: N/A
TIP No. 36

Fund: 317
Proj: 12206
CONTACT: Nate Jones 425.430.7217

DESCRIPTION:

Collect transportation geographic data to meet the requirements of City's departmental needs.

STATUS:

The Transportation Division is coordinating with Technical Services and Information Services to develop GIS data and participating in training opportunities and user's group meetings.

JUSTIFICATION:

Effective use of GIS related resources is dependent on careful planning and execution. The Transportation Systems Division is interested in expanding the development and use of GIS technology, data, and applications to support the Division's business needs.

CHANGES:

An intern was hired in 2009 by Technical Services, paid for by Transportation to assist in the update and editing of the King County GIS T-Net data sets. T-Net is a framework of transportation related GIS data.

Lind Avenue SW - SW 16th St to SW 43rd St

Functional Classification: Minor Arterial

Fund: 317

Proj. Length: 1.69 miles

Proj: 24

TIP No. 39

CONTACT: Keith Woolley 425.430.7318

DESCRIPTION:

Widen existing roadway to five lanes where required. Includes new roadway, curbs, sidewalks, drainage, signals, lighting, signing and channelization.

STATUS:

The needs, priorities and schedules for improvements on Lind Avenue will be determined through Arterial Circulation studies.

JUSTIFICATION:

Increasing traffic demands in the Valley due in part to development, will create the need for increasing the capacity of this major north/south arterial. A potential project is a signal installation at the intersection at Lind Ave. SW and SW 34th St (currently unsignalized). Additionally, improvements may result from future WSDOT I-405 plans which include an interchange at Lind Ave SW (currently unfunded).

Airport

Boeing 737 - 1st Flight from the new Runway 16/34

Did You Know?

The runway is 200 feet wide and just over a mile long. During the runway 15/33 (now renumbered 16/34) resurfacing project, nearly 12 lane miles of asphalt was milled and paved in just under 160 hours of work.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: 608 Hangar Replacement Project

Project Type: Development

Project Number: A25086

Total Anticipated Project Cost: \$ 1,054

Project Description

Initiate design to replace the 608 Hangar to ensure the highest and best aviation related use and to increase the separation between the taxiway and the hangar door.

Summary of Progress: Design of a new building will be initiated pending the identification of a source of funding.

Project Title: 820 Building Demolition

Project Type: Development

Project Number: A25092

Total Anticipated Project Cost: \$ 724

Project Description

The Boeing Company's former Avionics Building that was turned back to the City in 2003 needs to be demolished. The building has no use other than for storage, which is not the highest and best use of the site, and the building has major structural failures in the floor. The building, which is approximately 22,000 square feet, contains asbestos, lead paint, mercury and PCB's. Demolition of the building will allow the site to be redeveloped.

Summary of Progress: Engineering, design, and environmental evaluation completed in 2008. Project on hold until funding can be secured. As of July 2008, environmental remediation and demolition costs are estimated at \$867,000.

Project Title: Maintenance Dredging and Shoreline Mitigation
Project Type: Major Maintenance **Project Number:** A25080
Total Anticipated Project Cost: \$ 1,199

Project Description

Evaluate options to stabilize the eroding shoreline at the end of Runway 15, develop a shoreline mitigation plan, and conduct dredging of the silt from the seaplane ramp area and mitigate for construction.

Summary of Progress: Dredging design and the development of a mitigation plan was started in 2006 and design work is anticipated to be completed in 2009 with construction occurring during the fall of 2010. Approximately 40% of the construction costs will be covered under FEMA due to the floods in 2006 and 2009.

Project Title: Major Facility Maintenance

Project Type: Major Maintenance

Project Number: A25088

Total Anticipated Project Cost: \$ 1,216

Project Description

The City is increasingly becoming an owner of buildings at the Airport. Some of these buildings need major, unscheduled maintenance to maintain the investment in the facility. 2010 Budget includes \$10,000 for Winter de-icer purchases.

Summary of Progress: In 2009, funds were spent on remodeling a crew shelter on Apron C to lease to Acuwings, fuel spill cleanup, and stormdrain monitoring on B Ramp, gate V-4 and fence relocation, and asphalt and concrete repair.

Project Title: Air Side/Land Side Separation

Project Type:

Project Number:

Total Anticipated Project Cost: \$ 18

Project Description

The Air Side/Land Side Separation project has been a multi-year project to improve the security on the airport by installing new perimeter fencing and gates and a card access system. This next phase will upgrade some of the perimeter fencing that remains below standards.

Maplewood Golf Course

Over 65,000 rounds of golf are played each year at the City's Maplewood Golf Course, which also has a full service restaurant.

Did You Know?

Maplewood's eighteen-hole par 72 layout features two very different nines. The front side has greater length, four holes with elevation changes and water coming into play on six of the nine holes. The back nine, with Maplewood Creek meandering through four holes, has narrow tree lined fairways and smaller greens placing a premium on accuracy off the tee.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Maintenance Building and Pumphouse
Project Type: Development and Major Maintenance **Project Number:**
Total Anticipated Project Cost: \$ 2,850

Project Description

Design and construct a new maintenance building and pumphouse including detention requirements that will replace the existing structure. The current building will require extensive renovations to function effectively and will be cost prohibitive. The new facility will provide an acceptable work environment for staff, provide a secure storage area for equipment, meet all environmental requirements for wash rack areas, and the storage of fuel and pesticides. Initially introduced into the Capital Improvement Program (CIP) in 2000. The pump house will supply water to the west portion of the golf course per the adopted Master Plan. This is the last step in completely reworking the original irrigation system and fully automating the new system as per its design. This will allow for a shorter window of watering, resulting in less impact to the golfer and the maintenance staff.

Summary of Progress: The utility connection requirements of the future maintenance facility, were completed in 2006, as part of the Parking Stall Addition Project with the PBPW Water Utility Division and their construction of the Water Treatment Facility. Design and construction for the maintenance building is postponed until 2014 and 2015 respectively. Analyze potential to bond for project design and construction. (\$50,00 spent in 2008 to move vacated FS13 to Golf Course for temporary maintenance office.)

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Irrigation Mainline Replacement
Project Type: Development and Major Maintenance **Project Number:**
Total Anticipated Project Cost: \$ 850

Project Description
 Replace/repair the golf course irrigation mainline to ensure efficient irrigating and health of turf. The mainline is an 8" - 200 psi/PVC pipe that ranges from 11 - 20 years old. The normal life expectancy of this pipe under this use is 20 - 25 years. This project is being introduced into the CIP in 2007.

Summary of Progress: This project has been re-prioritized to 2015 in conjunction with the construction of new maintenance facility. Included in bond potential with construction of new maintenance facility.

Project Title: Golf Course Major Maintenance
Project Type: Development and Major Maintenance **Project Number:** C42001
Total Anticipated Project Cost: \$ 1,744

Project Description

The Maplewood Golf Course has the following activities that would be considered major maintenance. These activities are necessary to maintain golf course, parking, and building facilities. They do not add to the infrastructure, but ensure continued life and usability of the entire facility. Note that numbers listed in parenthesis on page 13 are the initial dates that projects were introduced into the Major Maintenance portion of the CIP.

Summary of Progress: Assessment and prioritizing of Major Maintenance projects for 2010 - 2015.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: New Reservoirs and Pump Stations
Project Type: Development **Project Number:** U55570, U55597, U5559
Total Anticipated Project Cost: \$ 10,647

Project Description

This program consists of the conversion of about 15,000 existing City's water meters to an automatic meter reading (AMR) system. In addition to reducing the City's cost on meter reading and meter maintenance, the conversion to the AMR system will provide our customers with better information about water use and more accurate billings. The program will reduce the City's operation, maintenance, and fleet costs and will improve the management of the City's water conservation program.

Summary of Progress: The 2009 pre-design study for the replacement of the Highlands 435-zone reservoirs and pump station identified a planning level cost estimate range from \$10 million to \$12 million. The design and construction for the replacement of the Highlands reservoirs is planned for 2011 to 2015. A feasibility study is being done to find a suitable site for the new 196-zone reservoir. Upon the completion of the study in the Fall of 2009, the Water Utility will begin negotiations for the acquisition of the property in the Blackriver quarry area.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Water Main Replacement
Project Type: Major Maintenance
Project Number: U55170, U55580, U55572, U55576, U55596
Total Anticipated Project Cost: \$ 20,218

Project Description
 This program consists of the conversion of about 15,000 existing City's water meters to an automatic meter reading (AMR) system. In addition to reducing the City's cost on meter reading and meter maintenance, the conversion to the AMR system will provide our customers with better information about water use and more accurate billings. The program will reduce the City's operation, maintenance, and fleet costs and will improve the management of the City's water conservation program.

Summary of Progress: Construction of the Highlands 565-zone water main project was completed in 2009 within budget. Also completed construction of new water line in Duvall Ave NE, north of Sunset Blvd to Coal Creek Parkway in conjunction with roadway widening project. Construction of water main replacement in Earlington area will begin in Fall of 2009.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Regulatory Compliance Program
Project Type: Regulatory Compliance **Project Number:** U55005, U55140, U55160, U55210
Total Anticipated Project Cost: \$ 3,319

This program consists of the conversion of about 15,000 existing City's water meters to an automatic meter reading (AMR) system. In addition to reducing water loss, this project consists of on-going and various regulatory programs mandated by the State Department of Health for all public water systems. Major programs include the update of the City's water system plan and performing all required water quality monitoring, testing and reporting on schedule.

Summary of Progress: In 2009, the City's drinking water supply and water treatment process continues to meet all Federal and State drinking water quality standards. The Water Utility continues the implementation of the WashWise financial rebate program along with an educational program promoting water conservation and efficient water usage.

UTILITY - WASTEWATER

Duvall Sewer Interceptor Installation

Did You Know?

The Wastewater Utility owns, operates, and maintains over 190 miles of gravity sewer main, over 3500 sewer manholes, and 26 sewage lift stations with force mains. City Maintenance Crews clean and inspect over 45,000 linear feet of sewer main annually.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Heather Downs Interceptor

Project Type: Development

Project Number: U45455

Total Anticipated Project Cost: \$ 1,417

Project Description

The existing Heather Downs Interceptor is reaching capacity due to significant new development connecting into this system. An evaluation in 2006 determined the need to upsize the facility in order to accommodate anticipated flows over the near term. The project consists of upsizing existing 8, 10, and 12-inch sewer with new 12 to 15-inch sewer main. The exact quantity of pipe and size will depend upon route selected upon completion of pre-design effort.

2010 through 2015 (in thousands of dollars)

Project Title: Summerwind/ Stonegate Liftstation Replacement
Project Type: Development **Project Number:** U45465
Total Anticipated Project Cost: \$ 3,994

Project Description

The service area that flows into the Summerwind and Stonegate Lift Stations has seen significant growth over the past 5 years. This growth pattern is expected to continue over the next 5 to 10 years. The result is that this system is rapidly reaching its capacity. In order to provide sufficient capacity to this portion of the system, as well as provide better efficiency within our system, we are proposing to eliminate the Summerwind Station and send those flows to a new Stonegate Lift Station. The new station will direct flows to a new interceptor to be constructed in Field Avenue NE, within the Summerwind Plat. From there, flows will be directed to the interceptor of the Stonegate Lift Station. This will eliminate the need for the Summerwind Lift Station. The Stonegate Lift Station will be constructed in 2010.

Project Title: 126th Ave SE Sewer Extension
Project Type: Development **Project Number:** U45491
Total Anticipated Project Cost: \$ -

Project Description

Install approximately 1,300 linear feet of 8-inch sanitary sewer main within 126th Avenue SE in order to provide sanitary sewer service to a portion of existing single family homes in the Sierra Heights neighborhood. This extension was prompted by some of the residences expressing concern with the condition of their existing septic system and desire to connect to public sewer. This area has also been previously identified by the King County Health Department as an area of potential health concern. Total project cost is \$400,000. Design and construction is anticipated to occur in 2009/10.

Project Title: Sanitary Sewer Hydraulic Model
Project Type: Major Maintenance **Project Number:** U45140
Total Anticipated Project Cost: \$ 1,043

Project Description

Development and implementation of sanitary sewer hydraulic model will allow the Wastewater Utility the ability to analyze its existing system to reduce potential for sanitary sewer overflows. Tool will also be used to evaluate growth trends, proposed significant rezones, and other development activity to determine impact to the wastewater system.

Project Title: Renton Hill Sewer Replacement
Project Type: Major Maintenance **Project Number:** U45475
Total Anticipated Project Cost: \$ 4,000

Project Description

The majority of the existing sanitary sewer mains in the Renton Hill portion of the City were installed in the 1920's. These facilities are reaching their useful age and require replacement over the next 6 year period. Design of the replacements will began in late 2012. Construction is scheduled for 2013 through 2015.

Project Title: Renton CBD Sewer Replacement Phase IV
Project Type: Major Maintenance **Project Number:** U45477
Total Anticipated Project Cost: \$ 2,000

Project Description
 Over the past 12 years, the Wastewater Utility has been replacing sewer mains throughout the downtown area. There is one remaining phase of work to be completed. The work will consist of replacement of 60 to 85 year old sewers in the CBD area, with design and construction beginning in 2013, and construction anticipated to be completed in 2015.

Project Title: Earlington Sewer Replacement
Project Type: Major Maintenance **Project Number:** U45405
Total Anticipated Project Cost: \$ 3,915

Project Description
 Existing sewers in a portion of the Earlington area surrounded by SW Sunset Blvd. to the south, SW Langston Rd. to the north, Oakesdale Ave. SW to the west, and Hardie Ave. SW to the east, were installed in the 1920's and have reached their useful life. This project will replace the sewers over a period of five years, with design starting in 2008, and construction 2009 through 2012. The project will also include the upsizing of portions of the system to accommodate growth that has occurred in this service area.

Project Title: Maintenance and Upgrade of Hydraulic model
Project Type: Major Maintenance **Project Number:** U45460
Total Anticipated Project Cost: \$ 238

Project Description

Work on the initial development was completed in 2006. As we add infrastructure and receive improved data on our existing system, we will need to update the Hydraulic Model.

Project Title: Telemetry Upgrade
Project Type: Major Maintenance **Project Number:** U45476
Total Anticipated Project Cost: \$ 150

Project Description

The Wastewater Utility owns and operates 26 sewage lift stations. Each of these stations communicates through a radio controlled telemetry system that consists of a master unit at the City Shops site and individual units at each station. The telemetry allows us to track operations at each station, modify parameters as needed, and provides a means to be contacted for emergency alarms. As with any technology today, this system needs to be updated on a continual basis as the technology becomes outdated. This program provides us with funding to update our telemetry. Specific anticipated improvements include newer radio units, update of Rugid

Project Title: SW 34th Street Interceptor
Project Type: Major Maintenance **Project Number:** U45478
Total Anticipated Project Cost: \$ -

Project Description

The SW 34th Street Interceptor was identified in the Hydraulic Model report in 2006 as having near term capacity restraints. The initial phase of work will be to perform additional flow analysis to better determine the flow limitations and to establish a timeframe for this interceptor's replacement. Analysis is currently planned to begin late 2009 into 2010.

Project Title: Westview Lift Station Rehabilitation
Project Type: Major Maintenance **Project Number:** U45479
Total Anticipated Project Cost: \$ -

Project Description

The Westview Lift Station was constructed originally as part of the Westview Plat in 1995. This station serves 12 homes and was built with non-standard pumps, motors, motor control, and valving. The station is already showing signs of substantial wear and will not meet our standard 25 year minimum life. The project will rehab the station with new equipment to extend its useful life to our current standard. Pre-design is occurring in 2009 with design and construction in 2010.

Project Title: Lind Avenue Lift Station Replacement
Project Type: Major Maintenance **Project Number:** U45481
Total Anticipated Project Cost: \$ 1,200

Project Description

The Lind Avenue Lift Station serves a large portion of the valley. This station was originally installed in 1978 and received some updates in the early 1990's. As part of the design, we will also evaluate station capacity to ensure that the station can meet the future demands within this service area. The project currently anticipates full and complete replacement of all components of the station.

Project Title: Denny's Lift Station Rehabilitation
Project Type: Major Maintenance **Project Number:** U45482
Total Anticipated Project Cost: \$ 402

Project Description

The Denny's Lift Station was originally installed in 1983. The only flow into this station comes from the Denny's Restaurant on Lake Washington Boulevard. The station has reached its useful age and is showing signs of wear. The station also has large volumes of grease directed to it from the restaurant it serves. We will look at options to minimize impact from that grease. Design will occur in 2009 with construction in 2010.

Project Title: Airport Lift Station Rehabilitation
Project Type: Major Maintenance **Project Number:** U45483
Total Anticipated Project Cost: \$ 400

Project Description

The Airport Lift Station was constructed in 1986 to serve the southwesterly portion of the Renton Airport, including the Control Tower. The station is reaching its useful age and, during routine maintenance, signs of wear have been noted. As part of the rehabilitation, we will evaluate long-range plans for the airport to assure we provide sufficient capacity for any potential expansions at the airport.

Project Title: East Renton Lift Station Elimination
Project Type: Major Maintenance **Project Number:** U45484
Total Anticipated Project Cost: \$ 700

Project Description

The East Renton Lift Station was installed as a temporary station until such time as we had the Central Plateau Interceptor in place and activated the Briar Hills dry sewers. The Central Plateau Interceptor is currently under construction and Water District 90 has turned over the Briar Hills facilities to the City. The project will consist of the installation of approximately 800 linear feet of 15-inch sewer main from the station to the existing 15-inch main in the Briar Hills system.

Project Title: Misty Cove Lift Station Replacement
Project Type: Major Maintenance **Project Number:** U45485
Total Anticipated Project Cost: \$ 400

Project Description

The Misty Cove Lift Station was originally constructed in 1974 as part of the Kennydale Industrial Sewer Improvements done along the Lake during the time of Port Quendall and associated uses. Some minor improvements have been made in 1987 and 2005. The station is reaching its useful life and is showing signs of needing replacement.

Project Title: Lake Washington Blvd Sewer Repair (2900 Block)
Project Type: Major Maintenance **Project Number:** U45494
Total Anticipated Project Cost: \$ 200

Project Description

In 1997 the sanitary sewer main in Lake Washington Blvd in the 2900 block of Lake Washington Blvd N. was damaged by an unidentified private contractor. The sewer main was temporarily patched and put back into service. The repair is temporary because it impacts ultimate flow capacity and restricts our ability to maintain the main. To properly reestablish the capacity and ability to maintain the line, we will need to replace the full reach between manholes for this repair area, consisting of approximately 300 lineal feet of main.

Project Title: West Hill Sewer Replacement
Project Type: Major Maintenance **Project Number:** U45493
Total Anticipated Project Cost: \$ 1,000

Project Description

The existing sanitary sewer collection system on the West Hill was constructed in 1962 and is comprised of 6-inch and 8-inch concrete sewers. These mains are reaching the end of their useful life and need to be replaced before we experience structural failure in the mains. The project involves the replacement of approximately 25,000 lineal feet of existing sewer main. Design of the replacement work is anticipated to begin in 2014, with construction beginning in 2015, and completion anticipated in 2017.

Project Title: Renton Center sewer Extension, Ph II
Project Type: Major Maintenance **Project Number:** U45496
Total Anticipated Project Cost: \$ 150

Project Description

The second phase of this project involves the extension of approximately 500 lineal feet of 8-inch sewer main to replace an existing private 6-inch "spaghetti line". This facility serves multiple commercial uses, mostly restaurants, which makes it difficult to control fats, oil, and grease. Design and construction is planned for 2011.

Project Title: Central Renton Interceptor Reline/Upsize
Project Type: Major Maintenance **Project Number:** U45497
Total Anticipated Project Cost: \$ 400

Project Description

When re-directing the Sunset Interceptor flows into the Central Renton Interceptor, the original survey indicated that the existing easterly section of the Central Renton Interceptor was an 18-inch main. Once in construction, we determined the line to be only a 12-inch main. In addition, there is approximately 650 lineal feet of old 24-inch concrete main that needs to be re-lined to protect the integrity of the pipe. We anticipate design and construction in 2011.

Project Title: Lake Washington Beach L.S. Elim/Rehab
Project Type: Major Maintenance **Project Number:** U45492
Total Anticipated Project Cost: \$ 500

Project Description

The Lake Washington Beach Lift Station was originally constructed in the late 1960's in the south end of Coulon Park to serve the City Park facilities in that area. It has had some minor rehab since that time, but is now at its useful life. The project includes a study to determine if a gravity alternative is available, or if we need to reconstruct the lift station. The study and pre-design will occur in 2009, with final design and construction in 2010.

UTILITY - SURFACE WATER

Carr Road - Panther Creek Emergency Culvert Repair Project

Completed repair work to a 78-inch metal culvert that had a 35-ft section of the pipe outlet structurally fail, which required an emergency repair project.

Did You Know?

The Surface Water Utility provides management, planning, engineering, and customer service to minimize flood hazards, comply with regulatory requirements and enhance environmental resources to contribute to the livability of the community.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Springbrook Creek Wetland and Habitat Mitigation Bank
Project Type: Development **Project Number:** U65119
Total Anticipated Project Cost: \$ 2,519

Project Description

This project consists of developing a plan, creating, restoring, and enhancing wetlands in partnership with WSDOT, on approximately 130 total acres in the valley adjacent to Springbrook Creek. The project allows an alternative to on-site mitigation for private and public projects (City or WSDOT) with wetland impacts that require mitigation per City Code to achieve a no-net loss of wetland functions and values. The project will also improve flood storage capacity along Springbrook Creek, improve water quality, fish and wildlife habitat, and provide economic benefits by allowing private development to fill low quality wetland on their property in exchange for purchasing credits from the Wetland Bank. This allows those private properties to develop more area, which will create higher valued developments, increase property values, and create more jobs, thereby increasing the City's general fund revenues. The funding is for the City's share to work with WSDOT as defined in the Wetland Mitigation Bank Agreements. The construction will occur in 2007-2009, and there will be a 10-year monitoring period to verify whether performance standards have been met to allow for the release of wetland mitigation credits that can be used by the City and WSDOT.

Summary of Progress: WSDOT completed the project construction in June of 2009. The 10-year plant establishment and monitoring period will start in 2009. Funding is programmed in 2010 for City's share of project plant establishment and monitoring costs necessary to meet performance standards needed to allow the release of wetland mitigation credits for use.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: NE 5th St. and Edmonds Ave. NE Storm System Improvements
Project Type: Development **Project Number:**
Total Anticipated Project Cost: \$ 950

Project Description

Project consists of replacing 3,200 linear feet of existing 15-inch to 18-inch storm system, with new 18-inch to 30-inch storm system. The improvements will occur from NE 5th Pl. and Harrington Avenue NE, down NE 5th Pl., Edmonds, Camas, N 6th Pl., Aberdeen Ave. NE to NE 7th St. There are areas of localized flooding caused by lack of system capacity. Surcharging of the storm system has occurred during storm events. The basin hydrologic and hydraulic analysis shows that the existing system lacks capacity, which results in the flooding of private property and streets.

Summary of Progress: Project design to start in 2011 with construction planned for 2012.

Project Title: Shattuck Ave. S Storm Sys Improvemnt Project (S 7th St. to S 4th Pl.)
Project Type: Development **Project Number:** U65440
Total Anticipated Project Cost: \$ 781

Project Description

The project consists of replacing approximately 1,100 linear feet of existing 12 to 24-inch storm system in Shattuck Ave. S between S 7th St. and S 4th Pl., with a new 48-inch storm system. The proposed project will re-route flows that currently drain to the Rainier Pump Station to the SW 7th St. storm system as part of the Rainier Ave TIP. This would reduce flows and capacity problems at the Rainier Pump Station and the downstream flooding problems in the Hardie Ave. storm system, and reduce cost to the Rainier Ave TIP. The project is an element of a series of storm system improvements that will better serve the south Renton and downtown areas. The schedule of improvements to be funded by the Surface Water Utility will need to be coordinated with planned City Transportation Improvements in the project area.

Summary of Progress: Project construction is planned to start in September of 2009 and will continue into 2010. No additional funding programmed in 2010 for the project.

2010 through 2015 (in thousands of dollars)

Project Title: Gypsy Basin/Ripley Lane Storm System Improvement Project
Project Type: Development **Project Number:** U65365
Total Anticipated Project Cost: \$ 1,510

Project Description

The project includes the replacement of the existing culvert crossing from the east side of Ripley Lane N and the BNSF railroad right-of-way with three 48-inch culverts, which will connect into a 60-inch storm system on the Seahawk Headquarters and Training Facility site. The project will be done in coordination with WSDOT, the Seahawks, and City Transportation planned improvements to Ripley Lane N. The Surface Water Utility will fund the construction of the improvements, along with the City's share of the cost for the oversizing improvements on the Seahawk site. WSDOT will also participate in a cost sharing agreement with the City on the project, since the system is being designed to accommodate the future condition runoff that includes their future I-405 project improvements that will discharge runoff into the new regional storm water conveyance system. Design started in 2007 and was funded out of the Transportation TIP with the \$146,000 Port Quendall HUD Grant. The design, permitting, and construction of the improvements are programmed to be completed in 2008 with final project close-out in 2009.

Summary of Progress: Project final pay estimate and close-out completed in 2009. No additional work planned or funding programmed for 2010.

Project Title: Monroe Ave. NE & N 2nd Street Infiltration System Improvements

Project Type: Development

Project Number:

Total Anticipated Project Cost: \$ 1,300

Project Description

The project includes the design and construction of an additional infiltration system to increase the size of an existing infiltration system near the City Shops. The existing infiltration system in Monroe Ave NE and N 2nd Street has insufficient capacity for the increased runoff due to changing land use for the 200-acre basin that it serves. The existing infiltration system surcharges, which has caused street flooding and private property damage during large storm events in the past. The City currently has a 5-year easement to discharge storm water during extreme events into the Upper Balch Pit to prevent flooding. The project final design will start in 2010 with construction scheduled for 2012, if the overflow easement is not renewed by the property owner.

Summary of Progress: Project design to start in 2011 with construction planned for 2013.

Project Title: Hardie Ave. SW Underpass Storm System Improvement
Project Type: Development **Project Number:**
Total Anticipated Project Cost: \$ 1,300

Project Description

The project includes the replacement of approximately 2,400 linear feet of 36 inch to 48-inch storm system, between Hardie Ave. SW to SW 7th St., with a larger storm system or a parallel storm system. Alternative pipe alignment, the installation of a pump station, or other options that could solve the flooding problem will be considered during the project design phase. The project design will start in 2010 and construction will occur in 2012. The schedule of improvements to be funded by the Surface Water Utility will need to be coordinated with planned City Transportation Improvements in the project area.

Summary of Progress: Project design scheduled to start in 2010 with construction planned for 2012.

Project Title: East Valley Road Storm System Improvements
Project Type: Development **Project Number:**
Total Anticipated Project Cost: \$ 300

Project Description

The project includes replacing the existing storm system along the East Valley Road between SW 29th St. and SW 23rd St. with a new 48-inch storm system. The new storm system will discharge into the SW 23rd St. Channel, which flows to Springbrook Creek. The project design will start in the year 2013 and construction will occur in future years. The project schedule and improvements may change depending upon the schedule and scope of improvements planned by WSDOT as part of the I-405/SR-167 project.

Summary of Progress: Project design planned to start in 2015.

Project Title: SW 43rd Street/Lind Ave SW Storm System Improvements
Project Type: Development **Project Number:**
Total Anticipated Project Cost: \$ 250

Project Description

The project includes constructing approximately 3,500 feet of a new 84-inch diameter storm system along Lind Ave. SW, from SW 43rd St. to SW 39th St., and then along SW 39th Street from Lind Ave. to a new outfall into Springbrook Creek. The estimated total project cost is \$3,100,000. Within this 6-year planning period, only \$250,000 is programmed for design starting in 2015.

Summary of Progress: Project design planned to start in 2014.

Project Title: Dayton Ave NE & NE 22nd St Storm System Improvement Project
Project Type: Development **Project Number:** U65450
Total Anticipated Project Cost: \$ 303

Project Description

The Dayton Ave. NE and NE 22nd St. Drainage Improvement project is intended to collect runoff from Dayton Ave. NE and NE 22nd St., route the runoff behind the residence of 2302 Camas Ave., and discharge into the Camas Ave. storm system. System infrastructure improvements will include collection and conveyance piping, catch basins, and connections to existing downstream facilities. Surface water runoff from the tributary area around Dayton Ave. NE and NE 22nd St., west of Edmonds Ave. NE, drains to dead end streets and flows onto private property. This has resulted in flooding around at least two homes during moderate to large storm events. The flooding has increased over time due to additional development occurring in the drainage basins.

Summary of Progress: The construction is completed. The final project pay estimate and close-out to be completed in early 2010 at the end of the 1-year warranty period for landscape plantings. No additional funding is programmed. Project funding remaining in 2009 will be included in the carry forward budget for the final pay estimate.

Project Title: Oakesdale/SW 41st St. Culvert Replacement
Project Type: Development **Project Number:**
Total Anticipated Project Cost: \$ 100

Project Description

This is a project identified in the adopted East Side Green River Watershed Plan. The project will solve existing and future flooding problems, improving water quality and fish habitat. The project includes installing two additional 6-foot diameter culverts and rehabilitating the existing four culverts, or installing a completely new structure box culvert or larger culvert structure. The project will increase capacity and prevent flooding of Oakesdale at the crossing and it will improve fish passage. The project design will start in 2014. Project construction would be scheduled in future years after 2015.

Summary of Progress: Project design is scheduled to start in 2015.

Project Title: Green River Ecosystem Restoration
Project Type: Development **Project Number:** U65295
Total Anticipated Project Cost: \$ 492

Project Description

The Green River Ecosystem Restoration projects are part of a large effort (cost shared by jurisdictions within the WRIA 9 Forum) to restore habitat in the Green/Duwamish River Watershed. The projects will help in the City's response to the Endangered Species Act. The utility funds shown will be used to match Army Corps of Engineer's federal funds (65% federal, 35% local) to allow the design and construction of the projects. The project schedule is dependent upon Congress appropriating the federal funds needed for the construction of the projects.

Summary of Progress: The Surface Water staff is working with the Army Corps of Engineers and the other jurisdictions within WRIA 9 on implementing the Green River Ecosystem Restoration projects. The design and permitting of the Upper Springbrook Creek Project is scheduled to be completed in 2010, with construction scheduled for 2011. The schedule for Renton's projects is dependent upon the completion of other Ecosystem Restoration projects, along with the availability of Federal funding.

Project Title: Maplewood Creek Basin Storm Improvements
Project Type: Development **Project Number:**
Total Anticipated Project Cost: \$ 850

Project Description

The following project is identified in the Cedar River Basin Plan to solve existing and future surface water management problems (flooding, water quality, and habitat). The project will solve existing, and prevent future flooding, erosion, and improve water quality and habitat in the Cedar River Basin. The project includes improving the storm system that conveys Maplewood Creek drainage across roadways or storm systems that discharge at the top of steep slopes that are causing erosion of the Maplewood Creek ravine. This will also reduce sediment input into Maplewood Creek that is deposited in the Maplewood Creek Sedimentation Facility and may reduce maintenance frequency of the facility.

Summary of Progress: Project design is scheduled to start in 2012 with construction planned for 2013.

Project Title: Forebay and Springbrook Creek Sediment Removal Project

Project Type: Major Maintenance

Project Number:

Total Anticipated Project Cost: \$ 100

Project Description

This is a project identified in the adopted East Side Green River Watershed Plan to solve existing and future flooding problems, improving water quality, and fish habitat. The purpose of the Forebay and Springbrook Creek Sediment Removal project is to develop a comprehensive plan for maintenance and operation of the Black River Pump Station and the constructed upstream flood storage pond (forebay) area. The recommended action considers removal of sediments that have accumulated in the forebay area upstream of the pump station. Maintenance activity will fulfill the City's obligation to remove sediments from the previously constructed channels in accordance with maintenance agreements signed with the Natural Resources Conservation Service. Project design will start in 2015.

Summary of Progress: Project design is scheduled to start in 2015.

2010 through 2015 (in thousands of dollars)

Project Title: Small Drainage Projects Program

Project Type: Major Maintenance

Project Number: U65015

Total Anticipated Project Cost: \$ 4,870

Project Description

This project consists of designing and constructing solutions to local flooding problems, minor storm system maintenance, and replacements that are relatively simple to implement and relatively low in construction costs (limited permitting, uncomplicated design, and construction). The Surface Water Utility identifies these projects on an annual basis through problem identification, citizen complaints, and input from the maintenance section.

Summary of Progress: The design, permitting and construction for the Duvall Ave. and Union Ave. projects is planned for completion in 2009. Design of the Maple Ave SW and SW 4th PL is planned for 2009. The permitting for the NE 44th St & Jones Ave NE culvert and ditch maintenance and the Madsen Creek Sedimentation pond maintenance (Assumed by the City from King County as part of the Aqua Barn-New Life Annexation) is also planned for 2009.

Total Anticipated Project Cost: \$ 510

Project Description

This fund is for unplanned or miscellaneous storm system improvements needed to keep the existing system functional or in response to an opportunity to fix identified system deficiencies in coordination with another project. The \$50,000 per year funding would also be available to respond to system failure (structure failure, pipeline failure, pump station failure) or other emergency response needs during storm events.

Summary of Progress: These funds are used only if needed for unplanned projects in response to system failures that need immediate repair or other unplanned storm system improvements.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Lower Cedar River Sediment Management Project
Project Type: Major Maintenance **Project Number:** U65185
Total Anticipated Project Cost: \$ 12,309

Project Description

The project is a continuation of the Cedar River Section 205 Flood Damage Reduction Project. The project solved major river flooding from Williams Avenue to Lake Washington that resulted in flooding of the Renton Municipal Airport, Boeing facilities and north Renton area that was regionally significant. The programmed funding is for completion of the required project mitigation, which includes the Landsburg Gravel Supplementation project, performing the required project monitoring of spawning channel fish use, and monitoring sediment accumulations in the lower 1.25 miles of the Cedar River. The programmed funding is also for the design, permitting and construction of the first maintenance dredge, depending upon the rate of sediment deposition in the Cedar River.

Summary of Progress: The annual spawning, salmon fry production, and other monitoring (required as mitigation prior and future maintenance dredging of the Cedar River 205 Flood Hazard Reduction project) was completed in 2009 and will be performed again in 2010. The annual Landsburg Gravel Supplementation project was completed in 2009 and is planned again for 2010. The annual river survey of sediment deposition in the project area was completed in 2009 and is planned again for 2010. Dredging was completed in 1998, the next maintenance dredging is anticipated for 2014, depending upon the rate of sediment deposition in the Lower 1.25 miles of the Cedar River.

Project Title: Lake Ave. S/Rainier Ave. S Storm System Replacement Project

Project Type: Major Maintenance

Project Number: U65445

Total Anticipated Project Cost: \$ 706

Project Description

The project consists of replacing approximately 700 linear feet of existing 24-inch storm system that is located in an easement across the Safeway parking lot from the intersection of S 2nd St. and Lake Ave. S to the intersection of S 3rd St. and Rainier Ave. S. The existing storm line was TV inspected and found to have structural problems and needs to be replaced. The proposed project will replace the existing storm system with new pipe that is sized to convey future land use condition runoff to prevent upstream flooding. The project is an element of a series of storm system improvements that will better serve the south Renton and downtown area.

Summary of Progress: The project design and permitting started in 2009 and will be completed in 2010. Project construction is planned for 2010.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: USACE Cedar River Spawning Channel Replacement Project
Project Type: Major Maintenance **Project Number:** U65190
Total Anticipated Project Cost: \$ 536

Project Description

This project will replace a salmonid ground-water spawning channel near River Mile 4.5 of the Cedar River that was destroyed by the Nisqually Earthquake of February 28, 2001. The groundwater spawning channel was constructed as mitigation for the U.S. Army Corps of Engineers (USACE) Cedar River Section 205 Flood Hazard Reduction Project that included dredging and construction of levees and floodwalls along the lower 1.25 miles of the Cedar River. The project is needed to provide the required mitigation for the Flood Hazard Reduction project initial construction and the required future maintenance dredging. The project is being designed, permitted, and constructed in coordination with the USACE through their PL 84-99 program. Only City funding is shown. The USACE share of the total project cost is \$1,650,470.

Summary of Progress: The project design, permitting, and real estate certification was completed in 2008. Construction delayed until 2009 due to cost exceeding USACE budget. The project construction started in August of 2009 and will be completed in 2010. No additional funding is programmed for 2010. Funding programmed in 2009 will be included in the carry forward budget to complete work in 2010.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Elliott Spawing Channel Repair Project
Project Type: Major Maintenance **Project Number:** U65465
Total Anticipated Project Cost: \$ 351

Project Description

The Elliott Spawning Channel is located adjacent to the Cedar River on the Ron Regis Park site. The channel was constructed as part of the USACE Cedar River Section 205 Flood Hazard Reduction project as mitigation for over dredging as part of the USACE Cedar River Flood Hazard Reduction Project dredging in 1998. The mitigation for the over-dredging has been satisfied and the facility is being used to meet the mitigation required for future maintenance dredging of the lower 1.25 miles of the Cedar River. The facility was damaged during the December 2006 flood disaster and a FEMA flood disaster grant for \$251,006 was approved to fund the repair of the damages to the facility. The project will include restoring the channel to remove blockages, repair erosion, and restore spawning gravel and habitat that was damaged during the 2006 flood disaster (1671-DR-WA). The project incurred additional damages during the January 2009 flood, which has been submitted to FEMA for approval of additional funding to repair the facility.

Summary of Progress: The project design and permitting was started in the fall of 2008, but was stopped due to additional significant damages to the facility during the January 2009 flood. A new damage assessment and project work sheet has been submitted to FEMA for approval of funding for the additional damages due to the January 2009 flood. The funding programmed in 2009 includes the FEMA funding, the City grant matching funds and City funding for project management and repairs that are not eligible for FEMA funding. The 2009 funding will be included in the carry forward budget for use in 2010.

2010 through 2015 (in thousands of dollars)

Project Title: Carr Road - Panther Creek Emergency Culvert Repair Project
Project Type: Major Maintenance **Project Number:** U65460
Total Anticipated Project Cost: \$ 912

Project Description

The Carr Road culvert crossing of Panther Creek consists of a 78-inch corrugated metal pipe culvert approximately 150 feet long. During an inspection of the pipe in March 2008, staff observed that approximately 35 feet of the pipe outlet had partially failed where a joint connecting the original pipe to an extension piece that was added when the road was widened in the early 1970's. The partially failed section of pipe is deformed and twisted with the top third of the pipe collapsed, creating a sinkhole just above the joint along the slope of the road. The City declared the project an emergency in April 2008. Project design and permitting is planned for completion in 2008. Construction is planned to start in the fall of 2008 and will be completed in early 2009.

Summary of Progress: Final project pay estimate, permanent easement acquisition, and project close was completed in 2009. No funding programmed for 2010.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Maplewood Creek Sedimentation Facility Maintenance
Project Type: Major Maintenance **Project Number:** U65060
Total Anticipated Project Cost: \$ 484

Project Description

The Maplewood Creek Sedimentation Facility is located on the Maplewood Golf Course and traps sediment that is transported downstream by Maplewood Creek. The facility prevents the sediment from being deposited on the Golf Course during large storms and reduces flooding of the Golf Course and SR-169. The funding is programmed for project management, permitting, and construction to routinely remove the accumulated sediment from the facility. The facility was constructed in 1996 in conjunction with a fish passage channel across the Maplewood Golf Course to the Cedar River. A fish ladder was constructed as part of the facility to allow upstream fish passage. The accumulated sediment in the facility needs to be removed once every 2-3 years, depending upon flood events and how fast sediment accumulates in the facility.

Summary of Progress: The accumulated sediment was removed from the facility in 2008 due to the December 2007 flood disaster. Due to the January 2009 flood, a construction contract was awarded to remove the sediment from the facility again in August and September of 2009. The next planned major maintenance of the facility is scheduled for 2011.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Surface Water Utility System Plan

Project Type: Regulatory Compliance

Project Number: U65005

Total Anticipated Project Cost: \$ 1,051

Project Description

The Surface Water Utility System Master Plan is a comprehensive management plan of the City's natural and constructed surface water systems. The plan identifies current and future resource requirements, policies, regulatory requirements, and design criteria associated with the management of surface water runoff within the city. The plan defines maintenance and operational programs along with future capital investment programs needed to solve flooding, water quality, and fish habitat problems in response to existing problems, future growth, and regulatory requirements related to the NPDES Phase II permit requirements and ESA. The plan will be completed for adoption in 2010. Funding programmed for 2015 is to start the next plan update.

Summary of Progress: A draft Surface Water Utility Master Plan is being prepared for review and approval by Council in late 2009 for adoption in early 2010. The 2009 funding for the project will be included in the carry forward budget and additional funding is programmed in 2009 for use in completing the project in 2010.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Talbot Hill Area Mosquito Abatement Program
Project Type: Regulatory Compliance **Project Number:** U65020
Total Anticipated Project Cost: \$ 717

Project Description

The project consists of annually spraying the upland areas around the Panther Creek Wetlands to control mosquitoes from the wetland in response to citizen complaints from the Talbot Hill area. A significant number of citizens complained about the mosquito problem in the Talbot Hill area in the past, which prompted the program that was initially managed by the Parks Division. The Surface Water Utility was assigned the program in 1990 due to budget and permitting requirements. Funding is also programmed annually to fund the treatment of City-owned stormwater control facilities if a West Nile Virus outbreak occurs and treatment is advised by the Department of Health.

Summary of Progress: The ongoing Talbot Hill area Mosquito Abatement was completed in 2009 as planned and is programmed to occur again in 2010.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Renton Storm Water Design Manual
Project Type: Regulatory Compliance **Project Number:** U65241
Total Anticipated Project Cost: \$ 402

Project Description

The project consists of updating the City's surface water management design standards for new construction. The standards will be updated by developing a Renton Storm Water Design Manual that is equivalent to the State Department of Ecology's 2005 Stormwater Management Manual for Western Washington as required by the NPDES Phase II Municipal Stormwater permit issued by Ecology on January 17, 2007. The City Code currently requires the use of the 1990 King County manual, which was replaced by the 2005 King County Surface Water Design Manual. The updating of the City's storm water management standards is a regulatory requirement in response to the listing of Chinook salmon under the Endangered Species Act and the pending National Pollution Elimination System (NPDES) Phase II Municipal Stormwater Permit requirements. The change in design standards will improve the control of flow and quality of runoff from new construction. This will reduce flooding damages and public safety hazards, reduce long term capital improvement needs that will in turn reduce costs to rate payers and protect water quality and fish habitat in the City's streams and the Cedar River.

Summary of Progress: Work on developing a Renton Storm Water Design Manual that is equivalent to Ecology 2005 Stormwater Management Manual for Western Washington is in progress. The design manual is planned for completion and adoption of an ordinance by Council to be effective by no later than February 16, 2010, as required by the NPDES Phase II Municipal Stormwater Permit. The 2009 funding will be carried forward into 2010 and additional funding is programmed for 2010 to fund the completion of the project in 2010.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Stream Flow and Water Quality Monitoring Program
Project Type: Regulatory Compliance **Project Number:** U65080
Total Anticipated Project Cost: \$ 226

Project Description

This is an ongoing annual program of collecting flow or water quality data on various surface water systems in the city. The program is performed on surface water systems where capital improvement projects are being designed or basin plans are being developed. The measured flow data is used to calibrate hydrologic and hydraulic models used in the design of capital improvement projects to insure accurate and cost effective project designs. The water quality data is used to address environmental information needs and regulatory requirements related to projects.

Summary of Progress: The annual flow monitoring program was completed as planned in 2009 and programmed to be completed again in 2010.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Surface Water Utility GIS

Project Type: Regulatory Compliance

Project Number: U65410

Total Anticipated Project Cost: \$ 1,097

Project Description

This program includes the annual updating of the Storm System Inventory maps and database. The purpose is to maintain an accurate inventory of the City's storm systems for use by the Utility for maintenance, planning and engineering functions, the public and other City departments. The information is integrated into the City's Geographic Information System (GIS). The program is needed to map new storm system infrastructure that is constructed by private development projects, public projects and annexations, along with meeting the requirements in the NPDES Phase II Municipal Storm Water Permit for mapping of City storm systems. The GIS data will be used to track maintenance and inspection of public and private storm water management systems and facilities for operation and maintenance purposes, as also required by the NPDES permit. The data is used for long range asset management programs. The Storm System maps are also used for customer service and emergency response.

Summary of Progress: This is an ongoing annual program. The Surface Water Utility GIS program work was completed as planned in 2009 and is programmed to continue in 2010. The work consisted of updating existing and adding newly constructed storm system asset data to the Surface Water Utility's portion of the City's ESRI GIS system.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Storm System Field Mapping Project (NPDES)
Project Type: Regulatory Compliance **Project Number:** U65455
Total Anticipated Project Cost: \$ 683

Project Description

The purpose of the project is to map the City's public storm systems using Global Positioning System (GPS) or other surveying technology. The work will determine a more accurate quantity of storm system that has to be maintained and operated by the City. Mapping the City's storm systems is needed for use in complying with the NPDES Phase II Municipal Stormwater Permit requirements related to illicit discharge detection and elimination, inspection, public storm maintenance and operation. The work will build upon the existing storm system inventory map and database work that has been completed. The information will be added to the GIS to use in tracking permit compliance associated with storm system cleaning, provide better information to customers (City staff, developers, engineers, contractors, public), improve asset management and improve the maintenance and operation of the City's storm system. The work will help build a City GIS storm system layer that would be part of a City GIS.

Summary of Progress: The consultant contract scope of work, budget, and schedule for the project was approval by Council in June 2009. The work on the project will extend over multiple years. The Phase I work consists of data review and establishment of the geodatabase Schema, data development, and business plans for collecting and inputting data collected in the field, which will be completed by the end of 2009. The 2009 funding will be carried forward for use in 2010 and an additional funding is programmed for 2010 will be used for use for the field data collection work.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Lake Washington Blvd-Hawks Landing Storm System Improvement Project
Project Type: Development **Project Number:** 65470
Total Anticipated Project Cost: \$ 800

Project Description

The State Legislature approved a \$1.7 Million grant in the 2009-2011 Capital Budget project for use by the City to make non-transportation related infrastructure improvements in the Exit 7 Area related to the Hawks Landing mixed use development adjacent to Lake Washington Blvd on the Pan Abode Cedar Homes site. A portion of the funding will be used to make storm system improvements and other frontage improvement along a portion Lake Washington street frontage. The improvements will be coordinated with water system improvements to also be constructed by the City. The use of low impact storm water best management practices such, as porous concrete sidewalks, will be used for flow control and possibly water quality treatment of the runoff from Lake Washington Blvd. The project consists of installing approximately 700 linear feet of 24-inch to 36-inch storm pipe, flow control facility if needed and water quality treatment for the street runoff. The storm water runoff from the street and the Hawks Landing site drains to May Creek.

Summary of Progress: The approved State 2009-2011 capital budget was approved on May 15, 2009 and it included the grant funding for the project. The distribution of the grant funds will be through the Public Works Board. CED and Public Works Departments are working with the Hawks Landing applicant regarding the coordination of the site and off-site improvements.

CAPITAL INVESTMENT PROGRAM

2010 through 2015 (in thousands of dollars)

Project Title: Madsen Creek Sedimentation Cleaning
Project Type: Maintenance **Project Number:** U65050
Total Anticipated Project Cost: \$ 390

Project Description

The Madsen Creek Sedimentation Facility was originally constructed by King County to control sediment resulting from erosion of steep slopes in the Madsen Creek ravine due to increased upstream storm water runoff from new development projects. The County constructed the facility in 1976 following a flood event that caused private property damages and result of litigation. The facility is located on the New Life Church property that was recently annexed into the City as part of the New Life-Aqua Barn annexation (A-07-001) in June of 2008. Approximately 800 cubic yards of sediment has to be removed from the facility annually to control the sediment that is being deposited from the upstream area into the facility in order to maintain its proper operation.

Summary of Progress: The construction contract to remove the sediment from the facility was awarded on July 13, 2009. The maintenance of the facility is planned to be completed in September.

Fund 000, General Fund

The General Fund is the primary operating fund of the City of Renton. It is used to account for the resources and disbursements of ordinary City operations that are not required to be accounted for in another fund. These include the costs of public safety, building, planning, human services, and general administration. The major sources of revenue are property taxes, utility taxes, and sales taxes. Licenses and Permits, Charges for Services, and Fines and Fofeits provide additional support.

Fund 001, Community Services Fund (Previously Fund 101, Parks Fund)

The Community Services Fund accounts for the City's parks and recreation programs: operations, maintenance, and improvements for municipal buildings; and the landscaping and street tree functions. See the Community Services operating budget section of this document for more information on program budget and staffing. In 2007 Fund 101, Park Fund was changed to Fund 001, Community Services Fund.

Fund 003, Street Fund (Previously Fund 103)

The Street Fund revenue comes from general tax sources such as property taxes, and gas utility taxes providing 70 percent of 2009 funding. Street fuel taxes, a state shared revenue source, provides 15 percent of 2009 financing. The balance, or 16 percent, comes from interfund revenue, investment interest, permits, and use prior year revenue. There are two divisions of the Public Works Department in this fund: Transportation Systems (003/016) and Street Maintenance Services (003/019).

Fund 004, Community Development Block Grant Fund (Previously Fund 104)

In 2005, Fund 004 Community Development Block Grant Fund was created and Fund 104 was eliminated. The CDBG fund collects and disburses Community Development grant monies. Current agencies include Children's Home Society of Washington, Renton Communities in Schools, Emergency Feeding Program of Seattle and King County, City of Renton Housing Repair program, Planning and Administration program, and Institute of Family Development. Please refer to Fund 104 Community Development Block Grant Fund prior to 2005.

Fund 005, Museum Fund (Previously combined with 006)

The Museum Fund accounts for the operation of the City Historical Museum. It is a part of general governmental funds since the majority of support is derived from general tax revenues. See the Community Services operating budget section of this document for more information on Museum fund program budget and staffing.

Fund 006, Library Fund (Previously Fund 106)

The Library Fund accounts for the operation of two City libraries. It is a part of general governmental funds since the majority of support for library services is derived from general tax revenues. In 2008, 97 percent of the resources will come from property taxes, with 3 percent from service charges for photocopies, library fines, investment interest, and contributions from the annual book sale. See the Community Services operating budget section of this document for more information on Library fund program budget and staffing. Prior to 2009, the Library and Museum were combined in Fund 006. The Museum fund is now Fund 005.

Fund 007, Parking Garage Maintenance Fund

This fund was created in 2003. The purpose of the fund was to pay for the operational and maintenance costs of the downtown parking garage in 2004 and 2005. In 2006, the Revenue and the Expenditure budget for Fund 007 was moved to Fund 306. In 2007, this fund was closed; the fund balance was transferred to General Fund 000.

Fund 207, Limited Tax General Obligation Bond Fund (Senior Center)

In May 1997, limited tax general obligation refunding bonds were issued in the amount of \$2.6 million. The refunding amount apportioned to the 1978 limited tax general obligation bonds for the Renton Senior Activity Center was 2.89 percent. The first annual principal and interest payment was paid December 2003. By the end of 2006, the debt was paid off. In 2007, this fund was closed and the fund balance transferred to Fund 215.

Fund 102, Arterial Street Fund

The Arterial Street Fund was established pursuant to state law allocating the one-half cent State Gasoline Tax revenue to cities and towns for construction, improvements, and major repair of streets. In order for a project to qualify for funding, it has to be a part of the City's Six-Year Transportation Improvement Program and must be approved by the State Highway Department's District State Aid Engineer. The fund allows the City to accomplish approved projects using either City forces or contractors, and provides the capability of matching LID participation and outside agency grants.

Fund 110, Hotel/Motel Fund

During the 1997 Legislative session, SSB 5867 was passed. SSB 5867 allows Washington State cities to impose an increase in the hotel/motel tax of up to 1 percent for the purpose of increasing tourism. On October 13, 1997, the Renton City Council passed Resolution No. 3288 establishing a Hotel/Motel Lodging Tax Advisory Committee. The Committee investigated the feasibility of implementing the 1 percent tax and made a recommendation to the City Council to enact this tax. The Council adopted the tax with Ordinance No. 4697 on December 15, 1997.

In 1998, a marketing campaign was created using these collected funds. The Renton Community Marketing Campaign is designed to help brand Renton and communicate the community's many positive attributes as a place to do business, work, visit, learn, shop, live, play, and stay.

The stakeholders, including the Renton Chamber of Commerce, Renton Visitor's Connection, City of Renton, Renton School District, Renton Technical College, and Valley Medical Center, launched the campaign to improve the image of Renton in the community and the region; promote Renton as a desirable location to do business, work, learn, live, shop, and visit; recruit quality companies to Renton to help diversify the employment base by supporting city economic development initiatives; showcase Renton stakeholders and their achievements; and leverage and creatively market Renton's assets and amenities.

Under the authority of the Hotel/Motel Lodging Tax Advisory Committee and the Renton City Council, a new budget is established yearly and administered through the Department of Community and Economic Development.

Fund 118, Reserve for Paths and Trails Fund

This reserve fund for paths and trails was established under authority of Washington State Law (Sections 2, 3, 4 and 5, Chapter 103, Extraordinary Session Laws of 1972) for the purpose of accommodating, establishing, and maintaining certain paths and trails. Accumulated funds must be used within a ten-year period.

Fund 125, 1% for Art Fund

The 1 percent for Art Fund was established to account for art expenditures in municipal construction projects. Guidelines for determining art expenditures are as follows: 1) The project cost must exceed \$10,000. 2) The project must be either new construction or a significant renovation of an existing structure that allows an existing structure an expanded or different use of the facility. Routine or periodic maintenance expenditures have been excluded. 3) Land acquisition is not included. 4) Acquisition of equipment, vehicles, or machinery is not included. 5) All funds specifically limited to the construction and improvement of the transportation system have been excluded; such as Federal aid, forward thrust, and half-cent gasoline tax. Under the authority of the Renton Municipal Arts Commission and the Renton City Council, the budget is administered by the Department of Community and Economic Development.

Fund 127, Cable Communications Development Fund

The Cable Communications Development Fund, which is managed by the City Clerk's office, was established to provide promotion and development of cable communications. The City uses a character generator to issue public information over a municipal access cable TV channel (Channel 21). The City Clerk's office is responsible for gathering, formatting and programming the information submitted by City departments and external organizations for broadcast. On May 8, 1995, Council authorized the broadcasting of weekly Council meetings on Channel 21. In December 1995, Council authorized the broadcasting of the Committee of the Whole meetings. In 1998, the City began to produce quarterly videos on various highlights of the City. This included major private and public capital projects and highlights of major City sponsored events.

Fund 135, Springbrook Wetlands Bank

Per Ordinance 5269, in 2007, a new fund was created Fund 135, Springbrook Wetlands Bank Fund. The purpose of the fund is to provide accounting for the Springbrook Creek Wetland and Habitat Mitigation Bank project. The Fund will receive revenue by selling Wetland credits to the third parties and to the City's internal departments. The revenue received will pay for managing the wetlands.

Fund 219, Unlimited Tax General Obligation Bond Funds

Voter-approved general obligation debt is also known as unlimited tax general obligation debt (ULTGO). Currently the City maintains one fund to account for existing bond revenue and expenditures. Fund 219 maintains the revenue and expenditures for the 1993 refunding issue relating to Senior Housing. For more detail on this issue, see the separately published *City of Renton Debt Manual*. The outstanding balance for all ULTGO debt as of January 1, 2009 is \$518,130.

Fund 220, Local Improvement District Debt Service Fund

The Local Improvement District (LID) Debt Service Fund accounts for assessment collections and debt service payments for the LID's located within the City. A LID is created to construct public improvements deemed to benefit the property owners such as sidewalks or sewer lines. The City sells bonds to finance these projects. The benefited property owners are billed for their share and given an extended period of time to repay their assessments plus interest. In 2006, Ordinance # 5211, the Fund balance was transferred to Fund 406.

Fund 304, Fire Impact Mitigation Fund

Fund 304 was created for the purpose of identifying Fire Impact Mitigation revenue and expenditures. Mitigation fees are charged to new development near existing fire stations and developments located farther out. Revenue is collected at the time a permit is issued. The Designated Fund Balance is for identified projects in the 2008-2013 Capital Investment Program (CIP). Bonds were issued in 2002 for the completion of Fire Station 12 that was completed in 2004.

Fund 305, Transportation Impact Mitigation Fund

Fund 305 was created for the purpose of identifying Transportation Impact Mitigation revenue and expenditures. Mitigation fees are charged to new development projects within Renton city limits using a vehicle trip rate that has been established based on the number of vehicle trips generated between 1990 and 2010 by new development. The Designated Fund Balance is for City identified projects in the 2009-2014 Capital Investment Program (CIP) and the 2009-2014 Transportation Capital Improvement Program (TCIP).

Fund 317, Transportation Capital Improvement Fund

This fund supports City of Renton transportation projects and projects linked with various State and Federal Funding programs. Many of the projects are dependent on acquisition of outside grants, formation of LID's and mitigation revenue. Investment earnings generated on the fund balance throughout the year are credited to the General Fund.

Fund 404, Municipal Golf Course System Fund

Ordinance 3884, approved in January 1985, created the Golf Course Fund and authorized issuance of \$3,965,000 Council-voted General Obligation Bonds to acquire, improve, and develop the facility. The golf course is an 18-hole golf complex operated and maintained by the City through the Parks Division of the Community Services Department. In 1994, \$5 million in revenue bonds were issued to construct a driving range and new clubhouse, including pro shop, restaurant, and meeting rooms. The major source of support is user fees, including a green fee of \$2.00 per round of golf, reserved for capital improvements. In 1997 and beyond, the green fees will be used for payment of the annual debt service on the revenue bonds. In 1998, the operating reserve was recalculated to reflect debt service payments that are held in reserve on the balance sheet. See the Community Services operating budget section for more information.

Fund 405, Water Utility Operation Fund

This fund was created in 2006 for the purpose of identifying water utility revenue and expenses. Utility charges and fees provide revenue for the operation and maintenance of the water utility and Public Works Trust Fund Loan payments. Prior to 2007, Fund 451 was used to record revenue bond debt service payments and bond reserves. In 2007, Fund 451 was closed, and the activity was transferred to Funds 405, 406, and 407. Previously water, wastewater, and surface water utilities were reported in Fund 401.

Fund 406, Wastewater Utility Operation Fund

This fund was created in 2006 for the purpose of identifying the City's portion of wastewater utility revenue and expenses. Utility charges and fees provide revenue for the operation and maintenance of the wastewater utility and Public Works Trust Fund Loan payments. Prior to 2007, Fund 451 was used to record revenue bond debt service payments and bond reserves. In 2007, Fund 451 was closed, and the activity was transferred to Funds 405, 406, and 407. Previously water, wastewater, and surface water utilities were reported in Fund 401.

Fund 407, Surface Water Utility Operation Fund

This fund was created in 2006 for the purpose of identifying surface water utility revenue and expenses. Utility charges and fees provide revenue for the operation and maintenance of the surface water utility and Public Works Trust Fund Loan payments. Prior to 2007, Fund 451 was used to record revenue bond debt service payments and bond reserves. In 2007, Fund 451 was closed, and the activity was transferred to Funds 405, 406, and 407. Previously water, wastewater, and surface water utilities were reported in Fund 401.

Fund 416, King County Metro Fund

This fund was created in 2006 for the purpose of identifying King County Metro's portion of the wastewater revenue and expenses. King County provides wholesale wastewater treatment services to the City of Renton. King County charges the local agencies and the local agencies bill their customers to recover the County charge. Previously, water, wastewater, and surface water utilities were reported in Fund 401.

Fund 425, Water Utility Construction Fund

This fund was created in 2006 to support water utility improvement projects. Utility collection fees, special assessment fees, connection charges, and City issued bonds fund CIP projects. For more detailed information, see the separately published *City of Renton 2009-2014 CIP* document. Previously water, wastewater and surface water capital improvement projects were reported in Fund 421.

Fund 451, Waterworks Revenue Bond Fund

Fund 451 was established in 1998 for Waterworks Utilities revenue bond debt service payments and revenue bond reserves. In 2007, Fund 451 was closed, and the activity was transferred to Funds 405, 406, and 407 . In 2003, refunded revenue bonds were issued. The bond reserve was moved to a newly created Fund 461 per bond issue requirements.

Fund 501, Equipment Repair and Replacement Fund

Equipment Repair and Replacement is an internal service fund used for maintaining and replacing vehicles and auxiliary equipment; except for golf course equipment that is accounted for in Fund 404. The Equipment Repair and Replacement Fund is assigned to the Public Works Department, Maintenance Services Division. In 1997, resources were allocated to the fund for maintenance of Fire apparatus, Parks vehicles, and replacement of Police patrol vehicles. Equipment purchases are funded with available cash from maintenance and capital recovery payments charged to departments.

Fund 503, Information Services Fund

Fund 503 is an internal service fund which was created in 2006 for the purpose of identifying communication and data support to meet departmental function and record keeping, and supply technical support services to all data/voice system users in the City. Expenses are paid by the Information Services Fund and rates are charged to departments based on use and/or coverage requirements. Previously, the Information Services operating budget was reported in Fund 000, and the capital budget was reported in Fund 316.

Fund 504, Facilities Fund

Fund 504 is an internal service fund which was created in 2009 for the purpose of identifying the City's facilities costs. The intention is to track the costs during 2009 for information purposes only, and to allocate these costs in 2010 and beyond. Expenditures are paid by the Facilities Fund and rates will be charged to departments based on use and/or requirements. Previously, the Facilities operating budget was reported in Fund 001; the capital budget is reported in Fund 316.

Fund 611, Firemen's Pension Fund (previously Fund 601)

The Firemen's Pension Fund is a closed system with membership limited to firefighters employed prior to March 1, 1970; when the Law Enforcement Officers and Fire Fighters' (LEOFF) Retirement System was established. This fund provides full benefits for firefighters, and beneficiaries, retiring prior to March 1, 1970, and excess benefits over LEOFF pensions for those firefighters retiring thereafter who are members of the plan. Payments for medical bills related to retirement disability for retirees prior to enactment of LEOFF.

ABOUT THE CITY OF RENTON:

Incorporated as a City on September 6, 1901, Renton has become an innovative, creative and energetic community, filled with committed and caring people who work hard to make their city a great place to work, live, and play.

New businesses are moving to Renton each year to provide an even greater variety of job opportunities and services. Office space and housing in this lakefront community are considerably less expensive than the two closest business centers of Seattle and Bellevue and numerous new developments provide a greater range of choices. With nationally recognized public schools, an excellent community college and nearby higher learning institutions, Renton offers a learning environment that benefits employees and their children. The City's parks, theatres, concerts, festivals and special events provide diverse entertainment opportunities for residents, employees and visitors with unlimited cultural and recreational opportunities also available in the greater Puget Sound region.

Renton's strong economic base, diverse marketplace and favorable business climate have attracted the attention of nationally recognized companies that are looking to provide employees and their families with an outstanding quality of life. Renton is becoming the place to live, work and play.

LOCATION:

Renton's strategic location, in the heart of the Puget Sound region, provides access to local, regional, national and international markets. Renton is also close to the Puget Sound and Olympic Mountains to the west and the Cascade Mountains to the east.

Centrally located, at the south end of Lake Washington, Renton is only minutes away from Seattle, Bellevue and Tacoma. As the fifth largest city in King County and the 11th largest in Washington state, Renton is quite literally at the center of an extensive regional and international transportation network, intersected by freeways, highways, surface and mass transit routes and minutes from air, sea and rail transportation hubs.

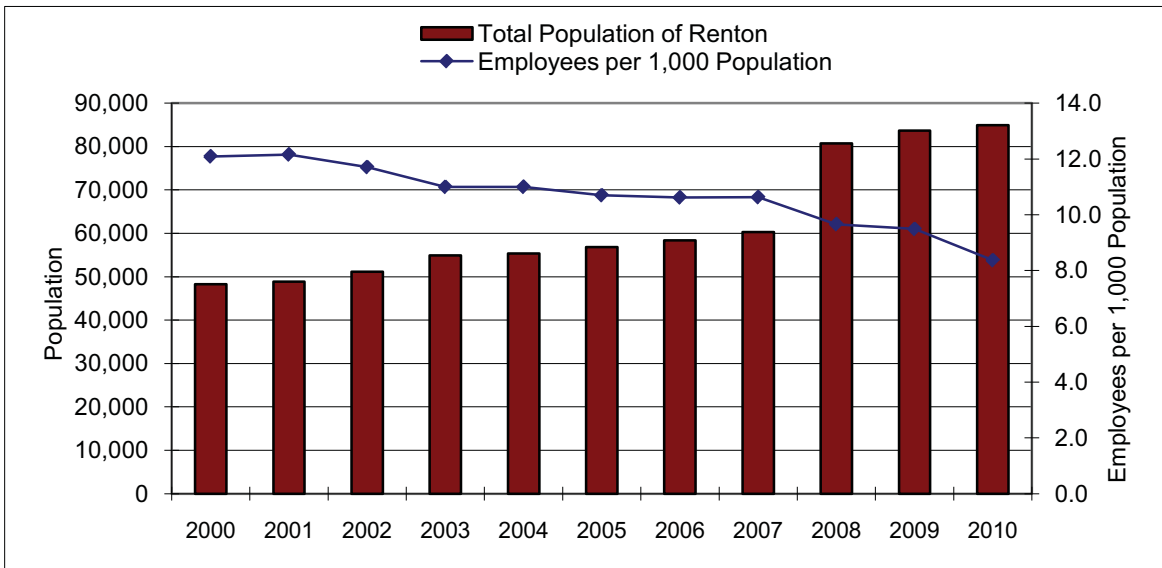

Principal Employers

	Principal Employers	Type of Business	Full-Time Equivalent Employees	% of Total Employment
1	Boeing Company	Aerospace & Computer Services	13,169	29.97%

¹Populations estimates are for 2019 and were provided by the Washington State Office of Financial Management.

²Based on 2010 levy rates and 2009 average home values provided by King County Department of Assessments.

³Auburn includes tax & fee for fire service provided by Valley Regional Fire Authority. Renton and Seattle are the only 2 cities that

⁴Based monthly comparison of utility rates. Includes Electric, Gas, Telephone/Cell Phone, Cable, Water, Wastewater, Surface Water, and Solid Waste Utilities.

⁵Rates were based on bimonthly consumption of 1,500 cubic feet of water (Seniors 900 cf). Seattle, Kent, and Tukwila have different water rates in the summer (June - September); the average monthly rates for summer and non-summer months were

⁶Rates for Bellevue, Issaquah, and Seattle were based on a volume of 750 cubic feet per month. All other districts are on a fixed monthly charge. Rates do not include the King County Wastewater Treatment charge.

⁷Bellevue's rate is an average rate based on a 10,000 - 12,000 sq. ft. lot area (between 20% and 40% developed). Kent's rate depends on the drainage basin affected, ranging from \$2.67 to \$7.62 per month; for comparison purposes, rates were averaged.

⁸Waste Management provides services to Redmond, Auburn, and Renton. Allied Waste Services provides services to Bellevue, Kent, Auburn, and Tukwila. For comparison purposes, rates include a 32-gallon garbage can, recycling, yard waste collection, and an \$0.80/month hazardous waste fee. Seattle and Renton do not charge a hazardous waste fee.

Budget Glossary

Accounting System: The total set of records and procedures, which are used to record, classify, and report information on the financial status and operations of an entity.

Accrual Basis: A basis of accounting in which transactions are recognized at the time they are incurred, as opposed to when cash is received or spent. Also, see Modified Accrual Basis of Accounting.

Activity: A combination of people, technology, supplies, methods, and environment that produce a given product or service.

Ad Val Orem Taxes: A tax levied on the assessed value of real property.

Agency Fund: A fund used to account for assets held by a government as an agent for individuals, private organizations, other governments, and/or other funds.

Appropriation: Legislation by the City Council that approves budgets for individual funds. Appropriation ordinances authorize spending in the personnel services, non-personnel services, employee benefits, equipment accounts, debt service, and capital categories. Departments cannot spend more money than is approved in these categories. Appropriations can only be adjusted by passage of a subsequent ordinance of the City Council upon recommendation by the Mayor.

Arbitrage: The excess of the yield on investments acquired with gross proceeds of a bond issue over the bond yield of the issue. This excess must be rebated to the United States Treasury, and is called arbitrage rebate.

Assessed Valuation: The estimated value placed upon real and personal property by the King County Assessor as the basis for levying property taxes.

Balanced Budget: Funding recommendations for the operating and capital budgets do not exceed the estimated resources.

BARS: The State of Washington prescribed Budgeting, Accounting, Reporting System Manual required for all governmental entities in the State of Washington.

Base Budget: Ongoing expense for personnel, contractual services, and the replacement of supplies and equipment required to maintain service levels previously authorized by the City Council.

Biennial Budget: A budget applicable to a two-year fiscal period.

Bond (Debt Instrument): A written promise to pay (debt) a specified sum of money (called principal or face value) at a specified future date (called the maturity date) along with periodic interest paid at a specified percentage of the principal (interest rate). Bonds are typically used for long-term debt to pay for specific capital expenditures.

Budget: Budget adopted by Renton's City Council that goes into effect on January 1st, including amendments through December 31st, of the current year.

Budget (Operating): A plan of financial operation embodying an estimate of proposed expenditures for a given period (typically a fiscal year) and the proposed means of financing them (revenue estimates). The term is also used to denote the officially approved expenditure ceilings under which the City and its departments operate.

Budget Adjustment: A procedure to revise a budget appropriation either by City Council approval through the adoption of a supplemental appropriation ordinance for any interdepartmental or interfund adjustments, or authorization by the Mayor to adjust appropriations within a departmental budget.

Budgets and Budgetary Accounting: The City of Renton budgets its funds in accordance with the Revised Code of Washington (RCW) 35A.33. In compliance with the Code, appropriated budgets are adopted for the General, Special Revenue, Debt Service, and Capital Projects Funds. Any unexpended appropriations lapse at the end of the fiscal year. The City of Renton budgets on an accrual basis.

Budget Calendar: The schedule of key dates or milestones that the City follows in the preparation and adoption of the budget.

Budgetary Control: The control or management of a government in accordance with the approved budget for the purpose of keeping expenditures within the limitations of available appropriations and resources.

CDBG: Community Development Block Grant is funding for the purpose of carrying out eligible community development and housing activities.

CIP: See Capital Investment Program.

Capital Assets: Assets of significant value, which have a useful life of several years.

Capital Investment Program: A separately published plan for capital expenditures to be incurred each year over a period of six future years, which sets forth each capital project identifying the expected beginning and ending date for each project, the amount to be expended in each year, and the method of financing those expenditures.

Capital Outlay: Expenditures, which result in the acquisition of, or additions to, capital assets. Examples include land, buildings, machinery and equipment, and construction projects.

Cash Basis: A basis of accounting in which transactions are recognized only when cash is received or disbursed.

Committed Expenditures: Appropriated expenditures (see definition of appropriation.)

Comprehensive Plan: A general plan that outlines growth and land use for residential, commercial, industrial, and open space areas.

Contingency: A budgetary reserve set-aside for emergencies or unforeseen expenditures.

Councilmanic Bonds: Councilmanic bonds refer to bonds issued with the approval of the Council, as opposed to voted bonds, which must be approved by vote of the public. Councilmanic bonds must not exceed .75 percent of the assessed valuation and voted bonds 1.75 percent.

Debt Service: Payment of interest and repayment of principal to holders of the City's debt instruments.

Debt Service Fund: A fund established to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Deficit: (1) The excess of an entity's liabilities over its assets (see Fund Balance). (2) Expenses exceeding revenue during a single accounting period.

Department: Basic organizational unit of City government responsible for carrying out a specific function.

Depreciation: (1) Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, or inadequacy of obsolescence. (2) That portion of the cost of a capital asset that is charged as an expense during a particular period.

Division: A group of homogeneous cost centers within a department.

EOC: The Emergency Operations Center is located at Fire Station 12 and is used by the Emergency Management Team as the command center in the event of an emergency in the greater Renton area.

Equipment Rental Fund: An internal service fund used to account for the cost of maintaining and replacing all City vehicles and auxiliary equipment except for golf course equipment.

Enterprise Fund: Separate financial accounting used for government operations that are financed and operated in a manner similar to business enterprises, and for which preparation of an income statement is desirable.

Expenditures: Where accounts are kept on the accrual or modified accrual basis of accounting, the cost of goods received or services rendered whether cash payments have been made or not. Where accounts are kept on a cash basis, expenditures are recognized only when the cash payments for the above purposes are made.

FICA: Federal Insurance Contribution Act is an employment tax levied against both an employee and employer for Social Security and Medicare taxes.

FEMA: The Federal Emergency Management Act is a Federal initiative designed to provide financial assistance in the event of an emergency.

Fund: An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources together with all related liabilities, obligations, reserves, and equities which are segregated for the purpose of carrying on specific activities or attaining certain objectives.

Full-Time Equivalent Position (FTE): FTE is a measure of a position by its budgeted hours. For example, 1 FTE equals 2,080 hours and .75 FTE equals 1,566 hours.

Fund Balance: Difference between fund assets and fund liabilities (the equity) in governmental funds. Fund balances will be classified as reserved, designated, or undesignated.

Reserved funds: A portion of fund balance that is set aside for extra ordinary situations that cannot be planned during the budget preparation process. Use of reserved funds requires Council approval.

Designated funds: Equity in special funds which are themselves restricted as to use, depending on the legal restrictions governing the levy of the funds they contain. Examples are the Debt Service Funds and Capital Investment Funds and Special Revenue Funds.

Undesignated fund balance: The funds remaining after reduction for reserved balances.

GAAP: Generally Accepted Accounting Principles are standards used for accounting and reporting used for both private industry and governments.

GASB: Government Accounting Standards Board established in 1985 to regulate the rules and standards for all governmental units.

General Fund: The fund supported by taxes, fees, and other revenue that may be used for any lawful purpose.

General Obligation Bonds: Bonds for which the full faith and credit of the insuring government are pledged for payment.

Indebtedness: The state of owing financial resources to other financial institutions and investors.

Interfund Payments: Expenditures made to other funds for services rendered. This category includes interfund repairs and maintenance.

Intergovernmental Services: Intergovernmental purchases of those specialized services typically performed by local governments.

Intermittent Employee: An intermittent employee is one who is hired to work for an indefinite or intermittent period, as needed. An intermittent employee may work a fluctuating schedule or on an on-call basis, limited to a maximum of four months of full-time and/or may not work more than 69 hours per month, not to exceed 1,500 hours in a calendar year.

Internal Service Fund: Funds used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governments, on a cost-reimbursement basis.

IAFF (International Association of Firefighters Union #864): Labor union representing firefighter officers, lieutenants, captains, and fire battalion chiefs.

LEOFF: Law Enforcement Officers and Firefighters Retirement System provided in the State of Washington.

LID: Local Improvement District or Special Assessments made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

LTGO: Limited Tax General Obligation bonds are non-voter approved bonds for which the full faith and credit of the insuring government are pledged for payment.

Limited Term Employee: An individual hired to work a full or part-time schedule for a pre-determined period not to exceed three years or unless extended by the City Council. A limited term position is an authorized and budgeted exempt or non-exempt position with full or prorated City benefits and compensated according to the City of Renton Index of Positions and Pay Ranges.

Long Term Debt: Debt with a maturity of more than one year after the date of issuance.

Mission: A succinct description of the scope and purpose of an organization.

Mitigation Fees: Fees paid by developers toward the cost of future improvements to City infrastructure, which improvements are required due to the additional demands generated by new development.

Modified Accrual Basis of Accounting: The accrual basis of accounting adapted to the governmental fund-type measurement focus. Under this form of accounting, revenue and other financial resource increments (e.g., bond proceeds) are recognized when they become both measurable and available to finance expenditures of the current period. Expenditures are recognized when the fund liability is incurred except for certain inventory materials and supplies and prepaid insurance. All governmental funds, expendable trust funds, and agency funds are accounted for using the modified accrual basis of accounting.

Object: As used in expenditure classification, this term applies to the type of item purchased or the service obtained (as distinguished from the results obtained from expenditures). Examples are personnel services, contractual services, and materials and supplies.

Objective: Desired accomplishment that can be measured and achieved within a given time frame.

Operating Funds: Recurring revenue sources used to finance ongoing operating expenditures and pay-as-you-go capital projects.

Operating Transfer: Routine and/or recurring transfers of assets between funds.

Other Services and Charges: A basic classification for services other than personnel services that are needed by the City. This item includes professional services, communication, travel, advertising, rentals and leases, insurance, public utility services, repairs and maintenance, and miscellaneous.

PERS: Public Employees Retirement System provided for, other than Police and Fire, by the State of Washington.

PWTF: See Public Works Trust Fund.

Performance Measures: Indicators of program performance that are collected to show the impact of resources spent on city services directly tied to program results.

Personnel Benefits: Those benefits paid by the City as part of the conditions of employment. Examples include insurance and retirement benefits.

Police Guild Union: Represents commissioned police officers and sergeants, and non-commissioned personnel.

Preliminary Budget: The official written statement prepared by the budget office and supporting staff, which presents the proposed budget to the City Council.

Program: A group of related services or activities that are provided or administered by a department or division and accounted for in its budget.

Public Works Trust Fund Loans: A State revolving loan fund that provides low-interest loans to help local governments maintain or improve essential public works systems.

Reserve: See fund balance.

Resources: Total dollars available for appropriations including estimated revenue, fund transfers, and beginning fund balances.

Retained Earnings: An equity account reflecting the accumulated earnings of the City.

Revenue: Income received by the City in support of a program of services to the community. It includes such items as property taxes, fees, user charges, grants, fines and forfeits, interest income and miscellaneous revenue.

Revenue Bonds: Bond issued pledging future revenue (usually water, sewer, or drainage charges) to cover debt payments in addition to operating costs.

Revenue Estimate: A formal estimate of how much revenue will be earned from a specific revenue source for some future period, typically, a future fiscal year.

Revenue for Reserve: Revenue placed in a fund balance reserve account.

Salaries and Wages: Amounts paid for personal services rendered by employees in accordance with rates, hours, terms and conditions authorized by law or stated in employment contracts. This category also includes overtime and temporary help.

Special Revenue Fund: A fund used to account for the proceeds of specific revenue sources that are legally restricted to expenditure or specified purposes.

Supplemental Appropriation: An appropriation approved by the Council after the initial budget appropriation.

Supplies: A basic classification of expenditures for articles and commodities purchased for consumption or resale. Examples include office and operating supplies, fuel, power, water, gas, inventory or resale items, and small tools and equipment.

TIP: Transportation Improvement Program is a comprehensive program used to identify specific transportation projects for improvement to enhance local, regional, State, and Federal transportation systems.

Temporary Employee: A temporary employee is one who was hired to work in a position designated and specifically budgeted as “temporary” for that purpose. Temporary employees are entitled to accrue “general leave” after serving in the position for two consecutive years.

Trust Fund: Funds used to account for assets held by a government in a trustee capacity for individuals, private organizations, other governments, and/or other funds.

UTGO: Unlimited Tax General Obligation bonds are voter approved and retired by a tax levy commonly referred to as an excess levy.

Use of Prior Year Revenue: Fund balance from prior year revenue to be used to offset current year expenditures.

AFSCME (American Federation of State, County and Municipal Employees Union #2170): Labor union representing all regular non-exempt personnel, grades 1 through 29.
