

APPROVED TREE LIST – Small, Medium, and Large

In the City of Renton there is an overabundance of maple and cherry species. According to the most recent street tree inventory, maples currently comprise 35% and cherry 24% of all species. To reduce a catastrophic loss of species, experts agree that 10% or less of any species or cultivar exist within a street tree population. Because of this, planting maple or cherry trees within the right-of-way is discouraged.

SMALL TREES:

30 feet in height or less

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Acer buergeranum / Trident Maple	20	20	yellow orange and red	Adaptable to urban environments. Deciduous; prefers moist, well-drained soils; tolerates infertile sites. Drought tolerant.
Acer campestre / Hedge Maple	30	30	yellow	Deciduous; prefers moist, rich soils; slow growing tree tolerant of air pollution and soil compaction; yellow fall color; cultivars available including Queen Elizabeth maple ('Evelyn') with dark green, glossy foliage.
Acer circinatum / Vine Maple	20-25	10	orange and red	Deciduous; prefers moist, well-drained soils; tolerates seasonal saturation and varying soil types; drought tolerant once established; bushy shrub or small tree; most often multi-trunked and does well in small groups; white flowers April-June.
Acer ginnala 'Flame' / Amur Maple	20	20	red	Deciduous; prefers moist, well-drained soils, but is tolerant of drought; is often multi-trunked, but can be pruned to a single stem; rounded form; fragrant, yellowish-white flowers in spring; cultivars are available such as 'Flame' and 'Embers' with differing fall colors. Select or prune for single stem; can be multi-trunked.
Acer grandidentatum 'Schmidt' / Rocky Mt. Glow Maple	25+	15	intense	
Acer griseum / Paperback Maple	25	20	scarlet	Deciduous; prefers moist, well-drained soils, but is moderately drought tolerant; bronze peeling bark provides year-round visual interest; often multitrunked, but can be trained to a single stem; slow growing; disease and pest resistant. Smooth, peeling, cinnamon colored bark.

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Acer palmatum / Japanese Maple	20	24	yellow, orange, red	Prefers moist, well-drained soils; deciduous; slow to moderate growth rate; multi-trunked with spreading branches; intolerant of inundation but moderately drought resistant; vibrant fall colors; many cultivars available including 'Emperor I', 'Katsura', and 'Osakazuki'. Hundreds of varied cultivars. Can be slow growing.
Acer saccharum 'Apollo'	25	10	yellow, orange	Prefers well drained soils, but grows in varying soils; hearty.
Acer platanoides 'Globosum' / Globe Norway Maple	20	18	yellow	Moist soils preferred, but tolerates drought and seasonal inundation; tolerant of urban pollution; dense, compact, round form; slow-growing deciduous tree with brilliant fall color; shallow root system may make mowing under the tree slightly difficult; good selection for locations under power lines; another cultivar well suited for such a location is A. platanoides 'Almira,' reaching only 20-25 ft. Rounded top, and compact growth.
Acer truncatum / Purpleblow maple	20-25	20-25		Prefers moist, well-drained soil, but drought tolerant; very cold hardy deciduous tree; moderate growth rate; yellow flowers in spring; an additional maple cultivar of interest is 'Pacific sunset'.
Acer truncatum x A. platanoides 'Warren's Red' / Pacific Sunset	30	25	yellow-orange/red	
Acer Triflorum - Roughbark maple	25-30	20-25	apricot, gold	Deciduous; prefers moist soils, but somewhat drought tolerant once established; rough, knobby trunk provides interest in winter; disease and pest resistant; non-aggressive roots do not damage sidewalks or driveways.
Amelanchier grandiflora 'Princess Diana'	20	15	bright red	Good for limited space.
Amelanchier x grandiflora 'Autumn Brilliance' Serviceberry	20	15	red or yellow	Moist to dry, well-drained soils; small tree; drought tolerant; white clustered flowers in spring; also try 'Princess Diana' for bright red fall color and the slightly taller 'Robin Hill' (20-30 feet). Reliable bloom.
Amelanchier laevis 'lustre' / Luster Serviceberry	25	25	red or yellow	Moist to dry, well-drained soils; small tree; drought tolerant; white clustered flowers in spring.

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Arbutus 'Marina'	25	15	evergreen	Good substitute for Pacific Madrone. May exceed 25' height under some site conditions.
Carpinus caroliniana / American hornbeam	20-30	20-20		Deciduous; prefers moist, rich soils; grows near saturated areas but is only weakly tolerant of saturation; blooms March-May; slow growing; deep coarse laterally spreading roots; medium life span; also consider Carpinus japonica (Japanese hornbeam).
Cercis canadensis / Eastern Redbud	25	30	yellow	Deciduous; prefers moist, rich soils; tolerant of shade; somewhat drought resistant, but not in full sun; purple-lavender flowers; medium longevity; often multi-trunked; shallow, fibrous roots become deeper on drier sites; fairly short-lived; blooms March-May. Blooms before leaves are out.
Cornus kousa 'Chinensis' / Chinese Kousa Dogwood	20	20	reddish to scarlet	Prefers moist soils; tolerant of varying soil types; moderate growth rate; deciduous; white flowers in June and large red fruits that resemble a raspberry in September; red to maroon fall color; more disease resistant than other dogwoods; many additional cultivars available. Most resistant to disease of the dogwoods.
Crataegus crus-galli 'Inermis' / Thornless Cockspur Hawthorn	25	30	orange to scarlet	Red persistent fruit.
Crataegus x lavalii / Lavalie Hawthorne	28	20	bronze, coppery red	Deciduous; prefers moist, well-drained soil, but tolerant of varying soil types; white flowers in spring; fruit can be a bit messy. Thorns on younger trees.
Crataegus phaenopyrum / Washington Hawthorn	25	20	scarlet	Thorny.
Fraxinus pennsylvanica 'Johnson' / Leprechaun Ash	18	16	yellow	Prefers moist, well-drained soils; deciduous: slow to moderate growth rate; tolerant of inundation but moderately drought resistant. A miniature in every way.
Magnolia x loebneri	20	20	yellow	Several cultivars.
Magnolia grandiflora 'Little Gem'	15	10	evergreen	Useful where larger varieties are inappropriate.
Magnolia grandiflora 'Victoria'	25	20	evergreen	

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Malus spp. / Flowering crabapple	15-25	6-15		Selection should be based on disease resistance to apple scab and fireblight. Tolerant of prolonged soil saturation; short lived; tolerant of drought and seasonally saturated soils; deciduous; white or faintly pink flowers in spring; numerous Malus species and cultivars provide a variety of foliage and flower colors, forms and fruit.
Malus 'Adirondack'	18	8	yellow	Red fruit. Excellent scab resistance.
Malus 'Red Barron'	18	8	yellow	Good for narrow spaces. Red berries.
Malus 'Golden Raindrops'	18	13	yellow	Abundant yellow fruit.
Malus 'Tschonoskii'	28	14	scarlet	Sparse green fruit, pyramidal.
Parrotia persica / Persian Parrotia	30	20	yellow-orange red	Moist to dry soils; drought tolerant when established, deciduous tree with moderate growth rate; brilliant fall color; often multi-trunked, but can be trained to have just one; tolerates urban pollution and soil compaction; surface roots do not generally cause problems; virtually disease and pest-free.
Prunus 'Frankthrees' / Mt. St. Helens Plum	20	20		Purple foliage.
Prunus 'Newport' / Newport Plum	20	20	reddish to scarlet	Purple red foliage.
Prunus cerasifera 'Krauter Vesuvius' / Flowering Plum	30	15		Upright growth, darkest foliage of the plums.
Prunus cerasifera 'Thundercloud' / Plum	20	20		Dark purple foliage.
Prunus x hillieri 'Spire'	30	10	orange red	
Prunus 'Snowgoose' / Snow Goose Cherry	20	20		Upright when young, spreading when older.
Prunus serrulata 'Amanogawa' / Flowering Cherry	20	6	bronze	Particularly useful for very narrow planting strips.
Prunus serrulata 'Shirofugen' / Japanese flowering cherry	25	25		Deciduous flowering tree; moist, well-drained soils; double pink to white blooms in spring; vigorous grower; additional desirable choices include P. serrulata 'Snowgoose', 'Kwanzan', and 'Shirotae'.
Prunus x yedoensis 'Akebono' / Flowering Cherry	25	25	yellow	

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Quercus Ilex / Holly Oak	20	20		Prefers moist soils, but grows in varying soils; hearty, slow-growing evergreen tree; light pink flowers May-June; pruning will keep tree small for a hedge, without pruning may grow considerably larger – not appropriate under utility lines; tolerates salt water spray. Prune to keep small, leave it alone to grow large.
Styrax japonica / Japanese Snowbell	25	25	yellow	Plentiful, green 1/2 inch seeds.
Styrax obassia / Fragrant Snowbell	30	25		Prefers moist, well-drained soil but tolerates wide variations; fragrant with flowers; twisting bark. Try other Styrax species.

APPROVED TREE LIST – Small, Medium, and Large

MEDIUM TREES:

30 to 50 feet in height

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Acer campestre 'Evelyn' / Queen Elizabeth Maple	35	30	yellow	More upright branching than the species.
Acer platanoides 'Columnar' / Columnar Norway maple	40	15	yellow	Deciduous; adapts to varying soils; upright or columnar in form making this cultivar a better choice for narrow locations; tolerant of drought and seasonal inundation; tolerates urban pollution and displays brilliant fall color; shallow rooting necessitates locating at least 4-6 feet from sidewalks and driveways to prevent heaving of pavement. Good close to buildings.
Acer truncatum x A. platanoides 'Klethsform' / Norwegian Sunset	35	25	yellow-orange/red	
Acer rubrum 'Bowhall' / Bowhall Maple	40	15	yellow orange	
Acer rubrum 'Karpick' / Karpick Maple	35-40	20	yellow to orange	May work under very high powerlines with arborist's approval.
Acer rubrum 'Scarsen' / Scarlet Sentinel Maple	40	20	yellow orange	
Acer rubrum / Red Maple	35-50	15-40		Deciduous tree known for fall color; prefer wet or moist soils; fast growing with roots that may heave sidewalks or interfere with mowing; many cultivars of varying heights available including: A. rubrum, 'Armstrong', 'Bowhall', 'Karpick', 'Scarsen', and 'Red Sunset'.
Betula jacquemontii / Jacquemontii Birch	40	30	yellow	White bark makes for good winter interest.
Carpinus betulus 'Fastigiati' / Pyramidal European Hornbeam	35	25	yellow	
Fagus sylvatica 'Dawyck Purple' / Dawyck Purple Beech	40	12		Purple foliage.

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Fraxinus americana 'Autumn Applause' / Ash	40	25	purple	Deciduous; prefers moist, well-drained soils; dense, wide spreading canopy; long-lived; purple fall color; moderate growth rate; also try F. Americana 'Junginger'.
Fraxinus oxycarpa 'Raywood' / Raywood Ash	35	25	reddish purple	
Pyrus calleryana 'Aristocrat' / Pear	40	45	red	
Pyrus calleryana 'Chanticleer' / Flowring Pear	40	15		Deciduous tree that grows well in a variety of soil types; orange to reddish fall color; white flowers in spring; additional cultivars of interest include P. calleryana 'Redspire' and 'Aristocrat'.
Pyrus calleryana 'Redspire' / Pear	40	45	red	
Pyrus calleryana 'Autumn Blaze' / Pear	30	25	scarlet	Vigorous.
Ginkgo biloba 'Autumn Gold' / Maidenhair tree	45	35	yellow	Moist soils; deciduous ornamental tree; fast growing and long-lived; tolerant of urban pollution, summer drought and winter inundation; showy fall color; grows in soils of varying quality; provides dense canopy; additional cultivars available.
Ginkgo biloba 'Princeton Sentry'	40	15	yellow	Very narrow growth.
Gleditsia triacanthos inermis 'Shademaster' / Shademaster Thornless Honeylocust	45	35	yellow	Deciduous; prefers moist, rich soils, but will grow in varying soil types; a thornless cultivar tolerant of drought and seasonal inundation; adapts to urban pollution and displays vigorous growth; deciduous tree with showy yellow fall color; additional cultivars available such as 'Imperial,' which grows 30-35 feet, 'Moraine,' and 'Rubylace'. Do not confuse with 'Sunburst'.
Koelreuteria paniculata / Goldenrain Tree	20-35	10-30	yellow	Deciduous; prefers moist well-drained soils, but is tolerant of poor soils; medium rate of growth and longevity; tolerant of periods of drought and seasonal inundation; tolerates urban pollution; provides a dense, wide-spreading canopy. Midsummer blooming.
Oxydendron arboreum / Sourwood	35	12	reddish purple	Consistent and brilliant fall color.
Prunus sargentii 'Columnarus'	35	15	orange to orange red	The cherry with the best fall color.

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Quercus 'Crimschmidt' / Crimson Spire Oak	45	15		Hard to find.
Robinia x ambigua 'Idahoensis' / Pink Idaho Locust	35	25	yellow	Fragrant flowers.
Tilia americana 'Redmond'	35	20	yellow	Pyramidal, needs water.
Tilia cordata 'Chancole' / Chancellor Linden	35	20	yellow	Pyramidal.
Tilia cordata 'De Groot' / Linden	30-50	20	yellow	Compact, suckers less than other Lindens.
Tilia cordata 'Greenspire' / Greenspire Linden	40	30	yellowish	Symmetrical pyramidal form.
Tilia cordata 'Littleleaf' / Littleleaf Linden	30-50	30		Deciduous; prefers moist, well-drained soils, but tolerant of a variety of soil types; tolerant of wind and urban pollution; fast growing and long-lived; tolerates summer drought and seasonal inundation; provides a dense canopy; C. cordata is the hardiest Linden; many forms available including, T. cordata 'Chancellor', 'Corzam', and 'Greenspire'.

APPROVED TREE LIST – Small, Medium, and Large

LARGE TREES:

50 feet in height or taller

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Acer freemanli / Autumn Blaze Maple	50	40	orange	
Abies grandis / Grand Fir	100	40		Evergreen; tolerant of fluctuating water tables and floods; medium rate of growth; root structure depends on site conditions – shallow in moist areas, deep taproot in drier conditions.
Acer nigrum 'Green Column' / Green Column Maple	50	20	yellow to orange	Good close to buildings.
Acer platanoides 'Emerald Queen'	50	40	yellow	Deciduous; fast growing with an erect, spreading form; prefers moist soils, but is tolerant of summer drought and seasonal inundation; tolerates urban pollution; avoid locating near structures due to shallow, vigorous rooting; additional cultivars available including A. platanoids 'Parkway'.
Acer pseudoplatanus / Sycamore maple	40-60	25-40		Deciduous; prefers moist, well-drained soils but is adaptable to many soil types; tolerates summer drought and seasonal inundation; tolerant of urban pollution with a moderate growth rate; sturdy, resistant to wind and salt spray; a number of cultivars are available including: A. pseudoplatanus 'Atropurpureum,' 'Brilliantissimum,' 'Cox' (Lustre), and 'Puget Pink'.
Acer saccharum 'Bonfire'	50	40	bright orange red	Fastest growing sugar maple.
Acer saccharum 'Commemoration'	50	35	orange to orange-red	Resistant to leaf tatter.
Acer saccharum 'Green Mountain'	45	35	red to orange	
Acer saccharum / Sugar maple	60-75	35	yellow, orange	Deciduous; prefers moderately moist, well-drained soils; long-lived and tolerant of urban pollutants; slow to medium growth rate; needs large planting area; a variety of cultivars available including Acer saccharum 'Legacy'.

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Calocedrus decurrens / Incense cedar	75-90	10-20		Evergreen; tolerant of poor soils; drought tolerant after established; tolerant of wind and urban conditions; narrow growth habit makes this a good choice for smaller spaces and ideal for screening, fragrant tree; slow growing and long-lived.
Carpinus betulus / European Hornbeam	40-60	30-40		Deciduous tree: tolerant of urban pollution and poor soils; cultivars available and suggested include 'Fasigiata' (30-40 ft height) and 'Franz Fontaine' (30-35 ft height).
Cedrus deodara / Deodar cedar	40-60	20-40		Evergreen; prefers moist, well-drained soils, but drought tolerant when established; fairly fast growing and long lived; dense, wide spreading canopy; attractive cultivars available.
Cercidiphyllum japonicum / Katsura Tree	40-60	20-40	apricot, orange	Deciduous; requires moist soil and does not do well on hot dry sites. Leaves are heart-shaped.
Cercidiphyllum japonicum / Katsura Tree	40	40	yellow to orange	
Fagus sylvatica / Green Beech	50	40	bronze	Silvery-grey bark.
Fraxinus american 'Autumn Purple' / Autumn Purple White Ash	60-80	50-70	to a dark purple	Deciduous; prefers moist well-drained soils but tolerates a range of soil types; Also try 'Rosehill'.
Fraxinus latifolia / Oregon Ash	40-80	30		Deciduous; saturated, ponded or moist soils; flood tolerant; small green-white flowers; tolerant of poor soils.
Fraxinus pennsylvanica / Green Ash	50	40		Deciduous; prefers moist soils; fast growth rate; salt, seasonal drought and urban pollution; numerous cultivars including 'Patmore' (50-60 ft. height), 'Summit' (to 45 ft. height), and 'Urbanite' (to 50 ft. height).
Fraxinus pennsylvanica 'Patmore' / Patmore Ash	45	35	yellow	Extremely hardy, may be seedless.
Fraxinus pennsylvanica 'Urbanite' / Ash	50	40	deep bronze	
Gleditsia triacanthos inermis 'Skyline' / Skyline Thornless Honeylocust	60-70	40	yellow	Deciduous; prefers moist soils, but will grow in poor soils; tolerant of drought, seasonal inundation, and urban pollution; occasionally fruit pods can create litter during winter months; thornless. Do not confuse with 'Sunburst'.

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Gymnocladus dioicus espresso / Espresso Kentucky Coffeetree	50	35	yellow	Deciduous; drought and variable soil tolerant; seedless.
Liquidambar styraci fleia / American sweetgum	60-75	40		Deciduous; prefers moist well-drained soils but tolerant of poor soils; drought tolerant after established; avoid major roadways and restricted sites. Many cultivars available.
Liriodendron tulipifera / Tulip Tree	60-80	30-60	yellow	Deciduous; prefers moist, deep, well-drained soils, but tolerates poor soils; fast growing; needs large growing area, lower growing cultivars available such as 'Columnar'. Fast-growing tree.
Metasequoia glyptostoboides / Dawn redwood	70-100	25		Deciduous; prefers moist, deep, well-drained soils, but tolerates compacted and poor soils; long-lived, fast growing conifer; tolerant of seasonal inundation and drought; can grow in standing water; needles turn russet in the fall; needs large growing area; lower growing cultivars available such as M. glyptostroboides 'Gold Rush' and 'Sheridan Spire'.
Nothofagus antartica / Southern Beech	50	35	none	Rugged twisted branching and petite foliage.
Nyssa sylvatica / Tupelo	70+	20	apricot to bright red	Handsomely chunky bark.
Picca omorika / Serbian spruce	50-60	20-25		Slow growing; tolerant of varying soils and urban pollution; moderately drought tolerant once established; elegant evergreen spruce, good for narrow locations; lower growing cultivars available.
Pseudotsuga menziesii / Douglas fir	75-120	40		Evergreen conifer; moist to dry soils; long-lived with a medium to fast rate of growth; tolerant of summer drought, winter inundation, and poor soils; withstands wind and urban pollution; provides a nice canopy, but potential height will restrict placement.
Quercus coccinea / Scarlet oak	50-60	45	brilliant scarlet to red	Deciduous; grows in a variety of soil types; long-lived with a moderate growth rate; tolerant of summer drought and urban pollution; does not tolerate saturated soils or shade.

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Quercus macrocarpa / Burr oak	70-80	30-40		Prefers moist soils, but is adaptable to varying soils; slow growing and long-lived; rugged looking deciduous tree; tolerant of seasonal drought and inundation; tolerates urban pollution and city conditions; provides a wide-spreading, dense canopy.
Quercus phellos / Willow oak	60-70	50		Deciduous; prefers moist, well-drained soils, but grows in a wide range of soils types; long-lived tree with moderate growth rate and fibrous root system; tolerant of seasonal drought and inundation, as well as urban pollution; provides a wide-spreading, dense canopy; small delicate leaves.
Quercus palustris 'Crownright'	80	40		More upright form of Pin Oak.
Quercus robur / English oak	40-60+	40		Prefers well-drained soil; slow to moderate growth rate; long-lived deciduous tree; tolerant of seasonal drought and inundation; tolerates urban pollution, poor soils and constrained root space; susceptible to powdery mildew; many varieties and cultivars available including: 'Concordia,' 'Fastigiata,' 'Foliis Variegatis, and 'Westminster Globe.'
Quercus rubra / Northern red oak	60-75	50		Prefers moist, well-drained soils, but drought tolerant when established; tolerates seasonal inundation, urban pollution and salt spray; moderate rate of growth and longevity; provides a dense, wide-spreading canopy; susceptible to oak wilt fungus.
Quercus shumardii / Shumard's oak	to 70	50		Prefers moist, well-drained soils; deciduous, long-lived tree; tolerant of seasonal drought and inundation, urban pollution and poor soils.
Taxodium distichum / Bald cypress	to 75	40		Deciduous conifer; wet, mucky soils; tolerant of summer drought and seasonal flooding; will grow in poor soils; slow growing; long-lived with a wide-spreading canopy; roots do not appear to lift sidewalks as readily as other species; prune lower branches for sight-lines; cultivars include T. distichum 'Shawnee Brave'.
Thuja plicata / Western red cedar	200+	60		Moist to swampy soils; evergreen tree tolerant of seasonal flooding and saturated soils; a good tree for screening; long-lived; cultivars 'Pumilio' and 'Cuprea' are shorter versions, 'Aurea' and 'Atrovirens' have distinctive foliage.
Tilia americana x euchlora 'Redmond' / Redmond Linden	50	35	yellow	Prefers moist, rich soils, but tolerant of a variety of soils; tolerant of seasonal drought and inundation, urban pollution and poor soils; deciduous tree resistant; also try 'Sentry' and 'Boulevard'.

APPROVED TREE LIST – Small, Medium, and Large

Botanical name / Common Name	Mature Height in Feet	Mature Spread in Feet	Fall Color	Comments
Tilia plalyphyllos / Bigleaf linden	60-80	60		Prefers moist, well-drained soils, but grows in a variety of soil types; deciduous tree with medium growth rate; long-lived; tolerant of seasonal drought and inundation; tolerates urban pollutants; provides a wide-spreading, dense canopy; yellowish-white flowers attract bees.
Tilia tomentosa / Silver Linden	40-75	25-45		Deciduous; prefers moist, well-drained soils, but drought tolerant when established; urban tolerant. Cultivars include 'sterlay' and 'Green Mountain'.
Ulmus ssp. / Elm hybrids	50-60	35-50	yellow	Deciduous; prefers moist, well-drained soils, but drought tolerant; rapid grower; a hybrid elm resistant to Dutch elm disease; suggested hybrids include 'Accolade', 'Homestead' and 'Pioneer'.
Ulmus 'Homestead' / Homestead Elm	60	35	yellow	
Ulmus parvifolia / Lace Bark Elm	50	40		Deciduous; prefers moist, well drained soils but tolerant of soil types and hot dry conditions. Flaking bark of orange, gray, green and brown color. Several cultivars including 'Allee' and 'Bosque'.
Ulmus 'Pioneer' / Pioneer Elm	60	50	yellow	Resistant to Dutch elm disease.
Umbellularia californica / Oregon myrtle	40-75+	to 50		Prefers moist, well-drained soils; slow growing evergreen tree with aromatic leaves; tolerates seasonal drought and inundation; tolerant of urban pollution; provides a wide spreading, dense canopy; resistant to pests and disease; good for tall hedges or, when trunks are thinned, as a street tree; requires summer watering until established.
